## EDITOR'S PREFACE.

---

THIS volume is one of great interest and historical value, as containing all the official records and documents found in the Secretary's office and elsewhere, relative to the part which New Hampshire took in the expedition against Louisbourg, 1745. Although Governor Shirley, of Massachusetts, must be acknowledged as a prime mover and most efficient promoter of the enterprise, yet Governor Benning Wentworth, also, and his Majesty's Council and Assembly of New Hampshire, most heartily joined in the common cause, and furnished a full quota of brave New Hampshire men, who acquitted themselves nobly in the capture of that strong-hold of the enemy.

The attention of readers is also particularly invited to the documents contained in this volume relative to the final determination of the boundary line between New Hampshire and Massachusetts, and the very able papers drawn up by John Thomlinson, Esq., in the latter part of the volume. The "Miscellaneous Papers" herein contained, and the "Agreement" for the purchase of the Masonian claims; the incidents of Indian warfare; the failure of the intended expedition against Canada, 1746 and 1747, with many other matters, will be found entertaining and instructive.

The sixth volume, already in course of preparation, will contain all known official records and documents pertaining to the part which New Hampshire took in the expedition to Crown Point, and generally, in the French and Indian wars of that period.

GOD SAVE THE KING.

Wednesday November the 1<sup>st</sup> 1738.

The House met according to Prorogation by his Excellencies Proclamation.

Mr. President Walton came into the House and said his Excell<sup>y</sup>

ordered the Gen<sup>l</sup> Assembly to be adjourn'd to Thursday the 2<sup>d</sup> ins<sup>t</sup> at 3 o'clock, afternoon and then Declared the Assembly adjourn'd accordingly.

Mr. Speaker and the House met accordingly. His Excellency made a speech. Mr. Speaker pray'd a copy, obtain'd it and Return'd.

His Excell<sup>ty</sup>'s speech Read in the House as follows

*Gentlemen of the Council & of the House of Representatives :*

Since I met you last in the Gen<sup>l</sup> Assembly I have nothing new in Command from his Maj<sup>ty</sup> Respecting this Province. The happy tydings we have Received of the Birth of a Prince (Presumptive heir to the Crown of Great Britain) gives us the opportunity of addressing his Maj<sup>ty</sup> with dutifull congratulations on the joyful event.

By the Letters I have received from White Hall by the last ships I have no account [p. 530.] of the settle<sup>mt</sup> of the Boundary Lines between this & the neighboring Province to which great affaire I wish a speedy and happy Issue.

You will do well to make a carefull Inquiry into the State & circumstances of the several Publick Loans and to see whether the Late Acts Respecting them are complyed with. By one of the Last Ships from London a p<sup>son</sup> bro't into the neighboring govern<sup>mt</sup> a number of Counterfeit Bills of the last Emission of this Province, & by the vigilence of that Govern<sup>mt</sup> one of the actors of this villainy is seized with the Plate & some of the Bills. It will therefore be wise in you to project some good Bill to be pass'd into a Law to prevent the forging of your Bills of Credit, or their value must necessarily sink & the Practice must bring other fatal consequences on the Province.

*Gentlemen of the Council and of the House of Representatives*

If you have anything to lay before me for the Publick Weal I shall give my cheerfull attention to it. Unanimity in the affairs of this sessions may soon bring it to a happy conclusion, nor shall any thing be wanting on my part to advance his Maj<sup>ty</sup>'s Hon & Interest together with that of the wellfare of his People. 9<sup>th</sup> 2<sup>d</sup>, 1738.

J. BELCHER.

Whereas Mr. Robert Boyce is gone beyond Sea & so there's no Representatives for the Town of Londonderry, Ordered that a Precept be forthwith sent to said Town to make choice of a fit p<sup>son</sup> to Represent them in Gen<sup>l</sup> Assembly to appear the 8<sup>th</sup> curr<sup>t</sup>.

And your Excell<sup>ty</sup> assuring us in your Speech your rediness to do, and have put us in mind of those things which are of concern<sup>t</sup> for the good of this Province, we hope it will cause the greater unanimity & Despatch with us.

And we shall gladly congratulate his Maj<sup>ties</sup> and take the op'tunity to chuse a Comitee of this House to joyné with such gen<sup>l</sup> as may be appointed at the Board to draw up what may be tho't proper in order to address his Majesty on the joyfull tidings of the Birth of the Prince. As to the Boundary Lines between the two Provinces we should have been verý glad to have heard that it had been settled & hope that in a short time it may come [p. 532.] to a good Issue. Respecting the Publick Loans we shall appoint a Comitee of this House to joyné with such of the Council as may be appointed at the Board to take an Exact Account of what is Bro't in and how those affairs stand & then we shall consider what is propper to be done in order to comply with the former acts as neare as may be. *To the Kings Most Excellent Majesty—*

The humble Address of the Governour, Council & Representatives of your Majestys Province of New Hampshire in New England in America.

*Most Gracious Sovereigne—*

We beg your Majesties Royal permission to embrace this first opportunity to present to your Majesty our most humble & dutifull congratulations on so happy and important an Event as that of the birth of a Prince descended from your Majesty, and the immediate offspring of their Royal Highnesses the Prince and Princess of Wales.

This great occasion of our Address, is a great occasion for our joy, and our joy is great in proportion to the occasion; for it is not our Remoteness from the Brittish Throne that can abate an iota of our allegiance, nor the vast ocean that seperates us from our Sovereign that can quench or cool our affection to Him.

If it be our misfortune to be a thousand leagues distant from your Majesty, It is our happyness that we can boast of as true a (New England) loyalty as that of the most faithful Britons, and that we have as warm hearts and as willing hands ready for your Majesties service as the Loyalest of your British subjects.

What we crave leave further to offer is, to assure your Maj<sup>tie</sup> of our ardent

Prayers to the Almighty King of Kings, that He will be pleas'd to save his anointed by the Saving Strength of his Right Hand, and that after your Majesty shall have changed your Earthly Diadem for a heavenly crown, and that after his Royal Highness the Prince of Wales shall have received a never fading Crown in the Realms of Bliss, the new born Prince may in a Regular Succession long wear that Crown which now flourishes on your Maj<sup>ties</sup> Royal head.

We are with all possible duty and respect, may it please your Majesty, your Maj<sup>ties</sup> most obedient & most Loyal Subjects and servants.

*Gentlemen of the Council and of the House of Representatives—*

The last Ships from England have bro't us his Maj<sup>ties</sup> Declaration of War against the King of Spaine & this Extraordinary event will greatly affect the commerce and safety of this Province, it ought then to be your first care in this Sessions to have the Publick Treasury well supplied that the Frontiers by Sea and Land may be put into a State of defence. You will also take the needful care for paying the just Debts of the Province & for the further support of the Government.

Fort William & Mary the only Fort of the Province is in a poore condition for defence and I shall in a few days lay the Particular State of it before you when I hope you will do what may be necessary on your [p. 545.] part that it may be sufficiently Repaired and Furnished with all Warlike Stores and with men and thereby render it capable of Protecting the People and Trade of the Province. You are sensible, gen<sup>l</sup>, I have often recommended this matter to former Assmbl<sup>y</sup> whose answers have been that the People were not able to support this Fort nor defray the other necessary charge of government.

I am glad to observe to you that the officers of the Militia tell me the two Regiments of the Province are well Furnished with Arms & Amunition & that they are Exercised according to Law. But that the appearances are thin on Muster days the fine for non appearance not being equal to twelve pence sterling, and altho' I have often urged the raising the millitary Fines on former Assembly's yet nothing is done in it to this day. I would therefore

now again Earnestly recommend this matter to you that the private companies in their musters and also the Regiments at their Gen<sup>l</sup> musters may be full and so the whole militia better disciplin'd and fitted for the service when ever there may be occasion for them. Such a Law as I now mention past about two years ago in the Mass <sup>Bay</sup> and the fine appearance of the militia of that Province is hardly to be Equalled in any of his Majesties American Dominions.

I would take this op'tunity also to repeat to you the Instances I have made once and againe to other Assemblys for bringing in a good Bill for the more Effectual preservation of the mast Trees for the Royal Navy.

You may depend you cannot in any proceedings of this Sessions more recommend the Province to the Favour of the King than by making ample Provision on this head and it will be better taken at this time when there may be a great Demand for masts for [p. 546.] the Large Fleet the King has lately Equipped. You will, Gen<sup>l</sup>. give attention to what I have now laid before you so much consequence to his Maj<sup>ties</sup> Hon<sup>r</sup> & service as well as to the welfare and Prosperity of his good subjects of this Province and whatever you may have to lay before me to the same good purposes I shall readily joyne with you in and so this sessions may be bro't to a happy Conclusion.

February the 1<sup>st</sup>. 1739-40.

J. BELCHER.

The answer of the House of Representatives to his Excell<sup>ty</sup>'s Speech of Feb. 1<sup>st</sup> 1739.

*May it please your Excellencie*

The House have maturely *audid* your speech and we are verry sensible that his Maj<sup>ty</sup>'s Declaration of Warr with the king of Spaine (which we have long expected) will greatly affect the commerce and safety of this Province and we shall do all in our power that the Frontiers by sea and land may be put in a state of Deience & also for paying all the just Debts of the Province & support of the Government.

This being the first opportunity we have had of making any supply to the Publick Treasury or repaire [p. 555] of the Fort, since that ample supply made in the year 1737, in as much as your Excell<sup>ty</sup> was pleased to Dissolve the last Gen<sup>l</sup> Assembly before the House had finished the Treasr<sup>r</sup> Accompts—So if now we should make that ample supply that your Excell<sup>ty</sup> recommends & Emit such a Quantity of Bills as are needful to this purpose unless the Period of there being called in can Extend beyond the year 1742, we feare it would be an insupportable Burden to the People and we should bring upon ourselves a greater or more certaine misery than that which we pretend to remedy.

As to the Repairing Fort Wm & Mary your Excell<sup>ty</sup> cannot but remember the act that once past both Houses for raising £6000 for that purpose and Building a State House to which you refused your assent and the assembly in 1737 choose a Committee to view what was Deficient in the Fort, and agreeable to their return made ample Provision therefore in the Treasury Bill for repairing platforms Carriages &c. and when former Assemblys made any such answer as that they were unable to support this Fort and to defray the other necessary charges of the government they gave also their reasons at the same time, viz. because they could Raise no money but what must come in within

the before mentioned Period, and in denying to lay a Tax upon the People under such limitation they acted agreeable to the sentiments of their constituents.

And here we cannot but take notice that tho' your Excell<sup>y</sup> Directs your Speech to the Council jointly with us as to the matter of the Treasury, We the Representatives of the Province look upon ourselves as the persons that are more immediately concern<sup>d</sup> and that are Principally and Directly to be applied to upon that Head.

[p. 556.] And as your Excell<sup>y</sup> calls us to look back upon what was done by former Assemblys we find upon a Review that they have been ready not only to vote what was needful to discharge the Debts contracted by the whole Government, but to pay such sums as have been expended for the benefit of it (Pursuant to his Maj<sup>ties</sup> Commission for the settlement of the Boundaries) did at their sessions at Hampton October 14<sup>th</sup> 1737 pass a vote for the sum of £500 to be put into the Treasury for the payment of the commissioners & other charges relating to the Boundary Lines. But it had not the desired effect.

And the House of Representatives after frequent and Repeated Dissolutions have manifested their opinion that it was for the Interest of his Maj<sup>ties</sup> subjects to pursue y<sup>e</sup> affairs. With respect to what you mention of the fine appearance of the militia of the neighboring Province which we have heard much of before in the Publick Prints — We should only say we are glad your Excell<sup>y</sup> has had the pleasure of seeing it and that tho' ours may never equal them in show we shall be glad to do every thing in our power that they may be capable of doing as much real service when called to it. From your Excell<sup>y</sup> so earnestly pressing the effectual preservation of the mast trees for the Royal Navy and from what you are pleased to say of the instances made once and againe to other assemblies we hope that neither his Majestie nor any of his good subjects (whatever opinion it may give them of your great care) will be induced to conceive that this Province has been any ways defective upon that head. We find indeed that upon a complaint made to your Excell<sup>y</sup> by the Surveyor Gen<sup>l</sup> of his Maj<sup>ties</sup> Woods you was pleased to recommend it in your speech to the Gen<sup>l</sup> assembly in the year 1730, viz.

[p. 557.] “Gentlemen—I am sorry to have the occasion to Inform you that since my arrival from Great Britain the Surveyor Gen<sup>l</sup> of his Majesties Woods has made large complaints to me of the Difficulties he meets in this Province in the Execution of his Duty according to the Kings Instructions. I am command<sup>d</sup> to take especial care that the several Acts of Parliament relating to the Royal Woods be strictly observed and to aid and assist his Majesties Surveyor by my self & all officers under me to prevent as much as possible the Destruction of the Kings Woods and that all officers (1) therein may be bro<sup>t</sup> to condigne Punishment. I therefore depend upon your great rediness to discountenance every thing that may have a tendency to prejudice his Majesties service and Interest in an affaire of which he is so tender and of such Importance to his Royal Navy & I do assure you that the Enact<sup>ing</sup> such Laws as may be further necessary for the better security & preservation of the nursery of Royal Masts will be taken as an instance of your Duty and respect to the King.”

And we at the same time find that they made the following Answer, viz.

“And for the preservation of his Maj<sup>ties</sup> Woods, as we always were ready so we shall always remain ready & willing to do any thing that we can which may contribute to the preservation thereof according to the several Acts of Parliament made for that end and if there be any acts that may be made for the preservation of a nursery of Timber which may be fit for the Royal [Navy] we shall be ready to do any thing that we can for the preservation thereof.”

And its well known that we have a Law in the Printed Law book laying a hundred pounds sterling Fine upon one that shall cut down a mast Tree,

(1) Offenders. ?—ED.

which together with the Acts of Parliament already made are so well contrived that not any thing that we can do can possibly mend them [p. 558.] And if his Majesties Surveyor Gen<sup>l</sup> & his officers had the needful aid and favour from your Excell<sup>y</sup> & officers that is required, we hope that for the future no p<sup>er</sup>sons will be so vile as to Trespass in this great affaire as they have doubtless heretofore done. And if any thing farther can be done on our part we shall be ready to do it.

We wait every day in Expectation of hearing his Majesties Decision in Council respecting our Boundary Lines and when we know the Frontiers of our Province (and who they are that must contribute towards the support of the Government) we shall then be the better able to put them in a State of Defence.

Upon the whole as we think there is an inseparable conection between his Majesties Honour & Service and the True interests of the Province, we shall be always governed by those views. And as former Assemblys by their Dutyfull behavior have already recommended themselves to the favour of their Sovereigne we doubt not but that we shall have the continuance of it being resolved to do every thing that can be expected from a good and Loyal People.

February 15<sup>th</sup> 1739-40.

Eod<sup>m</sup> Die. the Answer of the House of Representatives to his Excell<sup>y</sup> Message of this day

*May it Please your Excellcy.*

Geo. Jaffrey & Theo. Atkinson Esqs. bro't down the last Vote for the Fort & Frontiers, &c. & s<sup>d</sup> that the Fort wanted present money, and in that Vote it would [not] come in till X<sup>r</sup> next, and y<sup>t</sup> the words—for real and absolute service and defence,—are words the govern<sup>t</sup> cannot *consent* too,—their Mess<sup>rs</sup> being at large they used some argum<sup>ts</sup> and then withdrew.

It was put to vote whether the Treasurer shall be allowed to bring in in his accompts any outstanding debts in the Constables hands or charge himself with the whole Tax as the Law directs to be gathered. The vote past that he shall charge himself with the whole and not bring in any outstanding debts in the Constables hands.

Mr. Secretary bro't down King and Downings Bill which was

red—the question was put whether £850 be struck for the [p. 569.] Fort and Frontiers—negatived. The question was put whether the words (absolute service and defence) be struck out—affirm<sup>d</sup>.

P. M.

Whereas there are sundry Extents on the Mortgaged Lands ought to be extended for non-payment of their parts of the £15,000 Loan, and som extended, & no sale made of the Lands so extended, which still Keeps the money on that fund outstanding contrary to the Intents of the Acts and Votes of the Gen<sup>l</sup> Assm. heretofore made.

Therefore, Voted, that his Excell<sup>y</sup> be desired to direct the Committee appointed in that affair forthwith to make an end thereof according to the late act made & provided without delay. The Londonderry mens Bill & King & Downings Bill read 3 times & past to be enacted. The House adjourn'd to Monday the 25<sup>th</sup> curr<sup>t</sup> 10 o'clock.

Monday Feb. 25<sup>th</sup> A. D. 1739–40 A. M. The House met. The two Bills past Saturday & vote ab<sup>t</sup> the £1500 sent up. Bro't in and Burnt £71: 1. outstanding Money for the year 1736—more £39: 8 of the tax for the year 1739.

Mr. Secretary bro't into the House, King & Downings Bill, Londonderry mens Bill, the Tresspass Act, and the Military Act for the Speaker to signe, which was done & then the Sec<sup>y</sup> withdrew.

P. M.

The question was put whether £850 be struck for the Fort and Frontiers, or to stand as in the vote. It past for Money to be struck off. A vote ordered to be writ for £900.

In the House of Representatives

Pursuant to his Excell<sup>y</sup>'s Mess<sup>s</sup> of the 15<sup>th</sup> curr<sup>t</sup> relating to Fort Wm & Mary, voted that there be forthwith struck off on the Large Plate last made the sum of £900, and signed off by the Signers that signed the Last.

NOTE BY THE EDITOR.

Here the *Journal of the House* ends. The Session however continued one day longer, and then the General Assembly was dissolved. A new Assembly was called and convened at Portsmouth, July 21<sup>st</sup>, 1740, which continued till August 7<sup>th</sup> of the same year, and was dissolved. Still another General Assembly was convened February 12<sup>th</sup> 1740–1, which appears to have continued till March 18<sup>th</sup>, 1740–1. Of this latter General Assembly, we have only scanty Records. No *Journal of the House* during the aforesaid period is found, but the *Journal of the Council and General Assembly* which follows, compared with certain miscellaneous papers, annexed, in which the House distinctively took a part, will serve to throw light on this part of our Provincial history.

*Petition of Rev. Hugh Adams.*

[Copied from Belk. Hist. N. H.. Vol. III. pp. 350-358, Boston, 1792.]

To his Excellency JONATHAN BELCHER, Esq. Captain General and Com-  
mander in Chief in and over his Majesty's Province of New Hampshire in  
New England, To the Honorable the Council and Representatives in Gen-  
eral Court assembled, The Complaint and Petition of HUGH ADAMS, Clerk,  
the Gospel Minister and Pastor of the Church at Durham within said  
Province: *Humbly sheweth,*

FORASMUCH as your Complainant petitioner hath been more than one and  
twenty years last past a labourer in the word and doctrine of Christ sincerely  
to the utmost of his ability amongst that people, although the good laws of  
this said province so far have required of them, and their own contract or  
agreement with him voted by them in the first week of the month of April,  
Anno 1717, as by a copy of the record of Oyster river parish or said town, as  
also by the evidences of some of their select men and committee may appear  
in order for his support, with a competent salary of one hundred and four  
pounds during his ministry there, even then when silver money was not of  
more value than ten shillings per ounce, annually to be paid as then under-  
stood in the real value thereof, and not only in the bare name of so much,  
and unanimously agreed by their then Committee to be paid punctually each  
year one half of said salary, i. e. £52 at the end of or within each six months,  
i. e. the first week in October and April, with other material articles of said  
agreement for his maintenance among them, which also hath obliged them  
thereunto, yet have they not in any one year of said time of three appren-

tieships since their said contract, been honest nor faithful by the payment thereof in the just value, nor in due season, so as that the hire of his ministerial labours so much and long kept back by their sacriligious fraud, hath been crying in the ears of Christ the Lord of Sabbaoth, so to expose them and their covenant and silent neighbors in this said province, unto the curse denounced which hath been so long and often executed in such a variety of destroying, terrifying and impoverishing judgments of God, too many herein to be enumerated, and so much thereof evidently occasioned by said parish and town, being therein so long tolerated with impunity, as an Achan in the Camp; and as the seven sons of Saul in the days of King David; and as Jonah in the ship of the commonwealth of this province aforesaid. And especially whereas the principal article in the said contract insisted on by their said minister, wherein their then select men and committee agreed, by manual vote and voice (*nemine contradicente*) but was not entered by their then parish clerk, John Smith, who deceased anno 1722, with or after the other articles hereof in the record rolls of their then parish of Oyster river, or since town of Durham, and since yearly on very fervent intreaties to have the same articles entered upon their records and observed for the yearly performance thereof for the future, whereunto nevertheless they have been inexorable beyond all reason and justice, hitherto in disregarding said above hinted article, *viz.* That each year one half of said salary of £104, which is £52 should be paid into him or his order at or before the end of each six months or half year, *i. e.* the first week in October and April, which committee vote or vow of theirs has never yet, in any one year of the twenty-one years of my ministry amongst them been performed: But mostly deferred until at least three months after said former half year's harvest was ended, when the price of provisions was raised at least twenty-five per cent dearer than at harvest or in gathering thereof; which delinquency of theirs in said twenty-one years hath been to the damage of said minister above £520 in said parish and town, especially where he has been necessitated, rather than starve, to borrow considerable sums of money upon six, ten, fifteen and twenty per cent interest yearly, and running on interest upon interest, yet unto this day, to his impoverishing oppression, and sinking discouragement, and reduced his salary of £104 of late years to the name thereof, when in present value as the altered prices of all necessaries for livelihood are about two hundred per cent dearer than when their said contract was made. This salary now is scarce more in real worth than £36 each year, although their rateable heads, families, cattle and lands have increased treble their ability more than at first agreement. Also this year 1738, the majority of said Durham inhabitants have stopped their ears at the cry of the poor at their two publick town meetings, although it is threatened they shall cry themselves but shall not be heard.

Therefore now the oppressing necessities of the complainant petitioner constrain him to pray he may be regarded by this great and General Court assembled, in these his following requests: as Christ *Jesus* Immanuel, to encourage each of his faithful ministers, testifyeth saying, 'He that heareth you, heareth me.'

1. Request that the records of said parish, named Oyster river, and now chartered town of Durham, may be so far impeached as that the said article may be entered by the present town clerk, Lieut. Samuel Smith; and accordingly that he may be summoned to bring Durham's town-book of rolls and likewise Capt. Francis Mathews the former town clerk, to bring the record rolls of said Oyster river parish if yet in his possession; and likewise Lieut. Abraham Berwick and Mr. Sampson Doe, then of the select men and committee for said Parish in that year 1717, to give in or renew their oath or affidavit, each of them for confirming the truth of said article.

2. Request that the petitioners said salary of £104 may be enacted for the future during the remainder of his ministry in said town, to be made good in full value as really as in name, and to be paid in due season according to the request and article aforesaid, with sufficient penalty for any delinquency thereof, which, as written in the divine law moral, is the fifth part of the principal, to be added unto it as evident from Lev. v: 15, 16. Num. v: 6, 7, 8.

3. Request that delinquency from the payment of any lawful settled ministers salary within said province, may be enacted a criminal case, or matter presentable by any grand juror, upon complaint made to him at each or any court of sessions quarterly, as in the Massachusetts province government, which I perceive by Psalms XLI: 1, 2, 3, is the principal reason why they have been hitherto proportionably spared from the *throat pestilence* and other impoverishing, more than New Hampshire.

4. Request that Daniel Davis of said Durham, may be summoned and judged by this most Honorable Court of New-Hampshire province aforesaid, for his sundry years, trespassing upon and inclosing within his fence and detaining so forcibly from said minister several years previous possession thereof, sundry acres of upland, and salt marsh and thatch bed, belonging to the glebe land or parsonage, possessed by, improved for, as also granted to, the minister of said parish or town at least sixty years, and for evidence thereof, that Capt. Francis Mathews and his next neighbour Jonathan Willey the eldest, and Joseph Stephens, his son, and William Willey, may each of them be summoned. Moreover the said robbed and defrauded minister prays that it may likewise be ordered, that the selectmen of said each year rescue said parsonage land from him the said Daniel Davis and every other unjust incroachment thereon, and on every parcel of glebe land or parsonage (as viz.) the long marsh and that parcel of ministerial land lying on the highway leading S. and W. toward Lampereell river, and bounded E. and S. on Potter Mason's land, and S. and W. on Richard Denbow's land, each of which is incroached upon by or other of the adjacent neighbours, and although their minister, as their spiritual father, so long seeking their welfare in gathering of a church first amongst them, on March 26, 1718, his prevailing as the dresser of their church vineyard, with Immanuel Christ Jesus the Lord thereof, for his grant of four years probation, whether the barren fig-trees might, by a ministerial husbandry expended on them be prevailed with to bear fruit proportionably that it might be well with them as in the gospel parable thereof, Luke XIII: 7, 8, 9, and when the Indian war began, anno 1722, and that five persons were cut down thereby in our parish; who hath likewise prevailed with the heavenly Prince of Peace to make and keep his covenant of peace with and for us, as written in Ezekiel XXXIV: 25, yearly pleaded and granted these thirteen years hitherto, notwithstanding the so repeatedly many rumours of wars free from the reality thereof. Likewise in the year 1729, when Captain Samuel Emerson and Lieut. Jonathan Thompson and Hubbard Stevens had harassed their minister with an anti-christian council ecclesiastical countenanced by the then Commander in chief, after which the said Emerson and Korite company, by their negative clandestine votes robbed him of the £50 addition to his salary they granted him the preceding year 1728. In his so provoked subjection to passion, as Elias in James v: 17, 18, he the said minister, while it was yet more than three months to the harvest, prayed it might not rain, and it rained not until three months after; when in regard to the importunity of some friendly brethren, he appointed and conscientiously sanctified a church fast, from evening to evening, abstained three days from *eating, drinking and smoking* any thing, in beginning of September that year 1729; and the Lord Christ was pleased to hear in heaven and grant such repeated plentiful and warm rains, as recovered the languishing corn, grass and fruits of the trees unto a considerable harvest thereof; so as was then remarkable. And in the year 1733, when the said parish by the General Court was chartered into the township of Durham, in answer unto their said minister's petition, for its privileges and said name as therein pleaded for, and the inhabitants of said town proceeded by their chosen committee, at their most general meeting, to divide their commons, voting the minister aforesaid, should, as he did draw lots for them all, yet he cannot prevail with the lot layers to survey his lot of twenty-five acres, nor inform him where he may have it laid out for him, neither have said inhabitants fulfilled their condition of honourably supporting their minister. And since no inferior Court in this province hitherto could do justice to your petitioner, he is therefore now necessitated to flee for refuge to this Supreme Legislative court of nursing fathers: in each of which requests, your so long

oppressed petitioner importunately asketh for justice, firmly believing, *after that*, God will be intreated for the land in New Hampshire.

So complaineth and prayeth the above named petitioner.

HUGH ADAMS.

Mat. 11: 7. Luk. x: 16.

DURHAM, MAY 3, 1738.

Honourable Sir

This is to request the favour of his Excellency and your Honour, That my nomination of two persons for commissioners of the peace, may be granted; Namely: for Mr. Joseph Drew in the town of Durham, and for Captain Edward Hall in the parish of New Market of Exeter; Each of which persons, in many years observation, I judge in my conscience for said office, of each people, is the best qualified, according to those sacred characters in Exod. xviii: 21. Acts vi: 3. Being each of them able in estate and understanding in the law, in writing a good hand, Fearing GOD above the most of his neighbors, A man of truth, hating covetousness, of an honest report, competently full of the HOLY GHOST and wisdom; having the best rule of government over his own spirit, appetites, and passions, humble, meek, modest courteous; and resolute in his duty, and willing therein to be admonished; And likewise exemplary in Church communion and attendance in the other ordinances of the Gospel of CHRIST, the Prince of the Kings of the earth, as in Rev. 1: 5. The said town and parish, being (too long time) the majority of the inhabitation of each, sadly grown exceedingly vicious, disorderly, and unruly, especially on every publick day and night following, For want of such an overseer in said authority, to see the good Laws of this Province for regulation of the inhabitation duly prosecuted: Which might be (with a DIVINE BLESSING on the conscientious endeavours of such a ruler among them) much for the reformation of each (otherwise lawless) people. Col. D.— in our Town being now doting, superannuated, selfish, covetous, and partial, utterly unqualified for such an office any longer; being grown so old and foolish, that he will be no more admonished: As contemptibly characterized in Ecce. iv: 13. Which, (that the NAME of our LORD JESUS CHRIST may be glorified in them, as in II. Thess. 1: 12: And the people's welfare may be promoted) is the earnest petition of a sincere minister of CHRIST.

HUGH ADAMS.

A DECLARATIVE AGREEMENT

*Made and conformed by Hugh Adams, Cler. Minister of CHRIST, and Pastor of HIS Church at Durham, in the Province of New Hampshire in New England.*

To's Excellency the Governour, and their Honours of His Majesties Council, which may legally constitute and Judge in the Court of Appeals for Equity, at Portsmouth, in July next, by adjournment, from the second Tuesday in May, 1738, For determining the case of said minister Appellant, already passed through the other two Courts of the Law.

*Is as followeth, viz.*

Forasmuch, as the most Holy and Righteous Patriarch Joseph (under the infallible Inspiration of THE HOLY GHOST) made it a Law unto this day,

that Pharaoh should have the Fifth part, as it's written in Gen. XLVII. 26. i. e. as I am fully perswaded in my own mind and conscience that when any King's Representatives in his Court of Equity, do and shall judge any case therein according to good conscience: The Fifth part of the sum justly granted in their decisive Judgment: should thus be distinctively remunerated. As in this case appealed for, of 1858 £ The fifth part whereof is 371£. 12s. Whereof the 71£. 12s. for defraying all the charges of the three Courts, Attorneys and other officers' fees: The remainder 300 £ thus to be distributed. 200/ to the Governour or Commander-in-chief, and the 100/, 40/ thereof to the Honourable Secretary, and 20/ to each of the three Councillors (that are the majority of the five) which may equitably judge in said case. Col. Walton by affinity being related to the case doubly on the appellee side, being justly exceptionable to me. And George Jaffrey and Joshua Peirce, Esquires, disaffected from any favour towards me, (as I perceive); since my subscribing as one of the Ministers of this Province aforesaid, for Governour Belcher's continuance in the Government thereof, the Chief. The three other remaining of the Council impartially to be judges in my case at said Court, being (if I'm rightly inform'd) — Odiorn, Esquire, Lt. Col. Joseph Sherburn, Esquire, and Captn. Ellice Huske, Esquire, to be each of their Honour's ensured with the said 20/ for Gratification when concurring in their judgment of the sum total of said case, and all the just cost for said appellant. And not as a bribe, is intended any part of said Fifth: But as a just tribute For Equitable judgment as required by the Supreme JUDGE, As written in Rom. XIII. 4. 6. And upon condition of such a grant in the judgment of said Court of conscience: That the said appellant may have the reasonable liberty of directing the Sherriff in levying the execution of the Equitable judgment, Upon the most blameable and able persons (or their estates) which have wilfully and unjustly occasioned such prosecution of said case; and that the innocent therein may suffer no wrong.

To the which agreement abovesaid, I, the said Hugh Adams, Appellant, For my self, My Heires, Executors, Administrators, And certain Attorneys, Do hereby promise, grant and agree, unto each of the said Court of Equity, as above expressly specified, His Heirs and Assigns each said sum respectively; as soon as possible (after the so just recovery thereof, As so sacredly warranted in said Rom. XIII. 4.) To be then faithfully paid unto him or his order without fraud or delay, in each full sum as appropriatively signified. As witness my own Hand and Seal, on Tuesday, May the third, in the eleventh year of the Reign of His Majesty King George the second, Annoque DOMINI, 1738.

Signed, sealed & delivered  
in the presence of  
Stephen Glasier and Eliphalet Daniel.

HUGH ADAMS

P. S. This Instrument is referr'd to your Honour's wisdom, for the communication of the contents thereof, only to the Commander in Chief, and to each of the said three Councillors, so far as may concern either of them. But to be conceal'd prudently from every other living person. Which gratuity, if either of them decline from accepting thereof in my favour; And nevertheless concur in the full judgment of my honest case: Then the said sum respectively is hereby transferr'd to your Honours propriety, for recompencing your late favour to me, and in such a measure towards recompencing your loss by fire. As assigned by the said Appellant.

*Letters of Rev. Hugh Adams to Mr. Secretary, Richard  
Waldron, Esq.*

*Durham, Janry 1, 1739-40.*

Honourable sir,

With Thankfull remembrance of the many favours, you've formerly vouchsafed to me, in your so generous helps performed (as I hope) for CHRIST himself, accepted likewise OF, and to be rewarded temporally and Eternally By HIM, as done to His Heavenly Royal Person, FATHER and 's HOLY SPIRIT tho' mediately Done unto the least of 's Ministerial or sincerely Friendly-Brethren. As for the continuance of our Collegiate Brother and Friend in his Government, yet over us, the excellent Jonathan Belcher, Esq<sup>e</sup>, in the six months past more especially according to 's faithful WORD experienced as written in Joh. xv. 7. I've been prayfully Importunating our LORD EMMANUEL JESUS the Prince of the Kings of the Earth, by WHOM they rule, and Prince and Nobles, and all the Judges of the earth; that (as in the year 1715, he was pleased to regard my complaint against Vice-governor Guillehuus Toller in's proditorial Bribery against me; so (if agreeable to 's WILL) he might contrarily order) and He might please to incline the heart of our Present SOVEREIGN and his Nobles, each of them therein Concernable, to confirm our incorrupted governour Jonathan Belcher, his viceroy in the civil authority over us; for his commissioning mostly able men, such as fear GOD, men of Truth, hating covetousness; or those Recommended to him as such, for their several respective offices of profit and honour; and likewise that he our Governour may be restored to his health, and visit our Province again, to Rule in the midst of his and our enemies; that they may be found liars unto us concerning him of whom and his welfare of affairs I should be glad to read or hear credible intelligence, if I might be further favour'd. This (with my prayerful Wel wishes for your Person and family) must suffice at present from

Your Honour's Most

Obliged servant

HUGH ADAMS.

To the Hon. Mr. Secretary, Richard Waldron, Esq.

*Durham, April 11, 1739.*

Honourable sir,—

With my hearty Thankfulness previously retributed for all your friendly Respects and Helps vouchsafed unto me, in the passage of my case through the three Courts of the Law, so free from Nonsuiting Abatements and from Demurs upon Appeals, wherein I've Suppos'd were considerable of your amicable Influences; from the Hint you favour'd me with in your Letter dated Nov<sup>er</sup> 27<sup>th</sup> last, wherein are express'd in writing under your own hand these very Words, viz.

"Agreeable to your Request, I have copyed the Judgment which you obtained against your Parish, &c.; I wish you a double portion of wisdom and prudence in the use of it, and that your differences may at last terminate in a comfortable and happy issue."

Which so kind Phrases bear the aspect of real Friendship. But in the Evening of last January 24<sup>th</sup> Publickly in Durham Meeting House before an Ecclesiastical Council of 8 Ministers and 20 Messengers, and a large Assembly of people, I was treacherously surprised with an unexpected Allegation (in their audience) made and so proclaimed by Ephraim Davis, "That you told him I had given you a Bond of several Hundreds of Pounds to Bribe the Governour and Council, that I might get my case, and that you intended to come your self unto the said Ecclesiastical council (if I should denie it) to prove it to my head; that thereby you'd enough to silence me; and if I would send you a line of order for it; you would send up my said

“Bond and other Papers, by his hand, and that he heard of it first from one  
“of the Council which said you had so informed him and referr’d him said  
“Ephraim Davis to you, for confirmation thereof.”

Now, in Answer to your Honour (if this narrative was true) I must averr,  
That said Bond was not intended for a Bribe which I abhorr in any Prof-  
ferer or Receiver; seeing it is Written in Job xv. 34 — Fire shall consume the  
tabernacles of bribery; which I have remarked in sundry instances fulfilled,  
But I deliver’d said Bond conscientiously in obedience unto that Sacred Law  
in Gen. XLVII. 27, and Rom. XIII. 4, 6, 7, for a Grateful Tribute intended for  
the Rulers, which should in Justice and Equity, overrule the letter, rigour  
and perverting tricks of humane laws, to Defend the poor, afflicted, and  
needy, to Deliver and rid them out of the hand of the wicked, as such repre-  
senting Polytical Gods are required in Psalm 32=3, 4, 6, 7. Besides if mis-  
taken and misimprov’d as a bribe, I’ve supposed it my Duty, by my said Bond  
of security upon my Heirs, Executors, and Administrators, for an Antidote  
against any real Bribes intended or proffer’d by implacable Enemies (if I  
should decease before the final Issue of my case) as that Tryal in Jer. 35: 1,  
2-5, 6.; Besides (if you can remember it) I desired your Honour might con-  
ceal said Bond, until after the final Judgment of my depending Case might  
be passed. Wherein I suppose you was a faithful Friend. But since your  
more or less divulging it, has misapprehensively proved it self eventually  
(next to my Neighbour John Smith Taverner who deceased last Sabbath  
night) his more influential bottle, house, and 40*l.* of ready money which he  
told me some weeks ago before his sickness, he’d lent mine Enemy, viz. The  
agents Hubbard, Stevens and Woodman, Jonathan Tomson and John Wil-  
liams, Junr. Selectmen) E’n your communicating narratively said Bond to  
(Saul Doeg) Ephr. Davis, was Judged my Most scandalous Crime for unset-  
tling me; whereby you’ve so hurtfully trespassed against and despised me,  
and my heavenly MASTER CHRIST, and the MOST HIGH GOD, as evi-  
dent from Luke x. 16. XVII. 3, 4, II. Cor. v. 20; therefore as though God Be-  
seecheth you by me, I pray you in CHRIST’S stead, be reconciled to THE  
GOD of the spirits or souls of all flesh: by your turning again and saying  
you Repent (i. e. Of your inadvertent exposing me so unto the wrath of  
mine Enemies), that I may have licence and authority from my said MAS-  
TER’S commandment to say I forgive you, and in gratitude for all your  
former and latter Friendship to us, to pray acceptably for the temporal and  
eternal Welfare of your Hon<sup>ble</sup> Person and Family.

And altho’ the said Ecclesiastick Council censured me (in their late arbi-  
trary and partial Result of Advice), chiefly as said for the supposed crimes of  
Imprecations: Nevertheless, forasmuch as my said supreme MASTER hath  
(in’s Sovereignty) been so pleased in twenty-four Years past in’s own proper  
and special Seasons, to enable me to more than ordinary Holiness attained,  
to conform then with this friendly proposal, in John xv. 7, and to be one  
(tho’ the Junior) of His two American Witnesses (the so aged and Reverend  
Mr. Nathaniel Clap, Pastor of the true Church in Newport the other,) to  
each of which He, our LORD JESUS CHRIST in’s Word, Rev. xi. 3, 5, hath  
said, I will give Power unto My Witnesses, &c. And if any man will hurt  
them, (i. e. Joynly or severally) Fire proceedeth out of their mouth and de-  
voureth their Enemies (i. e. in the just matter, and fervent manner of Prayer-  
full complaints entered into the Supreme Court ever open in the Heavenly  
PARADISE) against impenitent and implacable Enemies: when all earthly  
Courts will not sufficiently redress such aggrievances of His oppressed Am-  
bassadors, Whether any Law in our Province of New Hampshire or of  
England, is criminally violated thereby if your Honour can and may convince  
me, it will oblige me in conformity with your aforesaid Friendly wish; in for-  
bearing my Durham people, personal Enemies, as really as Friends, I’ve en-  
deavour’d these Five Months almost to use your Copy of the Judgment with  
a double portion of Wisdom and Prudence, which are but despised and de-  
rid by my implacable enemies especially. I’ve not received from Durham  
as yet One Penny of said Judgment: Therefore, This is to request your Hon-  
our to draw out the Execution thereof, and to Commit it to Mr. Sherriif Rus-

sel, whom I must impower to be my Trustee-Attorney, if he may accept thereof. Who, (when he may receive sufficient of my money judged for me) with my order, will pay your Honour all your just and reasonable Demands, for your so great service in the Recovery of my case in such a Measure thereof, or for what I've obliged my self unto, in and by my so scandalous Bond aforesaid. Being in all things (when enabled willing to live honestly, But seeing I can't be regarded in my Nomination of the every way best qualified Person of all the present Inhabitants of Durlham, for a Commission of the Peace: But mine Enemies must triumph over me and my Friends and over the most Godly and Honest part of said Town, under pretence of Law and Justice. If Col. James Davis or's Son Ephraim or John Woodman, Lt. Samuel Smith, or any on that side shall so bear rule any longer: then I must obey that order in Mat. x. 14, and Depart out of said Town and this Province as soon as possible; in the belief of experiencing in Due time the verifying of that which is written in Luk. xviii, 7, 8. Eecle. viii, 11-13. Psal. 22. xviii, 29.

This (Honourable sir!) is propos'd to your consideration by your (yet well wishing) grateful Servant, in the Gospel ministry of the Church true, Protestant Catholick.

At the Council Chamber Whitehall the 30<sup>th</sup> of January, 1738.

*Order for fitting out Privateers.*

[Copied from MS. Corr., Vol. I. p. 101.]

Whitehall, June 15<sup>th</sup> 1739.

Sr.—As it was stipulated by the Convention concluded between his Majesty and the King of Spain, on the 14<sup>th</sup> of January last, N. S. that the sum of ninety-five thousand pounds sterling should be paid at London within the Term of four months, to be reckoned from the day of the exchange of the ratifications of the s<sup>d</sup> Convention as a Ballance due on the part of Spain to the Crown and subjects of Great Britain: And as the s<sup>d</sup> Term of four months from the Exchange of the Ratifications of the Convention did expire on the 25<sup>th</sup> day of May last and the payment of the s<sup>d</sup> sum of ninety-five thousand pounds sterling agreed by the s<sup>d</sup> Convention has not been made according to the stipulation for that purpose, by which means the Convention abovementioned has been manifestly violated and broke, & his Majesty's subjects remain without any satisfaction or Reparation for the many great and grievous losses sustained by them, his Majesty has tho't himself obliged to take such measures on his part as are necessary for the support of the Honor and Dignity of his Crown, the Security of the Just Rights of his Subjects & the good and safety of his Dominions, and has therefore ordered the Ships and effects of the King of Spain and his Subjects to be seized & taken wherever they shall be met with:—with which I am commanded to acquaint you, that you may cause the same to be made known in all places under your government, to the End that his Majesty's subjects in those Parts may be upon their guard to prevent any Mischief they might otherwise suffer from the Spaniards in revenge for the measures which his Majesty is obliged to take to do himself and his subjects Justice, and that they may in their several stations annoy the subjects of Spain in the best manner they are able.

And I send you herewith by the Kings Order, his Majesty's Warrant under his Royal Sign Manual Authorizing and Impowering you to grant Commissions of Marque and Reprisal for arming and fitting out private Ships of War ag<sup>st</sup> the Ships, Goods and Subjects of the King of Spain.

And it is his Majesty's Pleasure that you should be very rigorous and severe in preventing any Amunition or stores of any kind from being carried to the Spaniards: and you are to use all proper methods that may be most effectual for this purpose.

*Commission to the Lords of Admiralty touching Spanish prizes.*

[Copied from MS. Corr., Vol. I, p. 105.]

GEORGE R.

GEORGE the Second by the Grace of God, of Great Britain, France and Ireland, King, Defender of the Faith:

To our Right Trusty and Well beloved Councellor, Sir Charles Wager, Knt. and to our Trusty and well beloved Sir Thomas Lyttleton, Baronet, Sir Thomas Frankland, Baron<sup>t</sup>, Thomas Clutterbuck, Esq. Harvy Powlett, commonly called Lord Harvy Powlett, John Campbell of Stack Pole Court in our County of Pembroke, Esq. and Vere Beauclerk, Esq. commonly called Lord Vere Beauclerk, our Commissioners for executing the office of our High Admiral of Great Britain and Ireland, &c. And to our Commissioners for executing the said office for the time being.

Greeting:

Whereas many and repeated Depredations have been committed, and many unjust Seizures have been made in the West Indies and elsewhere by Spanish Guarda Costas, and ships acting under the Commissions of the King of Spain or his Governors contrary to the Law of Nations and in violation of the Treaties subsisting between our Crown of Great Britain and Spain, whereby our Trading Subjects have not only sustained great losses but have also suffered in their persons by the cruelties and barbarities which have been exercised by the said Spanish Guarda Costas: and whereas WE have caused repeated Instances and Representations to be made from time to time at the Court of Spain in order to obtain redress and satisfaction for such injurious treatment and unjust practices and to prevent the like violences for the future: and whereas a Convention for making reparation to our subjects for their losses by the said depredations and seizures, was concluded between Us and the King of Spain on the fourteenth day of January last, New Style, by which Convention it was stipulated that a certain sum of money should be paid at

London within a Term in the Said Convention specified, as a ballance admitted to be due on the part of Spain to our Crown and Subjects of Great Britain, which Term did expire on the twenty-fifth day of May last, and the payment of the said stipulated sum as agreed to by the above Convention has not been made, by which means the said Convention has been violated and broke on the part of the Crown of Spain, and our Subjects remain without any reparation and satisfaction for their great and greivous Losses:—We therefore having taken this injurious treatment of the Crown of Spain into our serious consideration, have determined to take such measures as are necessary for vindicating the honour of our Crown and for procuring reparation and satisfaction to our injured Subjects.

These are therefore to authorize and WE do hereby authorize and enjoyn you our said Commissioners now and for the time being or any three or more of you to will and require our High Court of Admiralty of England and the Lieutenant & Judge of the said Court and his Surrogates, as also the several Courts of Admiralty within our Dominions, and they are hereby authorized and required to take cognizance of and judicially to proceed upon all and all manner of Captures, Seisures, Prizes and Reprisals of all Ships and goods already seized and taken or which hereafter shall be seized and taken, and to hear and determine the same and according to the course of Admiralty and Laws of Nations to adjudge and condemn all such Ships Vessels and goods as shall belong to the said King of Spain, his Vassals, Subjects or to any others inhabiting within any of his Country's Territories or Dominions.

In witness whereof WE have caused Our great Seal of Great Britain to be put and affixed to these Presents.

Given at Our Court at Kensington, the Twentieth day of July one thousand seven hundred and Thirty nine, and in the Thirteenth year of our Reign.

Whereas several unjust seizures have been made and depredations carried on in the West Indies by Spanish Guarda Costas and Ships Acting under the Commission of the King of Spain or his Governors contrary to the Treatys subsisting between us and the Crown of Spain and to the Law of Nations to the Great prejudice of the lawfull Trade & Commerce of our subjects; and many crueltys and barbaritys have been exercised on the Persons of such our subjects whose vessels have been so seized by the said Spanish Guarda Costas; And whereas frequent complaint has been made to the Court of Spain of these unjust practices and no satisfaction or Redress been procured; and whereas a Convention for making Reparation to our subjects for the losses sustained by them on account of the unjust seizures & Captures abovementioned was concluded between Us and the King of Spain on the 14<sup>th</sup> day of January last, N. *Certificate respecting Bills of Credit, &c.*

[From MS. Corr., in Secretary's office, Vol. I, p. 127.]

Province of New Hampshire, Dec<sup>r</sup> 31<sup>st</sup> 1739.

These may certify that between the yeares of our Lord one thousand seven hundred and nine and one thousand seven hundred and thirty seven, inclusive there has been emitted in Paper bills of Credit within his Majesty's Province of New Hampshire in New England, the sum of fifty-six thousand three hundred and Eighty four pounds:

The provision made for drawing them into the Treasury to be burnt was a tax on the Polls & Estates of the Province; excepting for fifteen thousand pounds, part of the sum being a Loan for which the Borrowers gave double land security; and for seventeen hundred and thirty pounds more of it, being another Loan for which Security was also given by the Borrowers. And the

said sum of fifty six thousand three hundred & Eighty four pounds is already drawn in and burnt, excepting ten thousand five hundred and seventy six pounds sixteen shillings, which is to be paid by taxes on Polls and Estates in the years one thousand seven hundred & forty one and forty two; and about two thousand pounds of the fifteen thousand pound loan, which is not yet bro't in and burnt by the Committee appointed to receive it of the Borrowers.

The beforementioned fifty six thousand three hundred and Eighty four pounds is the whole sum of Paper Bills of Credit that have been at any time emitted by the Province of New Hampshire.

And this is the best Answer I can give to what is demanded of me touching the State of New Hampshire Bills (after having made the best scrutiny I can) By reason that my dwelling house was burnt three years agoe, in which (with the major part of my furniture) were lost some of the Books and most of the Acts and Papers belonging to the Secretary's office; and besides the books of the said office have not formerly been kept with a due exactness for want of a sufficient reward to the officer, the utmost allowance ever made to a Secretary being but seventy-five pounds per Annum this currency, which is not more than fourteen pounds sterling at this day and sometimes that has been unpaid for five years together.

The Rate of Silver and Exchange between this Currency and Sterling has always been the same as at Boston, which is the Grand Mart of New England, and in that respect governs the whole country.

Copy R. Waldron, Sec<sup>y</sup>.*Letter to Gov. Belcher concerning an Expedition to New Spain, &c.*

[From MS. Corr. in Sec. Office, Vol. I, p. 131.]

Whitehall, January 5<sup>th</sup>, 1739–40.

Sir

His Majesty having thought fit to declare War against Spain and being determined by all possible means to distress and annoy the Spaniards in the most effectual manner, and particularly by making an attempt upon some of their most considerable settlements in the West Indies, The King has been pleased for that purpose to order a large body of Troops under the command of my Lord Cathcart, a Major General of his Majesty's forces, to go from hence, with a sufficient Convoy of men of War to a proper place in the West Indies to be appointed for that purpose, there to be joyned by the Squadron under the command of Vice Admiral Vernon, now in the West Indies and by such a number of Troops as may be raised in his Majesty's Colonies and Islands in America.

As it has been represented to the King that a very considerable number of men may be easily had upon proper Encouragement in the British Plantations and particularly in his Majesty's Colonies on the Continent of America to serve in conjunction with the regular Troops to be sent from hence, I am to signify to you, It is his Majesty's pleasure that you should forthwith make the proper disposition for raising as many men as you shall be able to procure within your Government.

And as the King intends that the Troops to be raised in America should be commanded by Colonel Spotwood, the whole to be, however, after they shall have joyned the Regular Troops, under the command of my Lord Cathcart,

General and Commander in Chief of all his Majesty's Troops sent to or raised in America (with which I have by this occasion acquainted Col<sup>o</sup> Spotswood.)

It is his Majesty's pleasure that you should confer or correspond with Col<sup>o</sup> Spotswood if you have an opportunity upon every thing that may relate to the performance of this service.

Col<sup>o</sup> Blakeney who is appointed Adjutant General in this Expedition will set out from hence as soon as possible, with his Majesty's Letters and Authorities to you and the other Governors of his Majesty's Colonies on the Continent of America, for making the said Levies, and with the Kings more particular Instructions and Directions relating to this matter.

In the mean time the King has thought proper that I should give you this previous notice that you may be making the necessary Dispositions in order to facilitate, as soon as possible the raising the Troops.

Colonel Blakeney will carry with him a considerable Number of Arms, some samples of Cloathing for the souldiers, and what Mony or Credit shall be judged requisite for the performance of this service.

It is his Majesty's Intention to give all proper Encouragement to the new Levies, by ordering them to be supplied with Arms, a proper cloathing and to be paid by his Majesty with an Assurance of their coming in for their share of any Booty that may be taken from the Enemy, and of their being sent back to their respective habitations, when the service shall be over, unless any of them shall desire to settle themselves elsewhere.

His Majesty will order to be sent by Col<sup>o</sup> Blakeney a number of Blank Commissions to be given, by the Governors, to the officers that are to command the Troops under Col<sup>o</sup> Spotswood.

The King has not thought proper to confine you to any particular number of men to be raised within your Government, his Majesty depending upon your care and zeal for his service, that you will procure as many as you possibly can.

You will consider how much the time presses and will therefore use the utmost Expedition in making your preparations.

It is hoped that my Lord Cathcart may be able to sail from hence in April or May next, and consequently you will take care that the Troops to be raised within your Government may be ready to be transported in time to the place that shall be appointed for the General Rendezvous with which Colonel Blakeney will acquaint you, as well as with every thing else that may be necessary for your further information and Instruction.

You will be considering in what manner to provide Transports and Provisions and even if it be necessary you will secure them out of hand for such a number of men, as you shall judge you may be able to get within your Government; or, you will correspond with any of the Governors of the neighboring Colonies relating to this matter in such manner as you shall think proper.

I am persuaded I need not say any thing to induce you to use your utmost care and diligence in an affair of this Importance and for the promoting the success of a service in which the honour of his Majesty's Crown and the interest of his subjects (especially those residing in America) are so essentially concerned.

The many Injuries and Cruelties which the Inhabitants of the British Plantations have suffered from the violence & Depredations of the Spaniards will I doubt not be an additional motive to engage all his Majesty's faithful subjects there to exert themselves with an uncommon zeal on this occasion.

I am, Sir,

Your most obedient, humble servant

HOLLIS NEWCASTLE.

P. S. Though Col<sup>o</sup> Blakeney will be dispatched as soon as possible with his Majesty's more particular Instructions & Directions to you, yet that no time may be lost it his Majesty's Pleasure that immediately upon the Receipt of this letter you should summon a Council and Communicate to them his

Majesty's orders for the better Enabling you to put them in Execution; and that you should also forthwith issue a Proclamation in the proper form inviting his Majesty's subjects within your Government cheerfully to Enlist in this service, and assuring them of a proper Encouragement for that Purpose.

*May it please your Excellency,*

The House having taken your Speech to us yesterday into consideration, cannot but say that we esteem it an unhappiness that what your Excellency there recommends comes so late to us in this way, and that having another

government that takes up so much of your time and for which you are so much concerned, we could not meet in General Assembly til there had been a long session in that Province, and til the business of it was finished. For though it be true that your Excellency issued out proclamations in order to our Enlisting men, for his Majesty's service, it was not likely that any number should Enlist amongst us til they knew what encouragement would be given them here and who would be their immediate Captains which could not be known til now, when there is but little time left; and for the foregoing reasons sundry of our men have enlisted under the Commanders appointed in the other Province. As to what your Excellency mentions of the numbers y<sup>t</sup> we raised and the Expence we were at upon the Canada Expedition, we must observe that was an instance of that great forwardness that we have always shown for his Majestys service, and that what you mention as that which might have been a just discouragement, at that time, (viz.) our long, cruel and bloody war, and reaping the fruits of our fields with our lives in our hands, was a great inducem<sup>t</sup> for us to do as we did:— for the Expedition was designed against a People that we supposed to instigate the Indian Enemy to most of their Barbarities and we were in hopes if it had succeeded that it would have been a means of putting an End to their Cruelties and have tended to our future safety and security, and we were willing to put ourselves to almost any difficultys for the sake of so great a blessing. And besides, though our number be much increased since that time we were not then under the Restriction as to a paper Currency that we are now when we cannot Issue Bills, but what must presently be called in again which makes the raising men much more burdensome, and then, though as your Excellency says, we are for the present at peace with our French and Indian Neighbors, It is well known that the Indians have been wont to grow sturdy and troublesome upon the least prospect of a rupture w<sup>th</sup> France, and they have lately given out many threatenings and should they break out into a War we should want our men for the defence of his Majesties Prov. But notwithstanding all this we have chearily pass'd a vote for the encouragement of men to enlist in his Majesty's service and sent up to the Board in pursuance of what your Excellency recommended to us yesterday in the afternoon, and shall be still ready to do every thing in our power, that we possibly can in our present situation: and as we beg leave to add to what your Excellency says of former Assen<sup>t</sup> that they have made repeated professions of the readiest obedience to his Majesty, that we hope they have made good those professions, we assure you that we shall do the same and be not only forward to afford Him any assistance in our power in carrying on the just and necessary war which he has entered into, but exert ourselves upon this and all other occasions for his Majesties Honor & Interest.

*His Excellency's Message, Aug. 7, 1740,*

[Copied from MS., "Gov<sup>r</sup> Message," p. 191.]

*Gentlemen of the House of Represent<sup>ts</sup>.*

In answer to y<sup>r</sup> Message of the 2<sup>d</sup> Instant, I must observe to you, That the King has invested me with the power of convening, adjourning, proroguing & dissolving of Assemblys' & that I have always made it one Rule of my Administration to exercise that power so as might most contribute to his Majesty's service & to the ease of his subjects. Nor have I ever suffer'd the affairs of my other Government to interfere with those of this but have as often visited this Prov: & held as many sessions of General Courts (or more) than any of my Predecessors have heretofore done.

The principal design of this Session being only to give you an opportunity of doing y<sup>r</sup> duty to the King in raising what money might be necessary for victualling & transporting a number of men for the intended Expedition, who were not under any necessity of proceeding in less than a month from my mentioning the matter to you, I well knew you had time sufficient for making the proper provision for them. In obedience to his Majesty's orders I gave reasonable notice to his good subjects of the Prov: of the intended Expedition as I did in the neighboring Government & in the way & manner his

Majesty directed to. The Act begun in y<sup>r</sup> House & since past the whole Legislature plainly shews what you call *the little time left* has been more than sufficient for y<sup>e</sup> doing y<sup>r</sup> duty in this affair. You y<sup>e</sup> selves have obviated the difficulty y<sup>e</sup> inadvertently started as to raising money by reason of the King's restriction on a paper currency since y<sup>e</sup> have provided that the people may pay this tax in sundry species of the Province instead of bills of Credit. What I have now said I think must convince all reasonable men and even make you confess y<sup>e</sup> what y<sup>e</sup> would have laid as obstacles in the way of y<sup>r</sup> duty were but frivolous pretences & serve only to shew the little regard y<sup>e</sup> have to the King's service & honour; while I consider this, & that an Assembly can always be convened in this Province in the space of 14 days, I have ordered the Sec<sup>y</sup> to declare this

*Message of the House to the Governor, March 3<sup>d</sup>, 1740-1.*

[Copied from MS. "Gov<sup>rs</sup> Messages," in Sec<sup>y</sup> office, p. 195.]

A message from the House of Represent<sup>ts</sup> to his Excell<sup>y</sup> about the affaire of the Lines refer'd to in his Speech of Feb<sup>y</sup> 27<sup>th</sup> 1740-1.

*May it Please your Excellencie,*

The House having maturely perused his Majesties Additional Instruction to your Excell<sup>y</sup> Relating his Maj<sup>ties</sup> Judgm<sup>t</sup> in the affaire of the Boundry Lines, which you was pleased to communicate to the House, And finding the said Instruction is directed to your Excell<sup>y</sup> as Govern<sup>t</sup> of the Massachusetts only, and therefore apprehend it was never the intent of his Maj<sup>ties</sup> that this Province should be at any further charge in ascertaining the Lines; besides we find that his Maj<sup>ties</sup> hath confirm'd that part of the Commiss<sup>rs</sup> Judgm<sup>t</sup> that saith the charge of the Commission as also of the Commiss<sup>rs</sup> & their offices &c. shall be Equally born by both Provinces.

A considerable Ballance according to the Judgment being due from the Massachusetts to this Governm<sup>t</sup>, a Particular Account of which as we are inform'd hath been presented to your Excell<sup>y</sup>, while the Gen<sup>l</sup> Court of your other Governm<sup>t</sup> was sitting, by the Committee appointed by the Gen<sup>l</sup> Court of this Province, that attended on that affaire, which we hope your Excell<sup>y</sup> will see adjusted (and supposing we were to heare our proportion) yet that Ballance being much more than what we think will be sufficient for defraying the whole charge in ascertaining the other parts of his Maj<sup>ties</sup> Judgm<sup>t</sup> so that we did not think to be call'd upon for any supply of money on this affaire.

Notwithstanding all which rather than the Executing his Majesty's Judgment should be any ways delayed, if your Excellency insist upon a supply from this Province, we will be ready to do every thing that may be proper on our part.

But we are at a loss to know what Provision to make, or what supply will be sufficient for that End till your Excellency shall be pleas'd to advise us of the method you propose of doing it in for guidance and direction.

In the House of Representatives

Voted to be sent to his Excellency.

James Jeffry, Cler. Ass<sup>m</sup>.

*The answer of the House of Representatives to his Excellency's  
Speech of the 27<sup>th</sup> Feb<sup>r</sup>.*

[Copied from MS., "Gov<sup>t</sup> Messages," Vol. I, p. 205.]

*May it please your Excellency,*

We the Representatives of his Majesty's Province of New Hampshire in General Assembly conven'd, having taken your Speech into consideration cannot but say that we are sorry his Majesty's additional Instruction to your Excellency with his Royal Determination on the Boundary Lines (which we long since have had an account of) comes so late in the manner you are now pleased to recommend it to us for a supply, and seeing the Winter has been so suitable for the effecting such an affaire, it might possibly have been completed by this day, if it had been earlier recommended to us.

We do not think it strange that your Excellency's other Governm<sup>t</sup> have shewn themselves so backward to comply with his Majesty's Instruction, nor are we surpris'd at the Resolution of that Assembly to postpone this affair. It being no more than the Representative Body of that people have been Resolved upon for thirty years past, and as they have always done what they could to obstruct the decision of that matter, we make no doubt but they would be glad if it might never be bro't to an Issue.

We being willing to manifest the like duty & Loyalty to his Majesty that former Assemblies have been wont to do, & being desirous that his Royal orders might be immediately put into Execution (Tho' as we apprehend it was the Business of the Mass<sup>s</sup> by his Majesty's Instruction to have don it at their own cost.) We have unanimously Voted a supply into the Treasury for that service, of five hundred pounds, Depending upon your Excellency's declaration that you will do your part, as we have cherefully & readily done (as we think) more than owes.

As to the other additional Instruction laid before us we esteem it an unhappiness that your Excellency is under those restrictions, and wish his Majesty had so fully been inform'd of our Circumstances, as to know how difficult & almost Impossible it is for us to do what is necessary for the defence of the Province without the immediate Emission of Bills of Credit: And as your Excellency tells us, We know the ruinous condition which the only Fort of the Province lyes in, we are at a loss how to prevent it, our paper Currency not being to Extend beyond the next year; But having already come into such measures, shall be willing to do all we can in our present situation.

With respect to the State of the Treasury we shall looke into it as your Excellency recommends, if we are allowed the time and act in the affaire as we are able.

As to the Exportation of Provisions, as we have already come into a vote relating to that affaire, we shall take the matter into further consideration and be willing to do all that can be tho't proper for his Majesty's service.

But with respect to what your Excellency offers to our consideration, relating to the manufactory notes of a Combination of Persons in the other Governm<sup>t</sup> we beg leave to observe that as we have not the scheam laid before us, And a

great many of us are unacquainted with it. It will be rash in us to Act in that matter till we know more of it. But shall be willing in that and every thing else to comply with whatever appears to be for the Hon<sup>r</sup> of his Majesty and the good & safety of the People whom we Represent.

*Gov. Belcher's Speech, March 4, 1740-1.*

[Copied from MS. "Gov<sup>rs</sup> Messages," in Secretarys office, Vol. I, p. 197.]

*Gen<sup>t</sup> of y<sup>e</sup> House of Represent<sup>rs</sup>*

In answer to your Message to me requesting to be informed of y<sup>e</sup> method in which I propose to execute his Majesty's Judgment, I think the best way of doing it will be by a skillfull surveyor or surveyors and chainmen on oath with a proper number of spotters and baggagemen to attend them. If you think of any other better way, I would readily fall into it and since the season is so very suitable to do the business I am of opinion it is best to have two companys to go to Pentucket Falls together and while one of them runs the West course, the other sh<sup>d</sup> run the curve line to the sea, and a third company sh<sup>d</sup> at same time go upon the northern Boundary from the head of Newchawanoek river, this will give a quick dispatch to the whole affair and enable me soon to lay the return before his Majesty in Council which I shall gladly do as soon as the business is accomplish'd. My principal busyness with an Assem. at this time was to lay before them the King's royal orders in this matter depending on their making a sufficient supply of mony to carry these orders into Execution, and you now say you are ready to do every thing proper on your part, which I desire may be done with all possible dispatch, and I assure you no time shall be lost by me to put forward this important affair so necessary to the peace and quiet of his Majestys subjects of both Provinces. As to what you mention of an acct. presented me by a Committee of this Prov. I never saw any but what was brot me by a pretended or real messenger from them in an indecent improper manner without any letter accompanying it, or so much as a cover to it, that I know not whether the person had come fairly by the acct. or whether he had any busyness with it. I tell you this by way of caution, to prevent your being imposed on by misinformation; if you have any acct that you desire me to lay before the Mass<sup>a</sup>

Assem. I will readily do it at the first opportunity and let you know y<sup>e</sup> result of my so doing. I sh'd be glad, Gen<sup>l</sup> to do any thing in my power for his Majesty's service and for the weal of this Province.

*Gen<sup>l</sup> of y<sup>e</sup> Coun. and of the House of Represent<sup>ts</sup>,*

I have already laid before your his Majesty's orders to me for carrying his Judgment in Council respecting the Boundaries betwixt this Province and that of the Mass<sup>a</sup> Bay into execution, and altho this affair is under the absolute direction of the King's Governor yet I shall be glad of your advice and nomination to me of a double number of p<sup>rs</sup>ons fit for the service out of which I would appoint a sufficient number to go through the busyness, and in this matter no delay must be made.

*A Message from the House of Representatives to his Excell<sup>ty</sup> in answer to his Mess<sup>g</sup> of the 4<sup>th</sup> curr<sup>t</sup>.*

[Copied from "Gov<sup>ts</sup> Messages in Sec<sup>ys</sup> office," Vol. I, p. 199.]

*May it please your Excell<sup>ty</sup>.*

On the 3<sup>d</sup> Inst this House came into the following determination & accordingly sent a Mess<sup>g</sup> to your Excell<sup>ty</sup> of that Date, That they would peremptorily comply in Every regard with the King's Instruction in that affair of the Lines & that they cherefully would be at the cost of running them in case his Maj<sup>ty</sup>

in said Instruction had but hinted it as his pleasur, which we humbly conceive by the direction of said Instruction, was not meant or intended, and in the said vote we gave sundry reasons for our opinion on that head, since which we have received your Excell<sup>y</sup>s Mess<sup>a</sup> of yesterday to this House, and another to his Maj<sup>ties</sup> Council and this House of the same Date, But neither Enlightens the House in the affaire of the supply.

What the House then principally wanted to Enquire of y<sup>or</sup> Excell<sup>y</sup> was, Whether his Maj<sup>ties</sup> expected this Province should be at the whole Expence, or Whether your Excell<sup>y</sup> by that Instruction you was pleased to Communicate to us, tho't this Province was to be at the Expence.

Your Excell<sup>y</sup> in the first Mess<sup>a</sup> to the House of yesterday was pleased to say you depended upon our making a sufficient supply of money to carry those orders into Execution, And by the King's Instruction now before us, the House by no means thinking that requires any such thing, so at the same time we are to a man willing to be at the Expence, if that was his Maj<sup>ties</sup> pleasure, the supply being what was principally mentioned by your Excell<sup>y</sup>. The House begs your Excell<sup>y</sup>s advice and assistance in getting over that head first, & then we can assure your Excell<sup>y</sup> one moment of time shall not be left by us, but will instantly make all proper Provision on our part so as his Majesties Royal determination relating the Boundary Agreeable to his Maj<sup>ties</sup> Instruction to your Excell<sup>y</sup> on an affaire of so great a consequence to the Peace & welfare of his Maj<sup>ties</sup> good subjects of this Province, which your Excell<sup>y</sup> cannot but be sensible of the steady zeal they have prosecuted the same even to the obtaining his Majesties Royal determination in the affaire, and would therefore by no means render fruitless the Labour of so many years by a sudden hurrying into measures contrary to his Majesties Royal Instructions to your Excell<sup>y</sup>, which is the maine reason we are so cautious to apply to your Excell<sup>y</sup> for advice in the before mentioned heads.

We are sorry the Gen<sup>l</sup> that delivered your Excell<sup>y</sup> the account of Expences of this Province on the affaire of the Lines behav'd to your Excell<sup>y</sup> with any indecencie & improper behaviour.

We have Inquired of the Committee who Informs us that such behaviour is what they could not suspect from the knowledge they have of that Gen<sup>l</sup> nor from his character & the reason the Committee give the House, of their delivering of that account to your Excell<sup>y</sup> thro' his hands, was because they had formerly wrote your Excell<sup>y</sup>, desireing you wou'd receive from him, as from them, any papers relating to the Lines, and he had often times waited on your Excell<sup>y</sup> on their behalf on that affaire.

We do not understand by the Kings Instruction that we have any thing to do with the Mass<sup>a</sup> Assembly in the affair, your Excell<sup>y</sup> being the Person to whom his Majesties Instructions is directed, and the only person to whom the Committee could apply, and as we think agreeable to the Express words of the Instruction, which we apprehend Respects the Expences so farr as mentioned in the Judgm<sup>t</sup> as well as the Lines themselves.

*Gent. of y<sup>e</sup> House of Represent<sup>ts</sup>.*

In ans<sup>w</sup>r to yo<sup>r</sup> Message of yesterday, I w<sup>o</sup>ld observe yo<sup>r</sup> desiring my explanation of yo<sup>r</sup> King's royal order about the boundaries as to what in them relates to you, I by no means dare to do, because I find no direction in the King's order to Expound upon it but only to communicate the same to the Council and Assembly, which I did at the first opening of this Sessions, and it is with you Gentlemen to understand and act for yourselves, and I think you need be at no loss about this Province being at the expence of the service now to be done, since I have so plainly urged it upon you once & again, and I now repeat when you have made the needfull supply of money, I shall pay the strictest obedience to his Majesty by carrying his royal order into Execution without delay. And I would further say unless you make such provision the matter must stil remain undone.

John Ffawler Comander of s<sup>d</sup> ship — Inhabitants having families & saylors belonging to laden outward bound vessels & coasters excepted.

*Letter from Governor Shirley relating to the foregoing matter.*

[Copied from "Belknap Papers," p. 187.]

Boston, April 4, 1743.

SIR, I had your Excellency's favour by Gerrish & inclose, as you desire, the form of my warr<sup>t</sup> for Impressing Seamen for his Majesty's service within the Massachusetts Governm<sup>t</sup> together w<sup>th</sup> a Warr<sup>t</sup> for preventing persons from escaping your Warrants by crossing the River into my Governm<sup>t</sup>. Your Excellency will find by the form inclos'd y<sup>t</sup> the Gov<sup>r</sup> of this province always issue such Warr<sup>t</sup> w<sup>ch</sup> the advice of his Maj<sup>ty</sup>s Council w<sup>ch</sup> method I constantly pursue: & that the exceptions in those warr<sup>ts</sup> are the same with those in the Warr<sup>t</sup> which I now send your Excellency, & y<sup>t</sup> the direction of those Warr<sup>ts</sup> are to the sheriff of the County where the Impress is made, his Deputies & the Constables, & not to the Comander of his Maj<sup>ty</sup>s ship, for the service of w<sup>ch</sup> they are granted; tho' it is the best method (& what I pursue) to have an officer or two of the ship & a convenient number of the seamen to assist the civil officer in Executing the Warr<sup>t</sup>, & see y<sup>t</sup> he does not let any of the Impress'd men buy themselves off. I must apprise your Excellency now of the difference between our two governm<sup>ts</sup> in respect to Impress Warr<sup>ts</sup>. I am forbid expressly by the Royal charter of K. William & Q. Mary granted to this Province to transport any Inhabitant of the Province out of it without the consent of the General Assembly, w<sup>ch</sup> is the reason of that exception in my warrant as to Inhabitants of this Province: But that is not your case, so that such an exception in your warrant is discretionary as to yourself, for your Province has no charter to tye your hands: and as this Province very much depends upon coasting vessels & Fishermen for its provisions, y<sup>t</sup> I have found the Impressing of seamen out of them to be of pernicious consequence to it. The Gov<sup>r</sup> of this Province always excepts such out of his Warr<sup>t</sup> & also seamen belonging to outward bound vessels laden & ready to sail, except upon extraordinary emergencies. The seamen, when Impress'd by my Warr<sup>t</sup> are to be deliver'd to your order, which will answer the same End as if express'd to be deliver'd to Capt Ffawler directly to whom you may give an order to receive 'em & put 'em on board. The Council would not advise to a larger warr<sup>t</sup> or in another shape; otherwise you should have had it more at large: I hope this may answer your purpose: But the application comes to me at an unlucky time; for I have very lately issu'd Warr<sup>ts</sup> for Impressing 80 men for the Province galley, & expect daily to issue another for a large number of seamen for his Maj<sup>ty</sup>s service on board the Astra Capt. Swanton in Boston harbour. The Warr<sup>t</sup> I now send you met therefore w<sup>th</sup> some opposition at the Board, and I am oblig'd at the instance of the gentlemen of the Council to mention to your Excellency y<sup>t</sup> they expect your Governm<sup>t</sup> should be at all charges for the Execution of my Warrant, w<sup>ch</sup> I should not otherwise, as it is likely to be but a trifle, have thought of.

As I shall be oblig'd for want of time to refer Capt. Ffawler to this letter, I beg your Excellency would let him peruse it & am with great sincerity & Respect,

Sir, your Excy's most obedient

Humble servant

W. SHIRLEY.

His Excellency laid a Letter before the Council from Admiral Vernon dated the 15<sup>th</sup> of August 1742 directed to Governour Shirley & also Governour Shirley's Letter inclosing a copy of the s<sup>d</sup> letter from the Admiral to his Excellency Governour Wentworth wherein the s<sup>d</sup> Letter from Admiral Vernon is supposed to be intended for his Excellency Gov<sup>r</sup> Wentworth, and also informed the Council what steps he had taken in order to furnish the Deptford storeship with men & laid before the Board a second letter from Capt. John Ffawler Comander of the s<sup>d</sup> ship & then desired of the Council their advice what steps he should take further in order to the maning the s<sup>d</sup> ship.

Upon which his Maj<sup>ty</sup>s Council after deliberation came to the following resolve, viz.

That inasmuch as they had on the twelfth Inst. advised his Excellency to grant his Warrant for Impressing thirty one men, the number desired to be raised, &c. which hitherto proves ineffectual for procuring the whole number required, wherefore resolved That his Excellency be desired to keep the s<sup>d</sup> Warrants Extant & that Capt. Ffawler may be notified thereof, the Council imagining that in a few days this method may supply him with his complement or that it may be made up out of Vessels inward bound.

An Indian called Coaus by Mr. Millar an Interpreter desiring to speak to the Governour & Council and said that he was desired by the Indians to acquaint his Exceelency that they were very desirous of having a Truk house placed near the river Pemigewasset where they might have such supply<sup>r</sup> as was necessary for their furs that they might not be imposed upon as they often were when they came into the lower Towns & that they tho't it reasonable to have some satisfaction for the Lands if the English settled it they never having had any as yet.

His Exceelency asked them if for the present orders should be given to some suitable person at Canterbury to supply them it would answer their end. To which he answered it would do very well.

His Exceelency told him he should meet the Assembly in November [p. 10.] when he would recomend it to them to furnish them with what they wanted and asked what things would be most suitable—he—He answered Powder shot, Bullets, flints, knives, blankets, shirts, cloath for stockings, pipes, tobacco, rum—

With regard to what he said about the Lands his Exceelency told them that his Majesty the King of England claimed the Lands and had put them under his Government and that he could by no means have any thing to say to them by way of purchase but would some time next Sumner have an interview with them if they tho't proper and would see that they had justice done them. To which Coaus said it was what pleased him very much.

The Governour asked him how many Indians there were. He said there were but three or four that claimed the Lands at Pemigewasset.

*Letter from Gov<sup>r</sup> Shirley relating to Danger from the French  
& Indians.*

[Copied from MS. Corr. in Sec<sup>rs</sup> office, Vol. II, pp. 25-26.]

Boston, June 29<sup>th</sup> 1747.

Sir —

This will inform your Excellency that this Government taking into consideration the great Danger which all his Majestys Colonies in North America are in (as well as their own particular Danger) of being in time destroyed by the French & Indians under their influence without a firm union between themselves, for their mutual Defence & for weakening & destroying the Power of the Enemy & more especially for driving the French from the Borders of the Province of New York; and this Province have appointed Commissioners to meet in a Congress to be held at New York on the second day of September next, with such Commissioners as may be appointed by all his Majestys Governments from New Hampshire to Virginia inclusively; then & there to treat & agree upon measures for encouraging the Indians of the six nations vigorously to prosecute their Incursions on the Enemy, as also to agree upon the method & Proportion of raising men & money for carrying on the War both offensively & defensively, and to project & settle such Enterprises & Plans of operation as the Common Interest shall require.

Your Excellency will, I doubt not, duly consider the great Importance of this matter, & represent it in the strongest Light to your Assembly, that they may see not only how deeply his Majestys Interest in general is concerned, but that their own particular safety will be soon much affected by the growing Power of the French, and more especially the Hazard there is that they will bring the six Nations into their Interest, in case they are not forthwith most vigorously & effectually supported by the English; without which it will be but a very little while before the southern as well as the Northern Colonies will be Exposed to their Fury, And therefore I would earnestly recommend it to the several Governments separately to make Provision without delay for the encouragement of the six nations, till the Congress can be held; this Government having already advanced many large sums of money & still continuing to do more for this service.

Your Excellency will be pleased to give me reasonable advice of the Resolution of your Government on this most important affair.

I am, Sir

Your Excellency's most  
obedient & most humble servant

W. SHIRLEY.

P. S. Col. Stoddard is now going home; But if your Excellency will send the 1000 allowed by your Assembly towards encouraging the Indians of the six Nations to Boston, I will direct the person whom you intrust it with to invest it in proper goods and presents in the same manner as this Gov<sup>r</sup> allowance has been, and to forward 'em to Col. Johnson and Mr. Lidius, which would be very opportune at this time. We have sent a great quantity of goods within these few days.

*Letter from Gov. Shirley relating to an Expedition against  
Crown Point.*

[Copied from MS. Corr. in Sec<sup>rs</sup> office, Vol. II, p. 27.]

Boston, July 27, 1747.

Sir — As it appears to me by the latest advices I have received from Albany, as well as from what is contained in the New York Prints that there is the utmost Danger of a total Defection of all the six Nations from us, to the

French interest, unless we do speedily & vigorously join with them in prosecuting an Expedition against the French, for dislodging them from Crown Point, as well as from the Fort they have built much nearer to the English settlements:—I have just issued a Proclamation for summoning every member of the General Court of this Province to attend the consultation that will be had on that affair, upon the 12<sup>th</sup> of August next: and as the least loss of Time will greatly hazard the success of the Enterprize if we should engage in it, I must intreat your Excellency to have the Assembly of your Province sitting at or before that Time & lay before them the Danger there is of all his Majestys Northern Colonies being soon depopulated & swallowed up by this Enemy, unless we now join with the Six Nations without Delay, in pursuing the War against the Enemy. And I must pray your Excellency to give me early advices of the measures your Government shall take in this affair.

I am with the greatest regard

Sir, Your Excellencys most  
obedient, Humble sev<sup>t</sup>

WM. SHIRLEY.

P. S. I was favour'd w<sup>th</sup> your Excellency's by the Post apprizing me of your sending the four French prisoners to go in the Flag of Truce, and am much obliged for 'em. I will write at large by next post.

His Excellency BENNING WENTWORTH, Esq.

His Excellency then gave the Council an acc<sup>t</sup> of an Express he rec<sup>d</sup> from Pennycook giving an acc<sup>t</sup> of a number of Indians that lately appeared there & were repulsed and drove off after having killed a great number of cattle &c. & then asked whether the Council would advise that his Excellency be desired to cause thirty men to be posted there for one month. *The Submission and Agreement of the Eastern Indians.*

[Copied from Coll. Hist. Soc. MS., Vol. IX., pp. 220-223, (1st series).]

Whereas a War has for some years past been made and carried on by the Indians of the tribes of Penobscott, Norridgewock, St. Francois, and other Indians, inhabiting within his Majesty's territories of New England, against the governments of the Massachusetts-Bay and New Hampshire, contrary to several treaties heretofore solemnly entered into: And the said Indians being now sensible of the miseries and troubles they have involved themselves in, and being desirous to be restored to his Majesty's grace and favour, and to live in peace with all his Majesty's subjects; and that all former acts of injury may be forgotten:—

We the under written being delegated and impowered to represent and act for and in behalf of the Indians aforesaid, have concluded to make, and do by these presents in their name make, our submission unto his most excellent Majesty George the Second, by the Grace of God of Great Britain, France and Ireland, King, defender of the faith &c. in as full and ample a manner as any of our predecessors have heretofore done.

And we do by these presents engage with Thomas Hutchinson, John Choate, Israel Williams, and James Otis, Esqrs, commissioned by the Honourable Spencer Phelps Esq, as he is lieutenant-governour and commander in chief of the Province of the Massachusetts-Bay, and with the Governour or commander in chief of said Province for the time being.

That is to say, in the name and behalf of the tribes and Indians aforesaid, we do promise and engage, that at all times forever, from and after the date of these presents, we and they will cease and forbear all acts of hostility, injuries, and discords towards all the subjects of the crown of Great Britain, and not suffer the least hurt, violence, or molestation to them or any of them, in their persons or estates; but will hence forward hold and maintain a firm and constant amity with all the English; and will never confederate or combine with any other nation to their prejudice.

That all the captives taken in this war shall forthwith be restored, without any ransom or payment to be made for them or any of them. That his Majesty's subjects, the English, shall and may peaceably and quietly enter upon, improve, and enjoy all and singular their rights of land, and former settlements, properties, and possessions within the eastern parts of the said province of Massachusetts Bay, together with all islands, islets, shores, beaches and fishery within the same, without any molestation or claims by us or any other Indians, and be no ways interrupted or disturbed therein: Saving to the tribes of Indians within his Majesty's province aforesaid, and their natu-

ral descendants respectively, all their lands, liberties and properties, not by them conveyed or sold to, or possessed by any of the English subjects as aforesaid; as also the privilege of fishery, hunting, and fowling as formerly.

That all trade and commerce, which hereafter may be allowed between the English and the Indians, shall be under such management and regulation as the Government of the Massachusetts province shall direct.

If any controversy or difference at any time hereafter happen to arise between any of the English and Indians for any real or supposed wrong or injury done on either side, no private revenge shall be taken for the same, but a proper application shall be made to his majesty's government upon the place, for remedy or redress thereof, in a due course of justice; we submitting ourselves to be ruled and governed by his Majesty's laws, and desiring to have the benefit of the same,

We do further engage, that if any Indians shall at any time hereafter commit any act of hostility against the English, we will join our young men with the English in reducing such Indians to reason.

In the next place, we the underwritten do promise and engage with Theodore Atkinson and John Downing, Esqs. commissioned by his Excellency Benning Wentworth, Esq. Governour and commander in chief of his majestys province of New Hampshire and with the Governours and commanders in chief of said Province for the time being, that we, and the Indians we represent and appear for, shall and will henceforth cease and forbear all acts of hostility, injuries, and discords, towards all the subjects of his Majesty, king George, within the said Province. And we do understand and take it that the said government of New Hampshire is also included and comprehended in all and every the articles foregoing, excepting that respecting the regulation of trade with us.

Eod<sup>m</sup> Die. Mr Secretary bro't the Speech to be Coppied & then to be return'd to him again

The House adjourn'd for two hours, P. M.

P. M. More members came, the Speech read as follows, viz.

*Gen<sup>l</sup> of the Council and of the Assembly,*

His Majesty out of a tender Regard to the future Happiness & Prosperity of his faithful subjects in this Province has been graciously pleased to answer [P. 612.] the united applications to the Throne, to separate the Government of this Province from the Mass<sup>a</sup> Bay, an Event which if rightly improv'd will (under the direction of Heaven) be a lasting advantage, will be a means of replenishing your Towns with People, of extending & enlarging your Com-

merce, & since it has been his Maj<sup>ty</sup>s Pleasure to commit to my charge the Royal Commission, I shall in all faithfulness to the Trust committed to me strictly support the Hon<sup>ble</sup> interest & Prerogative of the Crown, and Endeavour that the Governm<sup>t</sup> shall be prudently Administered, That the Publick concerns shall be conducted with integrity, and that your Civil & Religious pre-  
[p. 61.]
   
 judges shall not only be preserved but advanced to the Extent of my Power.

His Maj<sup>ty</sup>s great wisdom & impartiality in determining the Tedious dispute with the Mass<sup>ts</sup> Bay, (which has subsisted in one shape or other upwards of threescore years) is the highest instance of that paternal care, his Maj<sup>ty</sup> Extends to all his subjects, tho' never so remotely placed, and should excite a generous ambition in all orders of persons in the Governm<sup>t</sup> who should be first in duty and obedience to his Royal person, family & Governm<sup>t</sup>. This has been your character and in consequence of that dutifull behaviour to your Sovereign you are now beginning to reap the fruits of your past obedience.

The several Governm<sup>ts</sup> on the Continent have furnished his Maj<sup>ty</sup> with recruits to carry on the just and necessary war already begun against the King of Spaine in the West Indies, and had early measures been taken before I arrived in the Governm<sup>t</sup>, this Province would have supplied their Quota of men with as much cheerfulness as any of the other Governm<sup>ts</sup>, more especially as the late Assembly had placed money in the Treasury for that purpose, but I am now apprehensive the good intentions of the Province will be [p. 62.] frustrated since the men fit and willing to enter into the Kings service, have mostly insisted themselves in the other Governm<sup>t</sup>.

It gives me a sensible pleasure on my accession to the Governm<sup>t</sup> that the Publick faith has been so Religiously kept in regard to past Emissions of paper money & that agreeable to the several Periods provided for by Acts of Governm<sup>t</sup> all former Emissions will be complied with in the year 1742. This is a fortunate circumstance in favor of the Province, more particularly as the State of Paper Currency in all the Plantations is now under a Parliamentary Consideration.

*Gen<sup>l</sup> of the Assembly.*

It is his Majesties Especial Comands to me That on my first meeting the Assembly, I recommend to them, that Provision be made for the Hon<sup>ble</sup> Support of the King's Governm<sup>t</sup> And that you settle a Salary on me suitable to maintain the dignity of my office, and on my successors, in Sterling or Proclamation money, That it may not be liable to vary or subject to depreciate by the uncertain value of paper Currency. Former Assembly's have paid obedience to his Maj<sup>ty</sup>s Comand on this important subject, therefore I have the less room to doubt your ready compliance herewith, as a contrary behaviour will affect your present and future felicity, & to enable you to comply with your Obligations to the Crown, and that no Extraordinary aids should be asked of the People, His Maj<sup>ty</sup> has been pleased to condescend to indulge me with his Royal leave to consent to a further Emission of paper Currency provided it can be effected without prejudice to the Trade of our mother kingdom, which in the Enacting all Laws I shall expect you pay a particular regard.

The last Assembly having made a supply for running the lines between this Province & the Mass<sup>ts</sup> Bay in conformity to his Maj<sup>ty</sup>s determination in Council, And Mr. Mitchell having laid before me a correct survey of that part he was employ'd in, I need only mention to you that when the whole shall be compleated you will grant such further supplies as shall fall short, that I may be able to carry the Kings Instructions into Execution, w<sup>ch</sup> shall be laid before you.

[p. 64.] The defenceless state of Fort Wm. & Mary the onely Fortification in the Province, requiring your Immediate inspection & I hope you will not fail to furnish that Garrison with such warlike Stores as may be necessary for the safety & defence of the Province.

There being no Fortification at or near the Great Pond Winnipissiocke, I hope you will think it for the publick service to Erect & keep a Block House in the most convenientest place neare that Pond, it will protect your Frontier & in case of an Indian Warr be of great use to the new settlements.

I shall order the Treasurer to lay his accompts before you, by which you will in part be able to judge of the Publick Debts. There will be exclusive of those accompts, A Debt due from the Province to private persons Expended in Engl<sup>d</sup> and here in defending the Province against the claims of the Mass<sup>a</sup> which few of you are strangers to, & which for want of annual supplies for many years past is become a heavy Debt. From the justness of this Debt & from the service done the Province, I am hoping you need little urging to discharge the same Honourably & in a manner least burthensom to the People.

The next thing that claims your attention is the faithful services of your Agent, who has taken unwearied pains in what affairs you committed to his care, & it is your Province more particularly to reward his past service in which and in any thing else that concerns the Publick you may Expect my concurrence.

*Gentlemen of the Council & of the Assembly*

Under your present situation you have but one Interest to pursue, being [p. 615.] actuated by such principles you will Endeavour to Promote Harmony & Union in every branch of Power, you will discountenance persons that shall make the least attempt to disturb the general Tranquillity, let it be disguised under any specious pretence whatsoever. Such a behavior will give weight to your deliberations & reflect Hon<sup>r</sup> on the Government, and such resolutions vigorously pursued will render the Present sessions short and consequently less expensive to the People.

I shall on my part be ambitious in incouraging measures in themselves, and think my self happy if while I have the administration of the government in my hands I can be Instrumental to make you a usefull & Flourishing Province. This was my first view, and is my determined aim, and it shall remaine unalterable until you put it out of my Power, which I hope you will carefully avoide.

[p. 617.] The answer of the House of Representa<sup>t</sup> to his Excell<sup>ys</sup> Speech.

*May it Please your Excell<sup>y</sup>*

We the Representative Body, his Majesties good subjects of the Province of New Hampshire, Rejoice at the present op'tunity of manifesting to the world our hearty concurrence with your Excell<sup>y</sup> gratefull sentiments of his Maj<sup>ties</sup> Royal Grace & Favour to this Province in the several important articles intimated in your Excell<sup>ys</sup> speech with others that might be Enumerated. Were we to Express the deep sense we have of his Maj<sup>ties</sup> great Goodness and our dutyfull acknowledgments of his paternal regard to us in the particular instances thereof we should be inevitably drawn out to too great a Prolixity, for an Essay of this Nature. We hope those that will from time to time have the management of our Publick concerns will obtaine the divine direction & Wisdom & Prudence to improve all the Royal favors & every advantage for the best Interest of the Province. But we beg your Excell<sup>ys</sup> Patience while we take particular notice of his Maj<sup>ties</sup> tender Compass<sup>on</sup>, consummate wisdom

& Exact Justice in bringing to a Judicial Issue an unhappy dispute between his subjects which had subsisted (as your Excell<sup>y</sup> well observs) from time to time immemorial, the determination of which had been before often unsuccessfully attempted. The final settlement of this tedious controversy (in which it is notorious this Province was the suffering party) will for ever indeare his Maj<sup>ties</sup> name & memory to all his faithfull subjects here, & be a standing monument to future Generations of his tender care & concern for their Peace & Tranquillity, & it is our Resolution to exert our utmost Powers [p. 618.] both in our Publick & Private capacities to perpetuate the remembrance of that auspicious event by impressions of the highest gratitude in the minds of all those who Experience and feel the happy consequences of it.

We cannot but esteem it a mark of his Maj<sup>ties</sup> Special Grace & Favour and which also calls for our particular acknowledgments on this occasion that he has been pleased to appoint one to Represent his Royal p<sup>son</sup> among the People who stands in a kind of natural relation to them, whose Interest is blended with theirs, & who is prompted by many motives besides natural inclination to promote their welfare. But what still enhances the Favour is that their present Governor's Immediate ancestor long filled the chief seat of government amongst them, the memory of whose clement and mild administrations will ever be deare to those who were so happy as to Experience them.

At the same time we congratulate your Excell<sup>y</sup> on your happy arrival to your government, & bid you heartily Welcom, and we would observe, that it gives us a verry sensible pleasure (as we doubt not it does all y<sup>e</sup> good People of this Province) to see your Excell<sup>y</sup>, giving Express assurances from the chaire of your fixed purposes to conduct the Administration of the government committed to your charge in such a manner as will best improve the Weal of those who live under the influence of it, and of employing your utmost abilities in your advanced station not only for Protection and preservation of their present most valuable interests & enjoyments but also to heighiten and augment them. For this we look upon our selves obliged in point of grati- [p. 619.] tude, in behalfe of those we Represent, to return your Excell<sup>y</sup> our unfeigned and hearty Thanks. As we are most firmly attached to his Maj<sup>ties</sup> p<sup>son</sup>, Family and government, we are therefore Ready to Espouse his Quarrel, & to engage with heart & hand with him against the comon Enemy, and we are sorry that former attempts in this government to assist & do service in the present Warr with Spaine prov'd abortive, there being no Comissions sent into the Province for that service for which reason our men then ready did actually Indist themselves in the other Governments for his Maj<sup>ties</sup> service in that Expedition, and was Transported with others on the said service.

We hope that what has been heretofore done, Respecting the observation of the Publick Faith will in some degree facillitate your Excell<sup>y</sup> Administration, and we shall carefully imitate and pursue those laudable measures which have Issued so well, For we assure your Excell<sup>y</sup> that we are firmly of opinion that 'tis impossible a Government should long subsist in any tolerable circumstances without a strict adherence to the Acts of Government and the punctual observation of the Publick Faith.

Your Excell<sup>y</sup> goes on to acquaint us with his Maj<sup>ties</sup> Commands to you to recomend the settlement of a suitable Sallary upon your self & successors, and to put us in mind how former Assemblys have conducted themselves upon this account —

To which we say, That as soon as we know what number of Inhabitants its likely will be added to us by the late settlem<sup>t</sup> of the Boundaries & how the money can be raised, we shall make as ample Provision for your Excell<sup>y</sup> Hon<sup>ble</sup> Support in the Government as we can in our present circumstances & as we judge will be agreeable to the minds of our Constituants. And we [p. 620.] trust your Excellency will seasonably inform us what his Majesties pleasure is Respecting future Emissions of paper currency that we may better be enabled to deliberate on this weighty Point, and whatever the situation of our own affairs may be we will not knowingly presume to Transact any matter so as to interfere with the interest of our mother contry.

We shall with the utmost alacrity comply with all necessary terms of car-

rying the Kings Instructions touching the Boundaries between this and the neighbouring Province into Execution: But here we beg leave to observe to your Excellencie, That the Province of the Mass<sup>s</sup> stands obliged to beare one half of the charge of settling these Lines. That there is a considerable sum of money due from y<sup>e</sup> Province to this on that Score. We therefore pray your Excell<sup>y</sup> to use your Interest to recover our just claime there, and in order thereto to pursue such measures as you shall think proper to that end, That we may be better able to Expedite that affaire and speedily to effect w<sup>ch</sup> yet remains to be done with relation to those Boundaries.

As to furnishing our Fortification with stores of war and doing what may be of public service by erecting of others, we can only say (at present) in general we shall take especial care of those affairs and make them a principle concern so far as the publick safety makes it necessary, and will not neglect any means in our power that may be conducive thereto.

When we are informed of the Principal Debts & who are the Creditors we shall not frustrate your Excellencies just Expectations respecting suitable Provision for the Discharge of them, [p. 621.] and while this is under consideration we shall not be unmindful of those who have been great Benefactors to the Province by advancing such sums from time to time as the Exigencies of affaires demanded,—And under this Head we can't but confess the Great obligations we are under to our agent for his Fidelity & Indefatigable Industry and Labours in behalf of this Province.

We trust this and all succeeding Assemblys as well as all private p<sup>er</sup>sons will be Ever ready gratefully to acknowledge his faithfull services. We shall as we are able shew our good will towards him, but as to making an adequate compensation wee cannot pretend to it at present, & indeed almost despair of seeing that Period in our time when the Province will be able to do it. Upon the whole we would repeat our thankfull acknowledgments for your Excell<sup>ys</sup> reiterated Professions of being as it were devoted to the Publick service, and we assure your Excell<sup>y</sup> we have a lively sence how unbecoming & pernicious it is for the several Branches of Power in a Government to be divided by misunderstandings and mutual Jealousies.

We shall therefore to the utmost of our Power Promote unanimity among ourselves, and a general Harmony & good agreement between all the Branches of the Government, nor shall we countenance any specious pretences to Interrupt and destroy such a desirable Unity.

Andrew Wiggin, Speaker.

*Message of Gov. Wentworth to the House, February 20, 1741-2.*

[Copied from MS. "Gov<sup>s</sup> Messages" in Secretary's office, p. 229.]

Gentlemen—

I have given your vote of 17<sup>th</sup> Instant its due consideration, and find it so inconsistent with his Majesties Instructions, so far short of an Honourable and ample provision for my support, that I can by no means accept of the grant you intend to make me. By your vote, the Sum you pray me to accept of, will be what I am to expect for my services till the end of the year 1742, which will be near sixteen months, which I apprehend is what the house did not intend, and was overlookt in drafting the vote: Therefore I send it down hoping you will think it worthy your re-consideration. But had your vote been never so full, and even a more ample provision than you have made, it is not in my power to accept of it in the way you desire, nor in any other way but by an Act of settlement, which no Government under the Crown have refused (in obedience to his Majesties commands) to comply with, and which

this Province hitherto have not denied to any of my predecessors. This reasonable compliance with his Majesties Instructions has been a means to obtain you great favours, and if from a contrary behaviour this Assembly should forfeit the Royal favour it would be doing the greatest Injury to the people you represent, and be a means of putting it out of my power ever to ask for or obtain the least indulgence for the Province in future. I am very far from desiring to enter into any contest with the House of Representatives on this or any other subject, but this so nearly concerns the Honour of the Crown, the Prosperity of the Province, and the peace of its inhabitants, that I should stand highly chargeable with want of duty to my Royal master should I give up so tender a point, and I am apprehensive no gentleman in the Assembly can expect or desire it from me.

I would recommend to you that an Address be made to his Majesty for such small arms, great Guns and other war like Stores as shall be wanting for his Majesties Fort William and Mary, and are not to be purchased in this country, which (if you make provision for the repairing of said Fort in any Act you may make) I have great expectation I shall obtain.

[Copied from MS. "Gov<sup>r</sup>s Messages," in Secretary's office, p. 231.]

*Gentlemen of the Assembly*

On the 13<sup>th</sup> of Jan<sup>y</sup> last I met the Generall Assembly, and tho' from the uncertainty of the weather and difficulty of the season, you have met with some interruptions, yet you have had sufficient time to do the weighty and important affairs of this Session, I mean settling a Publick Revenue for the support of his Majesties Government, which hitherto you have not made one effectual advance towards. The conduct of the Assembly on this occasion is the more surprizing to me, since you have had recent instances of his most Saered Majesty's Paternal care of his subjects in this Province, you have had the most distinguishing marks of the Royal favours confer'd on you, and you have had from me, the way paved out, to obtain greater and more lasting advantages and if from an absolute refusal to obey the Kings Commands convey'd to you by his Governor, you manifest your ingratitude for past favours, you will forfeit your right, or put it out of my power to ask what you so much stand in need of in future, & the bad consequences attending your disobedience must rest on you as well as the evils, which must necessarily follow, and you will stand wholly chargeable therewith.

*Gentlemen.* Be assured on this point (and don't suffer yourselves to be deluded or misguided) that you are contending with the Crown, and not with the Governor, and that your non-compliance with my request as the Kings Representative, will be Esteemed by his Majesty as the highest act of disobedience, and therefore if you are religiously inclined, you will think it your duty to obey your Sovereign; if you are disposed to peace, you will pursue the things that tend to peace, and if you are friends to your Country, you will guard against the evils that threaten her destruction.

*Message of Gov. Wentworth, March 9<sup>th</sup> 1741-2.*

[Copied from MS. "Gov<sup>s</sup> Messages," in Secretary's office, p. 235.]

*Gentlemen of the Assembly*

Your votes of the 6<sup>th</sup> Instant regarding the Revenue you intend for my support is far short of my expectations and so full of uncertaintys, that I would recommend it to your further consideration, hoping you will Judge impartially on the affaire which more nearly concerns you, as the representative body of the People, than it do me. In both your votes I only desire such amendments as will be for your honour, and render them clear and intelligible to those that will Judge more clearly of their perfection than I can pretend to.

You will observe that the £6000 to be Emitted is for the support of Government, and it will appear very strange in the eyes of the ministry, that I should sign an Act for that sum wherein you have only made provision for £250 for my support, which is all that you certainly can depend upon, and which no Gentlemen in the House can think an Honourable Support.

In the £25,000 vote, you likewise provide for my further support £250 more, which I hope you will likewise reconsider, and make a reasonable addition to, either in one or both, as you shall Judge most convenient: For if I should obtain the £25,000 it will be a certain revenue to the Government of £1500 pr Annum, and out of both these bills, I hope you will think it reasonable and Just I should be Honourably supported, and if you equally divide the whole sum upon the two bills, it will appear that you have done what you were able, and will manifest your disposition to do more if it was in your power, all which may be effected without laying any burden on the people which I am far from desiring.

*His Excellency's Message.*

[Copied from MS. "Gov<sup>th</sup> Messages," in Secretary's office, p. 237.]

*Gentlemen of the Assembly*

Your Message of the 10<sup>th</sup> I have given its due consideration, in which you are pleased to say that considering the distressing circumstances of the people (which I assure you I have a great regard to) you are not able to make any further allowance, and since that is your determination, you will think it reasonable to make your votes clear, so as not to admit of any doubt and that the sums therein mentioned, if you don't think proper to make any addition thereto, may be fixed on me during my administration, as it will be much easier to alter votes than long acts.

The great dispute with me is whether if I should consent to the present votes and they pass to be enacted, whether the King will think his Instruction has due obedience paid to it. That is, Whether the sums contained in the Acts will be esteemed a competent Salary for the support of the King's Governor. If you think it will, I shall the more readily come into it.

You must observe that the £6000, I have the Kings leave to issue for the support of Governm<sup>t</sup> only, is by your vote wholly wrested out of my power, & that I think you ought in some shape or other to make some provision for me out of that money at least for the present.

What I desire is that you may make the necessary alterations in the votes by which the Act is to be drawn. If you don't think it just to make any addition, especially if you consider that the Grants you make me will be paid without any tax on the people & they will have an overpluss if the bill succeeds for other purposes, so that on that account you can have no complaint I have sent down pr Mr. Atkinson the votes, with the Message, which he will wait the doing of & return to me:— your compliance will put a speedy end to the session & be a means of making the Province easy & happy.

In the House of Representatives, Mar. 13<sup>th</sup> 1741—.

Whereas the sum of £6000 in Bills of Credit Equal to Proclamation Money that is to be emitted for the service of this Govern<sup>mt</sup> will help us to the discharging of our present Debts, yet it will be utterly insufficient to repaire his Maj<sup>ties</sup> Fort Wm & Mary, Build Block Houses & sundry other things that will be of absolute necessity for the present defence of his Maj<sup>ties</sup> Govern<sup>mt</sup>, having a large Frontier to defend besides the carrying on the settlement thereof, And altho' this House would be willing to give a more Hon<sup>ble</sup> support to his Maj<sup>ties</sup> Governor than our present circumstances will admit of and are utterly unable to do unless his Majesty will be pleased graciously to condescend to a further Emission of Paper Currency not exceeding £25,000 in bills of credit equal to Proclamation money:

[p. 636.] Wherefore Voted, That there be a Bill bro't in with a suspending clause therein deferring carrying the same into Execution until his Maj<sup>ties</sup> pleasure be had thereon, so that if his Excell<sup>y</sup> shall obtain his Maj<sup>ties</sup> Royal Assent for the Emission of

£25,000 in Bills of Credit Equal to Proclamation money to be let out in the several Towns in Proportion for ten years at the Rate of six pr et pr Annum, and that the Interest arising therefrom shall be granted to his Maj<sup>ty</sup> for and towards the support and defence of the Province as shall be Provided for by the Gen<sup>l</sup> Assembly in the Act :

And Whereas from the distressing circumstances the Inhabitants are at present in, the assembly can't without oppressing their constituents Grant to his Excell<sup>y</sup> a salary Equal to support the dignity of his office, in conformity to his Maj<sup>ty</sup>'s Instructions, unless his Maj<sup>ty</sup> is pleased to give his Royal assent that this Bill shall be carried into Execution,

Therefore, That his Excell<sup>y</sup> may be more Hon<sup>ly</sup> supported than it has been in our power to provide for before,

Voted, That out of the Interest arising from the £25,000 aforesaid, as soon as so much shall become due, there be paid to his Excell<sup>y</sup> Benning Wentworth, Esq. *Gentlemen of the Council and Assembly*

I have nothing immediately in Comand from his Majesty to lay before you at the opening of this Session, therefore you will be able to go through the weighty things that lay before you with greater dispatch.

Amongst which I would recommend to your consideration the Passing an Act to prevent persons selling rum to the Indians on the frontiers of the Province, more particularly unless such shall be licensed by authority, and under proper restraints:—should such an Act be neglected evil minded persons, inhabiting near the lines may by their ill treatment of these people create disputes of such a nature as must necessarily terminate in a war, which in our present situation is of the last consequence to avoid.

*Memorial to his Majesty.*

[Copied from MS. "Addresses to the King in Sec<sup>rs</sup> office," p. 66.]

To the King's Most Excellent Majesty in Council: The Humble Petition of the Council and Assembly of your Majesty's Province of New Hampshire in General Assembly convened:

*Humbly sheweth,*

That it has been your Majesty's Will and Pleasure to settle and determine the boundary lines between this and your Majesty's Province of New Hampshire and the Province of the Massachusetts Bay, which had been matter of dispute subsisting near seventy years.

That your dutifull and Loyall subjects of the Province of New Hampshire being duly sensible of your Majesty's great goodness and compassion extended to them, in determining that unhappy dispute, show'd the great obedience thereto, and paid the whole expence in running and marking out the boundary lines, the charge whereof, together with what arose in defending themselves against the claims of the Massachusetts while the matter was depending before your Majesty, has greatly Impovrished the Inhabitants and tended to prevent the Increase of the Province.

That in consequence of your Royal determination of our boundary the General Assembly have settled a Salary on your Majesty's Governor under whose administration we are perfectly easy and happy to the utmost of our ability, and we doubt not but all succeeding Assemblies will pay the greatest regard to the Royall order in that Respect.

That New Hampshire lookt upon this happy Event of your Majesty's wise and just determination as a means to put an end to all future disputes and expences; but such is the restless temper of some of the wealthy Inhabitants of the Massachusetts and others by their instigation, that they seem to threaten the ruin of your Majesty's subjects in New Hampshire, by bringing upon them a new and an unnecessary load of debt, and having possess'd themselves of a larger tract of land in your Majesty's Province of New Hampshire than the old inhabitants have at this time under Improvement by virtue of their own grants, and without any reserve made of white pine trees fit for masting the Royal Navy, which is the tenor of all grants made by this Government, and the far greater part of said grants actually made when the dispute was pending before your Majesty in Council: Under these circumstances, some of the Inhabitants of the Massachusetts Bay have presumed to Petition your Majesty to confirm those grants, and thereby make an infringement on the most solemn Determination of the Great Council of the Nation, approved of and confirmed by your Majesty.

We therefore humbly beg leave to represent to your Majesty that all those Petitions have been obtained for sinistre ends and purposes disadvantageous to your Majesty, and should the Prayers of any of them be granted, and thereby the least infraction made in your Majesty's Royall and most solemn Determination of the boundarys run and settled, it would open a door for innumerable and endless disputes and contentions; for whereas the single boundary between the two Provinces has cost so many years Expence and Trouble, it must be impossible to hope that so many new and uncertain boundarys as granting any of these petitions must create, can ever be settled, and therefore all that your Majesty has lately done for peace, happiness and Tranquillity of your subjects must be rendred fruitless and ineffectual, and your Majesty's subjects again plunged into a more deplorable state of confusion than that from which your Majesty in your great wisdom lately delivered them from, by your Royall determination of the so long contested boundarys between the said Provinces.

And we humbly begg leave further to represent to your Majesty, that your dutifull & faithfull subjects of New Hampshire are utterly unable to defend themselves against the opulent Inhabitants of the Mass<sup>ts</sup> Bay in any new contest, & should the Petitioners be indulged to carry their designs into Execution, it must bring upon us a heavier charge than we are able to support

under & we must be under a necessity to lay ourselves at your Majesty's feet for protection & assistance.

Wherefore your Petitioners most humbly pray that your Majesty would be graciously pleased to reject all applications that have been made or may be made to your Majesty by the agents or Instruments of the Province of the Massachusetts Bay, which so manifestly tends to the utter destruction of New Hampshire, and to involve your Majesty's good subjects of both the said Provinces in endless disputes, and that your Majesty will not suffer the least infraction to be made in that only certain basis of peace and Tranquillity that your Majesty has most graciously fixed and established by the late determination of the certain Boundaries between the said Provinces. And your Petitioners as in duty bound shall ever Pray.

Province of New Hampshire,

Portsmouth, 17 May, 1742.

Wee the subscribers being appointed a Committee by the Governor, Council and Assembly, to call the first meetings in the several Towns within this Province [See Journal of the House, p. 153] that fall within the lines according to his Majesty's determination in Council, in order to their paying a Province tax, do declare that in that part of Salisbury, Amsbury, Haverhill, Methuen, Dracut, Dunstable, Litchfield & Nottingham, & the other Towns we visited & held meetings in, the people were well satisfied & contented to be under the Government of New Hampshire, and that they were under no dissatisfaction upon any account but in three or four Towns where the Parrishes were divided, which if by an act of both Governments, that is the Province of the Massachusetts & New Hampshire, they could be enabled to carry on their Parrish affairs, they would in General be entirely easy. This we declare to be the truth according to the best of our knowledge before His Excellency Benning Wentworth, Esq. Governor & Commander in Chief of his Majesty's Province of New Hampshire.

[Copied from MS. Corr. in Sec<sup>ys</sup> office, p. 151.]

At the Court at St. James's  
the 19<sup>th</sup> day of January 1742—

Present

The Kings Most Excellent Majesty in Council.

Upon reading at the Board a Report from the Right Honourable the Lords of the Committee of Council for Plantation affairs, Dated the 17<sup>th</sup> of this Instant in the words following, viz.

"Your Majesty having been pleased by your order in Council of the 15<sup>th</sup> of September last to refer unto this Committee the humble address of your Majesty's Council and Assembly of the Province of New Hampshire, setting forth that Fort William & Mary, the only Fortification within that Province for the protection of Trade and security of the Ships that load Masts for your Majesty's Royal Navy, is in a ruinous and Defenceless Condition and, in time of Warr, in continual Danger of a Surprise from his Enemie, for want of Stores of War to defend it, and therefore most humbly entreating your Majesty to grant them such a supply of Powder, great Guns and Carriages, small arms, and other Store of War, as your Majesty should think proper and sufficient to defend the said Province from an attack by the Sea & Land—The Lords of the Committee, in obedience to your Majesty's said order of Reference, did, on the 24<sup>th</sup> of Novemb<sup>r</sup> last, take the said address into their consideration, and thought proper to refer the same to the Master General of the ordnance, who hath transmitted to this Committee a Report made thereupon by the Board of Ordnance, Whereby it appears that as the Province of New Hamp<sup>s</sup> is now independent of the Governm<sup>t</sup> of the Massachusetts Bay, they can expect no succor from that Quarter, & that the said Fort, which they understand to be the only one there is in the Province, is in a ruinous and defenceless condition, and are, therefore of opinion that the same ought to be supplied with guns and Stores (Powder and small arms excepted) as well for the Protection of Trade as for the security of ships that load masts for your Majesty's Navy; that as to the Guns now there, the said Board of Ordnance are apprehensive that they are not to be depended upon, and that all of them want carriages, and their Dimensions not being certified, they cannot supply the petty *emptious* proper, much less make carriages fit for them; that they have no plan of the present Fort, nor can the Agent who has been discoursed with upon this occasion, furnish the said Board of Ordnance w<sup>th</sup> one; but, by the account both the Governor and he gives, the same must be in a manner entirely rebuilt, and the said Board cannot learn from him that there is any Person in the Province duly qualified to direct the Building a Fort sufficient to answer the ends proposed. Under these difficultys they can only offer their opinion that an able Engineer should be sent there with Instructions to search & take the Dimensions of their Guns, to assist the Inhabitants in rebuilding Fort William and Mary, and to transmitt a plan thereof, together with his report concerning the same; that the said Board may be competent judges of what nature and number of Guns it may be proper to

supply this Province with. The Lords of the Committee, upon considering thereof do agree humbly to report as their opinion to your majesty, that an Engineer should be forthwith sent by the Board of Ordnance to that Province for the purpose aforesaid, unless there should happen to be one already in those parts, who may be able to attend this service."

His Majesty, this day took the said Report into consideration and was pleased, with the advice of his Privy Council, to approve thereof, and to order as is hereby ordered, that an Engineer be forthwith sent over to the said Province of New Hampshire, unless there should happen to be one already in those parts who may be able to attend the aforesaid service, and that he be Instructed to Search & take the Dimensions of the Guns which are now in the Province of New Hampshire, to assist the Inhabitants in rebuilding Fort William and Mary, and to transmitt a plan thereof, together with his report concerning the same, to the Board of Ordnance, that they may be enabled to represent to his Majesty at this Board, the nature and number of Guns it may be proper to supply this Province with. And his Grace the Duke of Montague, Master Generall of the Ordnance to give the necessary Directions herein accordingly.

W. SHARPE.

To his Grace, the Duke of Montague,  
Master General of the Ordnance.

It having been represented to his Excellency that many of the Inhabitants residing on the King's Lands, since his Majesty has been pleased to determine the boundarys between this Province & the Massachusetts Bay, have refused to pay their Taxes towards the support of their Ministers, alledging that there is no Law of the Province to oblige them thereto; I am therefore by his Excellency's Command to inform the respective Inhabitants, that it will be very agreeable to the Governor that you & each of you, who have been delinquent on that occasion, do forthwith comply with your obligations in regard to the payment of your Ministers, as a contrary behaviour will incur his Excellency's displeasure.

[The Message or Speech by the Council here referred to is not found on record or on file, but the following *answer* to it is copied from MS. Correspondence, in Sec<sup>y</sup>'s office, p. 167.—Ed.]

The answer of the House of Representatives to the Message of the Honourable his Majesty's Council of the 13<sup>th</sup> curr<sup>t</sup> Relating to the House's Vote for choosing of a Recorder.

*Gentlemen of the Council.*

By your Mess<sup>a</sup> of the 13<sup>th</sup> Inst you are pleased to observe to us, It is of the most dangerous consequence to make the least infraction in the Constitutional Rights & Priviledges of any Government (and then go on further to say) "which by your vote of this day you seem to have done in respect of the choyce of a recorder." To which we answer, That the least infraction on the Constitutional Rights & Priviledges of any Government is dangerous. But how choosing of a Recorder for the preservation & safety of the rights of this People only which they have purchased at so Dear a Rate, does center in the three parts of the Legislature & reckon'd a Constitutional right, or how his Majesty's Council can have their Power dissolved by placing that power in one branch which absolutely belongs to it, we cannot see it to be the least Infringement on the prerogative, or the invading their right in the least; neither can we see what the prerogative has to do w<sup>th</sup> the records of the People's Rights & Titles of their Lands, &c. And as for the Councils saying they will Joyn y<sup>e</sup> House according to the known Rules & Customs of the Government, we know no established Rule or Law for lodging y<sup>r</sup> power in the three branches of the Legislature & wresting such a Priviledge from the People

even by any custom immemorial, & allow it had been a custom for some time, yet as we have some considerable alterations in y<sup>e</sup> Government, & when the People see y<sup>e</sup> Dangerous consequences attending the same in taking away from them one of their most valuable Priviledges & to be guilty of confirming the same, wo<sup>d</sup> as we apprehend be establishing Iniquity by a Law, & must therefore be the most Dangerous & fatal foundation for the Interest of the good People of this Province—for should the three parts of y<sup>e</sup> Legislature not agree (as it might happen) our Records might be shut up for ever.

So upon the whole y<sup>t</sup> as the Honourable Council is pleased to tell us y<sup>t</sup> the heavy charge y<sup>t</sup> has or may attend a delay of this affair may not rest w<sup>th</sup> them, to this we say that if we must be subjected to a method w<sup>h</sup> has a Direct tendency to the giving up a most valuable priviledge of the People, if the charge is considered, we cannot *conceive* by any means how it is any fault in us, for by the same rule we may surrender all *all* our Priviledges. For which reasons we can by no means comply with the method proposed by his Majesty's Council; & yet at the same time if it can be done in a method whereby the right may be still invested in the People only of choosing a Recorder & preserving to them so valuable a Priviledge, its very far from us to enter into any Disputes w<sup>th</sup> his Majesty's Council upon this—if their objection to our vote be only w<sup>o</sup> effect (1) to the Town Clark & Select men of Ports<sup>m</sup>.

*Answer to the Council's Message, May 26, 1743.*

[Copied from MS. "Correspondence," in Secretary's office, p. 171.]

In the House of Representatives, May 26<sup>th</sup> 1743. Voted That there be a Message sent to his Maj<sup>ty</sup>s Council as follows, viz.

*Gentlemen of the Council—*

By your verbal message yesterday to this House delivered by Mr. Sec<sup>y</sup> Atkinson you was pleased to observe that y<sup>e</sup> Choise of a Recorder has been always in y<sup>e</sup> Three Branches of y<sup>e</sup> Legislature, and for proofe thereof at y<sup>e</sup> same time delivered sundry Records or Minuits from y<sup>e</sup> Council Books, w<sup>ch</sup> we have carefully Examined. The Act on which you seem to Rely and point out, is bearing date y<sup>e</sup> 8<sup>th</sup> of June 1697, which is as follows:

"Be it Enacted by y<sup>e</sup> President and Council and Representatives convened in General Assembly, and it is hereby Enacted by y<sup>e</sup> authority of y<sup>e</sup> same, that all Records of all kinds Belonging to this Province before y<sup>e</sup> arrival here of Jno. Usher, Esq. Lieut. Gov<sup>r</sup> be deposited into y<sup>e</sup> hands of Maj<sup>r</sup> Wm. Vaughan, Esq. at Ports<sup>m</sup>, he giving copies to any that have occasion taking the usual Fees for y<sup>e</sup> same."

But how this act shews that this Gentleman was then chosen a Recorder for this Province we can't conceive (for it plainly says y<sup>e</sup> Records of all kinds) so by y<sup>e</sup> Rule he was then chosen into many other offices even as many as had publick Records, w<sup>ch</sup> to us seems very preposterous; but we rather incline to Believe y<sup>e</sup> true Intent was that y<sup>e</sup> Records of all kinds was then Delivered into Mr. Vaughan's hands for safe keeping; For as some time before y<sup>e</sup> good people of this Province seemed to be threatened with y<sup>e</sup> total loss or at least y<sup>e</sup> misuse of y<sup>e</sup> Records, and so its likely had been, had not Capt. Jno. Pickrin by force taken them from one Sec<sup>y</sup> Chamberlin(1), under Gov<sup>r</sup> Cranfields administration in y<sup>e</sup> year 1689. Since which and from that time up to this time until within about this 20 years it never appears to us that y<sup>e</sup> choise of a Recorder was by y<sup>e</sup> Gov<sup>r</sup> Council and Representatives; and indeed had y<sup>e</sup> *President* (2) been longer we should think would have no weight at all considering all things, for as this Province was mostly under a Gov<sup>r</sup> who was att y<sup>e</sup> same time Gov<sup>r</sup> of y<sup>e</sup> Mass<sup>a</sup> and y<sup>e</sup> Intrest of that and our Province of N. H. clashing, and y<sup>e</sup> Gov<sup>r</sup> mostly maintained out of that Province w<sup>ch</sup> naturly had a tendency to alienate their hearts from us, so we apprehend did not seem so likely that we could have common justice done us; but now that Difficulty being removed we hope and trust and have y<sup>e</sup> greatest Reason to Depend on *Justice*, clemency and favour from his Excellency & this Hon<sup>ble</sup> body, in establishing our Rights & Priviledges, so that on y<sup>e</sup> most mature Deliberation and as well as by y<sup>e</sup> advice of our constituents, we adhere to our former vote.

*Gentlemen of y<sup>e</sup> Council*

By your verbal message of the 27<sup>th</sup> curr<sup>t</sup> Delivered by Sec<sup>y</sup> Atkinson & Rich<sup>d</sup> Wibird Esq<sup>r</sup> as you seem to be fixed and determined in choosing a Recorder by y<sup>e</sup> three branches of y<sup>e</sup> Legislature, to w<sup>ch</sup> we can by no means consent to, for y<sup>e</sup> many Reasons heretofore given you, but att the same time rather than to have any Dispute with his Maj<sup>ties</sup> Councill on this affaire we would consent to this, viz:

That y<sup>e</sup> Towns in this Province that doe send Representatives shall choose

(1) See Province Records, Vol. II, pp. 295, 296, 302.—ED.

in each Respective Town the same number of men to be Electors, and when so chosen shall meet together and choose a Recorder; so that if his Maj<sup>ties</sup> Council shall think proper to come into this method or any other whereby y<sup>e</sup> choise of a Recorder may be invested in y<sup>e</sup> people only, whose Right we esteeme it to be, we shall come into it.

Voted, That Rich<sup>d</sup> Jenness & Geo. Mr. Sec<sup>y</sup> came with a Mess<sup>a</sup> from the President of the Council to know if the House had any thing to send up. The Speaker answered there was nothing before the House to send up.

In the House of Representatives June 1<sup>st</sup>, 1743. Voted, That there be a Message sent to his Majesty's Council in Answer to their Message yesterday sent down by the Secretary as follows, viz.

*Gentlemen of the Council—*

By your verbal Message to this House yesterday by Mr. Secretary Atkinson, with respect to our votes & Messages for a Recorder, you was pleased to tell us that you could not by any means comply with them in one shape or another: To which we answer That the House in condescension to his Majesty's Council propos'd sundry ways whereby a Recorder might be chosen—Provided it might be invested in the People whose undoubted right and Privilege we esteem it to be, & propos'd to comply with it in any reasonable way. But since you seem to be resolv'd not to concur with us in any of our proposals, but insist on your own, which method we apprehend strips his Majesty's good subjects of a very valuable Privilege to which we can by no means consent to, But are determin'd to adhere to our last vote in our Message, sent up the 28<sup>th</sup> of May last, with respect to a Recorder.

*Message of his Excellency, June 6<sup>th</sup>, 1743.*

[Copied from "Gov<sup>ts</sup> Messages," in Secretary's office, p. 253.]

*Gentlemen of the Assembly—*

The message I sent you on Saturday last, by the Secretary, required a Categorical Answer; instead of which, the answer you were pleased to return was, that the House was ready to proceed to the choice of a Recorder conformable to their own votes only, which I did not regard as an answer to my Message. This made it necessary for me to adjourn the General Assembly to this day.

On the 10<sup>th</sup> of May I met you in General Assembly, and after I had recommended in the most earnest manner, that unanimity & a serious attention to the public good might spread thro' every branch of power, I moved to you in terms which you have not forgot, that you would proceed to the choice of a Provincial Recorder, which to this day you have disregarded.

Upon the death of the Hon<sup>ble</sup> Joshua Peirce, Esq. late Recorder, I gave you an early testimony of my concern for the public, respecting the Records, whereby you had an opportunity put into your hands to open the records.

Immediately, and without any prejudice as I conceived to the Constitution, this you rejected;—for what reason I am not at present able to determine.

The present state of the Records I must observe to you, prevents the Courts of Law & Justice from having their due course, opens wide gates for expensive disputes amongst the people, greatly prejudicial to his Majesty's good subjects, & prevents me carrying my Royal Master's commands into Execution; and if you, Gentlemen, thro' a mistaken zeal for the public good, or an over tenderness for the rights of the people originate disputes with his Majesty's Council on the mode of choice only (whether against Law, & precedent, I leave you to judge) who shall be answerable for the Event.

*Gentlemen*

Let me advise you to consider who you are contending with. Is it not with yourselves? Consider the evils that may arise from this dispute, and con-

sider also, that if it does not happily Issue, it may terminate in taking out of your hands what you are contending for, which otherwise might remain unshaken, & you & your Posterity might continue in the full enjoyment of this valuable privilege to the end of time.

The Enemies of our Constitution & Government will never gain any advantage over you while you are united amongst yourselves, but if once this Union is dissolved & the public tranquillity broken, the Enemy will soon take the advantage of our calamity. This has been the unhappy fate of great Citys & Kingdoms & may be ours, should intestine Jars & animosities prevail amongst us.

In the close of my first speech from the chair I caution'd you against false representations of things, which if once received, might deceive the honest & well disposed minds; I caution'd you also against persons that might make the lest attempt on the public tranquillity, let the attempt be disguised under any specious pretence whatever. Such a conduct I told you would give weight to your public deliberations & reflect honour on the Government.

Be assured that in this Message I have no views or designs of my own to answer, but what tend to the peace & welfare of my country & the happiness of the generations yet to come; far be it from me to seek to aggrandize myself in the ruins of my country. I neither mean or intend to Rob you of the lest of your privileges but would rather contribute to advance & Increase them, consistant with my Master's commands, which as a faithfull servant I shall endeavour to preserve, and I have so good an opinion of the House of Representatives as to think the far greater part meant & intended well in the stand they have made, but it is against custom & president in a Parliamentary way to pursue measures destructive to a country without a probability of success, & for that reason it is no dishonour to give up a point which can't be supported. Therefore, Gentlemen, let me advise & desire you to seek peace & pursue it. Consider the interest of your country calls upon you to do it. Come to some speedy reconciliation with his Majesties' Council in respect to the choice of the officer now depending, and so absolutely necessary to be Immediately Elected, and you shall have my good offices to assist you; and in this & in every thing else, you can reasonably desire, and tho' the Public concerns call for a longer day for your sitting, yet when this important affair is finished, I shall adjourn you for a short time.

B. WENTWORTH.

*Message of the Governour, June 22, 1743.*

[Copied from MS. "Gov<sup>rs</sup> Messages," in Secretary's office, p. 257.]

*Gentlemen of the Assembly,*

I was hoping that the short adjournment I gave you would have bro't you together determined to pursue the Publick Concerns with cheerfulness, & that the first thing *you* would have acted upon would have been to make choice of a Recorder in the ordinary & customary way.

It is an unhappy circumstance attending this Session that any other way or method was enter'd upon, but since it was the general voice of the House to go upon a new method, which they conceived would have been advantageous to the people could it have been obtained, I should think the time already spent on that subject, the opposition it meets with in the King's Council & the utter impossibility of effecting it without his Majesty's especial leave, would be an ample justification to the House of the care & concern you have taken for your constituents upon this occasion, & therefore out of tenderness to the people, whom Providence has given me the care of & whose interest I shall ever seek to advance, I am in duty bound to press the choice of a Provincial Recorder to you once more, and that it be done without any further delay, assuring you that no alteration can be made in this or any other Branch of our Constitution without I first obtain my Royall Master's leave therefor. This I think proper to lay before you to prevent disputes of this nature in future.

*Governor's Message.*

Sept. 28, 1743.

*Gentlemen of the Assembly,*

Upon a complaint of Samuel Solly, Esq. Collector of his Majesty's Customs in the Port of Piscataqua, That on the Thirty first day of Aug<sup>st</sup> last, between the hours of ten & eleven at night, several persons seiz'd the person of Cyprian Jeffrey, a waiter belonging to his Majesty's Customs in the Port aforesaid, & did treat him in a most violent & barbarous manner, as is more fully set forth in the complaint of his Majesties' Collector, which I have directed the Secretary to communicate to you. The persons thus assembled in this tumultuous manner, being apprehensive of a prosecution dropt in the House of Matthew Livermore Esq. a threatening letter, hoping thereby to Intimidate the Attorney General from Prosecuting them, if any discovery should be made of their crimes. The original letter the Secretary will also communicate to you, upon which I make no doubt but you will vote a sufficient Reward to enable me to Issue out a Proclamation for the Discovery of the person or persons concern'd in this Riot, that they may be brought to condign punishment.

*Message of his Excellency.*

[Copied from MS. "Governor's Messages," p. 271.]

*Gentlemen of the Assembly —*

By your Message of this day by Coll. Samuel Gillman & George Walton, Esq. you seem absolutely determined either to force me to give up the prerogative of the Crown, or to prevent the supply I promised the Indians this winter at Canterbury.

The Royal prerogative, I now assure you I dare not presume to give up, and if you prevent my engagements with the Indians you must consider that your House only will be answerable for the ill consequences that may issue; therefore when you fully weigh these things, I am persuaded, in favour to your country, you will reconsider your vote of 22<sup>d</sup> Decem<sup>r</sup> that it may come to me free of any clogg whatsoever, thereby my good purposes to the Province will not be frustrated.

By his Excellency William Shirley, Esq. Captain General & Governour-in-Chief in & over his Majesty's Province of Massachusetts Bay in New England.

Whereas it appears to me that his Majesty has been pleased by his Royal Warrant bearing date the twelfth day of December 1743, in the seventeenth year of his Reign, to constitute and appoint his Excellency Benning Wentworth Esq. his Majesty's Governor of New Hampshire to be surveyor general of all his Woods within the Colonies & Plantations in America, and whereas the said Benning Wentworth Esq. has signified his desire that I would issue my Warrant to the proper officers within this Province (and more especially within the county of York) to do what may be necessary on their Part for the assistance of himself & his Deputy Surveyors in the Execution of their office:

I do therefore hereby require all his Majesty's Justices of the Peace, Sher-

*May it please your Excell<sup>y</sup>.*

We have heard that your Excell<sup>y</sup> & the Gen<sup>l</sup> Court of this Province have projected to build a Truck house in order to supply us with such things as we want from the English & it is very pleasing to us that your Excell<sup>y</sup> and the Prov. have shown so much Respect & good will towards us. And we humbly think that if it be set there it will be more Damage than benefit to us. And we humbly desier that if a Truck House be built it may be set at a place which we call the carrying place, which is on the East side of the River which runs out of Winnipissioke Pond ag<sup>st</sup> the mouth of Pemichewassue River (2). [NOTE. The following Message, which is without date, was probably written about this time.—ED.]

[Copied from MS. "Governor's Messages," in Secretary's office, p. 273.]

*Gentlemen of the Assembly,*

I thank you for the assistance you have so cheerfully given me for the defence of his Majesty's subjects, which shall be Employed in the most useful manner for the defence & Protection of the Frontiers.

Before I dismiss this Convention of the members of the General Assembly, It will be very agreeable to me to know the Sentiments of the Assembly what Premium I may promise for scalp money, if the Indians should give occasion to Employ men in that service, before I meet you in General Assembly.

I think it also necessary to be provided with a number of whale boats for the use of Merrimack River & the Great Pond, which I conceive would strike greater terror in the Enemy, than any other expedient, I can at present think of. Winnipissioka pond has been the Asylum & safe retreat of the Indians in former wars, after they had committed hostilities on our frontiers, and if they are driven from that quarter, by a number of whale Boats, I am persuaded our frontiers will be more secure than in past Wars.

B. WENTWORTH.

Province of New Hamp<sup>s</sup>.

The answer of the House of Representatives to his Excell<sup>ys</sup> Speech of the 19<sup>th</sup> June last.

*May it please your Excellency*

We have considered the several particulars in your Excell<sup>ys</sup> Speech and shall endeavour to act in every one of them, as will be most consistent with our Duty to his Maj<sup>tie</sup> and with the trust reposed in us by those whom we represent.

(1) This Message is not found on record.—ED.

(2) That is the Speech of 19th of June, 1744.—ED.

We are not insensible of what your Excell<sup>y</sup> is pleased to observe of the misrepresentation of our Gracious Sovereign, and the unjust Reflections upon his conduct in the French Kings Declaration of War, & shall be ready upon all occasions, and as is proper for persons in our place & station.

As to what your Excell<sup>y</sup> mentions of our Refusing to do w<sup>t</sup> was proper in order to an Interview with the Indians. We can't possibly think ourselves any wayes to blame, as we voted a sum for that Expence, and never knew till now that your Excell<sup>y</sup> tho't said sum to be insufficient.

With regard to the Repairs necessary to be made for his Majt<sup>ies</sup> Fort Wm. & Mary we are now Repairing & shall be ready to do all that is in our power. As to Lodging a Fund in the Treasury for Emergencies we shall be ready to do all that is proper, if Bills of Credit can be Emitted, or any way found out for the same, and your Excell<sup>y</sup>'s Proposal with relation to a Fort at Winnipishiokee &c. we refer to our Vote sent up thereon Dated 26<sup>th</sup> June last past.

As to the Addition of men at Fort Wm. & Mary with suitable Subsistances, We say we are ready to do all that is Possible considering our present Circumstances, But should be glad to do much more, if a way can be found out for Emitting a sum of Bills of Credit or such other methods as shall be tho't practicable.

Your Excell<sup>y</sup> is pleased in the next place to recomend to us the example of the northern Governments in fitting out a ship of War to Defend our sea Coasts, But we think this will be an Expence to heavy for us in our present circumstances.

As to what has been transmitted your Excell<sup>y</sup> of what has passed in the Gen<sup>l</sup> Court of the Mass<sup>a</sup> of appointing Commiss<sup>rs</sup> to meet at Albany in order to an interview with the six Nations, the House was then not in a capacity of acting being adjourned to a Longer Day, and the notice given your Excell<sup>y</sup> so short that it was impossible to do any thing thereon.

And as to our affording any assistance for the Reinforcement of his Majt<sup>ies</sup> Garrison at Annapolis Royal, we shall be glad upon all occasions to pay our Duty and express our gratitude to his Maj<sup>ty</sup>. But we can't think that he will expect, or think it reasonable that we should look so far abroad, till we were better provided for our security at Home, or that we should exert ourselves for the Protection of a remote Fort or Garrison, till our own was in a proper posture of Defence.

Upon the whole, we assure your Excell<sup>y</sup> that we shall have the safety of our Country and the Publick good verry much at heart, & shall Endeavour (by the help of God) as far as we are concern'd, with all possible Dilligence and unanimity to pursue the measures that may be conducive to it.

And<sup>r</sup> Wiggin, Speaker.

July 3, 1744.

Thursday, July 5<sup>th</sup>, 1744, The House met.

Committee ordered out to tell the money and to Remonstrate to his Excell<sup>y</sup> what money may be wanted for carrying on the War and Fortifications, Powder, &c.

*The Remonstrance of the Committee appointed, &c.*

[Copied from MS. Correspondence in Secretary's office, p. 213.]

Forasmuch as by a Resolve of the Gen<sup>l</sup> Ass<sup>m</sup> of this day appointing us the subscribers a Committee to Remonstrate to his Excell<sup>y</sup> the Gov<sup>r</sup> the Necessity of an Emission of Paper Money, for the actual Defence of this his Maj<sup>ties</sup> Province, & the Inhabitants thereof, to make an Estimate of the sum Required to be Issued for six months, and also to Report the shortest Periods for calling in the money so Emitted:

We have taken the said Resolve, and the several things therein mentioned under consideration, And do report as follows, viz.

That in order to safeguard the River Piscataqua, the only Sea Port in the Province, from the Insults of the Enemy that may attack us by Sea, There is an Immediate & absolute necessity to have the Wales Platforms & Carryages of the guns at Fort Wm & Mary repaired, or made new, which, with the small Stores necessary for action will cost (for the artificers, laborers & materials to put the said Garrison in any tolerable condition for Defence) by the shortest Computation, at least one thousand five hundred pounds, £1500.

We also think it absolutely necessary to have a Fort at the Great Pond Winipissiokee which we conceive will be of Emminent service in Preventing

the Enemy from passing by water neare our Inland frontiers & to Lodge Provision & Ammunition for our soldiers and volunteers, and to have a number of Whale Boats secured there to Scout the Pond, and Rivers there adjacent. This Expence will be at least for Building Fort & Boats one thousand Pounds, £1000.

That there is the same necessity for fifteen men to be post'd at Fort Wm & Mary to learn the Exercise of the Great Guns &c. which at 50s pr month Each will Am<sup>o</sup> to for six months, £225.

The same number of men for the Fort at the Pond for six months at the same rate is £225.

That in order to the Least Defence it is necessary to have purchased for the use of the Province at least fifty bbs. of Gun Powder w<sup>h</sup> at £12 : 10s is £625.

That in case of an Indian War our inland Frontiers cannot be defended in any safety in the several Parts of the Province w<sup>h</sup>out two hundred men being Employed in that service & that each man for subsistance & wages cost pr month 50s which for six months amounts to £3000.

And inasmuch as we have always experienced in former wars with the Indians that volunteers have struck the greatest terror and have been of the most service in annoying the Indians, we think it of the last consequence that the Treasury should be supplied with a sum of money for a Premium for Scalps & an Incouragem<sup>t</sup> to such men as shall pursue the enemy into the Wilderness, & the least we can imagine necessary for this service is £2000.

We also advise to the purchasing small arms for the Fort, &c. without which no Defence can properly be made at either Garrison, & that a sufficient number will cost £200.

And that as in the carrying on the War against her Maj<sup>ties</sup> Enemies many necessary charges may arise which will call for sudden supplies, it will be necessary to have a stock in the Treasury for such Emergencies, at least £1225.

The several sums amount to £10,000.

All which is in addition to the comon and ordinary charge of this Governm<sup>t</sup>, and comes suddenly upon it by reason of the war, so that there is no money in the Treasury, which renders it intirely unable to do what is absolutely necessary for its subsistance, and we can see no way to support the Hon<sup>r</sup> or the very being of the Province unless his Excell<sup>y</sup> can be prevailed upon to Grant an Emission of Paper money sufficient only for these necessary unforeseen Extraordinary Expences.

His Maj<sup>ties</sup> Instruction that his Excell<sup>y</sup> hath been pleased to lay before the Gen<sup>l</sup> Court touching the Emitting Paper Bills being, we humbly concieve calculated for the good of the Province in time of peace, when their charges that are now absolutely necessary for the support of the Province could not be tho<sup>t</sup> of by his Majesty.

That as that Instruction was intended purely for the benefit of the Province in that time, to give it no greater a Lattitude in its construction than barely the Letter, must at this time unavoidably prove its utter ruin which we are sure could never be his Maj<sup>ties</sup> Intentions.

And for a Fund for drawing the said sum of Bills into the Treasury againe, we think it advisable that the same (so much of it as is not provided for by the Interest of the £25000) should be repaid by a Tax upon the Poles & Estates of the Inhabitants in four equal annexed Payments, viz. 1745, 1746, 1747, 1748.

All which is humbly submitted, by,

Geo. Jaffrey  
Theo. Atkinson  
R. Wibird  
Peter Gilman  
J. Odiorne  
John Gage.

In the House of Represent<sup>s</sup>, Voted that there be paid out of the Publick Treasury to Theo. Atkinson Esq. the sum of fifty Pounds, for all his services as Sec<sup>y</sup> and other extra services don by him for the yeare 1743 to the 25<sup>th</sup> of March, 1744, in full.

Mr. Sec<sup>y</sup> Return'd our vote of the 23<sup>d</sup> of Feb<sup>r</sup> for Borrowing of money of Messrs Wentworth, Atkinson & Odiorne for Fort Wm. & Mary & appointing Messrs Clarkson & Odiorne a Committee of Inspection for providing necessaries, &c.

Coll. Smith bro't a vote of Council for a Comittee ab<sup>t</sup> Forts, &c. viz.

Province of New hampshire, In Council July 6<sup>th</sup> 1744,

Resolved, that a Committee of Both Houses be appointed to provide such materials for repairs of his Maj<sup>ties</sup> Fort Wm & Mary & [p. 94.] other fortifications to be erected as shall be Required by the Capt. Whereas a Committee of both Houses have been chosen to Remonstrate to your Excellency what money will be requisite to be Immediately Emittid for the Defraying the charge of carrying on the p<sup>s</sup>ent warr in Defence of this his Majesty's Government, And the said Remonstrance being this day Laid before the Assembly who have carefully Exam<sup>d</sup> every partienlar of the same, and the House is unanimously of the opinion that the Periods for calling in the money so Emittid is very short and will be an almost insupportable burthen for his Majestys good subjects of this Province, yet Nevertheless, considering the p<sup>s</sup>ent Nessesity we are in for the Defence of His Majesty Government, we are willing to comply with it. And if your Excellency will be pleased to give your Assent for the Emitting Immediately the

Sum therein mentioned the House will be ready to Prosecute the Purposes Purposed in said Remonstrance for the Defence and safety of his Majesty good subjects of the Government.

But in case no money can be Emitted for the Purposes aforesaid, we are not able to maintain the Frontiers of this his Majesty Government, but must call in the same and put ourselves in the best posture of Defence according to our present circumstances.

*Gentlemen of the Assembly,*

You have had their Excellencies the Lords Justices commands signified to me by their Secretary of State, a long time under your consideration, and the Letters now lay before you, therefore that I may Justifie my conduct therein to his Majesty I demand an immediate and Categorical answer from the House, whether you will Enable me to pay a due obedience to their Excellencies repeated commands.

And that you may have no excuse for not enabling me to execute the Royall orders, I am now ready to assent to a further Emission of paper money to answer the present Extraordinary Emmergencies of Government provided you make an actual undeniable Fund for drawing in the same, within the Limits of the Committees remonstrance and not Exceeding the sum therein mentioned.

provision is already made for the payment of the Interest aforesaid, and that two thousand five hundred pounds of said ten thousand pounds be employed & improved towards the Repaire of Fort Wm & Mary, and towards Building a Fort at Winnipissiokee Pond as shall be agreed upon by a Committee or Committees to be appointed by the Gen<sup>l</sup> Ass<sup>m</sup>.

*His Excellency's Message, July 10, 1744.*

[Copied from MS. "Governor's Messages," in Secretary's office, p. 305.]

*Gentlemen of the Assembly,*

It gives me great concern to see his Majesties Comands meet with the least difficulty in being cheerfully and readily obey'd, more Especially in a point which concerns your own safety and Protection. The early care his Majesty has taken to command his Governours in the respective Plantations, to arm for their Defence shews the great regard he has for his subjects in this remote and distant part of his Dominions, and it is with the utmost regret that I must tell you, that New Hampshire is the most backward of any of the King's Governments with respect to their defence. The crys of the Frontiers are daily arrivēg to me, praying for protection, and you are sensible that my hands are tyed up from their relief.

In my Message to the Hon<sup>ble</sup> House of Saturday last, I demanded a positive answer to the king's Commands which are before you, and in the same Message I assured you that I had come to a resolution to assent to the Issuing a sum of money upon this Extraordinary occasion, within the limits of the Committees remonstrance provided the periods for calling in the same were not Extended too far, and upon an undeniable Fund. The former you gave no answer to, and in answer to the latter you in part proposed a Revenue of the Government for a fund, which for this Emission I dare not assent to, tho' whenever any part of that Revenue comes into the Treasury you may rely on my assent to the applying it to any other occasion of Government if the General Assembly thinks it necessary. And during the continuance of this war you will always find a necessity to make use of that revenue, and a much larger if you had it. So that if I could assent to the appropriating the revenue you offer as a fund for the present Emission, I can't see any advantage would arise to the Province by such an assent.

*Gentlemen,*

As my Assenting to a further Emission of paper Currency is a direct violation of his Majestys Instruction on that head, which nothing but the safety and Protection of my country would tempt me to offer the least violence to, and for which I must lay myself at his Majestys feet for Pardon, so previous to my assent, I shall expect you choose a Committee to join with a Committee of his Majesties Council, to make a fair representation to your agent, of the necessity I was under to make this breach on the Royall orders, instructing him at the same time, to solicit at the proper offices, to take of, or prevent

any censure I may be subjected to, and during the continuance of the war you will have further occasion for money to be Emitted, Therefore the same Committee may and should be Impowered to write your agent to apply at the proper offices to obtain leave for the Emission of such sums of money as may be tho't necessary, during the continuance of the war, and unless such a Licence can be obtained, I now assure you I shall not be able to help you let the necessity be ever so urgent, tho' I have ventured to do it now upon the terms mentioned.

Council Chamber,  
in Portsmouth, July 10<sup>th</sup> 1744.

B. WENTWORTH.

*The answer to the Governor's Message of the 10<sup>th</sup> 1744.*

[Copied from MS. "Gov<sup>rs</sup> Messages," in Secretary's office, p. 309.]

*May it Please your Excellency,*

This House have attentively considered your Excell<sup>ys</sup> Message of the 10<sup>th</sup> Inst. and have endeavored impartially to Enter into the merits of the main point in difference between your Excell<sup>y</sup> & the house, we have carefully reviewed what has past upon this occasion, and the rather for the hint your Excell<sup>y</sup> gave in one of your Messages, That a reconsideration would discover the Insufficiency of the Scheme we were upon, being sensible of the Biasses mens minds are subject to, and the strong attachment they are often under to an opinion once imbibed, or a Principle received with the appearance of reason.

We have been desirous to take of all prejudices, and to form as just & true a Judgm<sup>t</sup> in the case as possible. And after all beg leave to answer your Excell<sup>y</sup>, we can't see any Reason to depart from the method proposed in the Remonstrance and more particularly exprest in the answer of the House to your Excell<sup>ys</sup> Mess<sup>a</sup> of the 7<sup>th</sup> curr<sup>t</sup>. In your Excell<sup>ys</sup> last message you inform the House that you had come to a Resolution to assent to the Issuing

a sum of money upon this Extraordinary occasion within the limits of the Committees Remonstrance, Provided the periods were not Extended *so* far and upon an undeniable Fund.

Upon which we would observe, that we are at a Loss to understand your Excell<sup>ys</sup> meaning, or why the Fund proposed is not undeniable we are not able to see, but apprehend it is a real substantial Fund sufficient to all intents and purposes to answer the Ends proposed & such an application of the Interest of the Loan, is only giving of it being, or fitting it for use a little sooner than it would otherwise have been if that Loan & the Interest answering has a sufficient Fund (and we presume that will not be denied at this time after the Royal approbation & the repeated Acts of the Governm<sup>t</sup> thereon) it must itself be as good & sufficient a Fund for any other Emission equal in value. The Stone in a Building which is well laid will always beare another of Equal weight. Nay wee think we may justly add 'tis a better Fund than the usual way of Taxing the Poles and Estates because they may be delayed and often in great measure defeated in Levying & collecting, for no particular part of a mans estate is bound to pay those Taxes, till it is seized, and by transferring of Estates & removal of Persons the Rates are often lost, at least delayed in the payment, which can't happen with respect to the security of the Loan, because a particular & sufficient part of y<sup>e</sup> Borrowers Estate is bound and can't be alienated to other purposes.

And if in any instance there should be a failure thro' defect of Title in the Borrower (in which regard all possible care has been taken) yet even then the Poles and Estates of the Inhabitants of the Province are bound to make it good. So that even then there will be as good a Fund for that part of the Loan as an Emission upon the Poles and Estates has at first. And therefore we are not able to discover any defect in it, or why it is not undeniable, unless what your Excell<sup>y</sup> says a little after, viz. That we propose a revenue of the Governm<sup>t</sup> for a fund contains just matter of objection; but as to that we beg leave to observe that we know no reason why it might not be a Fund, if it was at this time a Revenue. It will not in the least inconsist with the original designe of the Loan Bill. But rather will more effectually execute that designe by hastening and furthering the accomplishment of several of the things proposed in that act, and which it was calculated for, but as was before printed it is only more vigorously exerting ourselves to effect these good purposes for which we have the pleasure of his Maj<sup>ties</sup> approbation.

But further we can't see that this at present can properly be called a Revenue of the Governm<sup>t</sup> because as to that purpose it has not yet a being and the use we would make of it is like a man mortgaging the Reversion of an Estate which he is sure to have & which is good security for the vulture, tho' the Mortgage has no immediate profit, its therefore we can see no manner of inconvenience attending the application proposed on the one hand, but a certaine advantage & benefit to his Majesties good subjects whom we Represent, on the other, your Excell<sup>y</sup> will excuse us if we adhere to a Point which in this view necessarily becomes our Duty to do. When your Excell<sup>y</sup> tells us we have given no Answer as to the Limitation of the period for calling in the sum proposed to be Emitted, We can't but suppose that in the hurry of affairs it must have slipt your notice, for in that regard the Remonstrance of the Committee & what was added by the House in their aforesaid answer to your Excell<sup>ys</sup> Mess<sup>g</sup> of the 7<sup>th</sup> of July, is explicit.

Your Excell<sup>y</sup> has been pleased to put us in mind of difficulties w<sup>th</sup> we are incumbered on this Emergencie, with regard to which We would express a proper concern by effectual endeavours to remove such of them as may be in our Power. But your Excell<sup>y</sup> is too well acquainted with the Duty properly incumbent on us, arising from the relation we stand in to the People, and the place we hold in the Governm<sup>t</sup> to need reminding that we ought to be equally concern'd (at least) to avoid bringing insuperable Burthens on our Constituants, And we assure your Excell<sup>y</sup> that nothing but a Sense of Duty in that regard prevents us from concurring in sentiments with your Excell<sup>y</sup> in the Point under Debate.

We conceive this House has not been backward nor slack of expressing their duty to his Maj<sup>ty</sup> upon all occasions, of which there are standing evi-

dences in the Liberal advancement of sums far beyond the ability of those they Represent, when his Maj<sup>ties</sup> Hon<sup>r</sup> & service call'd for it, of which your Excell<sup>y</sup> has had very sensible experience in times past, in which regard we beg leave to be y<sup>r</sup> Excell<sup>y</sup>'s remembrancers, and that we have not been behind hand on the present Emergencies we have the pleasure to see your Excell<sup>y</sup>'s concurring in opinion with us in your thanks for the assistance we had so cheerfully given for the Defence of his Maj<sup>ties</sup> subjects so lately as the 24<sup>th</sup> of May last, and what has been farther done since that has much enhanced the acc<sup>t</sup>. So far is this House from incurring any just imputation of neglect or omission of their duty to his Maj<sup>tye</sup> in not pursuing all just & reasonable measures that have been in their Power, since your Excell<sup>y</sup> signified their Lordships commands referred to, and Especially since the Declaration of war, That we can't but think, on the contrary, we have been wanting in Point of tenderness to the People on whom the weight & burthen of all expenses must Eventually fall. If your Excell<sup>y</sup> is under any restrictions with respect to the Fund we propose, which have not been mentioned, you will excuse us for not attending to them till we are particularly inform'd w<sup>h</sup> they are. As for w<sup>t</sup> has been urged, we think your Excell<sup>y</sup> cannot possibly incur his Maj<sup>ties</sup> displeasure in the least degree for waving it, And so far as we can judge it would be acting in conformity to what his Maj<sup>tye</sup> has already approved. But if there was any danger in the case to your Excell<sup>y</sup> there is no doubt but the House and their successors will be always ready to pursue all necessary measures for the safety and interest of a governm<sup>t</sup> that should Risque any thing for the good of the People they Represent.

Upon the whole, as we apprehend it our indispensable duty to make a stand here, that if we go one step further we shall justly incur the blame of our principals and the charge of deserting their Fundamental Interests, and that the Point insisted on is neither an infringm<sup>t</sup> on the prerogative, nor the least imposition on the Governor. Till we can be better informed, we can't but think we are in the right, firmly to adhere to the Propositions already made.

Soon after Mr. Secretary Atkinson came & told the House that his Excell<sup>y</sup> adjorn'd the Gen<sup>l</sup> Court till four of the clock in the afternoon.

The House met according to adjournment, & present as before. While they were preparing another written message to send to his Excell<sup>y</sup>, Mr. Secretary and Mr. Solley came & told the House that his Excell<sup>y</sup> required them immediately to choose a speaker; but before they had time to choose a speaker or send the message w<sup>ch</sup> was preparing, Mr. Secretary came again & adjourned the House till to morrow ten of the clock.

---

Saturday, ten of the clock, Jan. 26, 1744—Met according to adjournment and after some debate the Question was put whether the five Gen<sup>s</sup>, viz. Coll. Rolphe, &c. from Rumford, &c. should have a voat in the choice of a speaker. It past in the negative by a great majority, only two members, viz. Greenland & Newington voting in the affirmative & two others not being clear did not vote at all. Then the House proceeded to take a list of the members names (1) which are as follows. The House proceeded to bring in y<sup>r</sup> votes for a speaker, which being exam<sup>d</sup> it appeared that the Hon<sup>ble</sup> Nathaniel Rogers was chosen Speaker of the House by a majority of votes & was accordingly conducted to the Chair.

Voted, That Maj<sup>r</sup> Eben<sup>r</sup> Stevens, Coll. Peter Gillman, Capt. Jos. Winget & Henry Sherburne jun. be a Comittee to wait on his Excell<sup>y</sup> & inform him that the House had made choice of Nath<sup>l</sup> Rogers Esq. to be their Speaker: w<sup>ch</sup> message they delivered, & Mr. Secretary Atkinson & R. Wibird Esq. came down & told the House that his Excell<sup>y</sup> sent them to Inquire whether all the members that were qualified voted on the choice of a speaker, on which it was Voted that Wm. Frost Esq. & Henry Sherburn jun. go up with the following message to his Excell<sup>y</sup>.

[p. 118.] *May it please your Excellly*

In answer to your Excell<sup>y</sup> message by Mr. Secretary & Mr. Wibird, all the members which Represent the Towns & Parishes which heretofore used to send Representatives to sit in the Gen<sup>l</sup> Assembly of this Prov: voted in the choice of a speaker & no others.

Mr. Secretary & Mr. Wibird came down with y<sup>e</sup> following message: Before his Excell<sup>y</sup> can approve or disapprove of the choice of a Speaker he desires to know why those members were excluded from a vote in the choice of a speaker.

The House Imediately sent up Mr. Henry Sherburne & Mr. Gideons with the following verb<sup>l</sup> ans<sup>w</sup>:

(1) In the margin. "Members names on ye first page."—ED.

If your Excell<sup>y</sup> means in y<sup>r</sup> message by Mr. Secretary & Mr. Wibird the persons w<sup>ch</sup> told the House they came from Rumford, Haverhill District, Methuen & Dracut, South Hampton & Chester the Reason why they were excluded voting in the choice of a speaker was because the House do not know of any Law or usage of this Province by which those places are entitled to the Privilege of sending members to represent them in this Court.

Mr. Secretary Atkinson came down with the following Mess<sup>a</sup> from his Excell<sup>y</sup>: His Excell<sup>y</sup> sent me to acquaint the House that the members were called in by the Kings writ agreeable to former practice, That his Excell<sup>y</sup> knows of no other way, That if the House know of any President of their being called any other way his Excell<sup>y</sup> desired they would acquaint himt hereof, that the publick business may not be hindered.

Upon which the following Message was Immediately voted & sent by Mr. Sherburne & Mr. Winget.

*May it Please your Excellcy*

The House in the short time they have had to search, find upon their Records in the year 1714, a vote Entitling the Town of Kingstown to send a member to sit in this Court. In y<sup>e</sup> year 1726, a vote that a precept should go to the Town of New Castle requiring them to choose a Representative for Rye: In y<sup>e</sup> y<sup>re</sup> 1732-3 a Petition from the Parish of Greenland praying the Privilege of having a Representative which was granted. By w<sup>ch</sup> it appears to the House, that no Town or Parish (not before priviledged) ought to have a writ sent to them to choose a Representative without a vote of this House or act of the General Assembly.

Then the House proceeded to the choice of a clerk &

Voted, Mr. Henry Sherburn be clerk of this House till another is chosen & sworn in his Room, & the oath proper to s<sup>d</sup> office is admin<sup>d</sup> to him by Maj. Eben<sup>r</sup> Stevens, Esq.

Voted That Capt. Israel Gilman, Mr. Meshech Weare & Mr. Jonathan Lock be a Com<sup>te</sup> to go to Mr. James Jeffry the late clerk of the House of Representatives & demand of him all the Books, Records & files that belong to this House & bring them directly to the House.

[P. 119.] Mr. Secretary Atkinson came down & told the House that his Excell<sup>y</sup> had adjourned the General Court to Monday next twelve of the clock, that his Excell<sup>y</sup> will furnish himself with Precedents and desires the House will do the same.

---

Monday Jan<sup>y</sup> 28<sup>th</sup>, 1744—Some of the members being present Rich<sup>d</sup> Wibird Esq. came to the House & by order of the President adjourned the Gen<sup>l</sup> Court to four of the clock in the afternoon.

4 o'clock, Met according to adjournment, & Richard Wibird Esq. came into the House & said 'twas his Exc<sup>ys</sup> order the Gen<sup>l</sup> Court should be adjourn'd till to morrow half an hour past ten.

Tuesday, Jan<sup>y</sup> 19, 1744—Met according to adjournment. Present all but Mr. *Stevan*.

Sent up Mr. Wear & Mr Gideons to inform his Ex<sup>cy</sup> that there is a House, Mr. Wibird came down & told the House that his Ex<sup>cy</sup> desired to know if there was any Law of the Province supporting the setting aside any members called in by the Kings Writ for voting in the choice of a speaker. The House Immediately sent up the following Message by Clement March Esq. & Wm. Frost, Esq.

*May it please your Excellcy.*

On your Ex<sup>cs</sup> desiring us to produce some precedents of the Right being in the House or Gen<sup>l</sup> Court to grant the Priviledg to any Town or Parish of sending Representatives to sit in the Gen<sup>l</sup> Assembly, wee Informed your Ex<sup>cy</sup> that wee found in the Records of the House that in y<sup>e</sup> year 1714 a vote was passed in the House entitling the Town of Kingstown to the priviledge of sending a member to sit in this Court. In y<sup>e</sup> year 1726 a vote that a Precept should go to the Town of New Castle to choose a Representative for Rye; In y<sup>e</sup> y<sup>e</sup> 1732 a Petition from the Parish of Greenland praying the Privilege of having a Representative which was granted—since w<sup>th</sup> on further examinations wee find that in y<sup>e</sup> year 1725 a vote was passed & concurred above desiring his Hon<sup>l</sup> the Gov<sup>r</sup> to send a precept to Londonderry Requ<sup>r</sup> them to send a person duly qualified to Represent them in this Court, & for further instances of the power being in the Gen<sup>l</sup> Assembly we would Refer his Ex<sup>cy</sup> to several acts in the Secretarys office by w<sup>ch</sup> New Market & Durham were intituled to the privilege of sending members to sit in y<sup>e</sup> Gen<sup>l</sup> Assembly, and also to the acts by w<sup>ch</sup> Brentwood, Epping &c. were Incorporated into Parishes, w<sup>th</sup> plainly infers the Right to be in the Gen<sup>l</sup> Court, & therefore that such as are called on from places y<sup>e</sup> are not Priviledged by the Gen<sup>l</sup> Court ought not to vote in this House in the choice of speaker, but the House ought to exclude them as much as if they came from another Province.

[p. 120.] Soon after this Mr. Wibird and Coll. Downing came to the House & read the following message from his Ex<sup>cy</sup> and carryed y<sup>e</sup> paper they read out of away again, viz:

In the present situation of affairs in Resp<sup>t</sup> to the war, his Ex<sup>cy</sup> thinks it for his Maj<sup>ties</sup> immediate service not to enter further into the Dispute with the members called by the Kings writ and qualified as the King com<sup>ds</sup> touching the Rejecting of votes of several members in the choice of Speaker, w<sup>th</sup> he esteems invading the Prerogative of the Crown & therefore submits it till his Maj<sup>ties</sup> pleasure shall be known thereon. His Ex<sup>cy</sup> therefore that no farther delay in the publick affairs may happen, approves of the choice of Nath<sup>l</sup> Rogers Esq. for their Speaker & commands the attendance of the House of Representatives in the Council Chamber.

The House Immediately attended & his Ex<sup>cy</sup> the Gov<sup>r</sup> Read the following Speech to the As<sup>m</sup>.

Mr. Speaker asked for a copy & his Ex<sup>cy</sup> soon after sent down Mr. Wibird with the original with some other Papers to be copied & Returned back again.

*Gentlemen of the Council & Assembly*

Since my arrival in my Government I have without suffering my private affairs to give the least Interruption, zealously applied myself to the service of my King and country & the gen<sup>l</sup> tranquillity of the Province I have made

the measure of my administration under the Influence of such principles, I shall be glad to meet the Gen<sup>l</sup> Assembly, & when the Legislative powers act in conjunction for the true Interest of the Publick without seperated aims, a manifest obedience to the Royal Commands which is inseperable from the Interest of the People, must be the measure of their conduct.

*Gentlemen of the Assembly*

By their Excellenys the Lords Justices commands signified to me by their Sec<sup>y</sup> of State of 15<sup>th</sup> Aug<sup>t</sup> 1743, & repeated more fully by their Excell<sup>ys</sup> of Sept 3<sup>d</sup> following, which I shall direct the Sec<sup>y</sup> to lay before you: The early care his Majesty has taken to give timely notice to his subjects to arm for their Defence will be discovered. And it being immediately your province to Enable me effectually to carry the Royal commands into Execution I shall expect you proceed upon it without the least delay, naked and almost defenceless as we are. The Season advances when we may expect to be attackt both by Land & Sea.

What the late Assembly did in consequence of their Excellenys commands the Records of Assembly will evidence. What remains to be effected, is, That you raise a sufficient fund for the pay and subsistance of a competent number of officers & men at his Majestys Fort Wm & Mary to be trained up in the exercise of the artillery and the art of gunnery & other duties of that garrison: without this Provision our sea coast & commerce will be exposed to the Insults of the Enemy: That a sufficient number of men with subsistance be rais'd for protecting our Frontiers.

[p. 121.] His Majestys Royal Bounty of Stores I daily expect the arrival of, and that the Kings Fort may be in a condition to secure them from the Enemy I recommend That materials be forthwith agreed for in the most frugal manner, to be delivered at his Majesties Fort William & Mary, for rendering that Fortress compleat, agreeable to a Schedule of his Majesties Engineer, who by an order of the King in Council is commanded to attend this service, which Schedule shall be laid before you.

As the lesser concerns of government must always give place to the greater, so it is my determin'd resolution, previous to any other matter, to receive a categorical answer on these important subjects. That I may represent the State of the Province to his Majesty. I shall lay before you the report of a Committee of the Massachusetts Bay respecting carrying on the war, and his Excellency Governor Shirleys letter to me thereon.

*Gentlemen.* When you have gone through the things I have recommended and Pressed with so much earnestness, and which I esteem so essential to the safety of the Province, I shall order the remaining concerns of this Session to be laid before you in this order.

*Gentlemen of the Council & Assembly*

The delay of the Royal orders met with in the late Assembly, with respect to their being fully obey'd, has made it necessary for me to make it the main point of this session. The gratitude and obedience I owe to my sovereign command it; the concern I am in for the safety of his Majesties subjects under my Government, the affection I bear to my native country, and the necessity laid on me in order to stand justified before my Royal Master, are, and will be, sufficient Testimonies for my conduct therein. I shall therefore hope that every member of the General Assembly will unite in their sentiments for the publick safety and defence, let their views in other points be ever so different: a contrary behavior under the dreadful calamity of a war, will be offering violence to your country, and must fix a lasting reproach on our happy Constitution.

B. WENTWORTH.

That provision be made for the furnishing of necessary warlike stores for the Expedition, That four months provisions be laid in, That a Committee be appointed to procure & fit vessels to serve as Transports to be ready to depart by the beginning of March, & that a suitable naval force be provided for their convoy, as this Court shall hereafter order. MEM<sup>o</sup>. In order for the attacking of Louisbourg this Spring by surprise its propos'd that 3000 Troops should Embark from hence in Sloops & Schooners and proceed for Canso, well armed which should be the place of Rendezvous it being within 20 Leagues of Louisbourg: and its being uncertain that so many vessels should be able to keep Company together when they are arrived at said Port, to take a favourable opportunity to sail from thence in order to be at Gaberous point by Dusk, from whence it is but 3 Leagues from Louisbourg, then to push into the Bay, and as soon as said vessels are at an anchor to man as many whaleboats as they have & send them along the shore as neare as possible, which will make it the more difficult for them to be discovered, & when they come to the cove which faces the low part of the wall, there to land if the Sea will permit & scale that place if possible, & if otherwise as the Wall breaks off a little on the other side of the East gate, not far from that there are picketts put for a considerable distance across a pond over to the Wall on the Beach on the other side of the Pond, and as this Pond is frozen all the month of March its not very difficult to get over them: but if the weather will not permit their landing in the above place, let them proceed along the shore till they come to a long Range of Rocks that goes towards the Island, at the End of which is a Passage where the shallows go through, let them go in there and follow the Ledge of Rocks right back again, then they will land right against the East gate on a point, and as there are some Houses there, it will hinder their being seen, but one Boat ought to go first & surprise the People in those Houses a little time before the others come up, Each whale boat must have two ladders in them of fifteen foot long which may be put in the middle of the Boat without hindrance to the men; but the Boatmen must lay still at this Point till they think the main body is got near the Town, & that a party of as many men as shall be judg'd proper shall be ready to attack the Grand Battery, its necessary it should be low water if no Drift Ice aground along the shore, for the remainder of the men to go round the Picketts that are by the north gate, and when they get round with Ladders of 15 feet long, they can scale the Wall facing the Harbour which is a Quarter of a mile round, and it will be absolutely necessary to appoint a Time to strike the blow all at once, which can be done by agreeing upon a certain hour just before Day, which is the Sleepiest Time, and the Commanding officer of each Detachment to know the time, and when the Time comes by his Watch to begin without further ceremony; The Enemy finding themselves attacked at so many different places at once its probable it will breed such confusion among them that our men will have time to get in unmoested; & it is to be observ'd that as the men march from the above point the low wall is on the

left hand of the gate, and the Picketts on the right hand; as all the enemy's troops are in the citadel except a small guard or two it will be a considerable time before the men are drest & got ready to march out, and even then it is quite in the other End of the town.

This is what probably may succeed, but least any accident should happen to prevent it, it will be necessary to provide accordingly & in case our People should be discover'd & Repuls'd the above number of men being sufficient to command the field, it will be necessary in order to reduce the place to have what shipping can possibly be got to cruise off the Harbour's Mouth in order to intercept their Provision vessels which they Expect early being at this time very short of Provisions, as likewise to take any transports with men if any should come, and that our men may not be discourag'd at being repuls'd once, it will be necessary to send 12 nine pounders & two small mortars with shells, &c. and a Quantity of Provisions, so to bombard them & endeavor to make Breaches in their Walls & then storm them; and should the shipping be so lucky to take their Provisions and the land forces take all their cattle & keep them constantly employed, it will be impossible for them to hold the place till the last of July for want of provisions.

In order the better to secure the Retreat in case a superiour naval Force to ours should come from France & drive ours off the Coast, it will be necessary to have two small vessels with about Two hundred men at Canso, & the day after the Fleet is sail'd for Louisbourg for them to sail so as to get in by night, and it being but six Leagues from Canso to St. Peters they can get there before day & surprize that place, which is an exceeding good harbour for small vessels, but has not Water sufficient for vessels of that size which will be able to drive ours off the Coast, so that the vessels for the Retreat will lay there safe, and the Troops be able to go to them by Land; there will be an advantage besides this in surprizing this place as there is always a number of Indians with their Families which keep with a French Priest at a small Distance from the French Inhabitants, and the Booty taken there will pay the Expence & more in taking it. It is to be observed that during the time our Troops lay seige to the Town, it will be in their power to send parties and Destroy all their Fishery on the Island as well as the north side of the Harbour which would ruin their Fishery for four or five years; and as it is impossible to fail of taking the Royal Battery at least, that would in a great measure lay open their Harbour exposed unto an attack by Sea from England, as the new Batterys in the Town in the greatest part of the Ambrozers, there are no guns & there are two gates that are made in Diamond fashion facing the Harbour that can be beat down in an instant the peices not being but 2 Inches & an half thick.

N. B. The full complement of the Troops is 700 out of which deductions must be made of 50 for each of the two Batteries, viz. the Royal & Island Batteries, & 50 for Death, sickness &c. which reduce them to 550, and the other fighting men in the Town do not exceed 300, and that the Swiss Troops which are their best Troops are exceeding Discontented & mutinous; also that at St. Peters there may be about 200 men in scatter'd houses, and in the suburbs of the Town of Louisburg without the Walls about 200. it is improbable that more than two 30 or 40 Gun ships should come with Mr. Duvi-  
vior who may be expected the first with Recruits & supplies, and in case the naval Force that comes should be superiour to our naval Force, that our 3000 men would command the Field, & continue so till they could be protected & Reinforc'd from England.

[p. 131.] Mr. Wibird brought down two printed copies of Proclamation, &c. w<sup>ch</sup> he said were necessary Immediately to be Issued forth & that his Exc<sup>o</sup> thought 'twould be best (as many were wanted) to have them sent to Boston to be printed & asked y<sup>e</sup> opinion of the House.

Mr. Sherburne & Mr. Lock sent up to inform his Exc<sup>y</sup> that the House are willing to be at the expense of Printing the Proclamations as soon as a proper method is agreed upon for the Defraying the charge.

Mr. Wibird came down & told the House his Exc<sup>y</sup> desier'd the House would come to some speedy Resolutions, especially about the Proclamation, otherwise his Exc<sup>y</sup> would proceed in the same method that Gov<sup>r</sup> Shirley had done. The House sent up Mr. Sherburne & Mr. Wear to inform his Exc<sup>y</sup> that the House were preparing a vote for Emitting a sum of money to defray the charge of the warr & this Expedition to Louisbourg & were willing to be at the charge of Printing any Proclamations his Exc<sup>y</sup> should think proper to send out on this occasion.

Mr. Wibird brought down a paper & delivered it to the speaker, & told him it was a plan of the operations ag<sup>st</sup> Louisburg & must be kept as a secret — w<sup>ch</sup> paper was read in the House & sent up again by Mr. Wear & Mr. Philbrook.

Coll. Peter Gillman Esq. & Mr. H. Sherburn appointed a Com<sup>tee</sup> to draw up a vote for Emitting a sum of money to carry on y<sup>e</sup> Expedition ag<sup>st</sup> Louisbourg, &c. The House adjourn'd for two hours.

Met according to adjournment & adjourned to Monday twelve of the clock.

[p. 132.] Monday February 4<sup>th</sup> 1744—A copy of the vote appointing Thomas Millet, Esq. to joyn with a Com<sup>tee</sup> of the Council to make an Estimate of men & money for y<sup>re</sup> 1745. brought into the House, concurred & assented to. H. Sherburne, Esq. Richard Wibird & S. Solly Esqs. joined as a Com<sup>tee</sup> of Council.

Voted. That the following Message be sent up.

The House pray to be informed whether the Council have passed upon the vote about choosing a Recorder, w<sup>ch</sup> they think of great importance,—also pray that an Act which passed the House of Representatives & was sent to the Hon<sup>ble</sup> Council in Dec<sup>r</sup> 1743, enabling the Judge of Probates to act in several cases which the Law was not before clear in & which they are informed by a message did not pass the Council, may be sent down. Also the House would inform y<sup>r</sup> Exc<sup>y</sup> & the Council that they think it proper that the several Com<sup>tees</sup> meet this afternoon or as many of them as can while the House have a Com<sup>tee</sup> preparing a money vote w<sup>ch</sup> they hope to have ready in the morning. Sent up by Mr. Stevens.

In ans<sup>w</sup>r to which the Sec<sup>y</sup> came & s<sup>d</sup> That his Exc<sup>y</sup> had no objection to the Com<sup>tees</sup> going out, y<sup>t</sup> he should adjourn y<sup>e</sup> Council. As to the vote about the Recorder, they have not looked over it nor any other business since this affaire came on. That the act about y<sup>e</sup> Probates is dead: y<sup>t</sup> y<sup>e</sup> reason why it did

not pass was because there were several inconsistencies in it, that possibly it might be in his office, if it was he would deliver it to them.

Adjourn'd till tomorrow ten o'clock.

Thursday February y<sup>e</sup> 5, 1744— Met according to adj<sup>t</sup>. Present all but Mr. March & Mr. Israel Gilman.

The Com<sup>tee</sup> for drawing up a vote to raise money for y<sup>e</sup> Expedition ag<sup>st</sup> Louisburg, & further carrying on y<sup>e</sup> warr, &c. bringing in the following vote w<sup>ch</sup> is read several times & after mature consideration & deliberation, unanimously voted & sent up by Maj. Stevens, Mr. Lock, Mr. Frost & Mr. Levitt.

[P. 133.] WHEREAS there is an Expedition proposed in the neighbouring Government against the French (his Majesties Enemies) at Louisburgh for the Reduction thereof, a plan of which hath been laid before this House by his Excellency, the Governor, and whereas an Indian Warr is daily Expected And this House being willing to do all in their power towards the forwarding & carrying on the said Expedition & putting this Province into the best Posture of Defence they can, against his Majestys Enemies, and whereas there is a necessity of Raising money for the support of his Majestys Government & the circumstances of this Province being such at Present that in order thereto it is necessary there should be a new Emission of Bills of Publick Credit & that the drawing in & sinking the same should be put off to some distant period:

Voted, That there be forthwith Imprinted & Signed by a Committee or Committees to be appointed by the General Assembly for that purpose, the sum of *Ten thousand Pounds* in Bills of Credit on this Province, equal in value to so much in Bills of Credit on this Province of the last emission & in Such Form as shall be agreed upon by the General Assembly for the supplying the Treasury towards the Defraying the charge of the said Expedition for the Reduction of Louisburgh & the further carrying on the warr against his Majesty's Enemies & for the necessary support of this his Majestys Government, and that the said bills be put into the Treasury & there remain for Defraying the charge of Imprinting & Signing the same & for other ends, uses and purposes afores<sup>d</sup>, Namely, for the payment of such allowances only as shall be made from time to time by the General Assembly Relating thereto & that the sum of *Four thousand pounds*, part of the said Ten thousand pounds shall be for & towards the carrying on the said Expedition against Louisburgh in such manner as shall be agreed upon by the General Assembly, and that the sum of *four thousand pounds* part of the said ten thousand pounds shall be for & towards the further carrying on the Warr

And as a Fund & security for Drawing in & Sinking the said Bills, that there be a Tax on the Poles & Estates within this Province in ten Equal Annual payments from & after the year 1755, payable by the 25<sup>th</sup> day of December in each of the said years, and that the Treasurer of this Province for the time being issue out his Warrants for the drawing in & sinking as afores<sup>d</sup>, [p. 134.] agreeable to the last proportion of the Province Tax, unless a new Proportion or Proportions should be made by the General Assembly, in which case the said sums shall be drawn in agreeable to the proportion next immediately preceding the respective payments. That what of the said sum shall be drawn into the Treasury from time to time shall be burnt to ashes in the face of the General Assembly, and that in case any one or more of the said smaller sums or any part thereof shall not be used or improved for the particular Ends, uses & purposes afores<sup>d</sup> the same shall lye in the Treasury in order to be burnt & sink so much of the said Respective sums unless the same shall be otherwise ordered & disposed of by the General Assembly, & that the Treasurer for the Time being issue out his Warrants for so much as shall be drawn out of the Treasury by warrants agreeable to this vote & for no more. That each and every Warrant for drawing any of the said money out of the Treasury shall direct the Treasurer to take the same out of such sums as are respectively appropriated for the payment of such publick debts as the Draughts are made to discharge, & that the Treasurer for the time being be directed & ordered to pay such money out of such appropriation as directed, & no other upon pain of refunding all & every such sum or sums as he shall otherwise pay, & to keep exact & distinct accounts of all payments made out of such appropriated sums. That an act be drawn up accordingly & that Coll. Peter Gilman, Esq. & Mr. Henry Sherburne be a Committee of this House to joyn with such as the Board shall appoint to draw up the Same.

Mr. Secretary & Mr. Wibird brought down y<sup>e</sup> above vote for Imprinting ten thousand pounds &c. for the Exped<sup>n</sup> &c. & said y<sup>t</sup> y<sup>e</sup> Gov<sup>r</sup> could not consent to it for several reasons w<sup>ch</sup> he mentioned. The House sent up Coll. Gilman with the vote praying the Hon<sup>ble</sup> Council would give their Reasons why they could not pass upon s<sup>d</sup> vote, in writing. The Secretary soon brought down y<sup>e</sup> following answer in writing as on file.

Feb<sup>y</sup> 5, 1744—

Prov. of N. Hamp<sup>t</sup>. The Council's objections to the House's vote of this day for the emitting the sum of ten thousand pounds, &c.

1. They are of opinion that nothing should be conch'd in the s<sup>d</sup> vote but what should appear that y<sup>e</sup> s<sup>d</sup> money is emitted for carrying the intended Expedition ag<sup>t</sup> Louisburg into execution, especially as any overplus may be otherways expended in the war against his Maj<sup>ties</sup> enemies.

[p. 137(1).] 2. The Periods for calling in the same should commence on the 25<sup>th</sup> of December 1751, in which year there is no sum by any Act of Assembly to be brought in, & so in proportion the nine succeeding years.

These objections the Council conceive make no material alterations with respect to the Intent of the s<sup>d</sup> vote.

The above objections read & voted to be sent down to the House.

Theod<sup>r</sup> Atkinson, Sec<sup>y</sup>.

After the above was read the House adjourn'd till three of the clock.

At three o'clock, Feb<sup>y</sup> 5<sup>th</sup> 1744— met according to adjournment & unanimously—Voted, That the following be sent up as an ans<sup>w</sup> to the Councils objections, viz:

The House's Answer to the Councils objections ag<sup>t</sup> their vote sent up this day, for Emitting ten thousand pounds for supplying the Treasury to defray the charge of an Expedition ag<sup>t</sup> Louisburg & further carrying on y<sup>e</sup> war & support of his Maj<sup>ties</sup> Government.

1<sup>st</sup>. The House are of opinion that there is great necessity of raising money for the farther carrying on the war & defence & support of his Maj<sup>ties</sup> Government. As for carrying the war into the Enemies Country both w<sup>ch</sup> they intend by their vote, & think it would be dishonorable in them to pass any vote or bill but what in the face of the same plainly set forth what they intended & therefore cannot consent to an Emission of paper bills unless the very use they intend it for b<sup>e</sup> expressed in y<sup>e</sup> vote or bill.

2<sup>dly</sup>. Inasmuch as the House are of opinion that it will be necessary for the defraying the growing charge of the Govern<sup>mt</sup> between this & the year 1751, to lay considerable taxes on the years between that & the year 1756 they [p. 138.] think that if the Periods for calling in the said sum of ten thousand pounds shall commence in the year 1751, it would be loading the people they Represent (in those years) with an insupportable burthen, & therefore as the Hon<sup>ble</sup> Council conceive their objections make no material alteration "with respect to the intent of said vote," the House unanimously think it their duty to adhere to y<sup>e</sup> s<sup>d</sup> vote & hope for a ready concurrence therewith. Sent up by Mr. Frost & Mr. Lock.

Voted That a message go up to his Exc<sup>e</sup> praying him to direct the Treasurer to lay his acct<sup>s</sup> before the House; also to pray his Exc<sup>e</sup> to direct the several officers to lay their Muster Rolls before the House, & the Speaker sent up Mr. Wear to deliver s<sup>d</sup> message.

Jotham Odiorn, Esq. came down with a copy of the vote for a Committee to examine acc<sup>ts</sup> concurred & Jotham Odiorn, Theod. Atkinson & Ellis Huske, Esqs. joynd as a Com<sup>tee</sup> of the Council.

Mr. Wibird came & informed the House his Exc<sup>e</sup> had directed the Muster Rolls to be laid before the House.

Mr. Wear sent up to pray his Exc<sup>t</sup> to direct y<sup>e</sup> Treasurer lay his acc<sup>ts</sup> before y<sup>e</sup> House before the Com<sup>tee</sup> go out on them.

His Exc<sup>t</sup> sent down y<sup>e</sup> following written Message by Coll. Downing & Mr. Solly :

*Gentlemen of the Assembly,*

In consequence of your message of the 2<sup>d</sup> Inst. I express'd a messenger to Boston in order to get the Proclamations necessary to be Dispersed throughout the Province for encouraging the Expedition to Louisburgh printed, which I have this moment received, & as soon as the sheriff attends on me shall order them to be dispersed.

Therefore that no delay may be occasioned on my acc<sup>t</sup> I think it necessary to lay before the Hon<sup>ble</sup> House that I am ready to give my assent to any bill for defraying the charge that may arise on y<sup>e</sup> Equipment of 250 men for the Expedition to Louisburgh, in conformity to the Report of a Committee of both Houses Feb<sup>y</sup> 1<sup>st</sup> 1744—& concurred by both Houses Feb<sup>y</sup> 2<sup>d</sup> 1744—& assented to the same day & hour.

[P. 139.] You will be pleas'd to observe that I have no Instruction to support me in assenting to a Bill for Emitting any more money than what is now Extant. I must necessarily Incurr his Majesty's highest Displeasure if the support of the Government or any other affair should be included or even presumed in said Bill & therefore I hope you will think it for his Majesty's immediate service & the Honour of the Government to pass a Bill in support of the Resolve of both Houses for the service of the Expedition only, which I am ready to assent to.

[Copied from MS. Corr. in Secretary's office, Vol. I. p. 239.]

"Whereas Acts have been Passed in some of his Majesty's Plantations in America for striking Bills of Credit and Issuing out the same in lieu of money in order to discharge their Publick Debts & for other Purposes, from whence several Inconveniences have arisen, it is therefore his Maj<sup>ty</sup>'s Will & Pleasure that you do not give your assent to or Pass any act in the Province of New Hampshire under your Government whereby Bills of Credit may be struck or Issued in live money without a clause be Included in such Act declaring that the same shall not take effect until the s<sup>d</sup> act shall be approved & confirmed by his Majesty, his heirs or successors, except only for the annual support & service of the Government not Exceeding six thousand pounds in such paper Bills, & this Permission to continue only until his Majesty's further Pleasure shall be known thereupon, and you are to take Especial care that no more than £6000 of such Bills be ever current at one & the same time."

A copy of his Maj<sup>ty</sup>'s "19<sup>th</sup> Instruction" to his Excellency, Gov<sup>r</sup> Wentworth. Compared pr.

Theodore Atkinson, Sec<sup>y</sup>.

Which was read & then y<sup>e</sup> House was adjourn'd till to morrow morning 10 o'clock, having appointed Coll. Gilman & Mr. Sherburne to prepare an answer.

Wednesday Feb<sup>r</sup> y<sup>e</sup> 6<sup>th</sup> 1744—Met according to adjm<sup>t</sup> the Committee appointed to answ<sup>r</sup> his Exc<sup>ts</sup> message make their Report, which is read as follows & signed by the Speaker, &c. &

Voted That it be sent up as an answ<sup>r</sup> to his Excellency's message of last evening, by Mr. Gideons & Mr. Lock.

*May it please your Excellency,*

The House sent two Messages to your Excellency y<sup>e</sup> 2<sup>d</sup> Curr<sup>d</sup> in answer to your Excellency's message about y<sup>e</sup> Proclamations. The first was in these words: "The House are willing to be at the expence of printing the Proclamations as soon as proper method is agreed upon for defraying the charge." The second in these words: "The House are preparing a vote for the Emitting of a sum of money to Defray the charge of the war & the Expedition to Louisburgh & are willing to be at the charge of printing any Proclamations your Excell<sup>y</sup> shall think proper on this occasion."

*May it please your Excellency,*

Tho' the House did not expect that an Express would be sent on purpose to get the Proclamations printed, understanding by your Excellency's message that there was an Express going on some other occasion, yet they are willing to be at the charge of printing them; but y<sup>e</sup> sending them out before such a vote as afores<sup>d</sup> is passed the Council & assented to by your Excellency, or any proper way agreed on to defray the charge &c. we apprehend will be going too fast & not in consequence of the House's message of y<sup>e</sup> 2<sup>d</sup> inst. By the tenor of your Excellency's message & the proceedings of your Excellency & the Hon<sup>ble</sup> Council on the vote of the House for the supply of the Treasury to defray the charge of an Expedition against Louisburgh & further carrying on the war, &c. we perceive that notwithstanding the earnestness with [p. 140.] which your Excellency in your speech at the opening of this session Inforced their Excellency's the Lords Justices commands requiring your Excellency to put the Province in the best posture of defence, &c. in their Letters laid before the House, requiring the House immediately & without any delay to enable you to carry the Royal commands into Execution, & tho' your Excellency is pleased in your Speech to use these words: "I shall expect you proceed upon it without the least delay, naked and almost defenceless as we are, the season of the year advances when we may expect to be attacked by Sea & Land"—That for all your Excellency & the Hon<sup>ble</sup> Council incline to do at present on this matter of putting the Province in the best Posture of Defence, we may still remain in the same naked and defenceless state. Does your Excellency think it would be for the honour of his Majesty and the safety of his People in this Province to leave the Province in such a naked and defenceless state as your Excellency is pleased to Represent it in & at a season when your Excellency justly observes we may expect to be attacked by sea & land, to send 250 of our best men (when we can barely spare them) on an Expedition abroad and make no manner of provision for the defence of his Majesty's Government at home? The House are surprised hereat & think this would be a high breach of the Trust reposed in them & a great Dishonor to his Majesty, to leave his Province in so naked & defenceless a State; & really think it a sure way to gain his Majesty's displeasure; & therefore inasmuch as your Excellency expresses your readiness to assent to any Bill for emitting money for defraying the charge of an Expedition against Louisburgh without an Instruction to support your Excellency, we hope & trust that on further consideration your Excellency will think it of as much importance to make ample provision for the protection of his Majesty's Province in its naked & defenceless state; Especially as y<sup>e</sup> Exc<sup>ts</sup> the Lords Justices so strongly require it. In obedience to the Royal commands by your Excellency transmitted to this House, we have proceeded without the least Delay in this important matter & hitherto made it the main business of this Session as your Excellency required us; & considering the concern your Excellency expresses in your Speech for the Safety of his Majesty's subjects

under your Government, your Excellency's affection for your native country & the lasting Reproach which the neglect of protecting & defending his Majesty's Province under the dreadful calamity of a warr at a time when an Expedition is carrying on abroad, would bring upon our happy Constitution; we hope that your Excellency will think it for his Majesty's immediate service and the honour of this Government to assent to the vote of this House sent up yesterday to supply the Treasury for the service of the Expedition & further carrying on the warr, &c. which is in support of the Report of the Committee of both Houses & the Resolve of the General Assembly thereon.

The Council sent down the old Vote for Emitting ten thousand pounds with the following amendment, viz.

That nothing be express'd in the s<sup>d</sup> vote but what relates to the intended Expedition ag<sup>st</sup> Louisburg & for annoying & distressing his Majesties Enemies, and for defending & safe-guarding his Majesty's subjects of this Province, &

2<sup>d</sup> That the Periods for bringing the money emitted into the Treasury again, commence y<sup>e</sup> 25<sup>th</sup> day Dec<sup>r</sup> 1751.

Theo. Atkinson, Sec<sup>r</sup>.

And immediately after his Exc<sup>y</sup> sent a written message, as on file.

*Message of his Excellency 6 Feb. 1744-5.*

[Copied from MS. "Gov<sup>r</sup>s Messages," in Secretary's office, Vol. 1, p. 329.]

Province of New Hamp<sup>r</sup>

*Gentlemen of the Assembly*

That the present Expedition to Louisburg in conjunction with his Majesty's other Governments may meet with all possible encouragement from me, I now give the Hon<sup>ble</sup> House my full assurance that I am ready to give my assent to any bill you may project in favour of this Expedition, that shall carry on the face of s<sup>d</sup> Bill, that it is intended & appropriated to the service of the Expedition, for annoying & distressing her Majesty's Enemies & for the protection & safeguard of the Frontiers; & that the periods for calling in the Same shall commence in the year 1751, which is the furthest I can put it off, unless any of the other Governments should on this occasion put his Majesty's Subjects on a more favourable footing, & in that case I promise to assent to any Bill that may be projected by the House hereafter to further postpone the periods that now may be agreed upon, that his Majesty's subjects of this Province may be put on as advantageous circumstances in respect to their Emissions & upon an equal footing with the subjects of his Majesty's other Governments, Which is all you can expect or desire from me.

You will likewise observe that it will be necessary in case the provision you now make falls short, to carry on the Expedition, that you will hereafter make farther grants to make good any deficiency, and that if there should be any Excess it shall remain in the Treasury 'till disposed of by the General Assembly.

[The Message] read & Coll. Gilman & Mr. Sherburne desired to draw up another vote & present it to the House in the afternoon, & the House adjourn'd till three of the clock.

P. M. Feb 6<sup>th</sup>. Met according to adjournment. Coll Gilman & Mr. Sherburne bring in the following vote which is read & voted to be sent up.

[p. 141.] Prov. of N. Hamp<sup>s</sup>.

In the House of Representatives, Feb. 6, 1744-5.

Whereas there is an Expedition proposed in the neighboring Government ag<sup>st</sup> the French (his Maj<sup>ty</sup> enemies) at Louisburg for the Reduction thereof, a Plan of which hath been laid before this House by his Excellency the Governor, & whereas an Indian war is daily expected, & this House being willing to do all in their power towards the forwarding & carrying on said Expedition & putting this Province into the best posture of defence they can against his Maj<sup>ty</sup> Enemies; and the circumstances of this Province being such at present that in order thereto it is necessary there should be a new Emission of Bills of publick Credit, & that the drawing in & sinking the same should be put off to some distant Period:

A Bill for a special act to Enable the Judge of Probates to finish the settlement of the Estates of S<sup>t</sup> & Jo. Penhallow, Esqs. read y<sup>e</sup> third time.

The vote for Emitting ten thousand pounds is brought down by Mr. Secretary & Mr. Wibird with a verbal message that the Council have no exception against the vote but the length of time for bringing it in, & after saying a good deal upon that subject desired the House would reconsider it. The House after consideration sent up Mr. Sherburne & Mr. Frost with the following Message:—That the House think that the 2<sup>d</sup> article in y<sup>e</sup> answer to the Councils message of the 5<sup>th</sup> Inst. is a full answer to the Message sent down by Mr. Sec<sup>y</sup> & Mr. Wibird & therefore unanimously adhere to their vote.

The Sec<sup>y</sup> came down & told the House that his Exc<sup>y</sup> had adjourn'd the General Assembly to Monday next ten of the clock.

Monday February y<sup>e</sup> 11<sup>th</sup> 1744—Met according to adjournment. Voted That the following Message be sent up to the Hon<sup>ble</sup> Council.

As it was of such great importance to his Maj<sup>ty</sup> this House were in hopes that the Hon<sup>ble</sup> Council would have directly proceeded upon their vote of y<sup>e</sup> 6<sup>th</sup> cur<sup>l</sup> for defraying the charge of the Expedition ag<sup>st</sup> Louisburg & further carrying on the war, &c. in some shape or other. Especially as the time we

had to get ready was so short, & the House would willingly have sat night & day for the dispatch of it, & are heartily concern'd that the long adjournm<sup>t</sup> of the General Assembly at this critical conjuncture has hindered the progress of these Expeditions in this Province; Wherefore the House pray that the Hon<sup>ble</sup> Council will immediately pass upon s<sup>d</sup> vote that the matter may not be any longer delayed, for the House are and always have been resolved to do all they can to forward the s<sup>d</sup> Expedition.

[p. 146.] Sent up by Mr. Gilman.

Voted That the following message be sent up to his Exc<sup>t</sup> the Governor.

*May it Please your Excellency,*

On y<sup>e</sup> 6<sup>th</sup> Ins<sup>t</sup> your Excellency was pleased to signify to this House in a written Message that you were ready to give your assent to any Bill the House might project in favour of the Expedition to Louisburgh under certain limitations, as in the s<sup>d</sup> message. The same day the House prepared & sent up a vote to the Hon<sup>ble</sup> Council for the supplying the Treasury to defray the charge of the Expedition against Louisburgh & further carrying on the Warr against his Majest<sup>y</sup> Enemies. But notwithstanding your Excellency's assurance of your readiness &c. on y<sup>e</sup> 7<sup>th</sup> instant in the forenoon before the Hon<sup>ble</sup> Council had pass'd upon said vote (that we know of) your Excellency was pleased to adjourn the General Assembly to Monday ten of the clock, to the great grief of the House who have so much at heart the forwarding that noble projection of his Excellency Governor Shirley, communicated to this House by his letter to your Excellency for the Reduction of Louisburgh.

We assure your Excellency that it was & is the full Resolution of this House to do all in our Power to forward so noble an undertaking & we are Really & heartily concerned that your Excellency's so adjourning the Assembly from y<sup>e</sup> 7<sup>th</sup> in the forenoon to y<sup>e</sup> 11<sup>th</sup> curr<sup>t</sup> has so much Retarded & we fear discouraged the progress of the Expedition in this Province Especially when the whole time we had to prepare & get ready in was so short.

If the General Assembly had been kept sitting we think the affair might have been in a good forwardness by this time & we assure your Excellency that we should have chosen to have set night & day till this matter had been completed, Rather than to have lost one minutes time. And we should have been glad if in this case (as your Excellency observes in your Speech) the lesser affairs of Government had given way to this important matter, & therefore pray that your Excellency will be pleased to keep the General Assembly sitting till this matter is over, for we are Resolved to do all we can to forward it & to give it all the dispatch in our power.

[p. 147.] Voted That the Journals of this House be printed & that Mr. H<sup>y</sup> Sherburne be & hereby is impowered to get them printed.

John Downing Esq. & Mr. Solly, about 5 o'clock in the afternoon brought down the following Message from the Council as on file.

Province of N. Hamp<sup>t</sup>.

In Council Feb<sup>y</sup> 11<sup>th</sup> 1744—

Voted That the following answer to the Hon<sup>ble</sup> Houses' message of this day in relation to the vote of the House of y<sup>e</sup> 6<sup>th</sup> inst be sent down.

His Majesty's Council always esteem'd the Expedition to Louisburgh of the greatest Importance & have always forwarded the affair on their part. And as to the House vote of y<sup>e</sup> 6<sup>th</sup> curr<sup>t</sup> it came up late at night & the House soon adjourn'd. On y<sup>e</sup> 7<sup>th</sup> the Council sent early in y<sup>e</sup> forenoon a message to acquaint them in particular that the periods for calling in the money proposed

in said vote to be Emitt'd were at too great a distance & therefore recommended it to their consideration in that particular for the House's alteration, to which the House sent a message by Messrs Sherburne & Frost that the House unanimously adhered to their vote, as sent up, so that the Council look't upon it that the affair was entirely over & his Excellency adjourn'd the General Assembly till 10 o'clock this day & that the Council waited all the forenoon but there not being a house met is the occasion why they did not hear of their said vote till now, but we now acquaint the House that their said vote of y<sup>e</sup> 6<sup>th</sup> Inst is non-curr'd unanimously for the Reason given to the House by a message of y<sup>e</sup> 7<sup>th</sup> inst.

Theodore Atkinson, Secy.

The House Immediately voted & sent up the following message in answer, by Mr. Stevens & Mr. Lock :

Tho' the Hon<sup>ble</sup> Council have not given any answer to the House's answer to there objection to the House's vote of the 6<sup>th</sup> inst & notwithstanding it will be a great burthen to the people, yet the House being willing to forward y<sup>e</sup> Expedition ag<sup>st</sup> Louisburg &c. do agree that the Periods for paying in s<sup>d</sup> sum do commence in the year 1751, & pray to have y<sup>e</sup> vote sent down to make the amendment on it.

His Exc<sup>y</sup> sent down a written message by Mr. Huske & Mr. Solly which was read & filed as follows: [This Message not found.]

Mr. Secy brought down a Petition of sundry Persons praying that provision may be made for 500 men for y<sup>e</sup> Expedition ag<sup>st</sup> Louisburg &c. w<sup>ch</sup> was read & ordered y<sup>t</sup> it lay for consideration.

*Petition, &c.*

[Copied from MS. Corr. in Secretary's office, Vol. 1, p. 197.]

To his Excellency Benning Wentworth, Esq. Captain General & Commander in Chief in & over his Majesty's Province of New Hampshire, the Hon<sup>ble</sup> his Majesty's Council & House of Representatives in General Assembly convened, Feb<sup>r</sup> 11<sup>th</sup> 1744-5.

The MEMORIAL of sundry of the Inhabitants of said Province shews, That your Memorialists have been informed that the consideration of joining with the neighbouring Governments in the design'd Expedition against Louisburgh has for some time past engaged your attention, but that no Resolution Relating thereto has yet been fully agreed upon, and while this matter is suspended, your memori<sup>st</sup>s beg leave to offer their tho<sup>ts</sup> thereon, as it is an affair of Public concern.

That your Memorialists conceive the welfare if not the very being of the Province depends greatly upon the Reduction of that place, as if it continues under the French it will in all probability Enable them in a little time to Reduce Port Royal, & if that should be the case 'tis easy to foresee what the fatal consequences must be to all the English settlements upon the sea Coast as well as to the Inland Towns by the Privateers infesting the One, & the Indians Destroying the other: And on the other hand, if Louisburgh was in the possession of the English, they would thereby have almost all the fish trade in their own hands, which would give life and vigour to all branches of Trade they are concerned in & Revive all sorts of Business, with many other advantages too numerous to be particularized here, and farther it is very probable that if we neglect to fight our Enemies at that distance & in their own Territories, we shall be oblig'd to do it nearer home, if not in our own Towns.

That your Memorialists conceive it a just motive to quicken the People in this Government to see how forward zealous & active the neighbouring Governments are in this affair, even those much more remote than this, at least in less danger, & that have less to fear should it not be done,— of which no doubt this Hon<sup>ble</sup> Court are acquainted, Tho' perhaps may not have been inform'd that the Government of Rhode Island have determined to contribute to the Expedition the number of five hundred men & two Twenty four Gun ships, and the owners of the Privateers have promised the assistance of their vessels: The Inhabitants of the Colony of Connecticut have also by subscription Raised a sum of money for the pay & subsistence of five hundred men (their Gen<sup>l</sup> Court not sitting) who all are ready to Embark, and to speak generally to avoid prolixity, every Government to which the affair has been proposed, seem to have gone beyond their power, as it were, to effect this design. To which your Memorialists would beg leave humbly to add that if *this* should fail of joining or only contribute what might justly be considered as a poor Pittance to an Enterprise in which (if attended with success) they will be more Benefitted & served in proportion, than any other, there need not much be said to set in a clear light, what a figure they must make in the Eyes of all who shall hereafter be acquainted with the fact. Wherefore y<sup>t</sup> Memorialists beg leave humbly to pray that Provision may be made for the paying & subsisting five hundred men, if so many belonging to this Government will Enlist as Volunteers for this Expedition, and that they may have the same Encouragement that the Volunteers in the other Governments have & your Memorialists as in duty bound shall pray, &c.

His Exc<sup>s</sup> sent down a written message (on file), at one of the clock, informing the House that their vote for £10,000 lay before him for his assent to it, &c.

[Copied from MS. "Governor's Messages," in Secretary's office, Vol. I. p. 335.]

*Gentlemen of the Assembly,*

Your vote of 11<sup>th</sup> Instant for the Emitting £10000 for the Expedition to Louisburg and other purposes therein mentioned now lays before me for my consent.

My inclination to exert myself to give life to the Expedition would lead me to get over small difficulties, but the violence I must offer to his Majestys Instructions, as the bill now stands, the uncertainty whether the 250 men re-

ported by the Com<sup>tee</sup> of both Houses will take Effect, unless the number is increased to a small Regiment & under Field officers of our own, with the distant periods, make the difficulties so great, that I must desire you will increase the number of men to a small Regiment, and shorten the periods, or give in your reasons for not doing it: Also, that if you can find no other way to defray the expence of the Expedition or for the defence of the Province.

Council Chamber,

B. W.

in Portsm<sup>o</sup> Feb. 11, 1744.

Voted, That Coll. Gilman & Mr. Sherburne be Com<sup>tee</sup> to draw up an ans<sup>w</sup>r to y<sup>e</sup> s<sup>d</sup> message, & the house adjourn'd for an hour & an half.

Tuesday Afternoon. The House met according to adjournment & the Com<sup>tee</sup> bring in the following answer to his Exc<sup>ty</sup>'s message this morning w<sup>ch</sup> was voted & sent up by Mr. Wear & Mr. Philbrick.

[P. 150.] *May it please your Excellency*

We are glad to find by your Excellency's message this day that our vote of £10000 to defray the charge of the Expedition against Louisburg & further carrying on y<sup>e</sup> war against his Majesties Enemies lays before your Excellency for your Excellency's consent thereto.

Your Excellency was pleased to inform this House in your Excellencys written message of y<sup>e</sup> 5<sup>th</sup> curr<sup>t</sup> that "you are ready to give your assent to any Bill for defraying the charge that may arise on y<sup>e</sup> Equipment of 250 men for y<sup>e</sup> Expedition to Louisburgh in conformity to y<sup>e</sup> Report of a Committee of both Houses Feby 1<sup>st</sup> 1744" & in your Excellency's message of y<sup>e</sup> 6<sup>th</sup> curr<sup>t</sup> you are pleased to use these words: "I now give the Hon<sup>ble</sup> House my full assurance that I am ready to give my assent to any bill you may project in favor of y<sup>e</sup> Expedition that shall carry on y<sup>e</sup> face of s<sup>d</sup> bill that it is intended & appropriated to y<sup>e</sup> service of y<sup>e</sup> Expedition for annoying & distressing his Majesties Enemies, for the protection & safeguard of the Frontiers & that the periods for calling in the same shall commence in y<sup>e</sup> year 1751." Wherefore the House that no delay should be chargeable to them, in compliance with your Excellency's proposals formed exactly such a vote as your Excellency was pleased in said message to give them your full assurance you would assent to, which is the vote now before your Excellency, and we doubt not but your Excellency will readily assent to it that the whole affair may not on that acct be Delayed. As to what your Excellency is pleased to say about a further number of men, if that had been proposed when your Excellency only mentioned y<sup>e</sup> 250 in your message of y<sup>e</sup> 5<sup>th</sup> Inst. provision might have been made for them in the vote now before your Excellency, but as so much time has been spent in getting this vote so forward, & inasmuch as when your Excellency has assented thereto the Proclamations may go out if your Excellency thinks proper, and the affair be going on,— we pray your Excellency will immediately assent to it & then (as the House before they had Rec<sup>d</sup> your Excellency's message had agreed on a further provision of men to make a Regiment, as soon as the vote before your Excellency was assented to) a vote may be prepared therefor.

The present distressed circumstances of his Majesties Subjects in this Province by reason of the warr, the heavy Taxes already laid, & which may further be Expected to be laid to defray the other charges of the Government, in y<sup>e</sup> succeeding years, are such that we cannot find out any other way to carry on this Expedition, which our hearts are so much engaged in, or in any degree shorten the periods for bringing in y<sup>e</sup> money. We therefore again earnestly pray that your Excellency will give your assent to this vote before you, & then we shall with cheerfulness proceed to make such further grants of men & money as shall tend to forward this Expedition, the Honour of his Majesty & the welfare of his Loyal subjects of this Province.

[p. 151.] Mr. Wibird & Mr. Solly came into the House & informed them that his Exe<sup>s</sup> could not consent to the vote till the House Informed how they designed to make a further provision. The House sent up the following message in ans<sup>w</sup> by Mr. Gilman & Sherburne—The House propose to make up the whole number of voluntiers between 400 & 500, sailors included, & for defraying y<sup>e</sup> charge to Emit a further sum of money to be brought in Immediately after y<sup>e</sup> £10000 & in y<sup>e</sup> same manner.

Voted, That a message be sent to his Exe<sup>s</sup> to inquire whether his Exe<sup>s</sup> has assented to their vote for £10000. Mr. Lock & Mr. Wear went up with it. Upon which his Exe<sup>s</sup> sent down a written message by Col. Downing & Coll. Smith, as on file in answer to w<sup>ch</sup> the House came into a Resolution to send a Com<sup>tee</sup> to his Exe<sup>s</sup> & tell him that if he consent to putting off the payment of y<sup>e</sup> money to be Emittid to pay the charge till after 1760, the House will vote 200 voluntiers more, but if his Exe<sup>s</sup> wont put off the Periods till after 1760 the House Resolve to vote no more than 100 more, & Coll. Gilman, Maj<sup>r</sup> Stevens & Mr. March are desired to go with s<sup>d</sup> message. The House adjourn'd till to morrow 10 of the clock.

*Message of his Excellency above referred to.*

[Copied from MS. "Governor's Messages," in Secretary's office, Vol. I, p. 339.]

*Gentlemen of the Assembly,*

By your message of this day, I find the disposition of the House is to augment the forces to Louisburg to four or five hundred men, sailors included, which is very pleasing to me; and if the House will send up a Resolve on that subject & in what manner they propose to pay the Expence, it will facilitate the other bill that now lays before me, which at present appears very difficult;—but by no means put off the augmentation or the charge to a further day.

Council Chamber in

(2) “The person appointed to command the Expedition was WILLIAM PEPPERILL, Esq. of Kittery, Me., colonel of a regiment of militia; a merchant of unblemished reputation, and engaging manners, extensively known both in Massachusetts and New Hampshire, and very popular. These qualities were absolutely necessary in the commander of an army of volunteers, his own countrymen, who were to quit their domestic connexions and employments, and engage in a hazardous enterprise, which none of them, from the highest to the lowest, knew how to conduct. Professional skill and experience were entirely out of the question; had these qualities been necessary, the expedition must have been laid aside; for there was no person in New England in these respects qualified for the command. Fidelity, resolution and popularity must supply the place of military talents; and Pepperill was possessed of these. It was necessary that the men should know and love their General, or they would not enlist under him.”—*Farm. Belk.*, p. 271.

At the Court in Kensington the 6<sup>th</sup> of September, 1744.

Present: the Kings most Excellent Majesty in Council.

Whereas William Shirley Esq. his Majestys Governor of the Province of the Massachusetts Bay, hath by his letters to the Lord President of the Council, and to the Duke of New Castle, one of his Majestys principal Secretaries of State, which have been laid before his Majesty at this Board, complained of his Majestys Province of New Hampshire for neglecting to take possession of, and to provide for a fort called Fort Dummer, which was built by the Massachusetts Government about twenty years since upon the western frontiers of that Province and had been hitherto garrisoned by them, but is lately fallen

within the limits of the said Province of New Hampshire, by the settlement of the boundary line between the two Provinces and which Fort is represented by the said Governor to be at this time of very great consequence to all his Majesty's subjects in those parts, in regard it is situated within three or four days march at farthest from a very strong Fort, built within these few years by the French at Crown Point, which will be a place of constant retreat and resort for the French and Indians in all their Expeditions against the English settlements; and therefore requesting that his Majesty will be graciously pleased to give such directions in relation thereto as may prevent the said fort from falling into the hands of the enemy; The Massachusetts Government not thinking themselves obliged to provide for a Fort which no longer belongs to them; His Majesty in Council this day, took the same into consideration, together with a report made thereupon by the Lords of the Committee of Council, and hath been thereupon pleased to order that the said Fort and garrison thereof should be supported and maintained, and that the Governor or Commander in chief of New Hampshire should forthwith move the Assembly, in his Majesty's Name to make a proper provision for that service, and at the same time inform them that in case they refuse to comply with so reasonable and necessary a proposal, his Majesty will find himself under a necessity of restoring that Fort, with a proper District contiguous thereto, to the Massachusetts Bay, who cannot with justice be required to maintain a fort no longer within their boundaries: and that the said Governor should transmit to his Majesty at this Board, with all convenient speed, an account of his proceedings, together with the final resolution of the Assembly thereupon. But his Majesty, considering the importance of the said Fort, and the great mischiefs that may happen to his subjects in those parts, in case the same should in the mean time fall into the hands of the enemy, doth therefore think it proper hereby to order and require the Governor of the Massachusetts Bay to represent to the Assembly of that Province the necessity of continuing to provide for the security of Fort Dummer until a final answer can be obtained from New Hampshire, and his Majesty's pleasure be farther signified therein (1).

*Report of the Lords of the Committee of Council, &c.*

[Bound up with "Governor's Commissions," in Secretary's office.]

At the Council Chamber, Whitehall, the 29<sup>th</sup> of August, 1744.

By the Right Honourable the Lords of the Committee of Council for Plantation affairs.

Your Majesty having been pleased by your order in Council of the 9<sup>th</sup> of this Instant to refer unto this Committee two letters from William Shirley, Esq. your Majesty's Governor of the Province of the Massachusetts Bay to the Lord President of the Council, and to the Duke of New Castle one of your Majestys Principal Secretaries of State complaining of your Majestys Province of New Hampshire for neglecting to take possession of, and to provide for a Fort called Fort Dummer which was built by the Massachusetts Government about Twenty years since upon the then Western Frontier of that Province and been hitherto Garrisoned by them— But is lately fallen within the limits of the said Province of New Hampshire by the settlement of the Boundary Line between the two Provinces, and which Fort is represented by the said Governor to be, at this time, of very great consequence to all your Majestys subjects in those parts, in regard it is situated within three or four days March, at farthest from a very strong Fort, built within these few years

by the French, at Crown Point, which will be a place of constant Retreat and Resort for the French and Indians in all their Expeditions against the English settlements and therefore requesting that your Majesty will be graciously pleased to give such Directions in relation thereto as may Prevent the said Fort from falling into the hands of the Enemy — The Massachusetts Government not thinking themselves obliged to provide for a Fort which no longer belongs to them. The Lords of the Committee, in obedience to your Majesty's said order of Reference, have taken the same into their consideration, together with a Report made thereupon by the Lords Commissioners for Trade and Plantations, and agreeing in opinion with what is proposed by the said Report, Do humbly offer to your Majesty, That Fort Dummer and the Garrison thereof should be supported and maintained, and as the same is now within the District of New Hampshire, That the Governor of that Province should be directed, in your Majestys name, to move the Assembly to make a proper provision for that service, and at the same time to inform the Assembly that in case they refuse to comply with so reasonable and necessary a Proposal, your Majesty will find yourself under a necessity of restoring that Fort with a proper District contiguous thereto, to the Province of the Massachusetts Bay, who cannot, with justice, be required to maintain a Fort, no longer within their boundaries, and that orders may be sent to the Governor of the Massachusetts Bay directing him to represent to the Assembly of that Province the necessity of continuing to provide for the security of Fort Dummer till a final answer can be obtained from New Hampshire, which your Majesty's Governor of that Province may be required to obtain, without loss of time.

[Found in Secretary's office, bound up with "Governor's Commissions." &c.]

Boston, Feb<sup>y</sup> 25, 1744.

Sir

I was loth to Divert your Excellency with any new Business, from the Great & important affair of the expedition, which, together with the close application of my own mind to that affair, are the Reasons that I have not Inform'd you that I have receiv'd an order of his Majesty Relating to the Garrison at Fort Dummer,— a copy of which I now send you; By which you will find that his Majesty Expects that the Province of New Hampshire within the Bounds of which that Fort lies, should support it, and that he will upon no terms consent to the evacuating of it; and therefore has ordered me to move our General Court to be at the charge of maintaining the said Fort for some short time till your Government shall come to a resolution upon this point. Accordingly upon my Recommendation the General Court here have provided for the pay & subsistence of the Garrison there for three months from the twentieth of January last, as you will find by a copy of their vote, which I now send you. Beyond which time I have no Expectation that they will burthen the People with the charge of supporting a Fort within the District of another Government.

The affair being in this Situation, I must pray your Excellency to come to a speedy Resolution herein, that so his Majesty's expectations may not be frustrated. I am now ready to Deliver up this Fort into your hands, upon you having a Garrison ready to take possession of it, as I offered you the last Spring; you will please to give me your answer as soon as possible that so his Majesty's service may not be prejudiced by any Delay, and that I may make Return to his Majesty upon this order.

I am Sir Your Excellency's most obedient  
Humble Servant,

His Excell<sup>y</sup> Gov. Wentworth.

W. SHIRLEY.

*Vote of the House of Representatives, in Massachusetts, relating to Fort Dummer.*

[Found in Secretary's office, bound up with "Gov's Commissions."]

Province of the Massachusetts Bay.

In the House of Representatives, Jan. 9, 1744-5.

The Gov<sup>rs</sup> Message of the 8<sup>th</sup> inst. accompanying the order of his Majesty in Council, respecting the State of Fort Dummer, having been read to the House, It is thereupon unanimously Voted, That in consideration of the great Danger there is that the said Fort may fall into the Enemy's hands, and the Inhabitants from Contoocook to Connecticut River be all Drove from their settlement, notwithstanding the forces that are maintained by this Province in scouting within those limitts, The Capt. General be desired to cause the same number of officers and men as were in the last Establishment at said Fort to be inlisted and there posted, & that the same allowance as before be made for their wages & subsistance for a term not exceeding three months, to commence the 20<sup>th</sup> of this month, Provided that this vote or Grant shall not be Deemed or urged as a precedent for this Governments taking into their pay at any time hereafter this fort or any other fort which may serve as a Protection to any Inhabitants or Estate the Jurisdiction whereof is claimed by any other Government.

Sent up for Concurrence,

T. Cushing, Speaker.

In Council, Jan<sup>y</sup> 9<sup>th</sup> 1744-5. Read & unanimously concurred.

T. Willard, Sec<sup>y</sup>.

Consented to

W. SHIRLEY.

Voted That Mr. Wear & Mr. March wait upon his Exc<sup>e</sup> & pray him to order Mr. Hazen's plan of the Province to be laid before the House; that they pray the Hon<sup>ble</sup> Council to Inform the House if their vote about choosing a Recorder & also a special act to enable the Judge of Probates to settle some Estates &c. are passed upon.

The Secretary came down and Informed the House that his Exc<sup>e</sup> would order the plans to be laid before the House in the morning, but desired that the House would come to a Resolution on y<sup>e</sup> above mentioned papers, for the man of Warr was off of the Harbour & had sent in for the mast ships to come out to him.

Sometime after the Sec<sup>y</sup> brought Mr. Hazen's plan into the House. The House adjourn'd till tomorrow half past nine.

Wednesday, y<sup>e</sup> 3<sup>d</sup> of April 1745, met according to adjournm<sup>t</sup>.

Voted That Mr. Wear & Mr. Philbrook wait upon his Exc<sup>e</sup> & Inform him in answ<sup>r</sup> to his Message by Mr. Jeffrey that the House look upon y<sup>e</sup> subject matter of the s<sup>d</sup> Message to be of too

great Importance to be hurried over suddenly & therefore have ordered that it should lay for consideration.

Mr. Secretary came down & informed the House that his Exc<sup>y</sup> apprehends it will be of dangerous consequence to let the affair lay for consideration, that he apprehends Massachusetts have wrote by these ships & would be glad to have something to write by them on y<sup>e</sup> affair.

Upon w<sup>ch</sup> considering the very shortness of the time they have to consider of the affair in, when Gov<sup>r</sup> Shirleys letter laid before the House was dated y<sup>e</sup> 25<sup>th</sup> of Feb<sup>y</sup> last, &c.

Voted that the matter lay for consideration.

The Secretary came down & said that his Exc<sup>y</sup> kept y<sup>e</sup> Council sitting in hopes of having something to send by these ships & further pressed the matter. Upon w<sup>ch</sup>

Voted, That the following message be sent up to his Exc<sup>y</sup> the Gov<sup>r</sup> in answer to his message by Mr. Secretary Atkinson Relating to his Maj<sup>ty</sup>s order in Council about Fort Dummer, w<sup>ch</sup> was laid before this House on y<sup>e</sup> 2<sup>d</sup> curr<sup>t</sup> 4 o'clock afternoon.

*May it please your Excy,*

Your Exc<sup>y</sup> was pleased to inform the House by Mr. Secretary Atkinson that it would be of dangerous consequence to let the affair Relating to Fort Dummer lay for consideration; upon w<sup>ch</sup> we would observe that his Exc<sup>y</sup> Gov<sup>r</sup> Shirley's letter to your Exc<sup>y</sup> is dated y<sup>e</sup> 25<sup>th</sup> of Feb<sup>y</sup> & wee suppose it came to your Exc<sup>ys</sup> hands in a few days after the date. Now as your Exc<sup>y</sup> thinks it of such dangerous consequence to delay this matter, it is truly matter of great surprise to this House that your Exc<sup>y</sup> should keep papers relating to an affair of such Importance (w<sup>ch</sup> your Exc<sup>y</sup> thinks the taking proper time to consider of might be of dangerous consequence) so long a time without communicating them to this House & especially when wee observe that his Maj<sup>ty</sup>s directions in Council is that your Exc<sup>y</sup> should forthwith move the Assembly, &c. Wee think it very unreasonable that when wee suppose your Exc<sup>y</sup> has had above thirty days to consider & think of the matter in, that this House should be urged to come to a Resolution on a point in a few hours w<sup>ch</sup> must necessarily take them many days to inquire into the advantages & disadvantages of, & therefore think that in duty to his Maj<sup>ty</sup> and the people they Represent they ought to take time to consider of the matter before they come to a Resolve.

The Secretary then came & told the House that his Exc<sup>y</sup> had adjourned them till five of the clock in the afternoon.

[p. 161.] 5 o'clock, Met according to adjournment.

Cyprian Jeffrey being brought into the House agreeable to y<sup>e</sup> order to answer to the complaint of Coll. Thomas Wallingford acknowledges himself to be in fault & declares that he had no designs to affront the House nor Coll. Wallingford & praying the forgiveness and Col. Wallingford declared himself to be satisfied.

Ordered that he be dismissed paying costs.

Mr. Secretary brought down a written message from his Exc<sup>y</sup> w<sup>ch</sup> was read & Mr. Speaker Rogers & Mr. Hen. Sherburne jun. appointed to prepare an answer to the s<sup>d</sup> message.

*Governor's Message.*

[Copied from MS. "Gov<sup>rs</sup> Messages," in Secretary's office, Vol. I, p. 341.]

*Gentlemen of the Assembly*

Your Message of this day is not the first instance wherein you have trifled with the prerogative & Royal orders laid before you, treated the King's Governor in terms unworthy to be repeated from the Chair, and in language unbecoming an address to an Inferior.

Indignity of this nature can never reach me, but must centre on their Authors. But it gives me the greatest concern that the Council office must bear the Records of your conduct herein, which must appear before nicer Judges than I pretend to be.

I endeavor to persuade myself that these Messages may be calculated by some, but can't be the genuine sentiments of the whole House, who I flatter myself would have been disposed to treat the King's Governor with more decency and greater Respect, had they been fully apprised of the diction and Maturely deliberated on the Materials they were built with.

I have with great Industry attended yesterday & to day for a resolve of your House on his Majesty's orders in Council of the 6<sup>th</sup> of Sept. respecting Fort Dummer, which if you finish the men of war being in Port I shall have the pleasure to transmit to his Majesty.

You have now time to save the most valuable part of this Province, which if lost by your neglect, in refusing now to obey his Majesty's Commands, I am clear of this charge and the blame must be wholly with you.

B. WENTWORTH.

[Copied from MS. "Gov<sup>rs</sup> Messages," in Secretary's office, p. 343.]

Province of N. Hamp<sup>t</sup>

In the House of Representatives, April 8<sup>th</sup>, 1745.

Voted, That the following Message be sent up In answer to his Excellency's Message of y<sup>e</sup> 3<sup>d</sup> curr<sup>t</sup>.

*May it Please your Excellency,*

Your Excellency's last message to us of y<sup>e</sup> 3<sup>d</sup> Inst. containing very severe tho' groundless Reflections on this House, we trust your Excellency will not take amiss that we vindicate ourselves therefrom. Having found by our own experience, in the little time we have been concern'd with the Publick affairs, the Inconvenience of hurrying over things of Importance, & this of Fort Dummer being far from a trifling affair, we thought it highly proper to Defer for some time coming to a Resolve upon it. How the Prerogative is concerned

in this affair, we don't so throughly understand. But as to the Royal orders Directed (not to us) to your Excellency, *forthwith* to move the Assembly, &c. We were so far from trifling with them, as your Excellency is pleased to term it, that we took the only possible method we could think of to pay them a proper Respect; for, that supporting Fort Dummer would be attended with a very great charge, was obvious at the first view. But we could not so easily discern the advantages that would arise therefrom, nor how a Fort so situated would be of any, the least service to our Frontiers; Had we therefore Determined while things appeared in this Light, must it not necessarily have been in the Negative? But because we know not but that there might sufficient reasons appear hereafter, to Determine us another way, & because we tho't it would be shewing a greater Regard to what came Recommended from his Majesty, therefore we determined to defer coming to a final Resolution for some farther time. This being the conduct of the House in this affair, & the Royal orders having been so long in your Excellency's hands, notwithstanding you are therein directed *forthwith* to move the Assembly &c. & notwithstanding there were so many opportunities for it in the whole month of March; we are very free to Leave it to those nicer Judges your Excellency refers to, to Determine to whom the Reflection of trifling properly belongs. Under this head we only farther add, that altho' your Excellency is pleased to say that this is not the first instance &c. Yet as your Excellency has mentioned no other & we know of none at all, we confine our answer to this.

The next thing your Excellency thinks proper to animadvert upon is the Terms & Language made use of in our last Message, & very indecent they must have been to deserve the gross Reflections your Excellency has cast upon them; But inasmuch as your Excellency has not tho't proper to descend to particulars, we can only say that on a review of our said message, we have not as yet been able to find out what it is your Excellency refers to, possibly the subject matter of said message may be disagreeable to your Excellency, & by that means the terms Language or Diction (as your Excellency Pleases to call it) may appear so. Upon this supposition we take leave to observe to your Excellency, that it always has been the professed & (as far as we could Judge y<sup>e</sup>) real Determination of the whole House, to treat your Excellency with all proper Decency & Respect. But this notwithstanding, we think ourselves at Liberty fully & Freely to Remonstrate ag<sup>t</sup> any part of your Excellency's publick conduct, which we apprehend affects the Privileges of the House or the People we represent: In doing of which we shall not think ourselves obliged to use the Language of Slaves to an arbitrary Lord, But that of Freeman, & the Representatives of Free men, to one of the King's Governors, who however much he may be exalted above us by the Honour he receives from his Majesty's Commission, is yet liable to mistakes & Errors in his conduct & may do wrong tho' his Royal master cannot.

In another part of your Excellency's message you intimate that the messages sent up to your Excellency are not the genuine sentiments of the House—a Reflection very severe & ungrounded. But inasmuch as we fully join with your Excellency in that part of your message wherein you signify to us that any Indecency in Language or Behavior centers on its author, we shall say no more on this head, but that we are so fully persuaded of our Innocency, The Unjustness of your Excellency's Reflections on us & the reason we have to complain of your Excellency's behaviour to us, that we are willing to be at the Expence of printing the whole Transactions of this House or that part only which relates to Fort Dummer, if your Excellency should choose it, & if not we are content to omit publishing any thing, unless it should hereafter become necessary for our own vindication, in which case we hope to be Excused tho' it should be contrary to your Excellency's Inclination.

Your Excellency towards the latter part of your last message, Informs us that you have with great Industry attended yesterday & to day for a Resolve &c. The plain English of which is, (for in our own vindication we must speak it) that we have had about 5 or 6 hours to determine on so weighty an affair, & in the mean time three of your Messages urging our coming to a

Resolution upon it, that your Excellency might send the same by the Fleet, part of which was under sail, and the man of Warr Expecting them, Ready to Leave the Coast at the very time some of the messages were sent. This is one among other Instances we might mention, wherein your Excellency's conduct towards us is matter of just complaint, & the rather, inasmuch as it is plain to us, that our most Gracious Sovereign, always tender of the privileges of his subjects, ever designed to allow us sufficient time to consider of this matter, as appears by his Directing your Excellency *forthwith* to propose it to our consideration, and his Excellency Governor Shirley, to move the Assembly of that Province to provide for the said Fort, till the Assembly of this had Resolved what to do.

In the last Paragraph of your Excellency's message there seems to be an intimation that your Excellency is acquainted with the meaning of the words (proper District) in the Royal Orders of September y<sup>e</sup> 6<sup>th</sup> past. If so we should be glad your Excellency would be pleased to inform us, & by that means, what is meant by the most valuable part of this Province, & if your Excellency would also please to let us know what advantage the supporting that Fort would be to our Frontiers, or give any light Relating to the affair before us, & attend with a little patience, if we can't see things so quick as some others; we should hereby be the better Enabled to pass a right Judgment in an affair of such Importance. But in the mean time must say, that if any part of the Province should be lost for want of a Resolve of this House, to go by the Fleet now in Port waiting for a wind, the Blame must not lay on this House but must wholly lay where his Majesty's Royal Order in Council Lay at the month of March.

N. Rogers, Speaker.

Voted, Mr. Meshech Wear & Eleazer Russell Esq. be a Com<sup>tee</sup> to joyn with Mr. Henry Sherburne jun. to print & publish the whole or any part of the Journals of this House which they think proper. The House adjourn'd till tomorrow half past nine.

*Letter of Andrew Wiggin, Esq. to the Assembly, April 8th 1745.*

[Copied from MS. Corr. in Secretary's office, Vol I, p. 233.]

To the Hon<sup>ble</sup> Assembly of this Province of New Hampshire now convened.  
*Worthy Gentlemen,*

I have bin informed that the Massachusetts has complained to the King against this Province for that we don't take care of Fort Dummer, to defend it against the French, and the King has sent to the Government of this Province speedily to take said Fort under their protection or he will give it to the Massachusetts with a considerable quantity of Land with it; and I am also inform'd that you are inclin'd to give it up becaus of the great distance it is from here, and the great charge it will be to keep it. Now Gentilmen, I pray you to consider the consequences of giving it up as well as the charge of keeping it.

In the first place it will be very Dishonorable to the Province and a slite of the King's favour atar ten yeares hard strugel with the Expence of nere Eight thousand pounds, and nere five hundred pounds more for running the Lines. And again, call to mind that the charge above said is laid on that part that was recovered from them as well as the other part of the Province, and they pay'd nere a thousand pounds last year, and now the Line is settled and all that peopel conform to the Government of this Province and have takened of the Lonne money which may be difficult recovering if the Line be altar'd: And again, thirdly, you have past a bill for the Emitting fifty two

thousand pounds (1) old currence to be paid in again sum time hence, which that part that you will Loose if you give up Fort Dummer would have pay'd twelve thousand pounds of it for I am Intiarily of that mind and it neaturely follows, that if you refuse that forte and the King returns that forte to them again that the Masechussets will plead to have that returned to them again that the Line took from them to support the charge of the Fort with — which you have in your power to convert the same way if you don't give it out of your hands — and now the Governurs Salary is seteled, and if you give away half the Province he nor any that shall com attar wont abeat (2) one mit but will return on you that it is your own act — now pray Gentilmen, Consider what you Do in that affuir, for what you Dou in giving it up will be binding forever, and it will be out of the power of the rising Generation to helpe themselves — for I am fully of the mind that that part of the Province you will Lose if you give up that fort, if it be peace in twenty years will be bigger than all the province besides is now. Gentilmen, it is Daingers refusing the Kings offer, for we Cant make a bargain with him and say we will take this and refus that but he can say if you will not take it as I offer, you shall to your old bounds and it will be in vain for us or ours to try to helpe ourselves here attar. I am of the mind that what we have recovered from them if it be all *converted* to that use will very neere pay the charge of that forte, and we are in hopes the war will be over in a little time and then the charge Sese Pray pardon the boldnes of your most Humble Sarvant.

Whereas there have been several allowances made and others applied for to this House for the support & pay of the Indian Christo (1) & this House being apprehensive that it may be of

(1) Christo was supposed to be a friendly Indian. He had resided at Amoskeag (now Manchester), but being suspected of joining with his countrymen in the fight at Pig-wacket, certain people from Haverhill and Dunstable came to Amoskeag and, not finding Christo at home, burnt his wigwam. After this Christo became a wanderer, occasionally employed by the government, and then again taking part with his countrymen. He went to St. Francis and took part with the Indians in depredations at Epsom and Canterbury. He was alive in 1757, and probably died at St. Francis. His wigwam was upon a small brook upon the east side of the Merrimack, just below the Falls of Amoskeag.—Ed. [See Potter's *Hist. of Manchester*, pp. 98-100; also, *Mil. Hist.*, Vol. II, pp. 56, 57.]

[Copied from MS. Corr. in Secretary's office. Vol. I, p. 235.]

Prov. of New Hamp<sup>t</sup>

To the Hon<sup>ble</sup> House of Representatives at Portsmouth, &c.

*Gentlemen,* Pr Coll. Rolfe I am informed that there was no particular charge made in my Muster Role for y<sup>e</sup> subsistence of y<sup>e</sup> souldiers the last

Summer in my Regiment, if I took no notice in the muster Role of it, yet as I certified the time they were in the service, subsistence must be of consequence, & to y<sup>e</sup> particular persons to whome due, (as there was no Commissary Stores to Deliver) would occasion a tedious acc<sup>t</sup> but I expected y<sup>e</sup> allowance y<sup>e</sup> Government had granted, viz. 21s pr week old Tenour, on which Encouragement y<sup>e</sup> men was subsisted, therefore pray the muster role may pass in full, if that should be tho't an omission at the time of attesting, and as I well Remember y<sup>e</sup> Hon<sup>ble</sup> House when I was before them on y<sup>t</sup> account Enquired into this affair & then informed the circumstances as above, & tho't it had bin to satisfaction. With my Duty to the Hon<sup>ble</sup> House, am y<sup>r</sup> most obedient Hum. Serv<sup>t</sup>.

[P. 175.] Province of New Hamp<sup>t</sup>.

At a meeting of y<sup>e</sup> General Assembly at Portsmouth in y<sup>e</sup> afores<sup>d</sup> Province on y<sup>e</sup> Tuesday the 30<sup>th</sup> of April 1745, by adjournment from y<sup>e</sup> 13<sup>th</sup> curr<sup>t</sup>.

Thursday, May y<sup>e</sup> 2<sup>d</sup> 1745. A letter from Coll. Sam<sup>l</sup> Moor to the Com<sup>tee</sup> of warr dated y<sup>e</sup> 9<sup>th</sup> of Aprill at Canso brought in to the House & read.

John Downing, Esq. brought down a Petition of Benj<sup>a</sup> Holt in behalf of the Inhabitants of Suncook praying for Thirty or forty soldiers to be posted at s<sup>d</sup> plantation &c. also

A Petition of Benjamin Rolfe in behalf of the Inhabitants of the Town of Rumford praying for a constant & reasonable aid of men, stores, &c.

[The following is a copy of the Petition presented by Coll. Rolfe, in behalf of the Inhabitants of Rumford, now Concord.—ED.]

To his Excellency Benning Wentworth, Esqr. Capt. General and Governor in chief in and over his Majesty's Province of New Hampshire in New England, the Hon<sup>ble</sup> the Council and House of Representatives in General Court convened.

The Memorial and Petition of Benjamin Rolfe in the Name & Behalf of the Inhabitants of the Town of Rumford in said Province—*Humbly sheweth,*

That the said Town has been settled by his Majesty's subjects about Eighteen years, and a Gospel Minister ordained there upwards of Fourteen. That the settlers had an Eye at enlarging his Majesty's Dominions, by going into the Wilderness, as well as their own Interest: That many Thousand Pounds have been spent in clearing and cultivating the Lands there, and many more in erecting Mansion Houses, Fortifications, Out Houses, Barns and Fences: That the Buildings are mostly compact and properly form'd for Defence, and well situated for a Barrier, being on Merrimack River about a Days march below the confluence of Winipishoky and Pemissawasset Rivers both which are main gangways of the Canadians to the Frontiers of this Province, and within a weeks march at farthest from a very strong Fort built within these few years by the French at Crown Point which will be a place of constant Retreat and Resort for the French and Indians in all their Expeditions against the English settlements: That the breaking up of the settlement will not only ruin the Memorialists, but in their humble opinion greatly deserve his Majestys Interest by encouraging his Enemies to encroach on his direct Dominions, and be also hurtful to the Province by contracting its borders and drawing the war nearer to the Capital: That it was by a long and importunate Intercession of this Province and not of the Memorialists seeking that they are cast under the immediate care of this Government, which they apprehend gives them so much the better Right to its Protection: That as War has been declared against France for some time and a Rupture with the Indians has been hourly expected, many of the Inhabitants of said Town, by Reason of their being so much exposed to imminent Danger from their Enemies, have already moved from said Town, and the season of the year being such as to give the Indians an opportunity of disturbing the Frontiers, and the Dutch Mohawks having lately given occasion to fear that they would joyn in a War against his Majesty's settlements as mentioned in some late News Papers, your Memorialists unless they have speedy help will be soon obliged to evacuate said Town, how disserviceable so ever it may be to the Crown, dishonourable to the Government, hurtful to the Province and ruinous to themselves.

Wherefore your Memorialists most humbly supplicate your Excellency, the Honourable Council and House of Representatives to take the Premises into your wise and mature consideration and to grant them such constant and reasonable aids both with Respect to men and Military stores as may enable them to maintain his Majesty's Dominions in so well situated a Barrier, and so antient and well regulated a settlement, as well as to secure their own Lives and Fortunes against the Ravage and Devastations of a Blood-thirsty and Mercyliss Enemy, and your Memorialists as in Duty bound will ever pray.

Benjamin Rolfe.

Portsmouth, April y<sup>e</sup> 30<sup>th</sup> 1745.

The said Petitions are read & ordered that the s<sup>d</sup> Holt & Rolf be sent for into the House who being sent for came into the House & Informed them of the State of y<sup>e</sup> s<sup>d</sup> Towns & Coll. Rolf said he thought that 250 men would be necessary to defend & protect y<sup>e</sup> Frontier between Com<sup>t</sup> & Merrimack River & the s<sup>d</sup> Rivers, & that he thought that less than 40 would not be sufficient for Rumford, & if y<sup>r</sup> should be open war with the Indians more would be wanted.

The Secretary came down & brought an Act for relief of poor prisoners for Debt w<sup>ch</sup> was delivered to the Com<sup>tee</sup> to examine.

[p. 178.] Theo. Atkinson Esq. one of the Com<sup>tee</sup> for letting out the £25000 came into the House & moved that an Act should be passed to enable the Com<sup>tee</sup> more easily to oblige the delinquents to pay in the Interest, upon w<sup>ch</sup> y<sup>e</sup> Attorney General was sent for & directed to prepare a bill.

Ordered That Mr. Wear & Philbrook go up to the Hon<sup>ble</sup> Council & Inquire whether they have passed upon y<sup>e</sup> House vote about y<sup>e</sup> Record<sup>r</sup> & the other vote & act Inquired after yesterday.

(A letter from General Pepperell of y<sup>e</sup> 10<sup>th</sup> of April: a Letter from Col. Moor of the 6<sup>th</sup> of April, with a copy of his orders Rec<sup>d</sup> from the General) to be read & Returned again. The said papers are read.

To his Excellency Benning Wentworth, Esq. pr. private, Capt. Fletcher's prize, via Boston, April 10<sup>th</sup> 1745, & copy by y<sup>e</sup> Brig<sup>t</sup>.

*May it Please your Excellency*

Your several favours of 15<sup>th</sup>, 19<sup>th</sup>, 20<sup>th</sup> & 21<sup>st</sup> Inst I received, and observe the contents, your Recommendation of the Gentlemen mentioned therein, will be sufficient to entitle them to any favours in my power. We are waiting here for favourable Wind & weather to proceed to Cape Breton. The Troops that are here are in general in Health, some of our vessels that have the war-like Stores, on board, are not yet arrived here. I have heard that they are in Country harbour. I have sent vessels to convoy them here. The wind has been Easterly for some time and continues so, and if by reason of the wind, we should be detain'd here, provisions and necessaries of life may be wanted both in the Fleet & Army which, hope the several Governments will have thoughts of, which if in season we are supplied with & can have some men of War to strengthen our Naval Force, I hope by the blessing of God, that people who desire to Distress and Destroy our Country will be subdued. I sincerely wish y<sup>r</sup> Excellency Health and prosperity, and am w<sup>th</sup> Due Respect y<sup>r</sup> Exc<sup>ll</sup>'s most obed<sup>t</sup> & affe<sup>c</sup> H. serv<sup>t</sup>.

Whereupon it is Voted That the following vote & Resolution of this House be sent up to his Exc<sup>y</sup> in answer to his Exc<sup>y</sup>'s message by Geo. Jaffrey Esq. on y<sup>e</sup> 2<sup>d</sup> of April past, & his Exc<sup>s</sup> several other messages Relating to Fort Dummer.

Whereas his Exc<sup>y</sup> y<sup>e</sup> Gov<sup>r</sup> was pleased on the 2<sup>d</sup> of Ap. past to lay before the Gen<sup>l</sup> Assembly a copy of his Maj<sup>ty</sup>'s order, dated at Kensington the 6<sup>th</sup> Sept. 1744, relating to Fort Dummer, with a Letter from his Exc<sup>y</sup> Gov<sup>r</sup> Shirley in consequence thereof, dated Feby 25<sup>th</sup> whereby it appears to be his Majesty's pleasure that the s<sup>d</sup> Fort should be supported, & that the Gov<sup>r</sup> of N. Hamp<sup>t</sup> should *forthwith* move the Assembly to make suitable Provision for that service, &c. the House immediately took the affair of s<sup>d</sup> Fort under their consideration, & having by all opportunities ever since made what en-

quiries they could into the situation & circumstances thereof, upon mature Deliberation thereon, being humbly of opinion that the s<sup>d</sup> Royall order was grounded on a misrepresentation of the situation of s<sup>d</sup> Fort, which being about five miles North of the Massachusetts north boundary line, upon y<sup>e</sup> west side (1) of Connecticut River suited very well when first built for a protection to their *then* outmost settlements, to accommodate their marching scouts [p. 181.] & be a place of Retreat & Resort for them, & also for a Trading House with the Indians: But is full fifty miles distant from the nearest of our Frontiers that were settled in consequence of any grant from the Government of N. Hamp<sup>r</sup> with the two great Rivers of Merrimack & Connecticut between them, & quite out of y<sup>e</sup> comon Route of y<sup>e</sup> Indians when they come to attack us; and inasmuch as y<sup>e</sup> s<sup>d</sup> Fort being almost in the very south west corner of a number of Towns lately laid out & partly settled by the Massachusetts, between y<sup>e</sup> Rivers of Merrimack & Connecticut cannot be any protection to those infant settlements whose Northern line of about 35 miles in length from No. 4 (on Connecticut River about 25 north of Fort Dummer) over to Contoocook (on Merrimack River about 40 miles north of y<sup>e</sup> Line where it cuts y<sup>e</sup> s<sup>d</sup> River) is their most exposed frontier. Forasmuch also as it plainly appears by the Royall order itself that the People of this Province have no right to the Land which by the Dividing Line *now* appears to be within this Province notwithstanding the plausible arguments heretofore made use of to induce them to be at the charge of settling the Line, viz. That the Land thereby comprehended within this Government & not before granted by the Gov<sup>r</sup> & Council of this Province, would be theirs or else sold, at least so much of it as to defray the charge of s<sup>d</sup> settlement. Furthermore whereas the yearly charge of maintaining fort Dumer (tho' no Protection to any of y<sup>e</sup> Towns within this Province except p'haps one or two granted by y<sup>e</sup> Massachusetts & bordering upon it) would be at a moderate computation, even in time of Peace, *double* y<sup>e</sup> usual annual charges of the Government for many years before it was under a Separate Gov<sup>r</sup> & were the said Fort ever so well situated to answer the ends aforementioned, yet the circumstances of the Province are such by reason of the vast load of Debt contracted by y<sup>e</sup> settlement of y<sup>e</sup> Line, the apprehension of an Indian War and the great addition made to the Burthen we before laboured under by y<sup>e</sup> part we have in y<sup>e</sup> Expedition against Louisburg, besides the yearly support of Government, exclusive of the war, now more than *four times* what it was four years ago, That we are not able further to engage in any additional expence without y<sup>e</sup> utmost necessity should constrain us. Considering also that should we undertake to make Provision for s<sup>d</sup> Fort it would probably be only an introduction to greater Expences: for if we should not at the same time make provision for the support of a much stronger and more conveniently situated Fort at No. 4 (2) on Connecticut River abt 25 miles north of Fort Dumer & also for the Protection of all the new settlements from Fort Dumer up Connecticut River to No. 4, & thence over to Contoocook, and for all the settlements between those lines & the Boundary line there would be matter for [p. 182.] new Remonstrances to be made against us which we have no reason to think the Massachusetts would neglect. Inasmuch also as there is no Danger that the s<sup>d</sup> Fort or neighboring new settlements will want protection, it being the interest of y<sup>e</sup> Massachusetts who enjoy the Land & are a great & opulent people, to Defend them; & the greatest Reason they should do it, inasmuch as thereby they Defend their own proper frontier to which y<sup>e</sup> s<sup>d</sup> Fort & new settlements are a cover, And in addition to all this, forasmuch as we are already burthened to so great a Degree, we should be obliged to much greater expenses in case of an actual war with the Indians, who in conjunction with y<sup>e</sup> French would probably put us to more charge than ever. These things being maturely considered by us according to the best of our Judgements together with the great Decay of Business both of Merchants & manufacturers or *Tradesmen* which is now almost ceased, although it is with y<sup>e</sup> utmost reluctance, that this Assembly sees a Recommendation from his

Majesty not in their Power to comply with, they yet hope to be excused in declaring that they look upon it to be their indispensable Duty to Resolve & it is accordingly,

*Governor Shirley's Letter.*

[Copied from "Belknap Papers," p. 231, in Library of N. H. His. Soc.]

Boston, July 3, 1745.

Sir—

I have now the Pleasure to send your Excellency by Express the news of the Reduction of Louisbourg to the obedience of his Majesty, & the surrender of it accordingly: But to maintain our conquest there, which is of the utmost importance, will require the assistance of all his Majesty's Colonies & Provinces in North America, for furnishing men, ammunition & Provisions for garrisoning & defending the place till his Majesty shall order Troops from Great Britain, or otherwise signify his Pleasure in this affair; and I apprehend this to be the most critical juncture for securing it from the attempts of the Enemy to recover it: For it cannot be doubted, but that the French King will soon send a strong force both of ships & Troops to reduce it, before we can be well secured in the Possession of it; and you may reasonably judge that this Province is already drained of men, Provisions & Ammunition; However we are still so heartily engaged in this service that we have lately sent four hundred Troops, who, I suppose arrived at Louisburg since the surrender of it, besides upwards of sixty seamen for manning his Majestys ship *Vigilant*, & have about two hundred soldiers more Embarked & ready to embark, whom I shall get away with all possible Dispatch; and I cannot but hope your Excellency & the General Assembly of New Hampshire will in duty to his Majesty, & in regard to the common Interest of all his subjects in North America, make provision for the raising of a number of soldiers in-

mediately for this service & have them transported without Delay; and likewise give orders for the taking up & purchasing all the Gun Powder & Provisions that can be got for the Garrison at Louisbourg & the Ships employed there, of both which they are in want, as the General and Commodore inform me, as also Provisions for the French Prisoners to be sent home to France; and as this will require a vast quantity (of Provisions especially) It is my opinion that no Provisions ought to be allowed to be shipt off from the Plantations where they are raised, to the West Indies or any foreign parts whatsoever, till this want be supplied. It will also be requisite that all the Gun Powder that can be found in your Province, except what may be absolutely necessary for your own defence, should be secured for his Majesty's service, and I should think if your Excellency will employ some Merchants in your place for the purchasing of the Powder who will be able to find it out better than your own officers, it will be a likely method of procuring a good quantity of it, of which this Province is almost entirely exhausted, having sent off for the Expedition against Louisbourg about twelve hundred barrels, and I hope that you will consider that both the Garrison & ships will want a considerable supply.

I am, Sir,

Your Excellency's most obedient  
humble servant,

To his Excellency  
Benning Wentworth, Esq.

W. SHIRLEY.

[To which is added in the hand of Gov. Shirley:]

The above is a Circular Letter calculated for the Gov<sup>rs</sup> of all the Colonies as far as Virginia, so that *some* of the particulars of it are not so well suited to the great share and trouble your Excellency has had in promoting this Expedition.—w<sup>ch</sup> you will be pleased to excuse—I must own I am in great anxiety least this invaluable acquisition should be instantly snatched from us, by a large body of Troops being landed soon from old France and Canada before our Forces are supplied with a sufficient quantity of Provisions and warlike stores, which would be fatal, let the Naval force be never so strong. I doubt not but you will get as many men rais'd & dispatched away as possibly may be from your Government; and I must beg of you in particular to secure what powder is possible to [be] had at Portsmouth. Inclosed are some packetts for your Exc<sup>ty</sup> (together w<sup>th</sup> some others) one of which I must beg your pardon for having opened by mistake in an hurry between two & three o'clock in the morning. I will endeavour to send you by next Post an answer to your last Letter, and hope you will be pleased to Excuse me in the mean time. The General writes me word y<sup>t</sup> they were under apprehensions of a Body of 2500 Indians being upon the march and near landing on Cape Breton, and y<sup>t</sup> they were preparing for their reception, and demolishing the late camp and drawing in all the Guns of our late Batteries. I sincerely rejoice with you upon our success hitherto, and hope it may be a good omen of farther success.

[Indorsed]—“Gov<sup>r</sup> Shirleys Letter July 3, 1745.”

Thursday July 25<sup>th</sup> 1745, A. M.

The House met according to adjournment.

Mr. Secretary came into the House & said he was directed by his Excellency to lay before the House the Resolves of a Council of war voted at Louisbourg June 24<sup>th</sup> 1745, & a Report of a Com<sup>tee</sup> of y<sup>e</sup> House of Represent<sup>s</sup> of y<sup>e</sup> Mass<sup>ts</sup> to their Com<sup>tee</sup> of war, dated July 20<sup>th</sup> 1745.

*Resolves.*

[Copied from MS. "Belknap Papers," p. 232.]

At a Council of War held at the Citadel in the City of Louisburg, June 24<sup>th</sup> 1745. ADVISED:

That whereas many Breaches are made in the Walls and Buildings of the Town and Batteries of Louisbourg, by our artillery, and the Circular Battery which did very much command the Harbour is render'd intirely useless without Repair, and as the summer is the only season that such works can be effected here; the Walls, Citadel, Hospital, Magazines, Kings Storehouses, and other the King's Buildings, also the Batteries of the town, and the Grand and Island Batteries be Repaired;

That the said works and Repairs be forthwith begun by the army.

That the artificers employed for this purpose be allowed and paid seven shillings and six pence pr Day, New England currency, old tenor, for their labour;

That common Labourers be allowed and paid five shillings pr Day, said currency for their labour.

That the Government of the Massa<sup>ts</sup> Bay, Connecticut and New Hampshire, be informed as soon as may be of this Resolution, and application be made to them at the same time to pay the aforesaid Labourers their Quota in proportion to their Number of Troops in the army; Also to signify their pleasure relating to their going on w<sup>th</sup> said Repairs.

At a Council of War held at the Citadel in the City of Louisbourg, July 1<sup>st</sup> 1745.

ADVISED,

That although the necessity of some Repairs being immediately made in the Walls and Buildings of this City and Batteries have influenced the Council to advise that said Repairs be forthwith begun by the army, and that the several Governments who sent Troops in the Expedition should be applied to for payment of the same, in Expectation that they would be pleased to allow the Exigency to be a Sufficient Reason therefor; yet as Commodore Warren has been pleased to offer to join with the General in representing the necessity of those Repairs to his Majesty, and in drawing Bills on his Majesty's Treasury for paying the artificers & Labourers employed in effecting the same;— It is therefore most expedient that the General do accordingly join with Commodore Warren in such a Representation to his Majesty, and in drawing Bills for the payment of the workmen in making what Repairs are absolutely necessary, till his Majesty's pleasure be known.

*Report of the Committee of War.*

[Copied from MS. "Belknap Papers," p. 235.]

The Committee to whom was refer'd that part of His Excellency's speech which relates to the Expedition, having maturely considered the same, are humbly of opinion, and make Report:

That it is of great importance that the Damage done by the army to the Fortifications and other Buildings in the city and Harbour of Louisburg be immediately Repaired, and that it is absolutely necessary that a competent number of the Forces be supplied with sufficient Provisions & warlike Stores until his Majesty's pleasure can be known.

That it is incumbent upon & for the Honour & Interest of this Government to continue to advance such sums as may be requisite for securing and maintaining for his Majesty this invaluable acquisition, and that therefore the Committee of War be directed to provide all necessary materials for effecting the aforesaid Repairs, and cause the same with all convenient speed to be transported to the General at Louisburg and that they likewise furnish him with the sum of Two thousand Pounds in Bills of Credit of this Province to be paid by such persons as he shall appoint to the workmen Employed in said Repairs, the said Persons to be accountable for the same.

And with respect to the Warlike Stores & provisions the Committee Report that a large Quantity of Powder and other Stores has been sent from this Government which was not arrived at the time of the surrender of the place, and that the present circumstances of this Province will not admit of any further considerable Quantity of Powder being sent from hence until a further supply shall arrive.

That a large Quantity of Provisions has also been transported to Louisbourg, but as a considerable part of the Army's Stock must have been employed for the Transportation of the French Inhabitants to France, the Committee are therefore of opinion that a further supply may be necessary, and that the Committee of War be directed to procure such a Quantity of each species, as with what is already provided shall be sufficient in their judgment to subsist such a part of the Garrison sent from this Province as shall be judged necessary to remain there for three months from this time.

And as the army are in great want of cloathing the Committee likewise report, That the said Committee of War be directed to make further Provision in this regard and cause that the army be supplied on the most reasonable Terms.

The Committee further Report, That the Committee of War be enabled and directed to pay one months wages to the order of each of the officers & soldiers of the first Enlistment sent from this Province & who are *sui Juris* (1) and to the masters and Parents of each of those who are servants or under age upon its appearing to said Committee of War by certificate from the Commissary of each Regiment, and the General Commissary that such officer & soldier has one months pay remaining due over and above what he has yet receiv'd or taken up, and that Letters be sent to the Governments of Connecticut and New Hampshire acquainting them with the Resolutions of this Court that they may also provide for their proportion of the Forces as they see cause.

By order of the Committee

Mr. Secretary came down & said his Excellency was of opinion 'twould be best that the thirty men voted the 24<sup>th</sup> Instant to scout &c. should be kept out for a month from the time of their being inlisted or impress'd, and that y<sup>e</sup> Council were of opinion that the middle of Sept<sup>r</sup> would be the most Dangerous season & that the Treasurer had no Pork. Whereas there was a vote pass'd in this House the 24<sup>th</sup> Curr<sup>nt</sup> by which thirty men were added to the forty-five before voted for scouting on & guarding y<sup>e</sup> Frontiers 'til the last of Aug<sup>st</sup> next and whereas it appears that there may probably be occasion of y<sup>e</sup> s<sup>d</sup> number of men a longer time.

Whereas this Government rais'd equip'd & transported three hundred & fifty voluntiers on the Expedition for y<sup>e</sup> Reduction of Louisburgh, which much exceeded their Proportion of the numbers sent by y<sup>e</sup> other Governments, and whereas by the blessing of God the s<sup>d</sup> Louisburgh is reduced to the obedience of his Majesty our most gracious Sovereign: since which by virtue of an Act of the Gen<sup>l</sup> Assembly made & pass'd before the advice of the Reduction thereof, this Government have rais'd equip'd & transported 120 voluntiers more as a Reinforcement of the army; and whereas by Letters from Coll. *Address to his Majesty.*

*To the Kings most Excellent Majesty.*

*Most Gracious Sovereign,* We your Majesties most dutiful & Loyal subjects the Council & House of Representatives of your Majesties Province of N. Hampshire in New England convened in Gen<sup>l</sup> Assembly most humbly beg leave to express our grateful Acknowledgements for all the many great & invaluable blessings we enjoy under your Majesties most auspicious Reign; more especially now for your Majesty's Royal munificence & gracious Bounty in sending to this Province artillery & warlike Stores so necessary at this Time for the defence of your Majesties subjects from the Invasion of your Majesties Enemies, which they had projected & we might have suffered if they had not been prevented by y<sup>e</sup> seasonable Expedition enterprised & carried on by your Majesties northern Provinces against Louisbourg (in which your Majesties little Province of New Hump<sup>t</sup> bore a large share exceeding their ability) out of their Loyalty & Zeal for your Majesties service.

And we now most humbly crave leave to congratulate your Majesty upon the success of your Majesties arms in that attempt in reducing that strong & important Fortress to subjection unto your Majesty which may be a means of recovering that profitable Branch of y<sup>e</sup> British Trade, y<sup>e</sup> Fishery to your Majesties subjects & y<sup>e</sup> safety of your New England Provinces secur'd from the Invasion of your Majesties Enemies. THE MEMORIAL of y<sup>e</sup> Field officers, Capts & Subaltern officers of the New Hamp<sup>r</sup> Regiment now at Louisbourg, under the Comand of the Hon<sup>ble</sup> Lt. General Pepperell, Esq. To his Excellency the Governor & the Hon<sup>ble</sup> the Council & House of Representatives of said Province: *Humbly sheweth,*

That those of s<sup>d</sup> Regiment who have been here during the siege, they are of opinion should be released, that they may return to their Native Country, for Reasons too many herein to Enumerate, shall therefore mention only one or two, & leave the others, of which you may be informed by those Gentlemen who wait on your Excellency & Honours with this: First then the men are almost naked & will be quite so before winter. Secondly, their wages are too inconsiderable to induce them to stay.

And whereas it has been tho't that a Number of the Americans must garrison the city & Fortifications of Louisbourg till the spring, by Reason his Majesty's Pleasure is not known; & we apprehending that a part of the men will be part of those which belong to New Hampshire & are now in the Pay of s<sup>d</sup> Province at s<sup>d</sup> City,—We have therefore tho't proper to send Messrs Waldron & Prescott, by leave of the Comander in Chief of said City, to lay before your Excellency & the Hon<sup>ble</sup> the Council & House of Representatives, what we conceive is necessary to be done in that case for s<sup>d</sup> men, viz. That those who must tarry (if any) should have their wages augmented in such manner that they may not be sufferers: That they have proper cloathing sent to secure them from the inclemency of the weather in this Northern climate, which we are assured, is extreme cold and stormy for five or six months in the year, by sundry of the French Gentlemen, who many years past have been Inhabitators of this City; That they also have proper Bedding, with sacks of straw in lieu of Beds afforded them, with such other things as those Persons shall Evince to you to be Reasonable for said men, and your Memorialists shall, as in Duty bound, ever Pray (1).

*Governor's Message.*

[Copied from MS. "Governor's Messages," Vol. I, p. 363,]

*Gentlemen of the Assembly,*

I think it necessary to acquaint you that upon the Massachusetts's Government's declaration of war against the Canada & Eastern Indians I tho't myself indispensably obliged for the safety of his Majesty's subjects, to declare war against the said Indians, and such as are, or may be, in confederacy or alliance with them, which declaration I caused with the advice of his Majesty's Council to be published with the usual & customary solemnities on the like occasions. It remains with you to make provision to carry on the war with the utmost vigor, and in such a manner as may be most distressing to the Enemy & least burthensome to the Province.

I shall lay before you his Excellency Governour Clinton's letter, and the papers he refers to therein, which principally relate to an Interview he has appointed at Albany with the six Nations as they are commonly termed. How much it will be the interest of this Province to gain the friendship of these six Nations, is so evident, that it will be looseing time to use arguments to persuade you to your duty and Interest herein. I make no doubt therefore but you will esteem it the highest act of Prudence for this Government to interest themselves in a present to be made at this meeting under the direction of a proper person or persons duly qualified to Represent the Province.

I shall also lay before you his Excellency Governour Shirley's letter of the second of this month from which you may be apprized of the State of the Troops in the pay of this Government, and how necessary it is to provide for so many as shall remain the ensuing Winter, for the Protection of the city of Louisbourg, & the Battery thereon depending, and consult any thing else that may contribute to their comfortable subsistance.

Coll<sup>o</sup> Moore ought to have given me an exact account of the number of our Troops destined to remain there the winter season, but by his letter which you will herewith receive, it will appear how deficient he has been in that point w<sup>ch</sup> I attribute to the uncertainty of any troops arriving from England this Fall.

I can't omit observing, that it has given me great concern, that no order of the General Assembly was subsisting to enable the Treasurer to make immediate payment to the Troops, upon their return, of what wages was then due, many of which landed in a manner naked, and all must suppose destitute of money to carry them to their Respective habitations;—I therefore Recommend that a resolve of both Houses may pass for their relief in this case, for it will be high injustice to men who have behaved so bravely in the cause of their King and Country to postpone their just due, 'til the Muster Rolls are exhibited to & allowed by the General Assembly.

Besides this act of Justice, I would further recommend an augmentation of their wages, or an additional premium, as a reward for their faithfull & hard

services. If something of this nature is not done, few will be able with their whole wages to put themselves in the same state, with respect to their cloathing as when they entered into the service, which deserves your consideration, & shall merit my attention.

Since the surrender of the city of Louisburg I think it of absolute necessity for the service of the Province, that all Expences attending the defence of the City, reinforcing the regiment & provisions of all kinds, should be kept in a separte charge from the charge that arose on the first setting out the Expedition, there being a greater probability that his Majesty will defray that than the whole; & if the whole is concluded in one account, it may be difficult to distinguish the charges.

*Governor Shirley's Letter (1).*

[Copied from "Belknap Papers," p. 240.]

Louisburgh Sept 2<sup>d</sup> 1745.

Sir,—His Majesty's service upon several accounts requiring my Presence here a few weeks, for securing our new acquisition, till his Majesty shall have an opportunity of taking it into his own protection, I set sail in his Majesty's ship Hector, from Nantasket, on Saturday night *pas* month, and arrived here on Fryday Evening *pas* Fortnight, where I have been endeavoring, in the best manner I can, to settle the State of the land Forces, and to act for the Interest of the common cause of the Colonies concerned in the Expedition in every respect. Upon looking into the State of the Massachusetts and New Hampshire Troops I find it to stand thus: The Massachusetts Government sent into the service of the Expedition, upon the first Enlistment, including the Troops in their pay which were aggregated to your Regiment the train of Artillery and workmen, thirty three hundred men, of which twelve hundred and thirty eight are return'd home, ninety five are killed and fifty seven died natural deaths, so that of those soldiers there remain here nineteen hundred and twelve; since which Enlistment the Massachusetts Government have voted a thousand men more to be rais'd for the service, of which about seven hundred are actually raised and arrived at Louisburgh, so that there are in the whole about twenty five hundred Massachusetts Troops now upon Duty within the Garrison and Batteries here, and the remaining three hundred are now raising with the utmost Dispatch, to compleat the last thousand, and relieve some more of the Massachusetts Troops.

Your Excellency sent hither, upon your first Enlistment 308 soldiers of which 169—including the Invalids now sent—are returned home. Six have dyed natural deaths, and *five* have been killed, so that of those first Enlisted Troops 139 are now remaining here; since which first Enlistment 115 more Troops have been raised and sent hither from your Government, and *Two hundred & fifty four* Troops are now upon Duty within the Garrison and Batteries here. By this account your Excellency will perceive that the Quota of your Government in proportion to that of the Massachusetts Bay, according to the several Levies raised by each Government for the service of the Expedition is as 308 to forty three hundred; and how much larger a proportion of the New Hampshire Troops of the first Enlistment have been dismissed than of those of the Massachusetts Government upon the same Enlistment, and how much larger a part of the Quota of the Massachusetts Troops raised & voted to be raised is upon Duty here than of the Quota of your Government; upon which I doubt not but your Excellency will observe my own and the General's disposition to do full Justice to the New Hamp-

shire Troops, and that your Government will continue to act in concert with that of the Massachusetts Bay, with the same vigour that you have hitherto done for the common cause. The preservation of this invaluable acquisition till his Majesty can have an opportunity of taking it into his protection, upon which I esteem the prosperity of New England chiefly to depend, is as necessary as the reduction of the place itself, or even more so, for it would have been better for us never to have reduced it, than to lose it again to the Enemy; And as from the Engagements of his Majesty in Europe in support of the common cause against the Enemy, it seems very possible that no Troops may arrive from Great Britain for the protection of the place till the latter end of May or beginning of June, before which time we must expect the Enemy will push both from Canada and France in the most vigorous manner, for the recovery of it from us, if they don't do it before the end of this Fall (which is not impossible) it behooves us to keep the strictest guard at present, and for my own part I shall look upon the place as lost, if when that happens, whilst the Land side of this Fortress is under the same circumstances it is now in, we have not four thousand men at least for the defence of the Fortifications and Batteries, the former of which are so extensive that no Sallies can be expected to be made against the Besiegers, whilst they are carrying on their works against the Town, with a less number, and without doing which we have had sufficient Experience of the fatal consequences of it to the Enemy; and it shall be my utmost endeavor to procure that complement of Troops for this service by the middle of March at furthest, and keep as strong a Garrison here in the meantime, at all events, as I can. For I depend upon some sudden attempt to surprise us at least by a large Body of French & Indians from Canada, supported with an Embarkation of Artillery, warlike stores and provisions from France, to meet them here, with some few Troops from thence, and a number of officers about that time; and as I think it not improbable that St. John's Island will be the place of Rendezvous for the Enemy in such case, and in all attempts from Canada, and a place of Resort for the neighboring Indians, I shall take measures immediately, for clearing that Island of the French (who have sent Deputies here, with offers to take the Oaths of Allegiance to his Majesty, and a petition that they may be permitted to remain there as subjects of Great Britain) and to burn all the houses and other Buildings which will require a Body of three or four hundred Troops and the armed vessels at least to do it, without danger of being surprised by the Enemy. Coll. Moore will inform you of the necessity of providing proper cloaths of all kinds, and some Watch Coats for your Troops with the utmost Expedition, and twelve months provision, being the same Quantity voted to be provided for the Troops of the Massachusetts Government. I am endeavouring to have the works put into the best Repair they will admit of at present, materials for that purpose being ordered to be bought by the Massachusetts Committee of War, and the workmen to be paid, and to get the Barracks and Houses well fitted up for the comfortable Reception of the soldiers, and a Quantity of Fuel sufficient not only for the Winter, but to last in the Spring against any surprise. Upon the first arrival of his Majesty's commands from Great Britain, your Excellency shall be apprised of them. I shall during my stay do every thing in my power for the common service, as I shall upon my Return to Boston, which I design shall be in about three weeks; and I doubt not of your Governments acting in conjunction with that of the Massachusetts Bay with the same spirit for his Majesty's service and the Interest of New England, with which it has hitherto done.

I am, with great regard, sir,  
your Excellency's most obedient  
Humble servant.

W. SHIRLEY.

*Mr. Waldron's Letter above referred to.*

[Copied from MS. Corr. in Secretary's office, Vol. I. p. 223.]

To the Honorable House of Representatives for his Majesty's Province of New Hampshire.

Mr. Speaker,

Last night, between 9 & 10 o'clock, your Door-keeper notified me to attend the Assembly this morn, upon a Hearing of an affair, in which I am concern'd; I should most gladly wait on the House, if the state of my health would allow it. Last Thursday morn, I was taken ill with the cholic, which continued extremely bad till yesterday noon, and tho' the acuteness of the Pain is gone off, I remain so weak, and am otherwise so much indisposed, that I think, it would be a tempting of Providence, and counting a relapse for me to go abroad this morn, and therefore I pray to be excus'd; and, as the Petition, on which the Hearing is to be, is principally pointed at me, I beg the Honorable House to give me a Day in Court next week, for my Defence, or when else they shall think proper; as I am prevent'd by the Providence of God, from attending to Day, and not by any neglect or willfulness of my own, I appeal to the Honorable Assembly, whether my request be not most just, and whether the granting of it will not be doing as every man would be willing to be done unto. All that I desire (to use a vulgar Phrase) is a clear stage and no Favour, which is so agreeable to Law, reason & the nature of things, that I trust in God, I shall not be deny'd.

I am, Mr. Speaker and Gentlemen

your most obedient and most humble serv<sup>t</sup>

Rich<sup>d</sup> Waldron.

The care this House has taken to choose committees to enquire into y<sup>e</sup> state of the 15000 £ loan and other Funds of y<sup>e</sup> old Tenor [p. 345.] will we hope shew our hearty Desire of having y<sup>e</sup> acts complied with & y<sup>e</sup> currency of those bills determined. And we hope y<sup>e</sup> ample Grants made this session of men for his Majes<sup>t</sup> Fort William & Mary & for Guarding y<sup>e</sup> Frontiers will sufficiently evidence how much we have at Hart y<sup>e</sup> Honor of his Majesty your excellency's ease & quiet & y<sup>e</sup> safety & Defence of y<sup>e</sup> People of this Province whom we represent.

We take this opportunity to thank your Excellency for your care in y<sup>e</sup> Recess of y<sup>e</sup> Gen<sup>l</sup> Assen in sending y<sup>e</sup> Reinforcement of twenty men to Canterbury & Rochester & ordering y<sup>e</sup> scout of fifty men for fourteen days under Capt Goffe & y<sup>e</sup> Troopers to Canterbury & as y<sup>e</sup> muster Rolls for those men are laid before House we shall cheerfully order y<sup>e</sup> paying of them & beg y<sup>e</sup> continuance of your Excellencys care in ordering out as soon as possible y<sup>e</sup> men granted for guarding y<sup>e</sup> Frontiers this session & pray that your Excellency will be pleas'd to give proper encouragement to all suitable Persons that may appear as Volunteers to go out on y<sup>e</sup> first sep'd Vote as well as the Vote for fifty Volunteers on Wages & we hope y<sup>e</sup> committee appointed for that Purpose will cause ye bridge to be built over Suncook River as soon as y<sup>e</sup> Waters will admit of it y<sup>e</sup> our scouts may have a quicker & easier way to y<sup>e</sup> most exposed Frontiers. We also thank your Excellency for directing y<sup>e</sup> committee to take up & send a vessell to Louisbourg to bring Home those of our Dear Country men that yet remain there & hope we shall soon have the Pleasure of congratulating your Excellency on their safe [arrival] in this Report. We are really concern'd that y<sup>e</sup> Hon<sup>o</sup>'s Vote of y<sup>e</sup> 17<sup>th</sup> Curr<sup>t</sup> in answer to that Paragraph of your Excellency's speech relating to y<sup>e</sup> 180 B<sup>ll</sup><sup>s</sup> of Gun Powder sent to this Government by his most gracious Maj<sup>ty</sup> which is concurr'd by y<sup>e</sup> Hon<sup>o</sup>l Council should meet with any difficulty with your [p. 346.] Excellency. We think it no ways inconsistent with his Majesties order in Council of y<sup>e</sup> 6<sup>th</sup> of September 1744, or any Instructions that have been laid before this House & cant help thinking but it will be most agreeable to his Majesty as it is so highly reasonable that if we pay for Powder it should be at y<sup>e</sup> Disposal of y<sup>e</sup> Gen<sup>l</sup> Assembly for y<sup>e</sup> Defence of his Majesties Govern<sup>t</sup> especially as it will then be in your Excellencys Power to obey his Maj. Command in y<sup>e</sup> said order in Council which are to take a particular care in y<sup>e</sup> Preservation of s<sup>d</sup> Ordinance & stores & that they be not expended but on proper & necessary occasions only for as your Excellency is one Branch of y<sup>e</sup> Legislative Power none of it can be disposed of without your Excellencys consent as for the Powder becoming y<sup>e</sup> property of any private person we see nothing in his Majesty's order in Council that in y<sup>e</sup> least countenances such a thing for if so it is impossible for your Excellency to take that care of it his most gracious Majesty requires.

We assure your Excellency that we think our selves oblig'd to John Thom-

linson Esq. our agent for his care in procuring y<sup>e</sup> canon Powder & other stores & are heartily ready & willing to pay what y<sup>e</sup> Powder is charged in y<sup>e</sup> account from y<sup>e</sup> Board of Ordnance with the Interest of y<sup>e</sup> Money since it has been paid provided a method can be agreed upon for raising y<sup>e</sup> money & y<sup>e</sup> powder to be disposed of for y<sup>e</sup> Defence of y<sup>e</sup> Governm<sup>t</sup> agreeable to y<sup>e</sup> Votes of y<sup>e</sup> Gen<sup>l</sup> assembly. But we think y<sup>t</sup> we should greatly betray our Trust if we should dispose of so large a sum of money as this would be never to have any account what becomes of it We therefore earnestly pray that [p. 347.] your Excellency would be pleased further to consider of this matter & consent to our vote for y<sup>e</sup> Payment of s<sup>d</sup> Powder which now lays for your Excellencys concurrence we have pass'd & sent up a vote y<sup>t</sup> y<sup>e</sup> several comm<sup>ee</sup> for y<sup>e</sup> expedition against Louisbourg should lay their accounts before y<sup>e</sup> House as soon as may be and y<sup>e</sup> House now has your Excellencys Proposal of choosing a com<sup>ee</sup> to correspond with y<sup>e</sup> agent under consideration we thank your Excell<sup>y</sup> for acquainting him with y<sup>e</sup> Part we bore in y<sup>e</sup> expedition ag<sup>t</sup> Louisbourg & beg leave to conclude with y<sup>e</sup> strongest assurances of y<sup>e</sup> Disposition of this House to do all in our Power consistent with y<sup>e</sup> Welfare & Happiness of our constituents to make y<sup>e</sup> Burthen of Government which at this difficult time may lay so heavy upon your Excellency both easy & light & our most Hearty and earnest prayers for your Excellencys Temporal & eternal Happiness.

When his Excellency was pleas'd to make y<sup>e</sup> following speech,  
 Viz<sup>t</sup>

On a special Convention of y<sup>e</sup> members of both Houses on Extraordinary affairs.

*Gentlemen of ye Council & Assembly—*

His Majesty having been pleas'd to order five Battalions of his own Troops under y<sup>e</sup> command of Lieut. Gen<sup>l</sup> Saint Clair together with Maj. Gen<sup>l</sup> Framptons Regiment sent to Cape Britton from Gibraltar to be join'd with such [p. 357.] Troops as shall be levied in North America to Rendezvous at Louisbourg & proceed from thence under y<sup>e</sup> convoy of his Maj<sup>s</sup> Fleet commanded by Rear Adm<sup>l</sup> Warren up y<sup>e</sup> River St Lawrence for y<sup>e</sup> immediate Reduction of Canada—I am commanded by y<sup>e</sup> King to make a necessary & immediate Disposition for raising as many men to be employ'd in this Expedition as y<sup>e</sup> Time will permit y<sup>e</sup> men that go in this service are to be in his Majestys pay from y<sup>e</sup> Time of entering into y<sup>e</sup> service to share in any Booty that may be taken from y<sup>e</sup> Enemy dismiss'd & sent back to their respective Habitations when y<sup>e</sup> service is over unless they desire to remain elsewhere.

The officers I shall appoint to command y<sup>e</sup> Troops that shall be Levied in this Government will also receive y<sup>e</sup> King's Pay & bear Commissions under his Majesty His Grace y<sup>e</sup> Duke of New Castle having signified to me that a number of Blank Commissions will be sent pr y<sup>e</sup> Next Conveyance which I am daily expecting.

Upon y<sup>e</sup> success of this Expedition y<sup>e</sup> future Tranquility of this Continent greatly depends & since his Majesty has (in this Time of great Difficulty) contributed so greatly to y<sup>e</sup> setting on Foot this Expedition by ordering five Battalions of his own Troops with Maj<sup>r</sup> Gen<sup>l</sup> Frampton's Regiment &c. and a sufficient convoy of his Royal Navy to defend them against any attempts that y<sup>e</sup> enemy may make to defeat this great Design—I am hoping y<sup>e</sup> respective Governments on y<sup>e</sup> Continent will exert themselves to give all possible Despatch to y<sup>e</sup> respective Levies that neither y<sup>e</sup> Fleet nor y<sup>e</sup> Kings Troops may sustain any Delay by our Negligence therefore I think it necessary to acquaint you that it is intended that Lieut. Genl. St Clair was to sail from England y<sup>e</sup> latter end of April or y<sup>e</sup> Beginning of May at Earhest & that I am com<sup>d</sup> to [p. 358.] take effectual measures y<sup>t</sup> y<sup>e</sup> Troops I shall raise in the Government may arrive at Louisbourg before y<sup>e</sup> Time Lieut. Gen<sup>l</sup> St. Clair may be expected there.

I can't convey to you what his Majesty expects from all y<sup>e</sup> Colonies in clearer Terms than by reciting y<sup>e</sup> words of his Grace y<sup>e</sup> Duke of New Castle's Letter to me of y<sup>e</sup> 9<sup>th</sup> April 1746, which are as follows:—

“As to y<sup>e</sup> article of arms & cloathing for y<sup>e</sup> men to be raised his Majesty has commanded me to recommend it to you & y<sup>e</sup> other Governours to take care that y<sup>e</sup> soldiers may be provided with them & his Majesty has authorized & Impowered Lieut. Gen<sup>l</sup> St Clair to make a reasonable allowance for defraying that expence.

“ You will recommend it to y<sup>e</sup> Council & Assembly to provide a sufficient number of transports to carry y<sup>e</sup> Troops to be raised in New Hampsh<sup>t</sup> to Louisbourg & from thence up y<sup>e</sup> River of St. Lawrence & a sufficient Quantity of Provisions for their subsistence & also to provide as many armed vessells as can be got to serve in y<sup>e</sup> Expedition under y<sup>e</sup> command of rear Admiral Warren.”

By y<sup>e</sup> first Paragraph of his Graces Letter you will observe that y<sup>e</sup> Province is only to advance y<sup>e</sup> money for arms & cloathing for y<sup>e</sup> Troops design'd to be raised here & that it will be repaid by Bills (upon y<sup>e</sup> construction I put on it) on y<sup>e</sup> Treasury to be drawn by Lieut. Gen<sup>l</sup> St. Clair.

By y<sup>e</sup> latter Paragraph of y<sup>e</sup> same Letter it appears y<sup>t</sup> y<sup>e</sup> Expence of Transports Provisions & armed Vessel is to be born by y<sup>e</sup> respective Governments, but I am apprehensive that also will be repaid by y<sup>e</sup> Crown upon proper application & y<sup>t</sup> y<sup>e</sup> sudden Resolutions his Majesty was pleased to take in forming this Expedition prevented y<sup>e</sup> necessary Provision being made for what he requires from his Governments on y<sup>e</sup> Continent.

I hope therefore you will with ye utmost Dispatch & with y<sup>e</sup> greatest cheerfulness enable me effectually to carry his Majesties Commands into execution by granting an ample & sufficient Bounty to such of his Majesties subjects as shall appear to enlist for this service & to do every thing that may contribute to y<sup>e</sup> quickest Imbarcation of y<sup>e</sup> Troops to be raised in y<sup>e</sup> Government.

The daily Captivities & frequent Murders committed by y<sup>e</sup> Indian Enemy who are instigated by y<sup>e</sup> French at Canada to such acts of Cruelty make it our Duty to engage with Hart & Iland in this Expedition & after we have done our part we should with Harts overflowing with y<sup>e</sup> warmest Gratitude to y<sup>e</sup> most Righ<sup>t</sup> God adore his infinite wisdom in inclining & disposing y<sup>e</sup> Hart of our most Gracious Sovereign to undertake an Expedition calculated so much for our advantage at a time when all y<sup>e</sup> nations of Europe are labouring under y<sup>e</sup> dreadful calamities of war & his Majesties own Kingdoms invaded by Traitors & Rebels.

Upon these considerations Gentlemen, & from y<sup>e</sup> Justness of our cause we may upon rational principles trusting to y<sup>e</sup> conduct of Divine Providence hope for success in this important undertaking.

An undertaking which we must view in all its consequences & though it [p. 360.] may be attended with a great expence it will not be perpetual for if it should please God to give success to his Majesties arms in y<sup>e</sup> Reduction of Canada y<sup>e</sup> Indians must then become our unalterable Friends y<sup>e</sup> Expence of our scouts & Inland Frontiers would wholly be taken off a Flow of wealth & increase of Inhabitants must consequently be introduced & every one would enjoy y<sup>e</sup> Blessings of Peace under his own vine.

As y<sup>e</sup> subject of my speech will not admit of y<sup>e</sup> least Delay I must Desire that a committee of both Houses may take it under their immediate consideration & Report thereon to me with all possible Dispatch.

*Governor's Message, 24 Jan., 1746-7.*

[Copied from MS. "Gov<sup>rs</sup> Messages," in Secretary's office, Vol. I, p. 437.]

*Gentlemen of the Assembly.*

I was hoping no application from the chair that was for his Majesty's Immediate service could fail of having its due Weight in your house, especially an application that was founded on his Majesty's Instruction on the same subject, w<sup>th</sup> has been laid before you, to convince the House that it is his Majesty's pleasure That an Act for punishing mutiny & desertion should have a being in this Province, but I find in answer to my message on this occasion, that the House did not see their way clear in it. I must therefore desire that your answer may be reconsidered, and that you effectually enable me to preserve good order & discipline in his Majesty's troops, otherwise for my own Justification, I shall be under a necessity to lay this matter before the King.

[p. 455.] *May it please your Excellency,*

The convened members do not think they have any thing to do to order the King's Troops. We are sensible it is of y<sup>e</sup> greatest Importance that his Majesties Fortress at Annapolis Royal should be preserved from falling into y<sup>e</sup> hands of y<sup>e</sup> Enemy; as it seems by what Gov. Shirley writes he proposes y<sup>e</sup> drawing of Bills to defray the charge of y<sup>e</sup> Armament he intends to send to the Assistance of that Fortress & y<sup>e</sup> Government are not concern'd in it, so if your Excellency shall think it best to send assistance there at this time & y<sup>e</sup> Expence can be paid by drawing Bills we hope yo<sup>r</sup> Excellency will think that y<sup>e</sup> best way.

[Letter of Hon. Geo. Jaffrey, copied from MS. Corr. in Secretary's Office, Vol. 2, p. 7.]

*Mr. Speaker & the Hon<sup>ble</sup> Houses of Representatives now sitting.*

His Excellency the Govern<sup>r</sup> this afternoon sent me the vote of y<sup>e</sup> Hon<sup>ble</sup> House of y<sup>e</sup> 1<sup>st</sup> Inst. complaining that contrary to former Practice I had neglected to Lay the Treasurers acc<sup>t</sup> before the Gen<sup>l</sup> Assembly for two years Past which is such an opprobrious Reflection on me which in Honour to truth and myself I can't but Resent. The account for the year 1744 has been settled by a committee of Council & Assembly approved of by the Gen<sup>l</sup> Assembly & signed by the Governour as usual. The acco<sup>t</sup> for the year 1745 was lay'd before the Gen<sup>l</sup> Assembly and a committee appointed who Did ex-

amine it (I think in May last) as will appear by their marks upon it, and the Reason they did not settle it was (as I understood) some of the Leaders of scouts had not accounted for the Provisions they had Rec'd. I can't apprehend how the Hon<sup>ble</sup> House can with Justice Reflect upon me for two years neglect. The account for the year 1746 is now Ready for the Examination of a Comitte which I desire may be forthwith Done that the State of the Treasury may be known. My health dos not now admit of my waiting on them, which I hope they will Excuse, and am, with greatest Respect, yo<sup>r</sup> most obed<sup>t</sup> Humb<sup>l</sup> Serv<sup>t</sup>.

Geo. Jaffrey.

Portsm<sup>o</sup>, Apr. 3<sup>d</sup> 1747.

[Answer of the House to the Letter of Hon. Geo. Jaffrey Esq. Treas. copied from MS. Corr. in Secretary's office, Vol. 2, p. 9.]

Tuesday 4<sup>th</sup> of April.

Sir:—We have your Letter of yesterday Before us in which you inform us that you have had the House's vote of the first Ins<sup>t</sup> sent to you Respecting the Treasurers Accounts being laid before the House which you say is such an opprobrious Reflection on you that in Honour to truth and your self you can't but Resent. We think we have much greater Reason to Resent your letter and Believe the House was never treated so by any officer in the Government before,—and to see who is in the Right we desire you once more to Read over y<sup>e</sup> s<sup>d</sup> vote & your Letter: The Introduction to the vote says— Whereas the Treasurer's acco<sup>ts</sup> (contrary to the former practice of this Governm<sup>t</sup>) have not been settled this two years last past, By reason of which &c. Now Sir please to tell us wherein any Reflection lies or what is inconsistent with truth. Are the Treasurer's acc<sup>ts</sup> for this two years last past settled, which is the thing we said was not done and what we wanted the acco<sup>ts</sup> for in order to have done and think we have a Right to call for them and have them bro<sup>t</sup> into the House, let who will be offended. Indeed in your letter you Express the introduction of the vote as complaining that contrary to former practice you had neglected to lay y<sup>e</sup> Treasurer's acco<sup>ts</sup> before y<sup>e</sup> Gen<sup>l</sup> Assem. for two years past. But how you came to make this Representation of our vote for which there is no foundation in y<sup>e</sup> vote, & then to speak of it as so opprobrious we can't tell. You tell us y<sup>t</sup> y<sup>e</sup> acco<sup>ts</sup> for y<sup>e</sup> year 1744 are settled & y<sup>t</sup> Comtes have been upon the other &c. But what Relation has this to the vote & who says any thing to the contrary? But y<sup>e</sup> acc<sup>ts</sup> for this two years past are not settled & it is high time they were. And we expect when we call for the acco<sup>ts</sup> that you forthwith lay them before y<sup>e</sup> House.

Mr. Secretary Bro't Down his Excellency Written message to y<sup>e</sup> House, which is on file, also a copy of his Excell<sup>ys</sup> orders to y<sup>e</sup> Respective Persons that by virtue of their Beating to raise Levies for Canada Expedition rec<sup>d</sup> money out of y<sup>e</sup> Treasury for paying the Bounty granted by y<sup>e</sup> Government to such as should voluntarily inlist into his Majesties service for said Expedition. Mr. Secretary Bro't down also y<sup>e</sup> Petition of David and Rich<sup>d</sup> Elliot &c.

*His Excellency's Message.*

[Copied from MS. "Governor's Messages," in Secretary's office, Vol. I, p. 441.]

*Gentlemen of the Assembly,*

I think it for his Majestys Immediate service to recommend to you once more the passing an act for punishing mutiny & desertion in the Kings troops raised in this Government for the Expedition against Canada, there being no Act of Parliament nor Provincial Law that will effectually answer that End—in which Act it will be essential to have a clause inserted for the speedy assembling those troops on the first occasion, & for subjecting such others as are or may be *born* in the Kings pay or other services to regular discipline.

For want of wholesome Laws to punish offenders in military form, & from the Insinuations of evil minded persons, which the unthinking part of his Majesty's Troops were easily prevail'd upon to receive, my good intentions in Erecting Strong Barracks at Winnepisiocke pond were defeated (1), and many other advantageous designs for the publick good, wholly set aside.

Every one that wishes the prosperity of the Province & will Judge Impartially of things must confess that the Erecting such Barracks in the Enemy's country (& probably without any Expence to the Government) would have been a great cover to the Frontiers which now lay open to the Enemy, That they would have been an advanced magazine to your scouts & Companys of Volunteers, That they would have been a safe retreat to them in their marches, upon discovering a Superiour number of the Enemy, That your frontiers would have been protected at less expence, and the Enemy deter'd from making frequent attempts below.

These are public benefits too great to loose, and they should not have been lost, had it been in my power to have prevented it.

The fascine Battery at his Majestys Fort William & Mary requires a great deal of labor to make it usefull & fit for service, and upon your passing an act to enable my officers to bear a proper command, I shall employ a suitable

(1) See Thomlinson Corr., No. 60, dated Nov. 13, 1746, in this Vol.—Ed.

number of the Canada men while they are under my care to complete that work.

The grant of men made by the General Assembly for the Kings Fort, was included and many other Grants, which at that time I tho't necessary, for which reason I consented to it. But I must now once more recommend to you to make an Establishment of officers as well as men at least for the summer season. The Fort I look upon as the grand frontier of the Government, and Forts without a sufficient Establishment of officers, let there be ever so many men, are in as great danger of being lost to the Enemy as mariners at sea without a compass to direct them to their port.

I esteem it also for the safety of the Government that compleat Barracks should be forthwith Erected at said Fort for accommodating at least one hundred men, to be ready upon any emergency; the works that are at present will serve only to accommodate those that are upon guard.

The two vessells I sent to Annapolis in November last to reinforce his Majesties Garrison are safely return'd, and I must observe to you that I always intended the charge of those vessells & the troops imbarked on them should be paid by the Crown, but as what has hitherto passed has been conducted by the Com<sup>ees</sup> appointed by the Gen<sup>l</sup> Assembly to provide for the Canada Expedition, who I have directed to keep a separate account of the charges arising on the Annapolis affair, so I must desire that you will provide for the discharge of the whole as well for the vessells as Seamen, it being highly reasonable they should be both paid, and the amount of the account shall be discharged to the Government, as soon as I have orders to draw for the same, which I am hourly expecting.

The Secretary will lay before you a copy of my orders to the respective persons that have been raising men for the Canada Expedition to account with the Treasurer for the sums they have received of him for paying the bounty allow'd by the Government, and if there should be any that either refuse to obey this order, or have misapplied the money so rec<sup>d</sup> by them, it is of importance that you enable the Treasurer in a short way to compell them to it, that the Expence may be known with certainty.

*Gentlemen,*

The duty I owe to his Majesty obliges me to recommend these things I have now mentioned, & to press upon you a speedy resolution on the whole, having some other things that appertain to this session to lay before you.

B. WENTWORTH.

As the Government is now at great expense on many accounts & many large sums are already voted & more wanting & the state of y<sup>e</sup> Treasury is not known the accounts not having been settled for some time past so that grants for Payments of money on many accounts seem to be at uncertainties whether there be any money to answer them or not so that in order to know what measures are proper to take in this difficult time the House think it needful in y<sup>e</sup> first Place to know y<sup>e</sup> state of the Treasury, therefore

Whereas the engaging the Six Nations of Indians to be our Friends in this difficult season & also the engaging them to go [p. 481.] to War against our Enemies would be of vast Importance, and whereas it appears by a Letter laid before this House by his Excellency y<sup>e</sup> Governour from Gov<sup>r</sup> Shirley with an Extract of a Letter from Coll. Stoddard that those Nations are generally spirited to engage on our side & to go to War against our Enemies—and Whereas this House is disposed to do all they can under their present difficult circumstances to promote an affair which may prove of great advantage to the Governments in General—and whereas Coll. *Gentlemen of the Assembly,*

Your vote of 28<sup>th</sup> May Inabling me to pay off the two armed Vessells &c. which I sent in November last to the succour of his Majesty's Garrison at Anapolis Royal, is concurr'd by his Majesty's Council, but I think it more for his Majesty's service that the money I shall draw out of the Treasury for that service be put on the footing of the money for cloathing and arming his Majesty's Troops in the Expedition for Canada, and more for the Honour and Interest of the Government, but if the House does not agree with me in sentiments on this point, and will Drive me to the necessity of consenting to the bill as it stands, or the Vessells and seamen must not be paid off, the House must pass a vote to Indemnify me upon the Event of the bills, for without such a vote, as I am the Drawer I take that risque myself.

*Messages of Gov. Wentworth.*

[Copied from MS. "Governor's Messages," in Seey's office, Vol. I, p. 459-464.]

(First Message.)

*Gentlemen of the Assembly*

The Grant you made of £250 in answer to my repeated messages, for a just & equitable Satisfaction for the arrearages due on my Salary for five years past, was concurr'd by his Majesty's Council, but the Immediate service of the Crown with other intervening accidents made it necessary for me to keep the General Assembly under short adjournments, for which reasons I have had no opportunity till now to tell you that I can't in Honour to the King my master, nor in Justice to myself consent to it.

I must therefore recommend it to you as a matter of great Importance to the Government that you pay a due regard to your own Acts, and according to the Equity of those Acts by which my Salary was established, every one that will Impartially weigh the nature & reason of the thing, must confess that the sum settled on me should be at least a sufficiency to enable me honourably to support the dignity of the Royal Commission.

I must observe to you that the Salary that was at first settled on me, I never esteemed a competent sum—but to avoid giving trouble to my superiours, and to put an end to a long session, I tho't it for the interest of the Government to accept it, and tho' at this day the nominal Sum is the same, yet you cannot but be sensible that every convenience & necessary for my support is double, & the more expensive part cannot be purchased for treble the sum it could have been purchased for in the year 1742—From which it is evident that I have not been paid the full salary the Government intended I should receive, therefore ascribe it to what cause you please, either to the fall of the money or the rise on every other thing you will allow that in Reason & Justice I ought to have satisfaction made.

I am greatly injured by the manner in which my salary is paid, & upon looking over the acts, you will observe that from 12<sup>th</sup> of Dec<sup>r</sup> to the 12<sup>th</sup> of June I am to live without any salary or support from the Government, and on the 12<sup>th</sup> of June I am to draw out of the Treasury £125 for w<sup>h</sup> the Excise is a Fund, the other moyety is paid out of the Interest of the \$25,000 loan, and by the words of that act, I am to draw it out as it becomes due, which hitherto I have only done at the close of the year, from which it appears that I am to support the dignity of my Employment a year with £125, & not to receive that till six months are expired.—I hope therefore, Gentlemen, you will relieve me from these difficulties, and that you will think it for the Honour & Interest of the Government to put my salary on an equal footing with his Majesty's other Governors, or at least that you resolve that I may draw it out of the Treasury at such times as I may have occasion theréfor.

The vote of the General Assembly respecting the House I now live in, being for five years is expired, and as it wants considerable repairs, I must desire that a Com<sup>tee</sup> may be appointed for that service, or that some other suitable house may be provided for my reception.

My accommodations hitherto have been at my own Expende excepting £12: 10 pr annum for repairs & £12: 10 for building a stable, the latter sum I was not to draw out of the Treasury, unless I consented to the £12: 10 pr year for repairs, and as neither of these sums have been sufficient, I must desire that proper persons may be appointed for that service also.

For the years 1742, 1743 & 1744, I had the vote of the General Assembly for the usual & customary perquisite of two men at his Majesties Fort Wm & Mary, but for the years 1745 & 1746, the House has refused to make me any Grant. If the practice had been new, the House had a right to be satisfied in the reason of its being introduced, but as it has been not only allowed my predecessors but to my self, I look upon it as a thing of an extraordinary nature—Especially as the House have not given me any reasons for their proceedings herein, and was it not that I am at an annual Expende which far exceeds the perquisite in keeping birth-days (which all other Governments

defray the Expence of) necessarily visiting the Fort & attending his Majesty's service at New Castle, I should have passed by the neglect.

What I have recommended are matters that principally are founded on his Majesties commands and as such, I hope you will think them worthy your immediate consideration.

*The Governor's Message.*

[Copied from MS. "Gov<sup>r</sup> Messages," in Secretary's office, Vol. 1, p. 467.]

*Gentlemen of the Assembly,*

I have directed the Secretary to lay before you his Excellency Governor Shirley's letter to me of 20<sup>th</sup> July, on the Important Subject of attempting the Reduction of Crown Point Fort which I recommend to your immediate attention.

The retaining the six nations in the steady Interest of his Majesty's northern colonies & how far this Government ought to interest themselves in

establishing their friendship, are so clear Truths that I am persuaded I need not so much as urge the necessity of our engaging vigorously in measures that may tend to secure their alliance.

*Gov. Shirley's Letter.*

Boston July 20<sup>th</sup> 1747.

SIR—

As I can see no reasonable Prospect of security to the Western Frontiers from the continual Inroachments & Devastations of the Enemy, without effecting the reduction of the French Fort at Crown Point, I shall press it upon the Assembly of this Province, at their next meeting on the 12<sup>th</sup> of August, in the strongest terms, to join forthwith in the most vigorous measures for making an effectual attempt against it. This ought,—nay, it must be done at all events, cost what it will, in order to drive the Enemy out of our Borders, to cover the country against their present & future Incursions, and (which is a point that most nearly concerns the Honour, Justice, & more especially the Interests of the Colonies) to protect & support the Indians of the Six Nations against the Hostilities & Resentment of the French, which they have provoked by their faithful alliance to us, depending in a particular manner upon our Promises to 'em to dispossess the Enemy of Crown Point.

In the mean while I shall have it at heart to make all the preparations for this necessary Enterprize, that it is in my power to do, before the meeting of the Assembly, that this Province may be in as much readiness as may be, not only to join in it but to promote & set it forward; and I doubt not but your Excellency will act the same part in your Government & concur with me in all prudent measures to bring forward this attempt in the most speedy & effectual manner.

I am, Sir, your Excellency's most  
obedient & most humble servant

W. SHIRLEY.

A Quorum of y<sup>e</sup> House met.

Mr. Secretary bro't down Extracts of a Letter from his Grace y<sup>e</sup> Duke of New Castle to Gov. Shirley dated 30<sup>th</sup> May 1747 also a Letter from Gov. Shirley & Knowls dated 10<sup>th</sup> of this Instant Octo. 1744—Also his Excellency Gov. Wentworth Speech to y<sup>e</sup> Council & Assembly which speech containing matters of Importance Order'd that a messenger be sent to call y<sup>e</sup> absent members.

[The following is the message of his Excellency copied from MS. Gov<sup>rs</sup> Messages in Sec<sup>ys</sup> office, Vol. II. p. 1.]

*Gentlemen of the Council and Assembly*

With this Message the Secretary has my Directions to lay before you extracts of a Letter from his Grace the Duke of New Castle to Gov. Shirley bearing date 30<sup>th</sup> May 1747, wherein his Majesty has been pleased to appoint their Excellencies Governor Shirley and Governor Knowles to settle and adjust with the respective Governors all matters and things relating the Canada Expedition.

I have also directed Governor Shirley's and Governor Knowles joyn't letter to me to be laid before you, wherein I am desired as soon as possible to transmit to them the charges of this Government in setting on foot the Canada Expedition—Also muster rolls of the men I caused to be levied for that service in obedience to his Majesties commands.

And to give the greater dispatch to the King's Command, I have thought proper to Lay the original extracts of his Grace's letter to Governor Shirley as they came authenticated to me, together with Governor Shirley's and Governor Knowles's letter before both Houses, though every paragraph does not so immediately come before you, hoping thereby you will take the opportunity of conferring on the importance of the subject, and resolve on measures that may best answer his Majesties expectations in conformity to his Royal Intentions.

*Gentlemen*

Having communicated every thing that has come to my hand respecting the Canada Expedition, I think it unnecessary to be further particular, But shall in general recommend it as a matter essential to the Honour of the Government not to distinguish any particular part of the Charge incur'd by this Expedition, but to pay off the whole charge that has arisen, including officers and men, out of the £60,000 when their pay shall be ascertain'd by the persons the king has been pleased to appoint.

The pay of the officers and men by the Last paragraph of the Duke's letter to Governour Shirley you may observe his Majesty expects the loan of, from the respective Assemblies, untill there can be a Parliamentary provision made to repay it.

My reasons for adviseing you to pay the whole charge of the Expedition if the £60,000 emitted for that service will extend to it, are, because I esteem it will be the Interest of the Government, and I am very certain if you submit it to his Majesty what part he will be pleas'd to pay, it will be a greater part than you would now determine upon yourselves—This is a point worthy your consideration and I hope you will duly weigh it and resolve accordingly.

As my time will be fully employed in Prepareing what I must necessarily transmitt to Governour Shirley and Governour Knowles, and as the Committee must be very diligent to furnish me with what I shall require of them, I purpose you shall only sitt till I have your resolves on the grand points I have mention'd, and it will be for the imediate service of the Province to put off any other business till a further day, in which you shall have my hearty concurrence.

B. WENTWORTH.

before you and a copy of the Proclamation Issued by your Excellency for the Encouragement of Troops Inlisted into the aforesaid service with copys of the votes of your Assembly touching the Bounty and subsistance of Provisions granted by them for the Troops, and we must further desire that your Excellency would in pursuance of his Majesty's orders communicate to us your sentiments and opinions as to the manner of Discharging these officers and soldiers & upon what Foot it may best be done, having due regard to his Majesty's Commands to us for doing it in the most frugal manner, and his Expectation in this affair; and this we desire your Excellency would forthwith do as a great charge is running on till the soldiers shall be dismissed by us.

We must also desire your Excellency in obedience to his Majesty's commands to recommend it to your Assembly to furnish such sums of money on credit as may be wanted to pay off the soldiers which your Excellency will perceive by the Extract of the Duke of New Castles Letter is to be provided for by Parliam<sup>t</sup> as soon as the account of the whole charge Incurred by raising Levies shall be transmitted to his Grace by us, and forthwith to let us know your Excellency's opinion of the success of such an application, as also to let us know whether you have advanced any and what sums of money to the officers and soldiers or any of them on account of their Pay, and after what rate and to what time they are paid.

And as your Excellency perceive we are commanded by his Majesty to retain such a number of the American Levies in his pay as we shall judge sufficient for the security of Nova Scotia against the Enemy's attempts untill a Reinforcement can be sent thither from Great Britain, the preservation of which Colony is of the greatest Importance to the safety and welfare of all his Majesty's Northern Colonys, and also that Mr. Shirley is ordered by his Majesty to compleat his own and Sir William Pepperell's as likewise Lieut. General Phillips Regim<sup>t</sup> out of those Troops, we hope your Excellency will assist the officers who shall be sent to raise Recruits for those Purposes into your Excellency's Government with your Influence and authority and contribute everything in your Excellency's Fower to their success and the promoting of his Majesty's service.

We think it clear that the Arms and Accoutrem<sup>ts</sup> of the soldiers are to be returned, and where the men have lost them their value must be stopp'd out of their Pay, or rather the several Captains are to be call'd upon for the arms of their respective Companies and are chargeable therewith, which you will be pleas'd to consider. And we must desire your Excellency will forthwith let us know your opinion of what pay it may be reasonable to allow the officers as well as men for their service.

We are your Excellency's  
most obed<sup>t</sup> Hbl<sup>ts</sup> servants

His Exc<sup>y</sup> Gov<sup>r</sup> Wentworth,

Indorsed—"Gov<sup>t</sup> Knowles & Shirley Letter on the Duke of New Castle's Letter, 30<sup>th</sup> May 1747."

*Extract of a Letter from his Grace the Duke of New Castle to Governour Shirley, dated 30th of May 1747.*

[Copied from "Belknap Papers" p. 259.]

"His Majesty has been pleas'd to direct me to signify to you his pleasure that you should immediately appoint a meeting with Commodore Knowles at such place as shall be agreed upon, & consider with him the present state of Nova Scotia & Louisbourg and take the proper measures for the Defence of those places.

"It is his Majesty's pleasure you should Endeavor to compleat from out of the Americans which are now rais'd for his Majesty's service Sir William Pepperell's Regiment and your own.

"Lieut. General Phillip's Regiment is I am afraid very weak. I will however send him his Majesty's orders to send what Recruits can be got from hence, and you will also Endeavor to have his Regiment compleated out of the Americans.

"It is also his Majesty's pleasure that Mr. Knowles & you should consider what number of Americans will be really wanted for the service above mention'd, and the king would have you retain so many as may be absolutely necessary for that service, & no more, and the King hopes that a small number of Americans with his Majesty's Forces which you have may be sufficient for that purpose, as the Expence of those Americans is very great: and as to the Americans in general except only such as may be wanted for the service above mentioned, It is his Majesty's pleasure that you in conjunction with Commodore Knowles should thank them in such manner as you shall think proper, & immediately discharge them upon the best & cheapest that you can, and in order thereto you will consult with the respective Governours upon the manner of doing it, and you will transmit to his Majesty an immediate account of what you shall do therein.

"As it is his Majesty's Intention that the Americans should be immediately discharged, except only such few as are mentioned above, the manner of discharging them, the satisfaction for their Time &c. must be left to Commodore Knowles & yourself: The King however is persuaded you will do it as cheap as possible.

"And as these American Troops have done little or no service hitherto, It is to be hoped they will not expect to be paid in the manner they would have been had they actually been Employed on service: And it seems highly reasonable that such of these Troops as have remained in the Province where they were Enlisted should be content with less Pay than such of them as may have march'd into other Provinces.

"When you & Mr. Knowles shall have mett and fully considered the service to be undertaken in the manner above directed and shall have agreed what number of Americans it will be necessary to keep in pay, for that purpose, It is his Majesty's pleasure that you should procure an account of the whole Expence incurred on account of the American Troops from the time of their being levied, to their being discharged, and when the same shall be fully adjusted and liquidated you will transmit it to me with the proper vouchers from the several Governours that it may be laid before Parliament, to the end that Provision may be made for the Payment, and in the meantime in order to prevent any complaint amongst the men that have been Enlisted (as well those that shall be discharged, as those that shall continue in service) for want of immediate pay, you will recommend it to the Governours of the Provinces where these Levies have been made to procure credit from the respective Assemblies for that purpose, which his Majesty hopes may be done without Difficulty.

*His Excellencys Message, Nov. 10, 1747.*

[Copied from MS. "Governor's Messages," Vol. II, p. 9.]

*Gentlemen of the Assembly,*

The answer you gave to my message of the 22<sup>d</sup> put it out of all doubt with me that it was your intention to furnish his Majesty with the sum he desired for paying off the troops in his pay Levied within this Government for the Expedition intended against Canada, for w<sup>th</sup> reason I had given the Secretary directions to adjourn the General Assembly to this day, before your Message by Col<sup>o</sup> Gilman & Mr. Sherburn was delivered to me and the adjournment was necessary that the com<sup>tee</sup> might be preparing the accounts relating the charges that have been incur'd on account of said Expedition.

I am now hoping the Intentions of the House agreeable to your Message will be with the greatest dispatch carried into Execution, or I must rely on some other way for securing the sum that will be wanting for that service.

I have by the last ships rec<sup>d</sup> a Letter from the Right Hon<sup>bl</sup> the Lords Commissioners for Trade & Plantations, dated June 4<sup>th</sup> 1747 in which I find the Legislature of the Mass<sup>a</sup> have in the most private manner, (& I think I may justly term it so) Petition'd his Majesty to be reimbursed the Expences they have been at in defending Fort Dummer & the rest of the Frontiers, In which I am apprehensive they have some views that may greatly Injure the increase

of this Government & their Lordships have directed me to transmit an account of what the Assembly have done in that affair, & by an Express yesterday I have wrote their Lordships (hoping it may *save* Governor Knowles Express which he is sending for England) praying that their report might be defer'd until I had an opportunity to send authenticated accounts from the Proper officers of the Expence this Government had been at in defending the frontiers, & the measures taken for the support of Fort Dummer, & that the House may have a perfect Idea of this Plot of the Massachusetts I shall order the Secretary to lay before you the several paragraphs of their Lordships letter which relates thereto.

*Gentlemen*

I think this Government may w<sup>th</sup> more propriety address his Majesty that the moiety of the Expence in taking out the Commission on the affair of the boundaries & the moiety also of the expences in running the lines, the whole of w<sup>ch</sup> has been paid by New Hampshire, should be paid by the Mass<sup>a</sup> agreeable to the Royall orders, which altho' it has been often demanded, yet that Government have taken no notice of it.

I think also this Government would with a better appearance of Justice on their side, Petition his Majesty for the Expences Incurr'd at his Majesty's Fort William & Mary in defending the Towns at Kittery & Berwick, from the Entrance of Piscataqua Harbour to Salmon Falls, from the erecting that Fort to this day.

I esteem it my duty to the King to preserve every part of the Province committed to my Governm<sup>t</sup> and when you are apprised of measures that tend to weaken you, every well wisher to the Country must Exert himself for her defence, & in all your resolves that are for his Majesty's service & the good of the Province, you are sure of my hearty concurrence.

B. WENTWORTH.

The House apprehend by your Excellencys Message this afternoon by Mr. Secretary there may be some misunderstanding concerning y<sup>e</sup> Footing y<sup>e</sup> Bills now in y<sup>e</sup> Treasury stand on. What Bills are now in y<sup>e</sup> Treasury by Virtue of y<sup>e</sup> £60000 Act are by y<sup>t</sup> Act to be burnt to Ashes to sink themselves unless otherwise order'd by y<sup>e</sup> Gen. Assembly & y<sup>e</sup> King is no wise y<sup>e</sup> Fund for Sinking them nor can be unless by a further Act & as y<sup>e</sup> Gen. Assembly have power of ordering & as y<sup>e</sup> sum permitted by his most Excellent Majesty for y<sup>e</sup> support of Government is not now out for that End the House think it very hard (what we could never answer to our Principals should we comply with it) that it should be insisted on that they should lend a large sum of Money to his Majesty without taking care before Hand to discharge their just Debts by paying off y<sup>e</sup> poor Men that have been employ'd in defending y<sup>e</sup> Frontiers so much at y<sup>e</sup> Hazzard of their own Lives in y<sup>e</sup> Summer past wherefore y<sup>e</sup> House humbly prays that your Excellency would give your consent to y<sup>e</sup> vote of both Houses on y<sup>e</sup> Report of y<sup>e</sup> Committee appointed to confer on y<sup>e</sup> easiest & most equal Way for defraying y<sup>e</sup> Charge of y<sup>e</sup> Government for defending the Frontiers &c. Which now lays before your Excellency & then your Excellency may depend upon y<sup>e</sup> Houses doing everything in Relation to y<sup>e</sup> Affair of lending y<sup>e</sup> Money to his Majesty for paying off his Canada Troops raised in y<sup>e</sup> Province consistent with y<sup>e</sup> true Interest of y<sup>e</sup> People we represent which y<sup>e</sup> Duty of y<sup>e</sup> Loyalest subjects can prompt them to or a most gracious Sovereign require.

I shall be ready to Joyn in any reasonable method in paying off the Expences Incurr'd the year past for defending the Frontiers, in which I must presume that no use can be made of the money in the Treasury, until his Majesty's pleasure is farther known thereon or his commands comply'd with.

[Copied from MS. "Governors Messages" Vol. II, p. 25.]

*Gentlemen of the Assembly*

I am truly sensible on what footing the remainder of the £60000 in the Treasury stands, & that the whole was a grant made to his Majesty for the use of the Canada Expedition, & that when every incident of that Expedition is paid, that the residue is to be burnt, unless otherwise disposed of by the General Assembly. But his Majesty having laid aside the thoughts of that Expedition for the present & being desirous that the Troops levied in his pay should be discharged & paid, he has tho't proper to direct his Governors to recommend it to the Assemblies of their respective Governm<sup>ts</sup> either to furnish the money or give a credit to pay off both officers & men in that Expedition, & under the present circumstances of this Government the Assembly will be without excuse to refuse to his Majesty the credit he has required; & unt'l that is done, you may be assured no consent can be obtained from me to any bill for the payment of troops on the Frontiers or on any other occasion. But you may rely that upon your passing a bill for the payment of the Troops, for which his Majesty's repaying the sum, I shall draw out of the Treasury for that service shall be the only Fund, I shall be ready to consent to any reasonable bill for paying off all the just debts of the Government if in your bill the periods are not too distant.

*May it please your Excellency*

In answer to your Excellency's written Message by Mr. Secretary this morning we think that y<sup>e</sup> 60000£ grant to his Majesties was for enlisting transporting, cloathing, Arming & making other necessary Provision for the Volunteers & for fitting vessels & other Purposes particularly mention'd in s<sup>d</sup> Act & that what remains in y<sup>e</sup> Treasury after what is paid out for those particular things Sink itself in y<sup>e</sup> Treasury & has no more Relation to paying off the Frontiers or any other thing or than any other Fund And we think we are obliged in justice to make Provision for Payment of y<sup>e</sup> just Debts of y<sup>e</sup>

Government already contracted before we do anything for lending of Money [p. 53.] Nor can we think his Majesty will desire any other of us & we are sorry to find by your Excellency's written Message that your Excellency is so determined in a Point so directly contrary to y<sup>e</sup> Liberties & Privileges of y<sup>e</sup> People we represent your Excellency well knows how much this Assembly have distinguished themselves by their constant Loyalty to his most gracious Majesty always tender of the Privileges of his Subjects his Goodness to us we hope we shall ever gratefully acknowledge & we think we cannot do greater Honour to his Majesty than firmly to stand by & support y<sup>e</sup> Liberty & Privileges of y<sup>e</sup> People our Principals. What your Excellency requires touches us in a tender Point & we must again inform your Excellency y<sup>t</sup> y<sup>e</sup> House are unanimously determined not to pass any votes for lending of money til Suitable Provision is made for paying off y<sup>e</sup> just Debts of y<sup>e</sup> Province & again earnestly pray you will consent to y<sup>e</sup> vote of both Houses now before your Excellency for that End.

And whereas Money cannot be rais'd by a Tax on y<sup>e</sup> People y<sup>e</sup> Present year for to answer that End so that y<sup>e</sup> Persons to whom Money is due for their Service for Defence of y<sup>e</sup> Frontiers &c. y<sup>e</sup> year past must necessarily lay out of y<sup>e</sup> same for a great while unless a Sum be emitted for this End Therefore—

*The Governor's Message.*

[Copied from MS. "Governors Messages" Vol. II, p. 33.]

*Gentlemen of the Assembly*

I should not have required your attendance in General Assembly at this extraordinary season had not the situation of your frontiers made it necessary, and your immediate grants for their safety in the approaching summer, will not only prevent such as are ready to draw off, but may be most instrumental to Incourage many that have all ready removed into the lower towns to return again.

I shall direct the Secretary to lay before you the report of a com<sup>tee</sup> in the Government of the Massachusetts upon the memorial of Tho<sup>s</sup> Hutchinson, Esq. & the vote of both Houses on the appointment of a com<sup>tee</sup> in consequence of said memorial, to consult on measures (with those that may be appointed by his Majesties other Governments), that may put an end to our depreciating paper currency: also a bill that was projected by the Government of the Massachusetts for that purpose, & Gov. Shirley's Letter to me of 29<sup>th</sup> Feby on the whole affair, desiring me to recommend it to the Assembly of this Province, and in consideration of the unhappy situation the Province is under, with the other Governments in regard to our paper currency I think it highly worthy your most serious deliberation; & if any method can be agreed upon to put a stop to the growing evil it may happily prevent the ruin which at this time threatens your country; & more especially all those whose salarys depend on this uncertain medium & hitherto have had no equivalent for the depreciation thereof.

B. WENTWORTH.

Council Chamber in  
Portsm<sup>o</sup>, March the 8<sup>th</sup> 1747—

*Gov. Shirley's Letter to Gov. Wentworth.*

[Copied from Province Papers "Correspondence" Vol. II, in Secretary's office, p. 1.]

Boston, Feb<sup>y</sup> 29, 1747.

Sir:—The General Assembly of this Province presuming upon their claim to a Reimburse<sup>mt</sup> of the charge of the late Expedition against Cape Breton, have been employing their thoughts to find out some method of improving such Reimburse<sup>mt</sup> so as to put an End to the present Paper Currency; and they have projected a Bill (which has had two Readings in the Assembly) for this Purpose, a copy of which I shall now inclose you. As there are Bills of each of the four Governm<sup>ts</sup> of New England which have obtained a currency thro' the whole, it was judg'd proper before any thing was finally determined here, that a conference should be had by Commiss<sup>rs</sup> from each Governm<sup>t</sup> so, if possible, one general method or scheme might be agreed on; and you will see by the vote inclos'd that Commiss<sup>rs</sup> have accordingly been chosen by this Government; and I must desire your Excellency to recommend it to your Assembly to join in this affair, which is of such vast importance, & for effecting which it's probable there never may be so happy an opportunity hereafter.

We have no absolute certainty that any grant will be made by the Parliam<sup>t</sup> but there is great Reason to expect it, and our latest advices are that it will be done the present session; and the Assembly here seem to be of opinion, that unless some speedy Provision should be made on this side the Water, great Endeavors will be us'd that these Governments should be oblig'd to draw out their Grants by Exchange, the consequence of which would be the Importation of vast Quantities of goods, & perhaps the Exchange would be set at such rate as would be to the great damage of the Publick, much beyond the present value of the Bills of Credit, & what the generality of the present Possessors have no equitable claim to. The Assembly have propos'd this Province to meet in, because it is nearest the Center, & as the gentlemen can be best accommodated in the Town of Boston, it is propos'd the first meeting should be held there. The memorial refer'd to in the Report I have not sent a copy of, the Proposals contained therein being much the same with what is propos'd by this Bill.

I have sent a Letter of the same Tenor with this to the Governors of Connecticut & Rh<sup>d</sup> Island. I shall expect your Excellency's answer as soon as may be.

I am, sir,  
your Excellency's most obedient, Humble servant

W. SHIRLEY.

P. S. I have only time to thank your Excellency for your last favour by the Post, w<sup>ch</sup> will answer by next opportunity.

*Letter from Mr. Sec'y. Willard to Gov. Wentworth.*

[Copied from MS. Corr. in Vol. II, p. 3.]

Boston, March 5, 1747—

Sir, I am directed by the General Court here to apprise your Excellency of the advice we have from our agent by the ship from London yesterday, that a grant was made in Parliament on Fryday the 4<sup>th</sup> of December last of £10 200,000 for the current year, £800,000 of which is for paying the charge of taking and keeping Cape Breton by the People of New England, and the charge of raising Forces for the Expedition that was design'd against Canada.

There have been some Proposals & Endeavors that the Payment might be made by Debenture; nothing seems so likely to prevent it as applying the

money granted to redeem and finish our fatal Paper Currency, so absolutely necessary to the Establishment & Preservation of Justice in our Commerce, and so much for the Interest of Great Britain as well as ourselves. This we are very sensible cannot be done effectually without the meeting of the several Assemblies interested in this grant: It is therefore hoped that your Excellency will call your General Court together as soon as may be, that the meeting of Commiss<sup>rs</sup> may not be put off beyond the time proposed, viz. the 12<sup>th</sup> of April next, in order to their being assured at home very soon that this money will be so wisely applied and for a Purpose so absolutely inconsistent with Debentures or any dilatory method of Payment.

I am with great Respect  
Sir, your Excellency's most humble  
and most obedient servant

Josiah Willard.

P. S. The agents letter was dated the 10<sup>th</sup> Dec<sup>r</sup> & sent to Portsmouth a few days before the ship sail'd.

His Excellency Benning Wentworth, Esq.

*Letter from Secretary Willard.*

[Copied from "Belknap Papers," in Secretary's office, p. 269.]

Boston, Nov. 4, 1748.

Sir, I am directed by the General Court of this Province, to send your Excellency a copy of the Report of a Committee of both Houses, accepted by the whole Court, proposing to have a meeting of commissioners from the General Assemblies of the several Colonies in New England, to agree upon such measures as may be most proper in respect to the money allow'd by the Parliam<sup>t</sup> of Great Britain to these Colonies in New England, to reimburse them, as to their charges in the Reduction of Cape Breton; I have also inclosed a copy of the Bill therein refer'd to, which was projected by our Assembly the last Winter, before we were at any certainty about the payment of the said money, & therefore must be altered (at least in the Preamble) if it should ever pass into an Act. It is pray'd that your Excellency would be pleased to lay this affair before your Assembly, as soon as possible, & let this Government know, as early as you can, the Result of your Assembly. It is thought the more necessary, that this affair should be expedited, lest by reason of our Delay, the Parliament of Great Britain should, at their next session take such measures, as may prove very inconvenient to these Colonies.

I am, Sir,  
your Excellency's most obed<sup>t</sup>  
humble servant

Josiah Willard.

AN ACT for calling in & exchanging the Bills of Credit of the several Denominations which have at any time been issued by this Government, & are still outstanding & for ascertaining the Rate of coined silver in this Province for the future.

Whereas the Bills of Credit issued by this Province have for many years past been the only medium or Instrument of Trade & commerce throughout the Province & said Bills have from time to time greatly depreciated in their value notwithstanding the several Acts pass'd & other means used for preventing the same, & great injustice to all Trade & Dealing has necessarily been occasion'd thereby, as also various other mischiefs which are the consequences of an uncertain depreciatory currency & no sufficient Remedy can be applied to these manifest Evils unless the whole sum in Bills of credit now outstanding be called in & Exchang'd & a fixed invariable medium provided & established in the place thereof—and whereas his Majesty has been graciously pleased to order the accounts of the Expence in the late successful Expedition to Cape Breton to be laid before the Parliament on whose favour this Province have all imaginable Reason humbly to Rely for a Reimbursement, but the whole Amount of said Accounts being insufficient to Discharge the whole Bills outstanding;—In order therefore to the obtaining such further sum as together with such sum as may be granted by Parliament as aforesaid, shall be sufficient to exchange the whole of said Bills:

Spanish mill'd Dollars or Peices of Eight, Half, Quarter, & Real Peices and to cause the same to be ship'd on Board some one or more of his Majestys ships that may be bound to this Province consigned to the order of this Government, and upon the Receipt thereof the whole sum shall be Lodged or placed in the Treasury of this Province in order to Exchange the whole of the Bills of Credit that now are or may then be current.

*And be it further enacted*, that within . . . . . days next after the arrival & Receipt of such Granted & Borrowed sum as aforesaid, Proclamation being first made or publick notice being given by order of the Governor & Council the Possessors of the Province Bills then outstanding upon bringing such Bills unto such Commissioners as may hereafter be appointed & empowered for that purpose, or in case no such commissioners shall be appointed, upon bringing the same unto the Treasurer of the Province, every such Possessor shall be intitled to and shall receive in exchange therefor Silver at the Rate following, viz. for every 44<sup>s</sup> in Bills commonly known & understood by Bills of the old Tenor one Peice of Eight, and for every 11<sup>s</sup> in Bills commonly known & understood by Bills of the Middle Form & tenor one Peice of Eight, & for every 11<sup>s</sup> in Bills commonly known & understood by Bills of the New Form & tenor one Peice of Eight, and so proportionally for a greater or less sum in the Bills of each & either of the Forms & Tenor aforesaid, *Provided* nevertheless that if the Possessors aforesaid shall not offer such Bills in Exchange within . . . . . years from and after Proclamation being made or publick Notice given as aforesaid, all Right or claim for the Redemption or Exchange thereof shall determine & cease.

And whereas all Debts Dues Demands Bargains & contracts whatsoever that are not otherwise specially contracted are now understood to be payable & may be Discharged by the Publick Bills of Credit of this Province & upon any actions being brought in the Courts of Judicature within this Province & Judgment being made up upon such Action & Execution issued such Execution may now be satisfied & Discharged by the Publick Bills of Credit as aforesaid.

*Be it further enacted*, That from and after the time appointed by Proclamation or Publick notice for Exchanging said Bills as aforesaid all Debts Dues Demands Bargains & contracts payable in Bills of Credit as aforesaid shall be understood to be payable in coined silver only & all Executions in consequence of any Judgment of Court in all actions heretofore brought or that may at any time hereafter be brought for the Recovery of such Debts Dues Demands Bargains or contracts heretofore made & contracted as aforesaid shall & may then be discharged by Silver at the Rate following, viz. (1) MATTHEW LIVERMORE was born at Watertown, Mass. January 14th, 1703, and was graduated at Harvard College, 1722. The selectmen of Portsmouth had applied to the officers of the college to send them a young graduate qualified to teach a grammar school, who was willing to engage in that business for ten years. They recommended Mr. Livermore, who came to Portsmouth in 1721, but stated to the selectmen his intention of studying law, and reserved liberty to quit the school as soon as he was qualified for admission to the bar. He continued to instruct the school seven years, and was sworn as an attorney at law in 1731. There was at that time no regularly educated lawyer in Portsmouth, and soon after Mr. Livermore's admission, Gov. Belcher appointed him Attorney-General for the Province and Advocate for the King in the courts of Admiralty. This office was very lucrative, and Mr. Livermore stated to the Governor that he would not accept the office of Attorney-General, which was vexatious and unprofitable, unless he could likewise be appointed Advocate. His sensibility was much excited, when in the course of his official duties, he was instrumental in procuring the capital punishment of a criminal; and during his practice, he was three times called to discharge this painful task. He was correct in practice, faithful to his clients, serious in his deportment, exemplary in his conduct and firm in his belief of the truths of the gospel. Infirmitics of body and mind disqualified him from attending to any business several years before his death, which took place February 11, 1776, aged 73. It may be added that Matthew Livermore was a relative, but not a brother of Samuel Livermore, who was a native of Waltham, Mass., and settled in Portsmouth, 1758. The latter also was eminently distinguished as a lawyer and as the King's attorney under the administration of Gov. John Wentworth. Samuel was the father of Judge Arthur Livermore, who settled in Holderness, N. H., and of Edward St. Loë Livermore of Portsmouth. [See *Ad. Ann. and Brewster's Ramb. about Portsmouth.*]—Ed.

(1) JOHN GILLMAN, Esq., was of Exeter. There were two of the same name, members of the House of Representatives at the same time: one was Speaker of the House, and often called Captain, Colonel and Esquire; the other was called Lieutenant and Major. See frequent references to them in Vols. II. and III., index. For the following notice of Col. John Gillman, Esq., I am indebted to the Hon. Charles H. Bell, of Exeter:

Col. John Gillman was son of Hon. John Gillman, of President Cutts's Council, and was born January 19, 1676-7. In 1703-4 he commanded a company in an expedition against the headquarters of the Indians, as related by Belknap, and was for many years an officer of the militia, and concerned in military affairs. He was a large land-holder in Exeter, and one of the grantees of Gilmanton. He held various offices and positions of trust in his town and province. He married, first, a daughter of Hon. Peter Coffin, and after her decease, the widow of Dr. Robert Hale, of Beverly, Massachusetts. Gen. Peter Gillman, who commanded a regiment at Crown Point in 1755, and held the offices of Councillor and Speaker of the House, and Maj. John Gillman, "of Fort Edward," were his sons. The latter was born October 25, 1712, and inherited the military tastes of his father. In 1757, he was dispatched in charge of reinforcements, to relieve Fort William Henry, but arrived just after the capitulation. He was made captive by Montcalm's savage allies and stripped, but with some difficulty effected his escape.

(2) THOMAS PACKER, Esq., High Sheriff, whose name often occurs in these Records, was appointed to that office about 1739. He held the office till his death, 23d of June, 1771. He attended three public executions in Portsmouth, viz.: December 27, 1739, of Sarah Simpson and Penelope Kenney, for the murder of a child; in 1755, of Eliphaz Dow, of Hampton Falls, for murder; and of Ruth Blay, accused of the murder of an illegitimate child, still born, December 30, 1768. "He was universally esteemed an upright, honest man, faithful in the discharge of the duties of his office, but rigidly severe in the execution of it." [See *Ad. Ann. of Portsmouth, and Boston's Remb.*]—Ed.

A message from his Excellency by the Sec<sup>y</sup> to the House to Direct the Speaker & the House to give their attendance in the Council Chamber. Accordingly the Speaker and the House came up & being admitted his Excellency made a speech to both Houses as follows, viz.

*Speech of Gov. Benning Wentworth May 10, 1743.*

*Gen<sup>t</sup> of the Council and of the Assembly*

[P. 124.] As nothing can have a greater tendency to advance the Publick Interest than a good agreem<sup>t</sup> between every Branch of the Legislative Power so nothing can tend more to weaken a Community than Jealousies, animosities & misunderstandings whenever they arise. It was my early care to prevent anything of this nature, and you are and will be witnesses for me, That it shall be my constant Practice to discountenance even the least appearance thereof; To see such a disposition spreading itself thro' the whole business of this Sessions will give me a sensible pleasure & afford minds thro'ly attached to the Publick Weale the greatest satisfaction.

You are sensible that the Provincial Records have been shut up for some months, tho' contrary to my sentiments. The first thing therefore that I

would recomend to you is, that you make choice of a proper person to fill that office, one that may be in every respect agreeable to the People, and to whom I can have no objection. During the vacancy in that office the Records papers & things belonging thereto have by my orders been under the care of the Secretary to whom I shall give directions to deliver them to the proper officer, when chosen and duly Qualified.

*Gen<sup>l</sup> of the Assembly,*

The several acts being Expended by which former Emissions of paper currency was Issued, and the Respective sums being fully called into the Publick Treasury by the last years Tax, I would recomend a nice Enquiry into the state of each Fund that you may be fully satisfied whether there will be a de- [p. 125.] ficiency or surplusage in any of them, and that the true State thereof may be laid before the Gen<sup>l</sup> Ass<sup>em</sup> for Publick satisfaction. For this end I have some time past with the advice of his Majesty's Council Issued a Proclamation informing the Publick that there was a Provision in the Treasury for exchanging all money of the old Tenor and if that Fund should fall short, that there would be a further Provision made at your present sitting.

It is his Majesty's positive Instruction that I do with all convenient speed transmit to him by one of his Principall Sec<sup>y</sup> of State, and to the Right Hon<sup>ble</sup> the Lords Commiss<sup>es</sup> for trade & Plantations, an exact Survey or map of the Province with the Respective Towns and their contents of Lands, which I could not so effectually pay obedience to until I had your assistance, nor until a way was made from the northern part of Merrymack to Connecticut River. The latter I have ordered an Inquiry into, and have Employed proper p<sup>er</sup>sons to search out the nearest and most convenient place to cut such a Road in; when I have their return it shall be laid before you in order to make provision for defraying any small charge that may arise thereon.

In providing for the officers of the governm<sup>t</sup> I recomend to you, that each officers sallary may commence on the 25<sup>th</sup> of March, June or Sept<sup>r</sup> or at Christmas, on either of those Qua<sup>r</sup> days that may be found most convenient; hereby your Public accompts will be more easily examined & less subject to mistakes.

The Report of the Right Hon<sup>ble</sup> the Lords Commiss<sup>es</sup> for Trade and Plantations, on three of your Publick Acts, I shall order the Sec<sup>y</sup> to lay before you, by which you will observe that their Lordships could not lay the Loan Bill before his Maj<sup>ty</sup>, it being contrary to the Instructions given his governm<sup>t</sup>. [p. 126.] Notwithstanding their Lordships have represented the attendance of the Principal Merchants trading to this Province to his Maj<sup>ty</sup> from which & from the many Publick things that are to be effected by that Bill greatly advantageousness to the governm<sup>t</sup>, I am hoping it will not finally miscarry.

You are sensible, Gen<sup>l</sup>, That by this Bills not being hitherto approved by his Maj<sup>ty</sup> I am prevented from receiving one half of my sallary which I have hitherto deferred the taking notice of, But from the great Rise of all manner of Provisions and necessaries for my support since the Acts of settlm<sup>t</sup>, and the deficiencie in that part of my sallary, I am under a necessity to do it at this time, not doubting but in obedience to his Maj<sup>ty</sup> that the Hon<sup>r</sup> & Dignity of the governm<sup>t</sup> may be supported, and from the justness of my Request you will think it reasonable to make a present provision for my support.

Mr. Agent Thomlinson writes me on your Petition to his Majesty for stores, and on your Loan Bill, a Paragraph of whose Letter relating thereto the Sec<sup>y</sup> will lay before you.

I have directed the Treasurer to prepare his accompts which he will also lay before you, and I hope they will come in such order as to take up less of your time than the late Treasurer's have done, who in defiance of all Resolves of Gen<sup>l</sup> Ass<sup>em</sup> has not furnished me with his accompts to this day; It is there- [p. 127.] fore your imediate care & I now press it upon you, that I am forthwith furnished therewith that I may transmit them in conformity to his Maj<sup>ty</sup>'s Instructions which hitherto I have not been able to do.

*Gentlemen of the Assembly*

The several districts to the northward of Mitchell's & Hazen's Lines were Taxed to the Province the last year, But as that act is now Expired it is

necessary to renew it by a new Act, and as many of the Inhabitants on y<sup>e</sup> King's Lands not incorporated into Townships by the authority of this governm<sup>t</sup> are Laboring under Difficulties & disadvantages for want of Laws to Enable them to collect their Ministerial & other Taxes, I recomend it as a thing worthy your consideration, that some Law may be calculated to relieve them under their present Difficulties and to preserve peace and good order in that part of this government.

B. WENTWORTH.

His Excellency laid before the Board the answer of the House of Represent<sup>s</sup> to his Excellency's Speech of the 10<sup>th</sup> Inst. which was read at the board & is as follows, viz.

The Answer of the House of Representatives to his Excellency's Speech of the 10 of May Curr<sup>t</sup>.

*May it Please your Excellency*

We the Representatives of his Majestys Province of New Hampshire convened in General Assembly observe the several Paragraphs of your Excellencys Speech at the opening of the present sessions & beg leave to make the following answer:

We are not insensible (as we trust) of what your Excellency was Pleas'd in the first place to suggest to us (viz.) the great importance of keeping up a becoming harmony between the several Parts of the Legislature when it can be justly Preserved and shall do every thing in our power in order to it as we [p. 131.] shall not take up any groundless surmises as to the other Branches nor run into any needless Disputes so we shall take care to give no occasion to either of them to Entertain any Jealousies & animosities as to ourselves.

As to the choosing a fit person for a recorder of Deeds for this Province (and safe keeping of the same) we shall do our Endeavors that such a one may be appointed to that important office that is every way Qualified for it one whom we think agreeable to the People whom we represent & against whom your Excellency can have nothing to object. With respect to what is recommended to us relating to the expiration of the acts of this Government upon which our Paper currency of the old Tenor was established we shall make a strict inquiry into and as soon as we know the state of the Government on those heads, shall be ready to Do our part in every respect that may be conducive to the Hon<sup>r</sup> & interest of the same.

As to what your Excellency is pleas'd to mention in the next place of our affording you our assistance in Paying obedience to his Majes<sup>ty</sup>s Instructions in Transmitting an Exact Survey of the Province in doing what is needful to defray the charge of making a way from the Northern part of Merrimack to Connecticut river, the consideration of which we must suspend until we have the result of our Loan Bill wherein Provision is made for cutting High ways.

Your Excellencys Proposal of Paying the officers of the Government their [p. 132.] Sallarys Quarterly seems to be clogged with some difficulties by reason Provision is already made in part by an act already past & without repeal of that act they cannot well be put upon equal footing: However we shall think deliberately upon this—as alsoe that you mention as to the former Treasurers Accounts which we acknowledge has taken up much of the Assemblys time, and is greatly to our surprize that your Excellency has not rec<sup>d</sup> them completed long since. We tho't we had done every thing in our power heretofore but if any thing remains we shall still be ready to forward every thing in our Part that so an affair of such Importance may be no longer delayed.

We thank your Excellency for the Perusal of the report of the right Hon<sup>ble</sup> the Lords of Trade and Plantations on three of our late acts and what Agent Thomlinson has wrote your Excellency relating our Petition to his Majesty for stores send down by the Secretary.

And as to what your Excelency was pleased to mention with respect to your support in the Government and to any Law needful to be made for the new Taxing of the several Districts to the Northward of Mitchells & Hazzen's Line & for the relieving any that are not yet incorporated into Districts as to the Inconveniencys and difficulties they by these means labor under we shall act in all these things and what shall come before us—we shall judge will be most for the Hon<sup>r</sup> of his Majesty and the Prosperity of his good subjects whom we represent.

May 14<sup>th</sup> 1743.

And<sup>w</sup> Wiggin Speaker.

[P. 133.] His Excelency also Laid before the board the Powder act of this Province & Demanded the oppinion of the Council weither the money or Powder rec<sup>d</sup> by virtue thereof could be applied to any other use than those mentioned in s<sup>d</sup> act—namely for supply of his Majestys forts & fortifications within this Province.

To which the Council unanimously gave their oppinion that Legally it could not.

At a Council & General Assembly held at Portsmouth by Prorogation from the 28<sup>th</sup> Day of September 1743 to this Day being the 22<sup>d</sup> day of November 1743 Tuesday — It being the fifth sessions of the first Assembly.

[p. 193.] His Excellency ordered the Secretary to adjourn the General Assembly to Tuesday the 29<sup>th</sup> Inst. then to meet at Portsm<sup>o</sup> at 10 of the clock A. M.

Tuesday November 29<sup>th</sup> 1743. Met according to adjournment.

Present [as before.]

A message from the House by Messrs Stevens & Thompson to acquaint his Excellency that there was a House met & waited his Excellency's pleasure.

His Excellency sent the Secretary to the House to acquaint them that he required the attendance of the Speaker & House in the Council Chamber forthwith.

Accordingly the Speaker & the House came up & were admitted.

Then his Excellency the Governour made a speech to both Houses — and is as follows, viz.

*Gentlemen of the Council and of the Assembly*

[p. 194.] Their Excellencies the Lords Justices have comanded me by their Secretary of State in consequence of the vigorous measures his majesty is Pursuing in all Partes to put the Province under my comand in the best Posture of Defence that is Possible & to be Constantly upon my guard against a surprise from any quarter whatsoever.

Upon communicating this order to his Majesty's Council they readily offered me all the assistance in their power — what remains to be done that I may effectually execute their Excellency's Comands (which I shall Direct the Secretary to communicate to you) I earnestly recomend you will heartily engage in and let all other concerns give Place to your country's safety & De-

fence — if early measures had been taken the Publick had reaped the advantage I have omitted no opportunity to Persuade & Invite to it tho' with the utmost caution Lest our situation should be too much Exposed.

*Gentlemen of the Assembly*

At the request of a number of Indians who hunt on the frontiers of the Province I have promised they shall have an interview with me at Portsm<sup>o</sup> in April next. It is also their request that they may be supplied in the mean time at Canterbury with sundry sort of goods, in order to comence a Trade — the Secretary shall acquaint you with what has passed on that head upon which I doubt not but you will do what is necessary to answer their desires that no Disappointm<sup>t</sup> may Ensur on my Engagement with these People.

Pursuant to the several acts by which the Paper currency of the old [p. 195.] Tendor was Issued the whole sum was drawn into the Treasury by a Provincial Tax in December 1742, & consequently the Limitation for the currency of s<sup>d</sup> Bills Expired at that time.

That his Majestys good subjects of this & the neighboring Governments might be apprized thereof I gave timely notice by my Proclamation informing the Public that a fund was placed in the Treasury for exchanging all Bills of the old Tendor of this Province which I am apprehensive did not fully answer the Purposes intended by it — therefore I think it necessary that the currency of the s<sup>d</sup> Bills should be restrained by an Act and as this Governm<sup>t</sup> hath punctually obeyed his Majestys commands respecting the Periods limited for calling in all former Emissions of Paper Money it will be for the Hon<sup>r</sup> of the Governm<sup>t</sup> as well as a great satisfaction to yourselves that the True state thereof may be laid before the General Assembly.

The Laws in force respecting the Provision each town is to make for stores of Warr, Snow shoes &c. should be carefully Inspected into. That of the fines are insufficient to answer the intent of the Law — they may be made more effectual by an additional Act.

As soon as my health will permit I intend to visit the frontiers in order to settle the Garrisons that I judge necessary for the Defence of his Majestys subjects & I hope you will not fail of making Provision to Defray the Expence that may attend it.

[p. 196.] *Gentlemen*

It is his Majestys Pleasure to comand me to transmit to him by one of the principal secretaries of State & to the Right Hon<sup>ble</sup> the Lords Comissioners for Trade & Plantations an Exact survey or Map of the Province including the sea coasts fortifications & respective Towns within the same — some part of which his Majestys Engineer will furnish me with when he arrives in the Province. The other part remains with you to provide for.

In the first Treasury bill after my accession to the Governm<sup>t</sup> you made me a grant of Twenty five pounds New Tendor for or towards Providing a house for my reception, there being no Provincial house for that purpose, since which no further notice has been taken or Provision made for my accommodation. The only reason I did not sooner mention it to you was because I concluded there had been care taken in the Loan Bill for that occasion, but as that was either neglected or overlooked it is my Desire that a Committee may be appointed this sessions for that service that I may be put to no further Inconveniency to support the Hon<sup>r</sup> & dignity of my Employment.

In the late Receiver Generals Acc<sup>t</sup> of Powder money which shall be communicated to you there is a deduction of £107; 11 for Commissions &c. whereby the Revenue intended by that act to supply his Majestys Garrison with Powder falls short that sum which being contrary to the Express Letter [p. 197.] of the act I hope you will make a reasonable allowance to s<sup>d</sup> officer for his services & those that succeed in the office that the money collected by virtue of s<sup>d</sup> Act may come into its proper channell & that no Infraction may be made on it hereafter.

I have Directed the Treasurer to prepare his acc<sup>t</sup>s to lay before you which should have been passed upon the Last Sessions.

By his Majestys 24<sup>th</sup> Instruction I am directed to transmit to him by one of

his principall Secretarys of State & the Right Hon<sup>ble</sup> the Lords Commissioners for Trade & Plantations the whole Proceedings of the General Assembly and all acts whatsoever, alsoe Duplicates of the same by the next conveyance. You are sensible that since I have had the honor of being in the Chair I have passed more Acts than have been passed in the Government for near Twenty years which with the intervening occasions of the Province has a tendency to increase the business of the Secretarys office so that it is with difficulty I can prevail with him to hold the Employment for your allowance. I hope therefore you will in some way take care that I may be furnished with the transactions of the Government in obedience to his Majestys Instructions.

I shall lay before you two Paragraphs of the Right Hon<sup>ble</sup> Lords Commissioners for Trade and Plantations Letter to me that you may act therein in conformity to their Directions by giving your Agent proper Instructions which [p. 198.] I am perswaded you will readily do as it so Imediately concerns the Peace of the Province.

*Gentlemen of the Council and of the Assembly—*

I recommend to you a serious attention on the business of this Session & in a more Particular manner what concerns the Hon<sup>ble</sup> support of the Government its safety and defence & Let no unreasonable controversies or Debates Engage the least part of your time—nothing will give me more sensible satisfaction than to see you unite in granting such supplys for the service of the Government as are absolutely necessary at this critical juncture for its safety defence & Protection. Their Excelecencies have shown their concern for your safety by their early advices, Therefore let no neglect lay on your side Properly to secure yourselves, in which and every thing else that relates to your Prosperity and happiness you may Depend on my hearty assistance.

B. WENTWORTH.

Council Chamber Nov. 29<sup>th</sup> 1743.

*Two Paragraphs of a Letter to his Excellency from the Right Hon. the Lords Commissioners for Trade & Plantations.*

[Copied from MS. Corr. in Secretary's office, Vol. I, p. 177.]

“As to the Difficulties which you say in the same Letter that you are under with regard to the Petitions now lying before his Majesty from some of the Inhabitants of the Massachusetts, which greatly prevent the increase of the Province of New Hampshire; We know of no other Petition but that presented by Tho's Hutchinson of Boston, Esq. relating to the line of Townships, which Petition having been referred to the Board, We did report that we could not advise his Majesty to comply with the Prayer thereof and are informed that no farther application has been made thereon.”

“You will therefore do well to direct your Agent to apply at the Council Office, for a determination upon that report, and to transmitt hither a very full state of the Difficulties you lye under, which you apprehend are at present an Impediment to the settling of that Province. So we bid you heartily farewell, and are,

His Excelency sent a message to the representatives by the Sec<sup>r</sup> to desire the attendance of the Speaker & members in the Council Chamber which being don the Speaker & House came up accordingly and his Excelency made the following speech, viz.

*Gentlemen of the Council and Assembly—*

I have in obedience to his Maj<sup>ty's</sup> Comands laid before you long since his repeated orders for putting the Province under my comand in such a Posture of Defence as to repel the French in case of an attack and it gives me great concern that the royal orders have not produced Effects more essential for the Defence of his Majestys Province and subjects.

The War declared by the King against France will consequently open an Indian War the consideration whereof I am hoping will stir up a Zealous concern in you for the Publick safety.

The undoubted authority I have of a French warr occasions my assembling [P 236.] you in this extraordinary manner—my motive for keeping the General Assembly heretofore under short adjournments was the Possibility of receiving the Intelligence of a warr when the Assembly was setting hoping I might then receive the necessary aid from you to Enable me not only to pay a Due obedience to my royal Master's comands but to Provide for the Defence of the Province.

His Maj<sup>ty's</sup> Fort William & Mary the only guard to our Sea Coasts & navigation Demands your Particular attention and upon due reflection you will finde how necessary it is to make an augmentation of men for that Garrison.

The naked condition of our Infant & Inland frontiers require your compassionate regards Especially when you reflect that the collecting these Inhabitants has been a work of more than thirty years and should they abandon their settlements & Disperce themselves into different governments for want of Protection it would not only be a reproach to the government but a work of more time to regain their numbers.

Consider Gentlemen with great tenderness the Distress the Inhabitants on

the frontiers are in at this juncture and make their unhappy situation your own: Consider them as every day Exposed to a surprise from the Enemy & that if you neglect Providing for their security they will become an Easely Pray to a cruel & Barbarous Enemy & should that be the case you must be [p. 237.] answerable for every Individual that Perishes through your neglect.

You Gentlemen are esteemed as the Immediate guardians under Heaven of these unfortunate People—they dayly lye open to Danger and from you they are to expect Protection and if a compassionate regard to your fellow creatures will not move you to it Give me leave to say they have a natural right to demand it and further that upon your absolute refusal I shall be esteemed guilty of the breach of royal orders if I give rest to myself until I have discharged my obligations to his Majestys distressed subjects which must be effected in a more extraordinary way & manner.

I have nothing to answer for on my part neither can I charge myself with the least neglect having given Timely notice of the approaching Danger and directed to such measures as I apprehended conducive to the comon safety until the Exposed partes received the succour of the Government.

Upon the first act of Hostility comitted by the Indians against any of his Majestys<sup>ts</sup> subjects of this or the neighbouring governments I shall instantly declare warr against them In which case your sentiments will be necessary what bounty on scalps I may engage to those that apply to me for Comissions [p. 238.] for that End intending by it that the bounty shall Extend only to such as sustain Comissions under me & those who are actually Inhabitants of this Province.

*Gentlemen of the Council and Assembly*

On the Importance of these affairs I demand your advise & assistance and in such a manner as you will ratify & confirm by acts or otherways as necessity may require when I meet you in General Assembly.

What measures I think necessary to be taken beside what I have mentioned to support against the present warr shall be communicated to you and my sentiments thereon in which I hope for your cheerfull concurrence.

B. WENTWORTH.

[p. 239.] The representatives sent an Answer to his Excelencys speech of yesterday in writing and is as follows, viz.

The answer of the House of Representatives to His Excelency speech of May 23<sup>d</sup> 1744.

*May it please your Excellency*

We the House of representatives being met by the Sec<sup>ys</sup> Letter by your Excellencys order have duly considered your Excellencys Speech to us, and are heartily glad to finde your Excellency so full of concern for our wellfair and at the same time must say on our part that we have been & are as full of Tenderness & compassion for our constituents & families and all others his Maj<sup>ty</sup>s subjects of this Province as of our own & if your Excellency will please to look back on our vote of the seventh of Jan<sup>y</sup> last wherein we Provided the sum of six hundred and fifty pounds Proclamation Money by borrowing the same at six pr cent pr annum and appointed a Committee for the Expending the same on Fort Wm & Mary which vote was sent up to his Maj<sup>ty</sup>s Council and at another sessions of General Assembly on Feb<sup>y</sup> 22<sup>d</sup> 1743-4 this House sent up to the Council Board a written message to know if they had acted thereon, but to this day have not any answer, as alsoe so long time since as December the 28<sup>th</sup> 1743 this House voted money for your Excellencys Expence [p. 240.] in viewing the frontiers & an adition made to that sum on the 19<sup>th</sup> of April last past but have not yet heard what has been don thereon.

As to your Excellencys keeping the Assembly under short adjournments we should have been extremely well Pleas'd had the last adjournment been much shorter as we were then dayly expecting of news from Great Britain of great importance which by what your Excellency now mentions to us is the Declaration of a French Warr but it now unluckily happens that we stand adjourn'd to the 19<sup>th</sup> of June next so cannot act authoritatively—however we shall do all thats possible under the present scituation and as to the Distressed circumstances of our Infant Settlements we can't we think be chargeable for any neglect before God or man.

*May it Please your Excellency*

We are very sensible in what relation of Guardianship we stand to the People & can't possible think that we can be justly charged with any breach on our part.

And upon the whole Its the unanimous Resolution of the House of Representatives That your Excellency be desired forthwith to raise Two hundred men for one month to be Employed in covering the frontiers & that on our meeting at the Present adjournment to pay them after the rate of Twenty shillings pr month & finde them Provisions & amunition, that is, half a Pound of Powder Each & Twenty bullets three flints and that your Excellency [p. 241.] Direct the Treasurer to make Provision accordingly & that the officers be paid in proportion to the soldiers according to the last muster rolls.

And\* Wiggim, Speaker.

May 23<sup>d</sup> 1744.

Which above answer being read at the Council board the Question was put by the President weither the Council did joyn with the representatives in advising his Excellency to raise the two hundred men &c. mentioned in their above s<sup>d</sup> Answer—to which his Maj<sup>ty</sup>s Council did unanimously advise & consent.

His Excellency sent the Sec<sup>y</sup> to the House with the following message in writing, viz.

*Gentlemen of the Assembly*

I thank you for the assistance you have so cheerfully given me for the Defence of his Maj<sup>ty</sup>s subjects which shall be Employed in the most usefull manner for the Defence & Protection of the frontiers.

Before I dismiss this Convention of the members of General Assembly it will be very agreeable to me to know the sentiments of the Assembly what Premium I may Promise for scalp money if the Indians should give occasion to Employ men in that service before I meet you in General Assembly.

[p. 242.] I think it also necessary to be provided with a number of whale boats for the use of Merrimack river & the great Pond which I conceive would strike greater Terror in the Enemy than any other expedient I can at present think of. Winnipissiokee Pond has been the Asylum & safe retreat of the Indians in former warrs after they had comitted Hostilities on our frontiers and if they are driven from that Quarter by a number of Whale boats I am perswaded our frontiers will be more secure than in past Warrs.

B. WENTWORTH.

Which message was Delivered to the House & return thereof made to his Excellency.

The following vote of the Representatives was sent to his Excellency by one of the members viz.

In the House of Representatives May 24, 1744.

Resolved that in case the Indians make any rupture on the English settlements between this & the 19<sup>th</sup> of June next (and his Excellency shall Declare Warr against them) That this House desires his Excellency to Commission voluntiers to hunt & seek the Indians where they can finde them & to take or Destroy them & that for every scalp or Indian such voluntiers shall bring in his Excellency may Engage the payment of fifty pounds for every such scalp or Indian that shall be bro't in by those acting under his Excellency's Commission—as alsoe that for the Two hundred [p. 243.] men that are to guard the frontiers if they shall bring in any scalps or Indians to be paid five pounds for each scalp or Indian and that this House at their sessions in June next will take care to make an act for the payment of such scalp money.

James Jeffrey Cler. Ass<sup>m</sup>

His Excellency sent the Sec<sup>y</sup> to acquaint the members of the House that he had nothing further to lay before them at this time.

#### Province of New Hampshire.

At a Council & General Assembly Holden at Portsmouth (according to adjournment from the 11<sup>th</sup> day of May) On Tuesday June the 19<sup>th</sup> 1744.

Present his Excellency B. Wentworth Esq, Governour.

| Ellis Huske      |         | Sam <sup>l</sup> Solly   |         |

His Excellency sent a message to the House by the Secretary requiring their attendance at the Council Chamber—which was done & the Speaker & House came up accordingly.

[p. 244.] His Excellency made a speech to both Houses which is as follows—viz.

*Gentlemen of the Council and Assembly—*

I gave you the earliest notice of his Majesty's Declaration of War against the French King that was in my power by convening the members of the General Assembly for their advice & assistance, the Transactions of the convention Demands your attention at this time.

I have made a Disposition of the Two hundred men advised to be raised for the service of the Government, in a maner that will contribute most for the Benefit of the Exposed frontiers, Except my two scouts which I have Employed partly in making a more perfect discovery of the road to the great Pond Winnipissiocka from Rochester & Canterbury and partly to gain a knowledge of the Lands contiguous to the Pond.

Soon after I had dismissed the Convention I rec<sup>d</sup> by his Maj<sup>ty's</sup> comand from his Grace the Duke of New Castle the Kings Declaration of Warr against France which I Proclaimed with the usual & customary formality on the like occasions.

The French Kings Declaration of War against his Majesty, is so full of the grossest & most Indecent misrepresentations & reflections upon his Majesty's conduct that it should animate every true Englishman to resent the Indignities [p. 245.] offer'd their Sovereigne and this Government in Particular is under singular obligations to take all opportunities not only to Distress the French in their settlements, to annoy them in their Trade & commerce, but to enact the most rigorous & severe Laws to prevent their being supplied with arms ammunition warlike stores or Provisions of any kind whatsoever.

It was the desire of the Indians that Inhabit & hunt on our frontiers to have an Interview with me at Portsmouth & in consequence of their request I pointed out a time that was agreeable to them, upon my apprising the General Assembly of this Congress to Enable me to Defray the Expence that must attend it. Instead of an ample Provision for that service the vote fell so far short that no allowance for any subsequent charge that my Engagements were absolutely defeated which gives me no small concern on the event of the war.

I have in the recess of the General Assembly advised with some of the members of both Houses respecting the Immediate repairs that are necessary to be made for fort William & Mary Upon this advice I have given the needful directions which are now Executing with all Possible Dispatch and the advice of both Houses will be always agreeable to me when consistant with the comand I bear under my royal master, what other repairs are absolutely required to put this garrison in a proper Posture of Defence I make no doubt of your readiness to provide for.

During the Warr it will be of the greatest importance to have a fund [p. 246.] lodged in the Treasury for the occasions of Government That all Imergencies in the recess of the Court may be Provided for, and drawn out of the Treasury by the Government with the advice of his Maj<sup>ty's</sup> Council.

*Gentlemen of the Assembly*

It is a maxim in all governments that y<sup>r</sup> frontiers should be maintained, that it is easier to Prevent evils & mischiefs than to remedy them— therefore I am Determined if you will grant the necessary aids with all expedition to open a way to Winipissiocka Pond to erect a Block House there, to place Ten whole Boats under the Protection thereof. Then to open the road to & from Canterbury to the river Merrimack or where it may be most convenient on the Pond— there to erect another Block house thereby a constant communication may be maintained between these two Block houses by water which I apprehend will strike a greater Terror into the Indians than they have hitherto met with in former wars & be a means to Preserve our frontiers & in some degree Prevent their Enting into a warr.

*Gentlemen*

I must recomend to you to make a further addition of officers & men to Fort Wm & Mary with suitable subsistence for them and let no military Preparations effectually to Prosecute the war or that may be for the Hon<sup>r</sup> of the government or the Preservation of the lives or fortunes of his Maj<sup>ty</sup>s subjects, pass your regards.

The Northern Governments have universally tho't it serviceable in order to render themselves usefull to one another & to protect their Trade from the Insults of the Enemy to fit out a ship of war to Defend their seacoasts & I am Persuaded a vessel properly armed would be of very great service to this Government which you will do well to Deliberate and resolve upon.

[p. 247.] His Exceleceny Governor Shirly has transmitted to me what has passed in the General Court of the Massachusetts respecting Comissioners to meet at Albany where his Exceleceny Governor Clinton has an interview with the six Nations of Indians.

Governor Shirley has alsoe caused what passed in the General Court in regard to reinforcing his Majestys Garrison at Amapolis royal to be transmitted to me which I think worthy your regard as the Preservation of that Garrison by any assistance we can afford will not only tend to the Intrest of the Province but be a singular Instance of our gratitude to his Maj<sup>ty</sup> for his Peculiar regard extended to this Province — Both of which the Secretary shall lay before you with the advise of his Majestys Council on the former.

*Gentlemen of the Council and Assembly*

In this critical conjuncture I hope you will heartily unite in the Protection of your country & let all Private affairs give place to the great concern of your countrys safety & Defence. I shall with the utmost Diligence give my strictest attention & nothing shall divert me from the service of my master in Defending this Province which I hope you will make the standard of your conduct.

And also to require the attendance of the speaker & house in the Council Chamber—which was Done & the Speaker & the House came up accordingly & were admitted—the Governour made a speech to Both Houses which is as follows—viz.

*Gentlemen of the Council and Assembly*

[p. 276.] A speech from the chair to both Houses on this occasion may be Esteemed by some unnecessary, but having higher & better authority for it than my own & in consideration of the advancing difficulty in regard to the war, I am Persuaded my taking leave of you in this manner will neither be Improper or Disagreeable to those that seek the Prosperity of the Government.

The Triennial Act (tho' not to be found in the proper office) has lately come into my hands which occasions my Dissolving the General Assembly at this Time. I am sensible many things might have been done which Lay before you, but as the multiplicity of Publick concerns could not be Effectually Executed without breaking in upon the Time, when, I am apprehensive every hand & Every branch of Power will be fully Employed in Pursuing measures that may conduce to the comon safety in a most Extraordinary way, I therefore think it for his Majestys service & the Interest of the Province to call a new Assembly with all the Dispatch the nature of the thing will admit of.

*Gentlemen of the Assembly*

For the obedience you have paid to his Maj<sup>ty</sup>s comands you now receive my thanks — at the same time I would not forget the Instances of your regards to me as the King's Governour.

War is a Calamity to all Kingdoms, Countrys & Provinces & tho' conducted with the nicest frugality heavy & great charges will arise & should the supplies you have made in support of the war fall short or any other affair that time would not permit you to finish, your successors I am in no Doubt will make ample Provision therefor.

[p. 277.] *Gentlemen of the Council & Assembly*

I have Particular satisfaction in observing to you That since my accession to the government you have succeeded in all your Publick Applications to his Majesty, some of which have been of an Extraordinary nature by which means many Publick things will be carried on without Taxing the People.

I am very far from assuming the least merit to myself, but if it proceeds from any good oppinion his Majesty or his ministers may have received of us from our past conduct, let us be very solicitous not to forfeit it by any undutifull or unbecoming behaviour hereafter.

The operations of the approaching year with respect to the war calls for our most serious attention, & Least Intestine Jarrs & animositys should Invade the State I think it my duty to my King & my country to recomend that the Ensueing Election may be your peculiar care, & that so far as your influence extends you advise the People in the respective Towns you represent to the choice of such persons to represent them in the next General Assembly as will promote Peace & a good agreement in the three branches of Government, men that will act upon principalls of Truth & Justice, men that will Disdain to betray their Country into Expensive Disputes that must Inevitably wound the Publick & Issue in Disorder & confusion.

B. WENTWORTH.

[P. 278.] Then the secretary by his Excellencys comand Declared the General Assembly Dissolved—& accordingly y<sup>s</sup> withdrew.

His Excellency asked the advice of the Council weither he should Issue Precepts for convening a new Assembly Imediately to which the Council did unanimously advise & consent.

*Here Ends the first General Assembly convened by Governour Wentworth.*

The Speech is as follows — viz.

*Gentlemen of the Council & Assembly,*

The Delay of my royal Masters Comands met with in the Late Assembly respecting Garrisoning of Fort Dumer made it necessary for me to Dissolve the last Assembly hoping thereby I might be more fully apprized of the sentiments of his Maj<sup>ty</sup>s good subjects on that Point. That the receiving this Fortification is of the last consequence to the Present & future Prosperity of

the Government That the refusall of it will Tend to lessen us in the Esteem of his Majesty & his ministers, strip the children yet unborn of their natural right & deprive our friends & neighbours now hazzarding their lives & Exposing their bodys to hardships unheard of before Louisbourg in the cause of their King & in Defence of their Country, in full Expectation of settling [p. 322.] down on their returne in the quiet possession of that valuable Parte of this Province which I hope you will assist me to rescue for them from the Enemy who are waiting to build upon our ruin is beyond all Dispute.

*Gentlemen of the Assembly*

The accounts I have from General Pepperell & Coll. Moore of the State & Successs of his Majesty's fleet & armies before Louisbourg shall be laid before you alsoe his Excellency Governour Shirleys Letter to me relating a further reinforcement of men which I hope you will Provide for according to the circumstance & ability of the Province.

I recomend to you the Discharging the muster rolls for services allready Don, for want of which I have not been able to Inlist the men Granted by the late Assembly for the Defence of the frontiers.

I alsoe recomend that a further Grant of men be made to be Employed if necessary on the frontiers and at his Majesty's Fort William & Mary, That the Treasurers acct be Prepared to be Transmitted to his Majesty and that every one in his respective Station may make the Peace good order & Prosperity of the Government his main aim.

At Present our Circumstances excell our neighbours & our Taxes less burdensome & by his Majesties gracious indulgence to us since my accession to the Government our fortifications & Publick buildings with warlike stores of all kinds will be Provided for without any Tax on the People — these are Instances of the royall favour not to be Equall'd in any of his Plantations.

[p. 323.] Since we are thus highly favoured Let us guard against unhappy Divisions which will be Destructive of our Peace & happiness & Lesson us in the Esteem of his Majesty & his ministers.

*Gentlemen of the Council & Assembly*

My firm attachment to his Majesty's Person family & Government challenges my first attention — my next Pursuit shall be the Peace & Prosperity of his Majesty's good subjects of this Province in which I shall hope for your chearfull & ready assistance & when a happy union subsists in the Legislative Power every Designe formed against her Quiet will come to an End. Let it therefore be your Endeavor to Promote this happy Union & it shall be my care to Preserve & Increase it.

[The following is a copy of said Memorial, copied from MS. Corr. in Secretary's office, Vol. I, p. 249.]

To the Honourable General Assembly of his Majestys Province of New Hampshire.

*The Memorial of the Subscribers humbly sheweth*

That we haveing had the Honour to be Commission officers in the late Expedition against Louisbourg and through the Divine Goodness being returned, we esteem ourselves bound in conscience for the sake of our dear fellow souldiers who are left behind, to let you know that, there was a very general cry of Injustice and oppression against our Commissary throughout the regiment, dureing the greater part of the siege, and that, besides the great uneasiness occasioned by the soldiers being deny'd their just allowances, the Discontent was increased and aggravated by an uncompassionate refusal of Necessaries to the sick, such as butter, flower and fresh meat to make broth of, which we have been inform'd was generously granted by the Honourable Court and plentifully provided by the Committee of War; while he himself fared sumptuously every day and for the most part, free from toil and out of the reach of danger.

As to the particulars of his dreadful manangement, if the Honourable Court will be pleas'd to appoint a Committee to inquire into them, and fix a time for it and give publick notice thereof, we presume, they will soon be encompass'd about with a Cloud of Witnesses, who will fully evince, not only that there was just ground for the general discontent and uneasiness; but that his tender mercies were Cruelty.

As many of the souldiers yet Remaining at Louisbourg were enlisted into the Companies whereof we were officers, we think ourselves more especially obliged, for that reason to do our utmost for their care, comfort and relief from oppression.

We address this to your Honours as Patrons of the people and Guardians of their rights, properties and privileges for your wise consideration, that you may, if you think proper apply to his Excellency to recall him from his command, and more especially that he may be removed from his commissaryship, that the voice of fraud, injustice and oppression may be no more heard in our regiment.

Be pleased to give us leave further to say, the souldiers who went first to Cape Breton, were not only voluntiers, but have proved themselves gallant and brave to the last degree; that they endured hazards and hardships with intrepidity, when almost naked and quite lousie, without flinching from shot or shell, and being upon duty 24 hours at a time (in turns) without one morsel of hot meat, or one drop of spirits while on duty (and nothing better to drink than ill tasted *pinging* waters) during the greater part of the Siege.

Once more give us leave to speak, and to let us ask wheather such men as these, men perhaps as brave as any in the world, who have thus gallantly done, and patiently suffered, and who merit greater rewards from their country than their country is able to bestow upon them, wheather it is fit that soldiers of such a character, Heros of such virtue, should be command by a Tyrant or have the necessaries of life dealt to them by a griping oppressor. God forbid.

These suggestions, being humbly submitted to your wise consideration, with our prayers for proper relief, in behalf of our friends and fellow souldiers, We shall ever pray as in Duty bound.

*Letters from Col. Samuel Moore.*

[Copied from MS. Corr. in Secretary's Office, Vol. I, p. 253-255.]

Louisbourg Octo<sup>r</sup> 17<sup>th</sup> 1745.

*May it Please your Excellency.*

These comes by Cap<sup>t</sup> William Seaward with Cap<sup>t</sup> Parsons with whom comes sixteen of our men being part of Thirty nine we have this day obtained leave for, to come home (the Troops from England not arrived & it is feared they will not come this Fall) Two hundred & Eleven of them in the New Hamp<sup>r</sup> pay still remains detained against their Wills, also Fifty two in the Mass<sup>a</sup> Pay, there is no Doubt but his Majesty will pay their wages & subsistance & therefore Beg we may not be left here to be sold as the Egyptians sold themselves to Joseph for Bread.

It is here publickly talk'd that the Brig. Gen<sup>l</sup> & Brig<sup>t</sup> Waldo are to have Each of them Col<sup>o</sup> Commissions from the King, many Cap<sup>ts</sup>, Col<sup>os</sup> &c. of the Mass<sup>a</sup> have left their men to others & some attempts have been made upon the New Hampshire, which if we can obtain subsistance from our own Province I hope will have no effect: But as I said before if we come to want we must do any thing for Bread.

Lieut. Col<sup>o</sup> Meserve & Maj<sup>r</sup> Gilman Intend to sail tomorrow by whom will come a particular List of the men which remain here as also those who now come home & an acc<sup>t</sup> of what they have had of the Prov. Stores.

Mr. Warren is appointed Governor & Comander in chief of this Place. The Gen<sup>l</sup> determines to tarry this Winter. I hope we shall have a Vessell from New Hamp<sup>r</sup> to bring down such things as our governm<sup>t</sup> pleases to send & also the Relations of those that Tarry that so they may be as comfortable as may be. Beding & Cloathing still wanting as I wrote in June last & several other opportunities. I need not Say how Necessary they are in this cold

Climate. I don't know the reason that no answer was ever given to the request for Cloathing for some, & Beding for all, but I am sure it is so much of Necessity that it is morally Impossible the men can live without.

(Copp)

Your Excellencies most humble

Most obedient Serv't.

Yesterday was publish'd at the head of the army Mr. Shirley's design of soon Leaving this Place; & read a letter from the Regency advising of their appointing Mr. Warren Governor & Commander in Chief of this Place; so that upon Mr. Shirleys departure, tis suppos'd Mr. Warren will take upon himself the chief command here; I hope he will make a good Governour & he hath frequently Express'd his Inclination to be serviceable to the Collonys, so I do believe he will, he hath wrote to the Lords of the Admiralty proposing the building men of war in New Eng<sup>d</sup>, the largest at Piscataqua, I hope it will take Effect; Col<sup>o</sup> Meserve & Maj<sup>r</sup> Gilman will be able to give a more Particular acc<sup>t</sup> of things here by Word of Mouth than I can write.

The General just told me he should write to your Excellency by this opportunity & transmit coppys of the Duke of New Castle & the Lords of the Admiraltys Letters which I got copied for that Purpose which I hope will have this good effect to convince our General Court of the great Probability of the Crowns paying the Expence of the subsisting our Forces.

Sam<sup>l</sup> Moore.

Louisbourg, Novemb<sup>r</sup> 18<sup>th</sup> 1745.

*May it please your Excellency—*

Since my last by Coll. Meserve there is nothing arriv'd from England. Our people are supply'd with out side cloathing from the Publick stores & when bedding comes are to have that also. Shirts & stockings will be wanted. Mr. Warren hath given an order upon the store keeper to supply us with every thing we may want, of all sorts of Provisions that they have.

I hear there are many Grievous things laid to my charge such as I abhor. I am sorry they Blemish their own Credit by an unreasonable Discontent. Capt. Lads Tryal & Dismission, a copy of it I send to the Secretary. Capt. Sherburn was on board the Monk in the Massachusetts Pay whose Provision was not so good as ours, part of which I got changed & some out of New Hamp<sup>t</sup> stores, as one Regiment was part in one Pay and part in another It was a Difficult thing to Please, it is impossible for me to describe but by word of mouth, which when called to I hope I shall be able to satisfy & content all reasonable men.

New York, 31 Mar. 1746.

SIR—

I acquainted your Excelency the 27<sup>th</sup> Jan<sup>y</sup> last, that Committees of both Houses had requested me to appoint Commissioners to treat with Commissioners to be appointed by the neighboring Governments, touching our Mutual Security and Defence during the present War. I have accordingly appointed Commissioners for that purpose, so has Governour Shirley, and I hope the like steps will be taken by your Government without delay. In the mean time I have inclosed copys of the Minutes of the Commissioners for Indian Affairs of the 25<sup>th</sup> Feb<sup>y</sup> last containing the Resolution of the Six Nations of Indians as signified by the Interpreter in answer to my Message, requiring them to enter into the war with us against the French and Indians in alliance with them; that it may appear to your Exc<sup>y</sup> how highly it Imports the several Colonys upon the Continent to unite their Endeavours with this, effectually to preserve the Six Nations, and the other Indians in alliance with us, and them, in their fidelity to his Majesty and dependence upon the British Interest as all are so nearly concerned in the Consequences of their Revolt, which seems next to be apprehended, since they have refused engaging in the war.

I am with great respect  
Sir, your Exc<sup>l</sup> most obedient  
humble servant

G. CLINTON.

*At a meeting of the Commissioners of Indian affairs the 22d day of January 1745-6.*

The Commissioners gave the following Instructions to the Interpreter who they sent to Each Respective Castle of the Six Nations, viz.

*Instructions for Mr. Jacob Bleeker.*

You are hereby required and commanded forthwith to go to the respective Castles of the six Nations and tell them that his Excelency our Governour orders them to take up the Hatchett against the French and their Indians and join with us Immediately in the War against them According to their Engagement, since the Insults and Outrages committed at Saratoga take away all hopes of a neutrality, and if they will approve themselves faithfull they must demonstrate their sincerity to the great king their father by a ready and cheerfull obedience to his commands in this Respect.

You are to acquaint them that there is a Reward of twenty pounds allowed for every male prisoner taken of the Enemy above the age of sixteen years, and ten pounds for the scalp of every male of the enemy above that age, and for the scalps of every male of the Enemy under that age, five pounds and for every male under that age taken prisoner ten pounds, which shall be Immediately paid to them for each prisoner or scalp they or any one of them shall bring to the Commissioners.

You are likewise to ask them the Reason of their not sending down ten men of each Castle to go out on the scout according to their promise to you. You may take with you four white men and four Indians for your Assistance who you must agree with as reasonably as you can, and buy necessary provisions for yourself and them. You are to inform yourself of all news and what is doing amongst them; and if any french men or french Indians now

are or lately have been amongst them, If you hear any thing of moment you are to dispatch a messenger forthwith to acquaint us therewith and we give you a Belt and seven hands of wampum to confirm the above message.

Dated the twenty second day of January 1745-6.

*Esqs. Commiss<sup>rs</sup> of Indian Affairs.*

The Interpreter returned and said the Sachems of the Six Nations gave the following answer to his Excellencys Message.

When he went to the Mohawks the Sachems did not think the Belt of Wampum he had large enough so he caused it to be made bigger and then told them his Message according to his Excellencys orders. The Sachems said they could give no answer then but would go with him to Canajoharie — Accordingly six of their principal Sachems went with him. When he arrived at Canajoharie he told his message to the Sachems of both Castles met together. They answered that whatever the Six Nations did they would do.

He went from thence with two white men and three Indians in company to Oneyde, when he arrived at Oneyde he delivered his message to the Sachims they answered that they would be directed entirely by the other Nations, whatever they did they would be satisfied with and do likewise.

From thence he went forward to Onondage and told them the same Message they advised that a Council of all the six Nations should be called together to consult what was proper to be done. From thence he went to Cayouge & the Sennekas land to invite those Indians to the meeting at Onondage and brought with him four of the principal sachems of each Nation. When they were all met together at Onondage he delivered his message to the whole Assembly, and — after they . . . . . gave the following answer (2).

. . . . . after they had fought against one another all the . . . . . last concluded a peace with their Enemy & promised . . . . . to keep that Treaty of Peace Inviolable for ever and . . . . . still resolved to maintain that peace with all that . . . . . in alliance with them. They said it was very . . . . . them to enter into War. The Indians of the six . . . . . and the French Indians are sprung of one blood and they had made marriages and alliances with one another. One had his Father another his Uncle another his Son another his Brother and all of them some Relation or other living at Cacknawage so they would not go to war against one another. They said it was not so easy for them to go to war as it was for the white People. The English and the French have each their Masters. Their Kings make war and conclude Peace and the subjects must obey, but it was not so with them they had no king. Every Indian was his own master so that if they should once enter into war against one another there could be no such thing as making peace again but the war would continue for ever. Wherefore the six Nations concluded that they would not take up the Hatchett with the English, — they would have nothing to do with us in the war against the French and the French Indians as we desired them to do.

Brother Corlear and Queder,

We desire you will not think this makes any Breach in the Covenant chain because we give this Answer, in our former wars all the Castles of the six Nations have been cut off by the French. Never was any of our Castles destroyed but we applied to Queder for assistance but we never got any of your help except the Mohawks only. We did not think that made any Breach in

(1) (2) Copy is here mutilated and illegible.—Ed.

the covenant chain, so we hope Brother Corlaer and Queder will not think that this makes any Breach in the Covenant chain because we do not enter into the war but that it remains as bright and strong as ever, — thereupon they gave a large Belt of Wampum.

After they gave the above answer The Interpreter told them, Brothers, you seem to be most of you old men that are here met in Council, can you have forgot how the silver Covenant chain was made between us and you. I am but young but I know it very well. When the silver covenant chain was made fast between us and you It was agreed upon for a condition thereof that whoever declared themselves Friends or Enemies of the one should be looked upon as Friends or Enemies of the other.

When you was at Albany two years agoe and spoke with his Excellency our Governour he then told you of the war but did not desire you to take up the Hatchett only cautioned you to be on your guard till he gave you notice. This last year when you was at Albany his Excellency told you we had sufficient Reason to make war for the Enemy had killed two of our Brethren in New England. Thereupon he gave you the Hatchett and desired you to make use of it when he gave you orders this you all know and you took it up and promised to be ready whenever he ordered you. What then can be the meaning of your behaving in this manner that you now deny to take it up when you are acquainted how Barbarous and cruelly they murdered our People at Saraghtoga It seems as if you have intended to deceive us all along you seem to be a double minded and deceitful people, and that you have never declared yourselves plainly till now. What can be your meaning by this deceitful dealing — Will you assist or will you not —

They answered they would not.

Then he told them he was much surprised they had so soon forgot the promise they made to our Governour when they took up the Hatchett in the presence of all the gentlemen that were sent by the Neighboring Governments to the Treaty What do you think they will say when they hear that you deny to assist us and them, they must certainly think you are Treacherous and deceitful People.

They gave no answer.

The Quota of men to be furnished by his Majesty's respective Plantations on the continent of America, towards the defense of the Frontiers of New York, in case they be Invaded by an Enemy.

His Excelency sent the Secretary to the House to require the attendance of the Speaker & the House at the Council Chamber who return'd that he had Done the message,—and accordingly the Speaker & House came up & were admitted—his Excelency made a Speech to both Houses as follows, viz:

*Gentlemen of the Council and Assembly —*

The Prorogations the General Assembly has been under makes it necessary for me to Press many things upon you which I am sorry you give me occasion to repeat as they so nearly concern the honour, interest & Dignity of the Government.

You are sensible that a Delay of Transmitting the Publick acc<sup>ts</sup> as his Maj<sup>ty</sup> comands must be injurious to me and Dishonorable to the Governm<sup>t</sup>, and it is now two years since I ought to have been furnished with those acc<sup>ts</sup>. So I hope they will be Immediately Examined that the Treasurer may be Enabled to give me copies thereof.

I have apprised you that it requires the aid of the General Assembly to [p. 386.] compleat the collections of the £15000 Loan that an End may be put to that fund and regular Discharges made to the Trustees.

It is his Maj<sup>ty</sup>s Express Comand to me That I effectually suppress the currency of all Emissions upon the Expiration of their Periods, therefore it concerns you with great care to Examine into the state of all funds of the old Tennour to see if there be either an Excess or a deficiency, That the currency of such Bills may be Determined.

Notwithstanding the Grant of 20 men for Fort Wm & Mary made by the General Assembly I have hitherto Employed but Ten & unless the Pay is advanced men cannot be Inlisted for the service of that Garrison & to Impress two or three good men out of a regiment would be doing great Injustice to them at this season of the year, for which reason I shall expect you take the state of that Garrison under your consideration both with respect to men & officers that it may be made capable of defending our frontier by sea, which his Maj<sup>ty</sup> has bountifully Provided for & nothing will be more agreeable to me than for you to Prevent my Pressing upon you in future what so Immediately concerns your own safety and Defence.

Upon the Inhuman murders & Captivity of his Maj<sup>ty</sup>s subjects in the Eastern frontiers of the Massachusetts government & on the Western frontiers of this Governm<sup>t</sup> I ordred a reinforcement of Ten men for Canterbury fort & Ten more for the Protection of Rochester.

[p. 387.] I have alsoe with the advise of his Maj<sup>ty</sup>s Council ordred a scout of fifty men for fourteen days under the comand of Capt. Goffe on Pemidgewasset Winnipisseoca & the great Carrying place in the adjacent country

hoping thereby to Intercept some of the Enemies scouts. Capt. Goffe I have ordered to make Canterbury his rendezvous on his march out & on his return and to give me a Particular acco. of every occurrence in his march which shall be communicated to you from which you will judge of the number of men proper to be Employed for the defence of the Inland frontiers.

After the mischief was done by the Indians at New Hopkinton the Inhabitants of Canterbury were in the utmost distress, for a great number of their Inhabitants were then in the woods which occasioned an alarm in that Quarter and being apprehensive the Enemy had besieged the Garrison I ordred a Detachment of Capt. Odllins & Capt. Hanson's Horse to march to their relief.

For want of a bridge on Suncook river both Detachments were obliged to march more than double the Distance and as Canterbury is the only Magazine for Provision on our frontiers I hope you will think it worthy your consideration that a bridge be built there as soon as the waters will admit of it

Upon the arival of the British troops at Louisbourg I expect the American forces will obtain Leave to come home for which reason I have with the advice of his Majty's Council Directed the Committee to take up a sloop to accomodate that part of Col. Moore's regiment which remains there and the sloop has been Dispatched some Days which together with Capt. Martin I am hoping will receive the whole of our men that are inclined to return.

When I rec<sup>d</sup> his Majty's order in Council for supplying New Hamp<sup>t</sup> [p. 388.] with such war like stores as was represented necessary for the Defence of the Province by sea & Land, it was his Majestys Pleasure to order that a sufficient Quantity of Powder should be sent with the Guns, Provided the agent would give security for Paying for the Powder within a year which order together with the agents Letter hath been laid before the General Assembly with several Messages from me Desiring that affair might have its due consideration, but as no notice was taken of either nor the agent wrote to on that subject, Mr. Thomlinson at the Expiration of the year was obliged to Pay the money the Powder amounted to and he now says it is his own property & has desired me in his letter of the 21<sup>st</sup> of December to Deliver 180 Barrels of Gun powder to Mr. Charles Apthorp of Boston or to Pay him the Sterling cost with Interest Insurance & charges, copies whereof the Secretary shall lay before you and as Mr. Apthorp's Letter requires an answer pr the Post I hope you will not delay coming to a speedy resolution on this matter.

In order to obtain his Majty's reimbursement of the Expence the Governm<sup>t</sup> has been at in the reduction of Louisbourg it will be necessary that the respective Committees Prepare their acc<sup>ts</sup> that an Estimate may be made of the whole charge That a Committee be appointed to write to your agent to solicit the Payment thereof, and in this & Every other concern of the Government, I desire that a Committee of both Houses to correspond with the Agent that I may have that burthen taken from me, for unless he had been acquainted by my Letters what Parte New Hampshire bore in the Expedition he would have known nothing of it from the Governm<sup>t</sup>.

I must recomend to you the State of the Province with regard to the Warr and the Dispatch of the Publick affairs in which you shall have my concurrence.

B. WESTWORTH.

Council Chamber in  
Portsmouth May 6<sup>th</sup> 1746.

The speaker Desired a copy of his Excelency's speech as above which was granted & Delivered by the Sec<sup>y</sup>.

1746, May 12<sup>th</sup>. 180 Barrells Gunpowder, pr. Hammond, at £50  
pr barrell . . . . . £9000:

Paragraph of Mr. Agent Thomlinsons Letter dated London, 21<sup>st</sup> December 1745.

“As for the Gunpowder that was sent pr. Capt. Hammond, I think the Province has used me very ill, for when I had obtained as many Guns &c. as cost five or six thousand pounds, on condition that I would pay for Gun Powder for those Guns, which is never allowed to any Colony, and now as I have been obliged to pay for it, you are immediately to deliver to my order the same quantity of one hundred and eighty barrels of Gunpowder and of equal quality or condition, or to pay me the sterling cost with Interest, insurance and charges, or to pay Mr. Charles Apthorp directly so much as it would have sold for at the time it came or since which by my account sales must be £7500 bills of old Tenor. You must do the one or the other.”

John Thomlinson.

*Letter from Mr. Apthorp.*

Boston, 1<sup>st</sup> May 1746.

Sir—The Inclosed is from our Friend Mr. Thomlinson, who writes me he has desired you to deliver me 180 barr<sup>s</sup> of Powder, or to pay me directly what it would have sold for since Capt. Hammond's arrival, referring you to the Inclosed, I am with much respect,

Your Excellency's most humb<sup>e</sup> serv<sup>t</sup>.

C. Apthorp.

His Excelency B. Wentworth, Esq.

*Another Letter from Mr. Apthorp.*

Boston, May 13, 1746.

Sir—According to y<sup>r</sup> desire by the Post I now Inclose two acc<sup>ts</sup> of the Powder, one for the ster<sup>s</sup> cost being £845: 17: 2d besides the Freit 324 curren<sup>y</sup>, should the Governm<sup>t</sup> accept of that I doubt not they'l allow Mr. Thomlinson Interest till he is reimbursed.

The other is in this currency at 50£ pr. barr<sup>l</sup> at w<sup>ch</sup> rate, and higher, I could now sell any Quantity, but indeed, when Cap<sup>t</sup> Hammond arrived it might now be bought under 50£ pr barr<sup>l</sup> or something more, but as the money depreciates I think he should be allowed the price it now sells at, but if y<sup>o</sup> are of another opinion I should abate what you should think reasonable being certain you would act (& recommend the same to the assembly to do) what's handsome by our Friend.

I remain with great respect  
y<sup>r</sup> Exc<sup>ls</sup> most hum<sup>e</sup> serv<sup>t</sup>

*Letter from Gov. Shirley, relating to a Convention of Commissioners, &c.*

[Copied from MS. "Corr." in Secretary's office, Vol. I, p. 263.]

Boston, May 12<sup>th</sup> 1746.

SIR —

As his Excellency Governour Clinton of New York has sent Circular Letters to the several Governm<sup>ts</sup> on the Continent as far as Virginia to propose a Convention of Commissioners from each Government to consult upon measures for carrying on the War against the Common Enemy, and I find no other proof of this seasonable proposal so much for the Honour of his majesty's Government & the safety of his subjects, but the cheerful ready compliance of this single Province (who have chosen Commissioners for this purpose) I think myself obliged in common humanity to my fellow subjects (who are daily suffering under this Bloody & Savage war) as well as in Duty to his Majesty to second these proposals of Mr. Clinton, with my earnest solicitation that this affair may be once more seriously considered by the several Governments in all its Circumstances.

It is well known that such is the situation of the French in these Northern parts (where they have not one single port) and such the superiour strength of the English that by the ordinary blessing of providence upon our Vigorous Endeavors their Destruction would be inevitable; but if the places that are now free from any immediate Danger by the French and Indians on the land part will be Deaf to all the solicitations from the Colonies that are most deeply affected with this War for succour in their Distressed State, in a short time the Enemy would in all probability depopulate such unhappy deserted provinces, and then those who now think themselves in security will feel the miseries of this Bloody war & too late repent of the neglect of their own Interest as well as their Disregard to their fellow subjects, and what is greatly to be Lamented in our present case, is that with all the advantages we have over our Enemies, yet for want of Union of Council among ourselves (which renders us contemptible in the eyes of the Indians) the French who are weak in themselves, but in the strictest combination with one another, and the Savages that dwell among or near them are like to bring the Six most powerful nations of Indians on the Continent, (which have hitherto from time immemorial been firmly attached to the English government) over into their Interest. In this Situation of our affairs we can have no prospect of any thing but misery and Disolation unless the several Governments will join in the firmest League against the Common Enemy & carry on the War with vigor and Resolution, and thus may we hope for the Blessing of Divine Providence to Render our Designs successfull, — I must therefore intreat your Excellency to lay this matter before your Assembly & to do all in your power to spirit them up to Resolutions becoming the character of Englishmen.

I am, with great regard, sir,

Your Excellencies most obed<sup>t</sup> humble servant

W. SHIRLEY.

His Excelency Benning Wentworth, Esq.

A message from His Excelency to the House by the Secretary to acquaint them that it was his Pleasure that the House attend at the Council Chamber.

Accordingly the House came up & his Excelency made a speech to Both Houses as follows, viz.

*Gentlemen of the Council and Assembly*

Since I communicated to the Gen<sup>l</sup> Assembly his Maj<sup>ty's</sup> commands signified to me by his Grace the Duke of New Castle respecting the Expedition against Canada I have not had the Hon<sup>r</sup> of receiving any further Instructions relating thereto. If any arrive during your sitting I shall Direct that they be laid before you.

I think it necessary to acquaint you that the recruiting officers for this Expedition who have received my beating orders have not had the success in raising men that I expected so that few or none will be able to raise a Compleat Company agreeable to the Kings Intentions — therefore I shall be glad if any other effectual measures could be tho't of for raising the number of men intended for the service of the Expedition in which you shall have my assistance.

I recomend to you that previous to any other Business the Transactions of the late Convention be ratified by acts or otherwise as the nature of the transactions may require and that if there should be any failure (which I hope will not be the case) in raising the full number of men it will be proper to shorten the sum proposed to be Emitted.

[p. 411.] It having been the Kings pleasure that both officers & men Employed in the Expedition should be on the British Establishment as to their Pay, cloathed armed & subsisted at his own Expence, it will be proper that a sum equal to the Expence & the number of men raised should be appropriated in the Treasury for his Maj<sup>ty's</sup> use & to be repaid according to his Pleasure for which Sum I apprehend there need be no other fund — by which I would be understood that there need be no Tax on the Polls & Estates of the Inhabitants for repaying it, but that when his Maj<sup>ty</sup> shall be Pleas'd to Defray that Expence it shall be paid into the Treasury for the sinking all such part of s<sup>d</sup> sum as shall be expended in his service.

I have the Pleasure & satisfaction to acquaint you that the whole Troops Employed in the Expedition against Louisbourg and those that were ordred for re-inforeing that garrison after the reduction thereof to his Maj<sup>ty</sup> under the comand of Col. Moore that did not enlist are returned in safety.

Col. Moore has my orders to make up his muster Rolls and other acc<sup>ts</sup> that relate to the General Assembly in order to their being Discharged which shall be laid before you.

It has been represented to me that the Soldiers in the Pay of this Govern<sup>t</sup> in the late Expedition have not received a bounty equal to those in the Pay of the Mass<sup>a</sup> governm<sup>t</sup> which (if upon Inquiry you find it to be fact) I make no doubt but you will think just & reasonable they should now receive.

His Excellency Laid the answer of the House of representatives to his Excellencys speech of the first Inst. before the board which was read, as follows, viz.

*The Assembly's Answer to the Governor's Speech of July 1, 1746.*

*May it please your Excellency,*

Having Duely considered your Excellencys Speech at the opening the Present Session we take leave to make the following answer to the several Particulars therein communicated.

[p. 414.] As to the recruiting officers who have had your Excellencys orders not meeting with so much success as was expected in raising men for the Expedition against Canada we think fit humbly to acquaint your Excellency that it appears to be a common & prevailing opinion through the Province & seems likely to us that if there could have been any assurance given that the Troops raised here would had their field officers from amongst themselves and such as were agreeable and if Beating orders had been given to such Persons as had an Interest among the People & Encouragement of having the Immediate command of the Companys so Inlisted by them we are of opinion that a Considerable Number by this Time might have been raised & it is not unlikely but if this was still to be the case, it would be but a little while before a sufficient Number would offer themselves.

Your Excellency is pleased in the next place to recommend to us that previous to any other Business we ratify the Transactions of the late Convention &c. and as to this Particular we came together with no other resolution but Immediately to confirm what we then voted with such unanimity & so cheerfully & readily agreed to. But in the vote we then made which the Secretary informed us your Excellency & the board had concurr'd with a Comissary or Comissaries was to be appointed by the General Assembly which your Excellency unknown to us has Excepted against, which is a point wherein we think ourselves oblig'd to adhere to our vote & conceive should we do otherwise it would be likely to Discourage many from Enlisting & be a great hindrence to the Expedition, wherefore we pray your Excellency would be pleased to withdraw that Exception and let the vote stand as the Secretary Informed the members it was assented to by your Excellency, that agreeable to the vote we may Proceed to the ratification of the Proceedings of the convened members.

[p. 415.] And as what your Excellency mentions of the failure of raising the full number of men that was Proposed you may remember that they were limited to no certain Number but to be as many as can be got ready to embark by the Last of this month.

Your Excellency is Pleas'd further to Propose that a sum be appropriated in the Treasury equal to the Expence of the Expedition to be Drawn out according to his Maj<sup>ty's</sup> Pleasure &c. We shall be ready in this & in all other regards to make such Provision as will be most for his Maj<sup>ty's</sup> service & the good of his subjects.

We rejoice with your Excellency that the whole of the Troops employ'd in the Expedition against Louisbourg under the Command of Coll. Moore except those that Inlisted are safely return'd.

When the Collonel has made up his muster roll & other accounts as by your Excellency's orders is to be laid before us we shall do all that is Proper to be Don by us in that affair and if the soldiers in the Pay of this Government in the late Expedition have not in fact received a Bounty equal to those in the Pay of the Massachusetts we shall be ready to make it up.

Upon the whole as we have a deep sense of his Maj<sup>ty's</sup> Great Goodness to this & the other Provinces & Colonies in the Expedition on foot & of its vast Importance to the welfare of his good subjects in those Partes of his Dominions

we shall not fail of Doing all that is in our Power to Promote it & Earnestly wish that in the whole of it we all concern'd may Injoy the conduct & blessing of Heaven & may be so happy as to see it eventually crowned with its desired success.

*Governor's Message.*

[Copied from MS. Governor's Messages, Vol. I, p. 407.]

*Gentlemen of the Assembly.*

I have been waiting some time for a vote of your house to Establish the Billeting money on the Troops inlisted in his Majesty's service for the Expedition against Canada, which is now absolutely necessary to be done, & without the lest Delay, That I may assemble the men inlisted to pass my Inspection & give out proper Certificat-s to enable them to receive their Billeting money.

It seems now impracticable to proceed to Quebec, therefore it is agreed upon by the respective Governments, to send a sufficient number of the troops raised to attempt the reduction of Crown Point fort, upon which it will be necessary that you resolve what number of men you will subsist for this undertaking; it will also be necessary that you Resolve to subsist any number of the men that may not be Employed in that service that I shall think proper to Employ this fall & at any time in the winter, to penetrate into the Enemy's country or our own frontiers.

[The following is the Memorial referred to.]

*Letter from Masonian Proprietors to the Committee on Province Lands.*

[Copied from MS. Corr. in Secretary's Office, Vol. I, p. 313.]

*Gentlemen*

When we parted about a month ago by what was then said we expected you would have Pursued that part of the vote you shew us that related to your taking the advice of gentlemen Learned in the Law about proper Instruments to be Drawn & Executed by us to convey to the Province our Right to that part of the Province heretofore claimed by Mr. Mason, which after the said Deeds was so prepared were by your said vote to be laid before the Assembly at their next meeting which meeting of assembly is long since Past & we have never yet seen any Deed nor can we learn any hath been Prepared.

*Gentlemen—*

We are not unsensible that a report has prevailed in many parts of the Province.—That we took a bargain out of the Governments hands & that by our so doing they were Deprived of that very Land which was always Reserved for the Inhabitants of the Province as a recompence for the great charge they had been at &c. and that the same had often been Promised to them—Now Gentlemen pray give us leave to tell you (in the capacity of a Committee appointed to Treat with us) That this affair has lain before the Assembly ever since the 30<sup>th</sup> of October 1744, being then laid before them by His Excellency, with the agreement made between Mr. Thomlinson on behalf of the Government, and the said Mason, and was afterward several times put in mind thereof by Messages but nothing done to effect. After this when Mr. Mason arrived from England last winter, he put in a memorial Desiring the said Agreement with Mr. Thomlinson might be Ratelyed, that he on his part was always ready; but to this he could get no Answer, he then Preferr'd a second memorial in which he told the Government he could wait no longer and that unless they Immediately came to some Resolution he should be obliged to make the most of his Interest another way, and that he should take their silence as a refusal, to this Last he waited many Days at the Door, before he was Admitted to speak, and when he was and had Answered such Questions as the House tho't proper to ask, and had said what he tho't was necessary in the Affair was Dismiss'd without any Prospect of an agreement. Then he apply'd to us as he had often done before, but we refused to have any Treaty with him 'till he had Publickly Docked the Intail which ought to have been done at the Province charge & we dare say not one Person in the Government that is acquainted with these things believes the Assembly ever intended to purchase of him, so that we certainly are clear of the charge of taking a bargain out of the Governm<sup>ts</sup> hands. We could by no means force the Assembly to Purchase it for the People. Those of us who were of the Court forwarded it to the utmost of our Power, and always would have voted for it, & to shew our Inclination Immediately after we had Purchased of Mr. Mason Signed a Quit claim to every Proprietor of land holding under the Government in the old Towns and their appendages, viz. Portsmouth, Dover, Hampton & Exeter, & to the other Towns of Kingston, Londonderry, Chester, Nottingham, Barrington, Rochester, Chichester, Epsom, Canterbury, Bow & Barnstead, this was done freely and without any consideration, but to Quiet the good People, and had our view been otherwise we might have made great sums, even of private Persons to have confirmed their particular rights in many of those New Towns where Possessions cannot as yet create them a Right. This was one reason of our Purchasing & Let any Impartial Person Judge whether We have Injured the Inhabitants or befriended them. We assure you many of us would have given as much money for Mason's Private Quit claim to our own Rights in the New Towns.

Besides every body knows how Mason's Right has always hung over us and on every turn we are threatened with a Proprietor. This has been the case since the Government was settled & very lately these threats are come nearer home, within less than twelve months. Mason's Deed to a Committee of the Massachusetts in behalf of that Government for a Tract of land on the Boundary Line whose Purchase consideration was £500, has lately been Entered on our Province Records & bro't into Court, and as we are Informed a Title under it set up in Opposition to the Grants made here by the Governor & Council—Seeing these things We wisely Prevented the spreading Evil by taking Mr. Mason up, who when we agreed with him had better offers from another Quarter. We hope we have not materially mistaken any of the foregoing facts, some or other of us being Privy thereto from whom we have had the Information.

And now, Gentlemen, We assure you that we are ready to Execute a Deed for our Remaining Interest in the Premises in the same manner we rec<sup>d</sup> it, and for the same sum with our cost attending the same, Provided this be done within one month from the date hereof, and the Deed is made to convey the Land to the Government to be granted to such Inhabitants as the Gov-

ernour and Council shall grant *charters?* (1) & you'll excuse us in saying We will wait no longer than one month, because We have many Persons to oblige in the disposal of these Lands & If we seek the opportunity can sell them for more than ten times the value we gave and offer them for.

We are Gentlemen your  
most obedient Humble serv<sup>ts</sup>

*Governor's Message.*

[Copied from "MS. Gov<sup>ts</sup> Messages," Vol. I, p. 409.]

*Gentlemen of the Assembly—*

Upon the probability of there being a French fleet upon our coast, I have made the necessary dispositions for assembling the respective regiments of militia, upon the first notice of an alarm at his Majesty's Fort William & Mary, & appointed proper places for their parading.

The deposition of William Stanwood taken before the Governor & Council of the Massachusetts on the 15<sup>th</sup> Instant & transmitted to me by Gov<sup>r</sup> Shirley is a confirmation of this probability, which the Secretary shall lay before you. I think it of absolute necessity upon this occasion, that you make a grant of one hundred men to be posted at his Majesty's fort at New Castle, untill the certainty of the motion of this squadron is known, it being not altogether improbable but these Troops & Squadron may be destined for this Government.

I must alsoe desire that you make a resolve to subsist such a number of the Troops raised for the Expedition against Canada as I shall think proper to Employ for his Majesty's service in conjunction with the other Governments, at Crown Point, or elsewhere, as the occasion may require.

From the dangerous situation we are now in, you see how necessary it was to have come into the plan of Labour w<sup>ch</sup> I have so often pressed you to come into, whereby the Fort might have been by this day compleated, which must now be the work of another year, & his Majestys subjects greatly exposed thereby to the Insults of the Enemy. I hope, therefore, you will now take that matter once more under your consideration & make such ample grants for that service as will enable me with all possible dispatch to put the Fort in the best posture of defence; otherwise for my own justification I must be under a necessity to lay the state of the Government before his Majesty, w<sup>ch</sup> will be disagreeable to me & Injurious to the Government.

I hope you will give dispatch to what I have recommended, my design being to adjourn the Gen<sup>l</sup> Assembly tomorrow, intending to Employ what time I have to spare for his Majesty's service at the Fort.

*Answer to Gov. Shirley's and Com. Warren's Queries respecting the most practicable scheme for the reduction of Canada.*

[Copied from MS. Corr.. in Secretary's office, Vol. I, p. 267.]

Boston, Aug. 15<sup>th</sup> 1746.

Gentlemen —

The Duke of New Castle in his letter of 9<sup>th</sup> April having signified to us his Majesty's pleasure, that we should together with Lieut. General St Clair Consider what may be the most practicable & advisable scheme for the reduction of Canada, in the present Expedition against it — and we being persuaded of your capacity to inform us in the said points, in order to qualify ourselves for Executing his Majesty's Commands in the best manner, desire you would give us answers in writing to the Questions herein after mentioned, viz.

W. SHIRLEY. P. WARREN.

To Coll<sup>o</sup> John Stoddard  
and  
Coll<sup>o</sup> Theodore Atkinson

Q. 1. What number of fighting men French & Indians do you suppose to be in Canada, and what number of other Indians now in the French Interest, and not residing within Canada, might be drawn to its assistance upon occasion of the present Expedition?

Boston, Aug<sup>st</sup> 17<sup>th</sup> 1746.

We having Considered the several Questions Do humbly offer our opinion in the manner following —

It is long since either of us have been in Canada, and not easy for us rightly to conceive of the Increase of the People in that country. In order to form some Judgment we have considered that the settlements are chiefly near the Bank of the river St. Lawrence, the country back from the river is very wet, and not capable of Improvement till drain'd.—the land on each side of the river Divided into Townships of six miles square, the length from Boole Isle or head of the Island of Mount Real to the lowest Towns near twenty miles below Quebeck is about 220 miles which divided by six makes 72 Towns there are likewise three or four Towns back from the river on the Island of Mount Real one or two on Chamblee River, so that we call the number of County Towns Eighty, and in the year 1714 'tis probable that there were not more than six or eight of these Towns that had more than Twenty houses in each, in some of them ten, in others 5 or 6, in divers of them not more than one, in some of the Townships none at all. And supposing they are so Increased as that one with another, they may be thought to have fifty men in each that will make

|                                 |           |
|---------------------------------|-----------|
| We allow there to be in Quebeck | 4000 men. |
| At Mount Real                   | 1000      |
| of Regular Troops               | 1000      |
| of Indians that dwell in Canada | 1000      |
|                                 | 8000      |

We have exceeded our Judgments in the several Numbers but inasmuch as it is Generally said that there is a much greater number of People in that Country and we know that when the People of a Country are assembled, men seem to come out of the caves of the earth, or a man can't tell from whence they come, it seems safest to suppose them Double that number which will make them sixteen Thousand.

As to the Remote Tribes of Indians in the French Interest, it wou'd be vanity for us to Pretend to say who are firmly attached to them or what their numbers are, though it is well known those commonly called Eastern Indians, St. John's and Cape Sable Indians are so,— it is likewise known that there are divers Tribes up the River St. Lawrence that the French hold a corres-

pondence with, who are also in alliance with the six nations as particularly those that Dwell on the lake Coderockquy, the Meamnees, the Hurons — and some of the Otawaes that live at a place called the Straights, and many other Tribes still at a greater distance and to us unknown.

No. 2. What number of Forces do you apprehend it may require to form and Cary on the Siege of the cities of Quebeck and Mount Real, and penetrate by land into the Western Parts of Canada as far as the Island of Mount Real, at the same time distinguishing the number that each part of the service would require?

In answer to the second Question we apprehend there need be near twenty thousand Land forces, for many of the Inhabitants of that Country are strong & active Inured to hardship, Expert in war, much used to arms, they constantly maintaining war with some of the remote nations and used to continual voyages towards Missisippy,—our men Raw and Unexperienced, and in case we happen to be overmatched can't expect any reinforcements.

The People near Mount Real are as Numerous as near Quebeck, most of the Indians dwell in the upper part of the Country, and the Kings ships can't be serviceable but only at or near Quebeck, so that it seems there will be need of as many of the Land Forces at Mount Real in case of a siege as at Quebeck, though they are not so strongly fortified.

No. 3. What is the best Rout for the American Forces to take in order to penetrate into the Enemy's Country, as far as before mentioned?

As to the third Question we are of opinion that it is much the easiest and safest for all the Land Forces to go by sea to Quebeck, and those designed for Mountreal to go up the river in small vessells wher-in may be caried Provisions, Artillery, &c. necessary for them, they may return the same way, without Danger in case of Disappointment, and we can't conceive of any occasion to Penetrate the country from Albany, but only for the sake of the Six Nations and other Tribes of Indians, who would not be willing to go by sea nor by land, without the Company of some English, therefore it seems Expedient that seven or Eight Thousand men go by water to Mount Real, which would oblige the French Immediately to recall their forces that may be sent to Lake Champlain or elsewhere to oppose our Land forces, and then the six Nations and the English with them may Enter the Country with all safety, Crown point notwithstanding;—but if no forces are sent up the river St. Lawrence to Mount Real, it is evident that the shortest way from Albany as well as the Easiest is by Wood creek and Lake Champlain, and they may either take Crown Point as they go along, or carry their Battoes a little way cross the land and avoid it.

No. 4. What number of men are you of opinion it would require to penetrate so far into the Enemies country, with sufficient strength to support themselves against the ambushes or open force with which the French might be able to oppose and annoy them in their Passage or retreat (if that should be the case) supposing the siege of Quebeck to be then formed, but not that of the City of Mount Real, nor any Troops landed on the Island of Mount real by way of the river of St. Lawrence, in order to Divide or make a Division of the Enemies Forces in those Parts, and the Fort at Crown Point to be left on the back of our Forces in the Enemies Possession?

On the fourth Question — Quebeck being besieged, no force landed on the Island of Mount Real, Crown Point in Possession of the French, it is requisite that there be as large a force to Penetrate through the Country, as there would need to form a Siege against Mount real, (viz. Near ten Thousand men.)

No. 5. Of what advantage do you apprehend the reduction of Crown Point might be to his Majestys service for the facilitating the conquest of the whole Country of Canada; and what Force would it require to effect the Reduction of it in case neither the City of Quebeck nor Mount Real were besieged at the

same time; also what force would it require to do it, Supposing a Diversion was made at Quebec but none at Mount Real, and what season of the year do you Judge to be the most advantageous for attempting the Reduction of this Fort, as also the latest for doing it with a probability of success?

In answer to the fifth Question—

If all our forces were to go up the river of St. Lawrence not only to Quebec but to Mount Real, Crown Point being taken would no ways contribute to the more easy reduction of Canada, only as the taking of it would tend to Dispirit the People of that country, but if it be designed that the army that goes to Mount Real should march from Albany, then Crown Point's being in our Possession will greatly Prevent the French getting knowledge of the marches of our army from Albany, because it will be difficult for them to keep parties on Wood Creek, on the carrying place and elsewhere to observe our motions, and to take Prisoners, it would likewise give us the command of Lake Champlain, and thereby greatly prevent the French Indians making Depredations on our frontiers, and give our forces an opportunity of making a sudden & unexpected Descent on their Borders, as well as a safe one, Especially if we should have a small vessell in that Lake, it will make our Retreat (if found necessary) easy and safe, and in short will give us an advantage equal to that they are deprived of, and Particularly it would make it easy for our parties of Indians to run into Canada every few days and Distress their Inhabitants in the same manner they have done ours and the taking that fortress will be the most effectual means to Establish the six nations in our Interest. As to the season of the year, if that be considered simply abstracted from other circumstances, it seems reasonable to think that late in the fall, and early in the Spring, when the waters are partly frozen & partly open, so that the French can't send them succours would be convenient seasons, but at those times it would be inconvenient for men to lie long in their camps, but now we are expected at Quebec, and that an army is thought to be on their march for Mount real, and it must be thought that their principle care will be to save their country, and not to preserve a fortress which is only a convenience to them, and if it be thought advisable only to attempt the taking Crown Point for the present, it may be thought best to engage in it whilst we are expected elsewhere, for if it should be long Delay'd and some ships should shew themselves at or near Quebec the French would know that the season was past, and that those ships were designed for an amusement.

As to the number of men requisite for such an Enterprize, it may well be thought that more will be needed at such a season as this when we are expected there, and are advised that there are a great number of French & Indians there to prepare for the Defence of that place, and Probably all Canada in arms, and they may with good reason suppose that if they can give us some notable repulse at a Distance it may be a means to save their Country, therefore it seems convenient to send all the American Troops, who are now in the Kings pay & ought to do his service, and we had better have ten too many than one too few.

No. 6. What time ought to be allowed for the Passage of his Majesty's ships & Transports from Louisbourg to Quebec, and what is the latest Time of the usual Departure of large ships from thence; and till what time in the year might it be advisable for his Majesty's ships and the rest of the Fleet to stay there in case it is proposed they should return that year, and what time would it take up to send the Forces which are to march by land into Canada from Albany notice of the arrival of the Fleet in St. Lawrence River, and how long would their Passage thro' the Enemies Country as far as the Island of Mount Real take up after their having such notice; and would it be advisable for the Troops in any case to leave the Fort at Crown Point behind them in the Possession of the French?

No. 7. At what time of the year does the winter usually begin to set in at Quebec & Mount Real, and till when will the climate there permit the Troops to remain in the field and carry on their operations at those places, and the

ships to lie before Quebec, and is it Practicable for the ships to winter at any & what Place in the River St. Lawrence, and at what Distance from Quebec and advisable for them so to do and for the Troops to winter in the Country at any & what place there with safety to their health against the Rigour of the climate and with security against any Probable attempts of the Enemy there during that season?

As to the two last Questions we are far from thinking ourselves competent Judges but can say that it is now late in the year, and it will take some time to prepare for the Embarkation of the American Troops, and by the best Information we can get it may Probably take six weeks time to sail from hence to Quebec (besides what time may necessarily be spent at Cape Breton) which will carry us a considerable way into the month of October, we are likewise Informed by divers persons who have lived in Canada that the snow frequently falls in that Country in October, and don't usually go off till the spring of the year and yet the ground is rarely much frozen, they further Inform us that the French ships commonly sail from Quebec in October though sometimes some have sail'd in November.

We can't learn that there is any harbour near Quebec where ships can lye in the Winter season. It has been thought by some that the ships may be safe at Tedusack, but we are to seek to what Purpose it will be to have such a number of ships of War remaining at such a Distance in a state of inactivity for six or seven months together, or to have our land forces lye still for the same length of time in a cold climate where they must necessarily suffer many hardships from the inclemency of the weather, and it would not be strange if multitudes should be lost by sickness or Destroy'd by the Enemy against whom they will not be able to fortify themselves.

As to the time it will take to send from Quebec to the carrying place to notify our land forces of the arrival of our ships before Quebec, it seems somewhat uncertain, but if we carry Indians on ship board probably they may carry news within a fortnights time, but this seems at present somewhat Immaterial because there is no probability of a land army to be notified, or at least such an one as can without Presumption enter the French country, which of itself will prove fatal to the Expedition.

We are your Excellencies most humble  
& ob<sup>d</sup> ser<sup>ts</sup>

His Excellency the Governour sent the Sec<sup>y</sup> to the House to acquaint them that he Directed the Speaker & the House to attend him in the Council Chamber which being done the Speaker and House attended accordingly.

His Excellency made a speech to both Houses as follows:

*Gentlemen of the Council and of the Assembly*

The imminent Danger that his Majestys Governm<sup>t</sup> was exposed to from the near approach of the French Squadron (1) made it necessary for me to strengthen his Maj<sup>ty</sup>s Fort Will<sup>m</sup> & Mary by additional works & Batteries & to arri<sup>e</sup> in the best manner I could for our Defence & considering the short Time I had for this Preparation, the want of materials & Implements of War for such an undertaking (a number of which I have caused to be made for the use of the Garrison & to keep the Troops advantageously Employed) I believe no Government has Exceeded this or did more in the Time For their security, and at so small & [an] Expence to the Publick, which may be in Part attributed to the universal attention given to that service by the Town of Portsm<sup>o</sup> & those in her neighborhood an Example worthy to be imitated by all both in Publick & Private Stations.

Upon this Emergency there has many unforeseen Expences arisen which I hope you will cheerfully Discharge when they come before you.

[P. 443.] I tho't it for his Majesties service & for the safety of his subjects to assemble the Troops raised for the Canada Expedition at New Castle which will create alsoe an expence unprovided for by the Generall Assembly, the want of proper Barracks for their reception not only occasion'd disorders but prevented the Governments receiving the full benefit of their Labour I esteem it therefore for his Majestys service and the safety of the Governm<sup>t</sup> that Immediate Provision be made for erecting Barracks for at least Two hundred & fifty men which may receive a number of the Kings troops I may order there while they are under my command and hereafter serve for such Detachments of the militia as may be convenient to Post there for the Defence of the Province.

*Gentlemen of the Assembly*

In the absence of Lt. General St. Clair the conducting of the Troops raised in New Hampshire, Mass<sup>a</sup> & Road Island Governments for the Canada Expedition is solely vested in Governour Shirley and Admiral Warren who by a joynt Letter to me apply'd for such a part of those Troops as I could reasonably Embark for the succour of his Majestys Garrison at Annapolis Royal & upon my communicating their Letter to his Majestys Council they unanimously advised me to Embark on board the Sloop Warren & Brigant-

(1) This French squadron was under the command of the Duke D' Anville. The news of the approach of it excited great alarm in all the New England Provinces, and preparations were immediately made for defence. But whatever were the designs of the fleet, all were thwarted by a terrific storm, in which many of the vessels were wrecked, and those which escaped destruction returned to France. "Never," says Dr. Belknap, "was the hand of divine Providence more visible than on this occasion. Never was a disappointment more severe, on the side of the enemy; nor a deliverance more complete, without human help, in favor of this country." [See *Farm. Belk. Hist. N. H.*, p. 284.]—Ed.

St. Clair as many of s<sup>d</sup> Troops as could be accommodated with conveniency and that they should be subsisted out of the stores for the Canada Expedition. In consequence of this advise I gave orders for Embarking one hundred & Eighty men but from the Discouragements & misrepresentations in Pursuance of my orders by evil minded People against the True Interest of the Government but one hundred and Twenty-Eight officers & seamen Included were Embarked on board both vessels.

Of the remainder of his Majesty's Troops I propose to Employ Two hundred upon your granteing them subsistance in opening a road to Winipissioce and Canterbury, in erecting a Block House at the Great Pond & one or more advanced magazines in the Enemies Country from whence I propose that a sufficient number of the most able bodied men shall march over to the French settlements on or near the River St. Lawrence at a Time when the Inhabitants both French & Indians can have no succour from Quebeck & Montreal whereby their retreat will be safe & free from Danger & should this Enterprise be crowned with *with* success it will most effectually secure our inland frontiers from the usual sallies made on them by the Indians in future and strike a greater terrör in the French than any thing that heretofore has been attempted. The persons I propose to Employ in this service are fully Perswaded it is practicable and as sure of succeeding.

The above Detachments I have in a late Letter to his Grace the Duke of New Castle shown the necessity of making, which Doubt not will receive his Grace's approbation, the remainder of the Troops raised for the Canada Expedition upon your granting them subsistance & other stores requisite I shall employ in conjunction with the southern Governments for the reduction of Crown Point which I recommend to you as a thing worthy your attention.

In my last Letter from your agent he complains in the most solemn manner of the unreasonable neglect of the Government in not furnishing him with your Demands for the reduction of Louisbourg that he may be Enabled to make your claim on the Crown at the same time the agents for the other Governments concerned in that Expedition do, and shews the great Danger there will be of New Hampshire being excluded in the Parliamentary Provision that may be made for that service if the Demand comes out of time.

On an occasion of so much Importance to the Government I have Transmitted the Treasurers Certificate of Gross sums Expended by this Government both in the reduction of the Place & re-inforcing it as near as he could come at it by the Chester man of war & the two next conveyances to Mr. Agent Thomlinson, that he may make a Demand of something in behalf of the Province untill he can receive the acct<sup>s</sup> in form to Lay them before the Proper officers which it highly concerns you to transmit with the utmost Expedition.

[P. 445.] I hope Gentlemen for the future you will Esteem it worth your care to correspond with your agent on every subject of Importance & relieve me from business that is not my Immediate concern & you are all sensible that I have not failed to Press this matter upon you both in Publick & Private.

Upon my receiving an acct from Pennycook that a party of about thirty Indians had killed & scalped a man (1) in the body of that Town & that it was generally supposed that scout marched to the Eastward I ordred Major Davis with a Detachment not under forty of his company to march to Rochester & scout in & about that Town, alsoe at the same time I ordered Captain Goffe to march with the company under his command to Pennycook, Canterbury, & so cross the country to Rochester by which means I hope further mischief has been prevented from that Party of the enemy.

The £15000 Loan remains unsettled for want of the aid of the General Assembly and as that fund has subsisted so much beyond the Time limited I hope you will not fail of bringing it to an Issue. I shall order the Treasurers

(1) The person above referred to was a Mr. ESTABROOKS, who belonged to Hopkinton. Having been to Concord on business, Nov. 10th, 1746, returning he had proceeded about three-quarters of a mile on the road, (to the land since owned by the late Gen. Franklin Pierce,) when he was fired at by a party of Indians and killed. The report of the guns was heard in the Main street, and in half an hour afterwards Estabrooks was found dead. [See Bouton's Hist. Concord, p. 177.]—ED.

acc<sup>ts</sup> to be laid before you for your Inspection in order for their being transmitted to His Majesty.

In pursuance of your vote for Billeting the Troops Levied for the Canada Expedition I have issued my warrants on the Treasury for the Payment of two months Billeting to each man what further Provision is necessary I make no doubt you will Provide for.

The great Danger his Majesties Government has been Exposed to the last Sumer Prevented my Delivering to the order of John Thomlinson Esq. the one hundred & Eighty bbs. of Gun Powder which he has long since paid for in conformity to his Majesties order in Council and I now recomend it to you as a matter of great Importance & for the Hon<sup>r</sup> & safety of the Government not only to Discharge honourably that Debt but to make the necessary Dispositions for Purchasing a much larger Quantity without which the Province cannot be safe.

[p. 446.] It is but a few weeks since every thinking man in the Government tho't there could not be too large a stock of Powder for the Publick uses but at that time no sum of money would purchase one single barrel.

I have in one or more Speeches from the chair Desired that the Depreciating of the Paper currency whereby the Sallary settled upon me by acts of Government was lessened might have its due consideration, and I believe you will find repeated messages from me on the same occasion, but for what reason they have not had a Due attention is with you to Determine & it is with great reluctance that I must Press a branch of the Legislative Power to Do Justice to their own acts and in a Point which so much relates to the supporting the Honour & Dignity of the Government.

Nothing will make it clearer that it is your Duty & Interest to see this Act Duely Executed than the words of his Majesty's Instructions for settling a Sallary on his Governour, which are as follows:—

“And particularly that such Sallary be Enacted to be paid in Sterling or “Proclamation money or in Paper Bills of Credit curr<sup>t</sup> in that Province in “Proportion to the value such bills shall Pass at in Exchange for silver that “thereby you may Depend on some certain Income and not be lyable to have “your stipend varied by the uncertain state of Paper money.”

The care his Majesty has been graciously Pleased to take for my support I make no doubt will be an example for you to follow and therefore I am persuaded you will not Delay to make ample satisfaction for the Deficiency in my sallery for the years Past but make a decent Provision for my accommodation for the future in every respect.

*Gentlemen of the Council and Assembly,*

Since the Last adjournment of the General Assembly I have received his Majesty's royal order in Council dated 28<sup>th</sup> May 1746 for Dismissing the Petition [p. 447.] of Thomas Hutchinson Esq (1) with about Thirty five Petitions therunto annexed, alsoe the Petition of the Town & Proprietors of Dracont that were either Intersected or fell within this Province upon his Majesties Determination of the boundary Lines between New Hampshire and the Massachusetts Praying they might be united and re-annexed to the s<sup>d</sup> Province of the Massachusetts Bay which shall be laid before you and since this matter has been so solemnly heard before the Lords of his Majesty's most Honourable Privy Council & Dismissed I am hoping it will settle the minds of the People & Establish the Peace & Tranquility of the Government on a lasting foundation.

To his Excelency Benning Wentworth, Esq. Captain General Governor and Commander in Chief in and over his Majesty's Province of New Hampshire:

To the Hon<sup>ble</sup> his Majesty's Council and House of Representatives convened in General Assembly —

The Petition of the subscribers, Freeholders & Inhabitants of the Town of Stratham in the Province aforesaid —

*Humbly Shews*, That your Petitioners having for some years past been under very Difficult Circumstances both as to their Church and Town affairs occasioned by the unhappy and unscriptural Separation of a great number of the Principal members of the Church who by their Example have influenced others of the Church and congregation to Follow them into the same separation and thereby have made themselves the major parte and have for some time past carry'd on the Publick worship in a Separate house and are got to such a height as to call a Town meeting to choose a Committee to apply to Mr. Joseph Adams their present minister to take on him the pastoral care and charge of a church in said Town and to cast himself on the Lord and Depend on him for what he shall incline the People to give him for his support (1) which your Petitioners expect will be liberal enough inasmuch as we must bear our part of it unless relieved herein by your Excelency and hon<sup>rs</sup>— and Inasmuch as their Separation and proceeding thereon is so unjust and unwarrantable and we have just reason to fear willfull and our circumstances will not admit us without Impoverishing our Estates to maintain more than Mr. Rust our present ordain'd minister (with whose Doctrine and Conduct we are well satisfy'd) who was Principally call'd and settled by the Principal Gentlemen in the present separation who then made a great shew of Respect for him and his ministry, and inasmuch as this un-

(1) The difficulties in Stratham here referred to grew out of the "Great Revival" which prevailed in many parts of New England, about this time. The Rev. Henry Rust, ordained in Stratham in 1718, was the regular minister in the town; but the disaffected party favored Rev. Joseph Adams, who was engaged by them to preach as early as 1742, and again in 1745. His ordination, however, was delayed by the pendency of this petition until March 20, 1747. In June 24, 1756, after the death of Rev. Mr. Rust, Mr. Adams was installed as minister of the whole town. He died Feb. 24, 1785, after a ministry of 38 years, aged 66. [See *History of N. H. Churches*, 1856, and *Farmer & Moore's N. H. Gaz.*]—ED.

happy separation and proceeding thereon greatly Tends to an unnatural Behaviour towards each other and to root out our Holy Religion and alsoe to Destroy that Love Peace and Unity that ought to be kept and maintained amongst us as the Professors of Christ, as also to the Destruction or wasting of our Estates — Wherefore your Petitioners most Humbly pray that your Excellency and hon<sup>rs</sup> will take our Deplorable case under your wise consideration and redress our present Grievances in such way as to your Excellency and hon<sup>rs</sup> shall seem most for the Glory of God and Real welfare of this Place.

And your Petitioners as in Duty bound shall ever Pray.

The House's Answer to his Excellency the Governours Speech of the 2<sup>d</sup> instant.

*May it Please your Excellency,*

The House having your Excellency's Speech to both Houses, of the 2<sup>d</sup> Inst. now before them do return your Excellency our most hearty thanks for your Excellencies care and unwearied Pains in strengthening the works at his Maj<sup>ty</sup>s fort William & Mary and Permitting such as voluntarily and at their own cost offer'd themselves for that service to assist in Erecting such additional Batterys as were necessary for making the new Cannon lately sent by his most Gracious Majesty useful & serviceable in case of an attack which we had so much reason to expect from the powerfull French Fleet lately in these seas and when the acct<sup>s</sup> of the necessary expence on that Emergency are laid before the Generall Assembly we hope for a cheerful unanimity in Doing what may appear to be just & Honourable with respect to them.

We also thank your Excellency for ording his Majesties new raised Troops to assemble at New Castle which (as it was for his Majesties service and had a Tendency to promote the safety of his Majesties subjects) was agreeable to the mind of this House and we hope the buildings your Excellency was Pleas'd to Erect on that occasion will answer the End of Barracks for more than two hundred & fifty men till the Prov. is in better circumstances to build others and we are of opinion that the grants already made by the General Assembly are sufficient for the subsisting &c. of such of the voluntiers Inlisted in his Majesties service for the Expedition against Canada as your Excellency shall think it for his Majesties Interest or service to order upon Duty—and agreeable to the votes of this house we Pray your Excellency [p. 451.] would be pleas'd to Direct that a List of the men's names with the time of each mans Enlistment should be laid before the House for without that how can we make any further Provision for the billeting or know when we have sufficiently Provided— Besides we have heard of some Pernicious & unwarrantable Practices of some of the recruiting officers which ought to be Enquired into & without such List how can we come at the Truth.

We are sorry if our agent has any reason to complain for want of the accounts relateing to the Expedition against Louisbourg the several votes of this House sent up the Hon<sup>ble</sup> Board relating to these acct<sup>s</sup> will shew how Desirous we have been to have them finished and Transmitted and we now hope that all the branches & every Person concern'd will joy'n their hearty Endeavour to have them forthwith compleated.

The several votes of the General Assembly relateing to the fifteen thousand Pound Loan have not been duely complied with by the Comittee we do not know what further aid they can want from the General Assembly are ready to do all in our Power and are of opinion that the Comittee ought to be Immediately required to settle & finish that affair.

It would be very pleasing to the House to have the Treasurers accounts laid before us in order for a speedy settlement of them that thereby we may come at a True State of the Province and be the better Enabled to act on the other Paragraphs in your Excellencies speech relateing to the 180 bbls of Gun Powder and chusing a Comittee to correspond with the agent which we have now under consideration and do assure your Excellency that it is the general Disposition of this House to do every thing in our Power towards your Ex-

celencies generous support which may appear to be either just or Honourable may we think we can goe further & say with great sincerity that we are heartily Disposed to Do every thing in our Power consistant with his Majestys Honour and the best good of his faithful subjects whom we represent that may tend to make your Excelencies life easy & happy both in Time & to Eternity & wish it was in our Power (without greatly Distressing our constituents in the most calamitous Season of the most Expensive War the Province ever felt) to make greater additions to your Excelencies Salary than your Excelency could either Desire or wish but under the Present scituation [p. 452.] of affairs when the Province is loaded with such heavy Debts so vastly surpassing any things in time past what shall we say? We hope we Pray that we may be Directed and Enabled to Do justice to your Excelency & our constituents.

If your Excelency has any Letters from Mr. Agent Thomlinson relating to the matters mentioned in your Excelencies Speech it would be a satisfaction to the House to have them before them.

We conclude with our earnest Desire for your Excelencys aid and assistance in Promoting unanimity & Dispatch in all the affairs of this session & may that glorious God who has lately wrought out for his People of New England so marvelous and remarkable a Deliverance be still our mighty Protector & Deliverer, may he by whom Kings reign & Princes Decree Justice be always at your Excelencys right hand to Council advise & help your Excelency to bear the heavy weight of Government, may he make your Excelencies Life and administration Long & happy,—Happy for your Excelency, Happy for his People and when this Life with all the Hon<sup>rs</sup> of it shall fade away may your Excelency enjoy an unfading Crown of Glory at his right hand where there are rivers of Pleasure forevermore.

Ebenez<sup>r</sup> Stevens, Speaker.

Several Paragraphs of John Thomlinsons Esqrs. Letters to his Excellency the Governour which the Assembly Desire may be laid before them.

[Copied from MS. Corr., in Secretary's office, Vol. I, p. 303.]

London May 1<sup>st</sup> 1746.

Sir—

I have been a long time without any of yours, and I am the more surprised at it, as the Province of the Massachusetts have so long since sent home their agent with all their accounts and other Papers to solicit for reimbursement of the charge they have been at in the reduction of Cape Breton, and the Provinces of Connecticut and Rhode Island, have sent home their accounts, papers and proper vouchers to their agents, and will be included in this application to his Majesty, and it is likely to the Parliament, and undoubtedly will succeed, and you shut out, and with what grace can you come afterward and be at the Trouble and vast Expence of a seperate proceeding and not succeed at last.

We have lately been obliged to be at the Expence of two hearings before Committees of Councils on Thomas Hutchinsons Petitions and got them dismissed so that affair is at an end, for when the most sanguine of the Gentlemen hear from their friends here, how Ridiculous this attempt appear'd to be, they will not be fool hardy enough to make any future attempts of the like nature.

As soon as I can get Mr. Parris's Bills I shall send you the Province's Accounts and hope you will Enable me to balance it, and then I will shut it up for good, for I will not have any more to do as agent for your Province or any other Province in America, I have not time. I hope you have deliver'd the Gun Powder to Mr. Charles Apthorp, or paid for it in the manner I have Directed. I shall be glad of that being done and am &c.

John Thomlinson.

London, May 8<sup>th</sup> 1746.

Sir,

Last night I receiv'd of Capt. Peter River a Pacquet inclosing an address to his Majesty and a memorial to his Majesty in Council, with a short Letter from the Committee and a vote with a Desire that I may present the same, and humbly solicit his Majesties Royal bounty in repaying the great charge the Province has been at in the expedition for the reduction of Louisbourg, and To morrow I shall deliver the address and memorial. But for God's sake what am I to solicit for, is there any sum mentioned to me, have any accounts been sent as the other Provinces have sent to their agents — all that I can Possibly do will be to keep your claim alive, untill I have your accounts, for any body of common sense must know, that when any sum of Public money is given and appropriated it is a certain stipulated sum. I should be glad to do every thing in my power for the Province, but if you will not put it in my power to serve you, you must blame yourselves. I can only pity you, and am, &c.

John Thomlinson.

London, 20<sup>th</sup> September 1746.

Sir—

I must acknowledge the receipt of two of your favours the last of the 6<sup>th</sup> June in which was inclosed a Letter to his Grace the Duke of New Castle w<sup>ch</sup> I have Deliver'd, your former letter surprises me, wherein you say, you want an order to deliver me the Gun Powder you had by Hammond, you know I have paid for it a year since, and have proper receipts for the same, and at the same time that I paid for it acquainted the office that I should take it to my proper account, but as you say you want an order to deliver me my own Powder, if this ship had not gone so unexpectedly suddain, you should have had an order and if that order had not been sufficient you should have had an order from his Majesty in Council although I hope for your own sakes, you will not oblige me to solicit for such an order.

There is another affair, and which I have all along thought to have wrote you on, which is this: I have paid the powder money at your Post ever since your powder act, and I am informed that the agents of all the Colonies are allways Exempted from that charge, being deemed intituled to all and every exemption and priviledges that any of the Inhabitants of such Colonies are intituled to, and therefore in common Justice I think you ought to refund me all I have already paid, and also in future Exempt my ships or concern in ships from the like charges so long as I shall continue your agent.

Pray let me have proper accounts of the Province disbursements, and all charges of your concern in the Expedition of Louisbourg, as I have formerly wrote you that you may not be the only Province that may be unpaid, if so, you may thank yourselves. I cannot add only that I am &c.

John Thomlinson.

*Gentlemen of the Council & of the Assembly,*

The foregoing is extracted from Mr. Thomlinsons letters to me, which the Assembly desired I would communicate to the House, to which I have added what relates the Public in a late letter from the same Gent<sup>a</sup> of the 20<sup>th</sup> Sept. which should have been addressed me.

The Petition of Capt. Ebenezer Eastman Praying for some assistance of soldiers in the Plantation of Pennycook, read & sent Down to the House.

[The following is a copy of said Petition.]

To His Excellency Benning Wentworth Esqr. Governor and Commander in Chief and Captain General in and over his Majestys Province of New Hampshire,

The Honorable his Majestys Council for said Province and the House of Representatives met on the twelfth day of March 1746 upon a special Convention.

The Petition of Ebenezer Eastman of Penny Cook so called in s<sup>d</sup> Province in behalf of himself and the other Inhabitants there most humbly shews— That they are in great danger of and much exposed unto the Indian Enemy and are in daily fear that they shall be attacked by them and such a number as will be too many for them unless they have some help— That the Inhabitants there are about to quit the Place unless they can be protected— That on Saturday night last, being the Eighth day of March Inst. there was a discovery of an Indian near Canterbury Fort, which has caused much fear and an apprehension that there is a Body of the Enemy waiting an opportunity to do mischief.

Wherefore your Petitioner most humbly Prays your Excellency and Honours to consider of this Petition and to grant such Relief as in your great wisdom you shall Judge meet and proper and your Petitioner as in duty bound shall ever Pray &c.

Ebenezer Eastman.

March 12<sup>th</sup> 1746—

Province N. Hamp. March 12<sup>th</sup> 1746—

In council at a special session of Gen<sup>l</sup> Assembly read & ordered to be sent down to the Conven<sup>d</sup> members.

Theodore Atkinson.

His Excellency laid before the board a written Message from y<sup>e</sup> House in answer to his Mess<sup>a</sup> of yesterday and is as follows, viz.

### *House's Answer.*

Province of New Hampshire

At a convention of the members of the House of Representatives March 12<sup>th</sup> 1746-7.

Voted That the following be sent to his Excellency in answer to his Message of yesterday, viz.

(1) JOHN PAUL MASCARENE was of French descent, born in 1684. His father was a Huguenot, who was driven from France by the edict of Nantes. At the age of twelve, young Mascarene made his way to Geneva, where he was educated; then went to England, was naturalized in 1706; accompanied troops sent to America in 1711, and was employed in Nova Scotia; gradually rising in office and authority, he became Lieut. Governour of Nova Scotia in 1740 and till 1749. He was succeeded by Gov. Cornwallis, but was a member of his Council. In 1750 he resigned, on account of advanced age, when he received a Commission of Colonel, to rank as such in the army, and retired with his family to Boston, of which city his wife, Elizabeth Perry, was a native, and where he died on the 23d of January, 1760. [N. E. Hist. & Gen. Reg., Vol. 9, p. 239.]—ED.

(2) See this Letter in the "Shirley Papers," No. 55.

*May it Please your Excelency,*

The convened members do not think they have any thing to do to order the Kings Troops; We are sensible tis of the greatest importance that his Maj<sup>ty</sup>s fortress at Annapolis Royal should be Preserved from falling into the hands of the Enemy as it seems by what Governor Shirley writes he Proposes the Drawing of Bills to defray the charge of the armament he intends to send to the assistance of that fortress and the Government are not concerned in it so if your Excelency shall think it best to send assistance there at this time and the Expence can be paid by Drawing Bills, we hope your Excelency will think that the best way.

Daniel Peirce, Cl<sup>k</sup> H. Repr.

His Excelency alsoe laid before the Board the House's desire that his Excelency would cause to be Inlisted or Impressed 25 good effective men to scout on the Western side of Merrimack river near to Pennycook &c.

And alsoe in case he should draw the forces from Winnipisseoce Pond that he would order 20 men as above to scout above Rochester.

His Excelency sent the Secretary to the House to Desire they would signify to him their approbation of his Drawing money out of the Treasury for cloathing the Canada Volunteers or Paying those that found themselves agreeable to the Proclamation.

[p. 462.] And alsoe to Inform the House that he tho't it proper that Col. Wallingford who by vote was appointed to goe to Connecticut to purchase Provisions for the Canada Expedition might be directed to proceed on that affair.

To which the Speaker after the House had considered on the subject matter of the s<sup>d</sup> Messages returned for answer That as to the Cloaths &c. they should meet soon on the Day the House stood adjourned and then if it was necessary they could act but at this time they did not think they could with propriety.

As to the latter part of the message the sending Coll. Wallingford to Connecticut they tho't the vote of Assembly sufficient to answer the End proposed by his Excelency.

*Copy of said Petition.*

[Copied from Papers in Secretary's Office — "Towns" Vol. III, p. 309.]

Province of New Hamp<sup>r</sup>.

To his Excellency Benning Wentworth, Esq. Gov<sup>r</sup> &c. the Hon<sup>l</sup> his Maj<sup>ty</sup>'s Council & House of Represent<sup>s</sup> in Gen<sup>l</sup> Assembly convened, March 31<sup>st</sup> 1747.

The Petition of Sam<sup>l</sup> Cumings in behalf of the Town of Hollis Humbly sheweth—

That the s<sup>d</sup> Town has lately settled a minister (1) and are now a building a meeting house for the publick worship of God there.

That the settlers of s<sup>d</sup> Town has but lately entered thereon, and altho' considerable progress in Agriculture has been made (the only way we have for our support) yet find these charges very burdensome.

That a considerable part of the best lands in s<sup>d</sup> Town belong to Non resident Prop<sup>r</sup> who make no improvement.

That by the arduous beginning the settlement & heavy charges by us already paid has greatly advanced their Land, & they are still rising in value equal as the Resident Prop<sup>r</sup>s tho' the charges hitherto and for the future must lye on y<sup>e</sup> settlers only unless we obtain the assistance of this Hon<sup>ble</sup> Court.

Wherefore your Pet<sup>r</sup> most humbly Prays that y<sup>r</sup> Excell<sup>y</sup> and Hon<sup>rs</sup> would take the premises into your consideration and grant that the whole of the lands in s<sup>d</sup> townships may be taxed annually for five years next coming two pence new tenor pr. acre to be applied for the support of the minister & finishing y<sup>e</sup> meeting house, and by Law Enabling to Collect the same & y<sup>r</sup> Pet<sup>r</sup> as in duty bound shall pray &c.

Samuel Cumings.

His Excellency sent to the House by the Secretary a Paragraph of a Letter from Coll. Stoddard to Governour Shirley relateing to the six nations of Indians coming into the Present War and alsoe a Letter from Governour Shirley Inclosing the same to his Excellency.

[The following are the aforesaid Documents copied from MS. "Belknap Papers" in Secretary's office, pp. 252, 253.]—Ed.

*Extract from Colonel Stoddard's Letter to his Excellency  
Governor Shirley.*

Northampton, May 13<sup>th</sup> 1747.

I send you the Letters lately received from Albany, by which your Exc<sup>y</sup> will perceive that the six Nations are thoroughly engaged, and that most of them together with some others of their Allies are likely to join in our service; I think with your Excellency & the Council that the encouraging these Indians is a thing of great Importance.

The several Govern<sup>ts</sup> have been endeavouring for near three years past to persuade those Tribes into a war wherein they had not any concern but to serve their friends, and they seem generally got into it, and have left their hunting & other means of living & exposed themselves & Families for our sakes, & can we expect they should fight for us, & devote themselves to that Service, & we suffer them to starve, or can we expect that they go a Warfare for us at their own charge, or can we expect that Col<sup>o</sup> Johnson & Mr. Lydius should pay the reckoning; They have taken a great deal of Pains to get the Indians into the war, & have effected more than the Govern<sup>ts</sup> did in a course of years, & can it be thought that they should spend all their substance in rewarding the Indians for their service; It will cost them about 6 or £700 to fit out 100 men for war (in York money) as may be seen by Lydius Letter of March 26<sup>th</sup> and how many hundred will soon be out and how many times they will go out this summer, others can guess as well as I.

To let the Design drop now we have a hopeful Prospect of distressing our Enemy would be fatal, for the Indians may well say, as they often suspected before hand, that our design was to get them into the war, & then leave them in the Lurch; and then we should fail of their assistance, and no wonder if they should reconcile themselves to the French which they would be glad of, & then take Part with the French against us; for the Indians are of such a Humour that if we deal justly & kindly by them they will put their lives in our hands, but if we deal deceitfully with them, that will soon raise an abhorrence of us; Col<sup>o</sup> Johnson & Mr. Lydius are now under a necessity of going forward & fitting out the Indians so long as they have any substance remaining, & when that is gone the affair will be at an End.

Therefore I see no way but for the several Govern<sup>ts</sup> to send supplies of money or goods to enable those Gentlemen to carry on the war; I think it altogether just that the several Govern<sup>ts</sup> do contribute towards the charge, & doubt not but several of them would cheerfully agree to it upon proper application being made to them; and 'tis probable that the money so expended would do us twenty times as much service as what we have heretofore expended in the war. Were it in my power I would send a thousand Pounds in our new Bills or in suitable goods to those Gentlemen for their present necessity. This would revive their drooping spirits (which are full of Expectations of being undone) & would greatly animate the Indians; such causes ought not to be starved for want of a little oyl to keep the wheels in motion.

J. Willard, Sec<sup>y</sup>.

---

Boston, May 18<sup>th</sup> 1747.

Sir —

These are to inform your Excellency that by Dispatches I have received from Albany & Northampton, I find that the Indians of the Six Nations are generally spirited to go to war against the French of Canada, that divers Parties are now out & others daily offering themselves, which is a Point the Governments of New England (especially those of the Massachusetts & Connecticut) have been labouring to carry ever since the first of the war, and if this spirit be duly cherished & properly managed & directed, it may, by the

blessing of God, prove of unspeakable Benefit for the safety of the Colonies. I refer your Excellency to an Extract from Col<sup>o</sup> Stoddard's Letter to me for a more particular account of this affair; only I would observe that Col<sup>o</sup> Johnson & Mr. Lidius whose Influence on the Indians has brought about this great Event, are under such Engagements as they are not able to fulfill without proper supplies from these Governments: and if for want of that the Indians should suffer any disappointment, it is more than probable that they will be disgusted at their being left in the Lurch by us, & will fall intirely into the interests of the French, which will be more fatal to these Colonies, than any thing that has yet befallen us. Now as there is no General Court in being in this Province, we can do nothing at present for the furnishing these Gentlemen; tho' our General Court have intrusted Mr. Lidius with this affair & have undertaken to supply him with a considerable sum for this service, & he has made his Draughts for the Payment, which will be done; but the Parties of Indians come so fast upon him & Mr. Johnson to be fitted out for this service, that what he will receive at present from this Governm<sup>t</sup> will be a very inconsiderable part of what they are under engagements for; & the Gentlemen seem to apprehend that there is great Danger of their being ruined, & the common cause suffering the greatest Damage that we can conceive of unless they be relieved from these Governments.

I doubt not, Sir, but your General Assembly will in this critical conjuncture readily make proper supplies for the Encouragem<sup>t</sup> of the Indians of the six Nations for prosecuting the War, & for keeping these Gentlemen in heart till an agreem<sup>t</sup> may be made between the Governm<sup>t</sup> to apportion the charge that has arisen or may arise in this important affair, among ourselves; and I shall lay this matter before the General Court at their first meeting & am fully persuaded they will chearfully fall into all the measures necessary for promoting this important Interest. You will please to lay these matters before your Assembly as soon as possible, & let me know their Resolutions on this affair.

I am with great regard, Sir,  
your Excellencys most  
obedient, Humble serv<sup>t</sup>,

W. SHIRLEY.

P. S. I shall write to your Exc<sup>y</sup> fully upon other matters by next post.

Bennet's Information relating to the French ships at the Bay of Vert Landing Cannon &c. there in order as the French in Nova Scotia Informed s<sup>d</sup> Bennet to attack Annapolis Royal, which Letter & Information after being read were sent to the House by the Secretary.

[The following is the information by Moses Bennet, copied from MS. Corr., in Secretary's office, Vol. II, p. 21. The letter of Governor Shirley is not found.—Ed.]

*Moses Bennet* comm<sup>r</sup> of the Brig<sup>t</sup> Boston Packet declares, That on the 5<sup>th</sup> of this Instant June, the Declarant met his Majesty's ship the Canterbury on Board of whom was his Excellency Governour Knowles (1) who ordered said Declarant to make the best of his way for Boston; that on the next day being the sixth, having a contrary wind he put into Cape La Have a Harbour twelve Leagues to the Westward of Jebucta, where he hoisted French Colours and fired two Guns as a signal to the Inhabitants, and the next day being the seventh two Neutral French men came on board in a Canoe (taking the Brig<sup>t</sup> to be a French Brig<sup>t</sup> from the Bay Vert) and upon their Return the Declarant sent for one Paul Labourdie, who came on board the next day being the Eighth, and informed him as did the other two French men, "That there were three French men of War in the Bay of Vert, viz. one of seventy, one of sixty & one of Fifty Guns, one of which ships came from old France, the other two from Canada, that they were drawing their cannon, mortars and other Necessarys of the Train of Artillery from Bay of Vert to Seckenecto,

(1) Sir CHARLES KNOWLES was an Admiral in his Majesty's navy, and also Governor of Cape Breton.—Ed.

“That they had sent orders to all the French and Indians to Rendezvous with all possible speed at Seckenecto, there to join a Thousand men they expected from Canada, when they were to make up an army of five thousand men in order to besiege Annapolis, & build a Fort opposite to Goat Island, all which was to be done with the greatest Expedition.”

The said Labourdie further added, “That he had several times read the orders from Canada for assembling the army at Seckenecto, and that the whole affair was a secret to the English at Annapolis.”

And the said Moses Bennet further Declares, That the said Labourdie & the other two French men offered to come to Boston with their Families in case the Declarant would go with his vessell to Mallagash & fetch them off, & subject themselves to any punishment in case their Intelligence should prove false.

The above written Moses Bennet further Declares that he has been for diverse years well acquainted with the three French men above mentioned who profess'd themselves well affected to the English, and he believes they are, especially the said Labourdie: & that upon this Declarants examining them apart they all agreed in their account, severally desiringe the Declarant not to acquaint the others with their giving him this Intelligence for fear of their being discovered to the Indians.

Moses Bennet.

The Petition of Ebenezer Eastman & sundry others Inhabitants of Rumford, or Pennycook, Praying for a further supply of soldiers which was read at the board & sent down to the House.

*Copy of said Petition.*

[From the original, in the hands of the editor.]

To his Excellency Benning Wentworth, Esq: Capt General & Governor of his Majesties Province of New Hampshire in New England, To the Honourable the Council & House of Representatives of s<sup>d</sup> Province — The Petition of y<sup>e</sup> subscribers inhabitants of Rumford in s<sup>d</sup> Province humbly sheweth: That we have great reason to fear a speedy attack from the enemy with a force too great to be match'd by us with what assistance we at present (thro' your Excellency's & Honours great goodness) have from y<sup>e</sup> Province — That the plain and evident tracks of a considerable number was discovered by our scout y<sup>e</sup> last week — That Guns have been heard both here and elsewhere & at Contoocook upon y<sup>e</sup> Sabbath & other times & places where it is certain no English were — That y<sup>e</sup> news of a formidable armament sent from Canada to Crown Point obtained such credits with the Government of y<sup>e</sup> Massachusetts Bay as induc'd them to provide a prodigious reinforcement to strengthen their western barrier — That such is our situation that as the rivers Hudson & Connecticut lie most exposed to incursions from Crown Point, so ours is the next, and the experience of this whole war has taught us that whenever any smart attack has been made upon any of the settlements on Connecticut river the enemy have never fail'd of sending a considerable number to visit our river — That while our ordinary business was hoice we could work in such large companies as not to be in such imminent danger of being massacred by the enemy, which now haying and English harvest comes on will be impracticable without vast detriment to the whole and utter ruin to some. We therefore beg of your Excellency & Honors to take our deplorable case into consideration & extend your compassion towards us & grant us such a further reinforcement as you may think in your great wisdom our case requires & your Petitioners shall as in duty bound ever pray.

His Excelency sent the Sec<sup>y</sup> to the House to acquaint the Speaker & House that he required their attendance in the Council Chamber—the Speaker & House came up accordingly and were admitted. His Excelency then made a Speech to Both Houses as follows: viz.

*Gentlemen of the Council and of the Assembly,*

Not having any Imediate comands from his Maj<sup>ty</sup> to Lay before you, I am hoping your whole attention will be Employ'd to give Dispatch to such affairs as appear to be of the greatest moment to the Government.

*Gentlemen of the Assembly*

[p. 515.] You are all sensible That his Majesty has recommended that my salary should be fixed & Paid in Sterling or Proclamation money, and the reason given for this, is, that the sum settled for my support should not be lyable to the least variation by the uncertain value of paper currency, and you are as sensible that I have not fail'd of sending Down message after message Desiring amongst other things that a grant might be made to making good such Deficiencys of my sallary as are in arrears but the Treatment my messages have met with has Determined me for some time past not to make another fruitless attempt at the Publick Expence, but to lay my case before his Majesty, relying that he will be graciously Pleased in consideration of my faithfull services to condescend to relieve me from my Present oppression.

I am concerned for the occasion, and altho' my good offices since my accession to the Governm<sup>t</sup> have not met with a more Grateful return, yet when they are Impartially considered & compared with the times that are Passed they will appear as great as could be wished for & greater than could be expected.

Governour Shirley's & Governour Knowles Letter in consequence of his Grace the Duke of New Castle's comands to those gentlemen to Transmit to his Grace all acct<sup>s</sup> & charges (when they received them from the respective Governours concerned therein) Incurred by the late Intended Expedition against Canada was laid before the House in due Time, and to give the Committee full Leisure to prepare these accounts I tho't fit to Prorogue the General Assembly to this Day hoping then to receive them properly authenticated & vouched, to send forward in obedience to the Kings comand, & it will be necessary for me to have triplicates of all accounts & vouchers, also Triplicates of all acts & votes in General Assembly relative to the Expedition.

It is your Duty & will be your Honour to Discharge all your Publick Engagements and to Perfect every Transaction you have undertaken before this session expires, That nothing of consequence may be left to the adjustment of your successors Particularly I recomend the adjustment of the Treasurer's acc<sup>ts</sup> & the supply of the Treasury That the grants you have made for the Defence of the frontiers may be Discharged in due time that his Maj<sup>ty's</sup> service may not suffer.

[p. 516.] The Intelligence I had of a considerable body of Indians Passing on rafts over Contoocook river & that a number of cattle had been killed in that neighborhood induced me, for the safety of the kings subjects in that Quarter, to reinforce the Garrison at Contoocook & Canterbury with ten men each for one month, which his Majesties Council advised to. If you approve of this reinforcement's being continued in s<sup>d</sup> service I shall retain them otherwise I shall order their Dismission when the month ends.

There has been a general uneasiness in the Troops posted on the frontiers for want of their Provision of rum, & if it is the practice of the Mass<sup>a</sup> to Deliver out rum to the forces in their Pay, the uneasiness will increase if the Troops in the pay of this Governm<sup>t</sup> are not put upon the same footing.

The Prospect my officers had of Enlisting the full Number of men for the service of the frontiers on their first setting out & the Disappointments they met with in not compleating their Levies occasioned by a better Encouragement given by the Mass<sup>a</sup> into which service a number of men on the Western frontiers have Enlisted made it later than I Intended before the Posts were made up, & the Troops now consists partly of Imprest men, those that are Impressed are in general to be relieved monthly which creates a heavy charge on the regim<sup>t</sup> they belong to & brings an unequal & grievous Tax on the lower rank of People so that I recomend it as a matter worthy your consideration to concert measures more equal & less burthensome for the future to the People subjected to Impresses for this service.

The difficulty there was in providing Arms for the Troops in the Louisbourg Expedition prevailed on me to send the arms out of his Maj<sup>ty's</sup> Fort Wm & Mary for which there was no charge made, some have been return'd and I shall direct Coll. Moore to Present a List of what have not been returned in order to their being replaced.

*Gentlemen of the Council & Assembly,*

Your Publick Concerns in this Session will admit of no Delay, but require [p. 517.] your closest application & in order to give the quickest Dispatch to what lyes before you I am hoping you will unite & make it your universal care to remove every Impediment to the Progress of business. Then unreasonable cloggs let them be never so artfully cloathed will cease to take place & you may confidently hope for the Divine blessing on your Honest Endeavours for the Publick good.

### NOTE BY THE EDITOR.

[At the time when the following Addresses to the King were written the government of New Hampshire was in a very distracted state — particularly with regard to Governor Belcher, who had a strong party in his favour, but a stronger one against him. The two Petitions or Memorials which follow, were evidently written by persons in Mr. Belcher's interest; but Mr. Thomson's petition discloses the ground of opposition to him.]

### *Petition to the King.*

[Copied from MS. "Addresses to the King" in Secretary's office, pp. 16-33.]

*To the King's most Excellent Majesty.*

The Memorial of the major part of your Majesty's Council for the Province of  
New Hampshire in New England.

*Most Gracious Sovereign*

WE, your Majesty's most Loyall & Dutifull subjects humbly implore your gracious permission to lay before your Majesty both our gratefull and dutifull acknowledgment of your Majesty's Royal Grace and Favour, of which we have long felt the happy effects; and some of our publick grievances the weight of which greatly oppress us and tend much to interrupt our attention to the many invaluable Blessings we enjoy under your Majesty's most clement and auspicious Reign: To alleviate which burden we most earnestly beseech the Royal Interposition and that your Majesty would vouchsafe your gracious aid.

The long experience that all your Majesty's subjects have had of your tender regard to their happiness and readiness to hear and remove the ground of their complaints and which we of this Province notwithstanding our diminutive figure among your Majesty's Dominions, and remoteness from the Royal Presence have had reiterated Instances of gives us undoubted hopes of being patiently heard while we discover the source of our present grievances, and seasonably relieved in the way that Royal Wisdom and goodness shall direct.

*May it please your Majesty,*

When his Excellency Governour Belcher first arrived here he communicated to the Council and Representatives your Majestys Royal Instruction for chusing Commissioners for settling the boundaries between this Province and the Massachusetts Bay, in consequence whereof a choice was made and committees were appointed on both to settle Preliminaries, but the attempt proving ineffectual, a small discontented party here (and what government has not some such) a few of the Council and some of the Representatives laid hold of y<sup>r</sup> opportunity and because the Governments did not agree gave out, that they would undertake to have the boundaries settled at home if the Province had an agent there without any Expence to the Government till the matter should be effected.

Upon which plausible pretence, two or three designing and seven or eight undiscerning persons of the Representatives chose Mr. Rindge Agent and sent their vote to the Council for concurrence, who well knowing Discontent arising from ambition of being at the head of the administration was at the bottom and plainly perceiving the pretence of getting the line settled was nothing but a colour of obtaining an Agent who was to be employed in procuring a new Governour, since your Majestys present Governour was not so obliging to the Male-contents as to fill the best post in the government with them, utterly disagreed with the said vote apprehending the scheme as it then stood to tend vastly to the hurt if not to the utter undoing of the government, since which there has been for the most part a misunderstanding between the Council and Assembly about settling the line as the Representatives call it, but in reality about obtaining another Governour.

Agreeable to which conjecture of your Majestys Council concerning the aforesaid Scheme (tho' speciously glossed and colour'd with the pretence of getting the Boundaries of the Province settled to amuse the People) We understand that several Petitions have been presented to have this Province put under a Governor distinct from that of the Massachusetts and have so far prevailed that the Right Hon<sup>ble</sup> the Lords for Trade and Plantations have reported that it would be for your Majestys service and the good of the Colony that it should be so; which Report (with great deference to their Lordships superior understanding) we humbly conceive to be grounded on a mistake of the true state of the case.

For in case of a War with the French and Indians without the assistance and protection of the Massachusetts the Province of New Hampshire would be inevitably depopulated and swallowed up. For proof of which we need look no farther back than Queen Anne's War in which the Indians alone would have done the busyness, had not the Government of the Massachusetts spread their wings and covered and saved us; and even in the Wars which we had with the Indians in his late Majestys Reign the standing army and companies of volunteer souldiers from the Massachusetts which were always in pursuit of the Enemy, were as Walls & Bulwarks round New Hamp<sup>t</sup> and this is much more likely to happen if a distinct Governor should be appointed, than as the case is at present. In a word we may justly venture to affirm upon the most rational grounds and the best view of past times, that had it not been for your Majestys Province of the Mass<sup>a</sup> Bay there would not at this day been a New Hamp<sup>t</sup> in the number of the British Colonies.

We beg your Majestys favour further to observe how intirely groundless and even malevolent that suggestion in the late Petition for a distinct Gov<sup>t</sup> over New Hamp<sup>t</sup> is that this Government is under a great disadvantage and suffers much by being under a Governor who is a native of the Mass<sup>a</sup> and who has the Government of that Province also at the same time by his having a favour and partiality to that in prejudice of this, &c. There have been two publick Ratifications of the Peace with the Indians since your Majesty's present Gov<sup>t</sup> has had the charge of these Governments, the one at Falmouth in the year 1732, the other at Northfield in the year 1735, places near two hundred and fifty miles distant from each other, in both which New Hamp<sup>t</sup> has been represented and included by virtue of his Excellencys being the Governor of that Province as well as that of the Massachusetts and has hereby reaped and enjoyed the sweet fruits of a continued Peace without a farthing charge to the

Government for purchase, and at sundry times since the year 1736, the Indian Sachems or Chiefs have made visits to the Province of the Massachusetts at which times they always expect and receive large presents (for whoever would keep peace with them must purchase it) and all this has been done without any charge to New Hamp<sup>r</sup> no more than if that Government had been no ways affected or benefited thereby. These things used when New Hampshire was not under the same Governor with the Mass<sup>a</sup> to be of considerable charge and Expence which has been saved to this little Province ever since Governor Belcher has had the commission.

This, *May it please your Majesty*, is far from being an Evidence of partiality in his administration to the Mass<sup>a</sup>. To this we may add that the Peace settled by that Government with the Indians is on such a foundation that it makes them fond of it; or else it would not have lasted so long, for by the Trade established with them they are supply'd with what they buy at the prime cost, without a farthing advance at Truck houses maintained at the charge of the Government, far in the country for their conveniency, this the Indians find to be vastly for their advantage (and nothing but what is so will secure their Friendship) since the French to whose Interest they are strongly attached cannot supply them at so cheap a rate.

Now this is a scheme which was never in the power of New Hamp<sup>r</sup> to Execute, the charge of maintaining one of those houses being near as much yearly as the annual charge of this whole Government. And had not that Government contrived and executed this Plan we believe we should never have seen nor felt the blessed effects of it which have been a long Tranquility and Quiet repose in a Quarter where we used to be most molested, and under the greatest fears and apprehensions of Danger, but what adds to the benefit is, that it has cost this Government nothing. Now all these are advantages too great to have been obtained or even expected for nothing and which indeed would have cost us Dear had it not been for that Government and the Same man & head and father to both Provinces. This is so far from being as the afores<sup>d</sup> Petition suggests, That the lesser Government will always feel the weight of the greater, that on the contrary the greater has always bore the lesser upon its shouldiers or rather nourished it like a mother in its bosom.

In fine, if we might presume to make comparisons we could say there is no Instance w<sup>thin</sup> your Majestys large Dominions of one Government supporting & nourishing another in which it has had no Interest, at its own charge in the manner that the Massachusetts has done New Hamp<sup>r</sup> which has been principally owing to their having the same Gov<sup>t</sup>.

It is true indeed there has been a long Dispute between them concerning their respective Boundaries on the dividing Line which might long ago have been ended had their not been faults on both sides but that does no ways Invalidate the truth of the aforesaid facts.

*May it Please your Majesty*, If this is the State of past facts respecting these Provinces, it is strange that any man can pretend it would be for your Majesty's service and the good of this Province to be under a distinct gov<sup>t</sup> for in that case the salary must be doubled at least for no Gentlemen that should be honoured with your Majesty's Comission for this Government and has no other support (but his private fortune) would think one hundred & Twenty pounds ster: (the salary paid your Majesty's present Governour) a sufficient allowance; and by what rules of Logick or Politics it can be made out that it is for the good of a People that can't defend themselves against their Enemies, that groan under the burden of one hundred and twenty pounds ster: a year to their Governour and by their representatives have told him once and again they were so poor they could not put themselves into a condition of Defence nor even pay their just Debts to their yearly Creditors for service done and constantly doing the Government even when many of those creditors had a dependance on that service to procure them bread, we say how it can be made out to be for their good to pay Two Hundred and Forty instead of one Hundred and Twenty pounds a year, we are at a loss to conceive; and which way t will be for your Majesty's service and honour is altogether inconceivable to

us, unless those wise and just principles by which your Majesty has always governed your subjects are to be reversed and the opposite Maxims established, (viz.) That your Majesty's Honour and service would be promoted by adding to the weight of a People already oppress'd and overladen and further impoverishing those already Poor.

This addition to a Salary is but one example among a multitude of additional charges that would accrue to this Government in case it was to be put under a distinct Governour, every Instance that we have before given of the aids received from the Mass<sup>a</sup> would give us occasion of relaxing the purse string, & if some of those cases should happen as that of a war and the neutrality of our neighbours we need not say what its likely the event would be unless your Majesty granted the necessary and timely aids.

There are many other things that might be mentioned to prove the point we are upon, but the fear of being tedious obliges us to pass them over in silence.

But from what has been said we humbly conceive it must abundantly appear to be more for your Majesty's service and for the good of this Province (which we conceive are things necessarily connected) and a considerable expence to the Crown prevented by having this and the Massachusetts Province under the same political Head and your Majesty's immediate Representatives in both Governments united in the same Person and we might justly challenge the Petitioners for a charge to shew one instance of any real disservice to your Majesty's interest here or the good of this People by such an union, Nay they are so far from being able to do that, That they cannot produce so much as an Imaginary Instance of Injury to this Prov: thereby, Except perhaps the matter of the Line, and that upon a thorough examination would appear to be only Imaginary, for it is undoubtedly true that that affair would not have been in the forwardness it is now in, nor so near an Issue had the Provinces been all along under distinct Governours.

This might easily be made out had not this Memorial already run into too great a length.

But we pass to take notice that the said Petitioners observe this Province is in a defenceless condition, and it is true. But where lies the fault? Has not your Majesty's present Governour again and again recommended that matter to the Assemblies here as the Right Honourable the Lords for Trade and Plantations in their Report to the Lords of the Privy Council take notice? Nay in the last Memorial made for a Separate Governour the Memorialists do not pretend to lay the least Imputation on this head or any other to the present Governour.

But what has been the Excuse for neglecting a thing of that Importance? The Poverty of the People.

If that has been the case how will that be helpt by a new Governour, Can it be rationally suppos'd he would enrich the Province? Indeed the Schematists here give out among the People and amuse them to make them willing for such a change that when that is Effected the People of this Province may do what they please as to making Paper money having a free Trade &c. which does not seem to promise what their Lordships intimate in their said Report That the Acts of Trade and Royal orders are better comply'd with in the other than in the Charter Government.

And here we beg your Majesty's leave only to hint a way whereby this Charter Government might be curtail'd and one Erected & Incorporated in a State of more immediate Dependance upon the Crown, and that is by exchanging all the lands lying between the River Kennebeck and St. Croix which is near two hundred Miles upon the Sea Coast (being part of the Lands comprehended within the Mass<sup>a</sup> Charter) for the Province of New Hamp<sup>t</sup> to annex that to the Mass<sup>a</sup> since it is so conveniently situated to become a part of that government and which that Province would perhaps agree to and give up all that Right to the Crown in the aforesaid Tract of Land whereby a Colony might be planted which in a little time would be of ten times the Importance to the Crown that New Hamp<sup>t</sup> is.

Upon the whole we most humbly pray your Majesty that as all the aforesaid schemes and Petition which have often needlessly addressed and troubled

your Majesty and have been the foundation of a long misunderstanding between two branches of the Government here and much impeded the public weal and have been matter of great grief to all your Majesty's Loyal and Dutiful subjects here that have considered the matter which have taken rise from meer unreasonable discontent and disaffection may be overthrown, That your Majesty will be graciously pleased to defeat the ill-designs of crafty scheming men whose restless spirit will never be quiet till they are at the top of affairs.

And in mercy and compassion to this People continue them under the Government they at present Enjoy (unless the aforesaid Exchange might be made) which is as gentle and easy as can be desired and that (so long at least as your Memorialists live) one man may be the Governor of both these Provinces.

And your Memorialists and Petitioners as in Duty bound shall ever Pray &c.

*Petition to the King.*

[Copied from MS. "Addresses to the King," p. 46.]"

*To the Kings most Excellent Majesty*

The humble Address and Memorial of sundry of your Majesty's most dutiful and loyal subjects Residents and Freeholders within your Majesty's Province of New Hamp<sup>r</sup> in New England,

Sheweth :

That we have been lately informed of an attempt made by way of Petition to your Majesty to put this Province und<sup>r</sup> another Governor distinct from that of the Mass<sup>a</sup> Bay, which created in us a surprise and no less an abhorrence of an essay so directly tending to the destruction of this your Maj<sup>ties</sup> Province of N. H. & of the Rights & Interests of your Majesty, and of your good subjects within the same: Wherefore in duty to your Maj<sup>ty</sup>, in justice to ourselves, and for the sake of your Majesty's loyal subjects the Inhabitants of this Province (who we humbly apprehend would be some of the most miserable & Distress'd persons upon earth if the above mention'd scheme take effect) We beg leave of representing to your Maj<sup>ty</sup> as follows:—That this Province is exceeding small, is in a very defenceless condition (the only Fort in it being quite gone to ruin) and the boundaries between this and the neighbouring Province not yet settled which are some of the unhappy circumstances which New Hamp<sup>r</sup> labours under: But how much more unhappy (yea deplorable) would be its condition were it under a Govern<sup>r</sup> distinct from the Mass<sup>a</sup> Bay is almost inexpressible; For now we can ask succours (in case of a war) from the common head and father of both Provinces, with hopes of success, but what prospect can we have of such favours had New Hamp<sup>r</sup> a distinct Gov<sup>r</sup> especially too if it should so happen that he was not in good terms with the Gov<sup>r</sup> of the Mass<sup>a</sup> Bay? Again, it is beyond doubt, that many more would be the mischiefs among the Borderers on the unsettled divisional Lines of the Provinces than hitherto they have ever been, were they under two several Governors. But how it is possible N. Hamp<sup>r</sup> having a separate Governor should enlarge their bounds, mend their defenceless condition or the ruinous

State of the Fort or be any advantage in time of war or in any other respect, is to us mysterious & inconceivable, whereas We humbly apprehend the contrary is plain & manifest.

*Most Gracious Sovereign*

Happy have the People of N. Hamp<sup>t</sup> been (poor and small as they are) yea thrice happy have they esteemed themselves ever since your Majesty's accession to the British Throne in being the subjects of so great and so good a king, endowed with every Royal virtue and shining accomplish<sup>t</sup> and while they were solacing themselves with pleasing reflections on your Majesty's unspotted Equity and conspicuous clemency even then were their joys enlarged by your Majesty's appointing Governor Belcher to represent your Royal Person in this Province, which your Majesty's Council & the House of Representatives at their second session after his Exceclency's publishing his Comission here, in a most dutiful and thankfull address to your Majesty, amply express'd in the following words: "We yo<sup>r</sup> Maj<sup>ty's</sup> most loyal & dutifull subjects the "Council and Representatives of your Maj<sup>ty's</sup> Province of N. H. in N. Engl<sup>d</sup> "in America, should lay ourselves open to the imputation of highest ingratitude did we not take hold of the first opportunity to place ourselves at "your Maj<sup>ty's</sup> feet in humble acknowledgm<sup>t</sup> and hearty Thanks giving for your "Royal beneficence in appointing Gov<sup>t</sup> Belcher to represent your Maj<sup>ty's</sup> Person "at the head of this Governm<sup>t</sup>, who is so equal to the trust and acceptable to "the People."

Again,—“It is inexpressible how the first intelligence we have had from “Whitehead of your Maj<sup>ty's</sup> grace and favour to N. England on that score elevated our hopes; and if we are disappointed it is in this, that his wise, just “and unbias'd administration has exceeded our expectations and equal'd our “very wishes.”

And what your Majesty's Council & the Representatives of your good People said then every man can w<sup>th</sup> truth say now, and it is what envy & malice united (not supported by falsehood) cannot contradict, yet it must be acknowledg'd there has not been that ease & serenity in the administration of Government since the Gentleman who holds the Lieutenantancy has had the Commission for it and resided amongst us, as there was wont to be before. For his claiming the Chief Comand when the Gov<sup>t</sup> has been at Boston and half the Salary, and his disobedience to the Gov<sup>s</sup> orders, together w<sup>th</sup> some other parts of his conduct which we omit mentioning (as our purpose, at present, is not to Exhibit a Compl<sup>t</sup> against him in form however justly we might do it) have been the means of some embarrassm<sup>t</sup> in the administration of Governm<sup>t</sup>, and obstructions to your Majesty's interest & to the ease and happiness of your faithful subjects here, wherefore

*May it please yr. Majesty*

With the utmost awe & reverence we would humbly beg leave to implore your Majesty's protection from the projects of any one who would invade the felicities we enjoy und<sup>r</sup> our present Gov<sup>t</sup>, and that the counsels of those who are speciously pretending the Public good, but really meaning nothing but the accomplish<sup>t</sup> of their own aspiring and ambitious aims may be confounded, That our Constitution as it now stands may be Established, our Governor whom we highly honour & Esteem long continued over us, and the obstruction of your Majesty's interest & Honour and New Hamp<sup>s</sup> happiness removed. Thus in all humility and with the profoundest veneration we crave leave to remonstrate, and thus to Pray, and are

May it Please your Majesty,  
your Maj<sup>ty's</sup> most Loyal,  
most dutifull  
most Obedient &  
most faithfull subjects &  
servants

NOTE. The Paper which follows, drawn up by John Thomlinson, Esq., will be found to be of great interest and value. It gives a more comprehensive and complete view of the whole dispute respecting the Boundary Lines, than can elsewhere be found. The attention of persons who wish to understand the subject is particularly invited to this Document.—ED.

*Petition of John Thomlinson, Esq.*

[Copied from MS. "Addresses to the King," p. 50, in Secretary's office.]

*To the King's Most Excellent Majesty in Council.*

The humble Petition of John Thomlinson, of London,  
*Sheweth*—

That your Petitioner was appointed the Agent of the (late dissolved) House of Representatives of your Majesty's loyal Province of New Hampshire in America.

That there hath been an Old Dispute of many years standing between your Majesty's Small Province of New Hampshire, and the Great Charter Government of the Massachusetts Bay about their Boundaries.

That in the year 1729, Jonathan Belcher Esq<sup>r</sup> (a native and grantee of the Massachusetts Bay) was appointed Governor over both these Provinces by two distinct Commissions from your Majesty.

And by both Setts of your Majesty's Royal Instructions to him, your Majesty was pleased to take notice that those disputes had then long subsisted, and that it was for your service that the same should be adjusted, and therefore commanded him to use his Endeavors thereto.

That very far from his Endeavoring to procure the settlement of the said Bounds, the said Province of the Massachusetts Bay (to the Inhabitants whereof in General all the Lands in that Province are granted) Presumed upon their own natural strength and upon having their own Country man Governor over both Provinces, to set up the most Extravagant Demands, and instead of claiming three miles North of the mouth of the River Merrimack, they now lay claim to Three miles north of the Head of that River up within the main Land.

The consequence whereof would be the usurpation by them, to the disherison<sup>(1)</sup> of your Majesty's Crown, of more than one half of your Majesty's own Province of New Hampshire, and of the Tract of Land about Fifty five miles in width, and in length Extending through the continent of America as far as your Majesty's other Governments.

That on the 28<sup>th</sup> of February 1732, John Rindge, Esq. of your Province of New Hampshire, most humbly Petitioned your Majesty in Council complaining of the great Encroachments and Injuries done to your Majesty's Interest and Praying your Majesty's Settlement of the said Boundaries.

That from that time to this your Majesty's loyal subjects and *Tenants*, the House of Representatives of New Hampshire have been incessantly laboring against a continued series of very Expensive Oppositions from their Powerful Neighbors of the Massachusetts Bay to have the said Boundary settled.

That the said House of Representatives have herein acted most disinterestedly to preserve your Majesty's undoubted Right in regard that tho' they should prevail not one foot of such lands belong to them, but to your Sacred Majesty; Whereas, on the other hand, the Body of the People in General in the Massachusetts Bay, claim the Property of all lands which they can any how get to be considered as within their Province.

That after many repeated Endeavours used by the said Massachusetts Bay to defeat and baffle the said Mr. Rindge, It was commanded by order in Council of the 9<sup>th</sup> day of February 1736, that a Commission should Issue under the great Seal to Commissioners to settle the said Boundaries, that those Commissioners should be directed to hold their first meeting on the first of August 1737, that in case each of the Provinces should not lay before the Com-

(1) The act of disheriting.—*Web.*

missioners (at their first meeting) the names of two Public officers appointed by them, and likewise a full state of their claims in writing, the Commissioners should proceed *Ex parte*, and that when the Commissioners should have made their determination they should appoint a future day to receive the appeals of either Province, but if either Province should not at that appointed day file their Appeal or Exceptions before the Commissioners, that then no Exceptions should be afterwards received or admitted.

And to the End your Majesty's gracious purpose might not be frustrated, the said Order in Council contained further Directions that the Lord's Commissioners for Trade should write to the Governour of the Massachusetts Bay and New Hampshire for him to recommend to the respective Council and Assemblys of the said Provinces to appoint the two Public officers and send their names to the Commissioners at their first meeting, together with the full state of their demands, and that he should acquaint them that in case of their Omission so to do the Commissioners were to proceed *ex parte*.

That accordingly on the Eighteenth of Feby 1736, the Lords Commissioners for Trade did write to the said Governour Belcher Requiring him to take particular Care without any Delay to carry every part of the said Order so far as the same might lye in his Power into Execution, and the said Lords Commissioners inclosed the said order therein, and the said Governour received the said Order and Letter on the Twenty second of April 1737, and by his answer thereto owned the Receipt thereof accordingly and promised to pay a strict obedience thereto.

And the Commission afterwards issued on the Ninth of April 1737 directed to the Commissioners appointed by your Majesty, and the Commissioners accordingly held their first meeting on the said first of August 1737.

That the said Governour Belcher had received Information of the said Order in Council before the first day of April 1737, (tho' he did not receive that, and the Lords of Trade's Letter in form until the Twenty second of the same April) and resolved from the beginning at all Events to disobey the said order in Council, and to defeat your Majesty's said Commission and to prejudice your Majesty's service and your Rights in New Hampshire, and as the Council and Assembly of that Province could not possibly be held in New Hampshire (without his Permission) nor could not possibly choose and appoint their two officers, or deliver in the names of such officers or make up and deliver a state of their claims to the Commissioners on the first of August (unless they were suffered to meet before that first of August) so the said Governour on the first of April 1737 prorogued the New Hampshire Assembly to the sixth of July: Upon the said Sixth of July, he by a Proclamation dated at Boston about the Twentieth of June again prorogued them to the Fourth of August (three days after the Commissioners first meeting was fixed and appointed by your Royal Commission) and as if this had not been enough, on the Fourth of August the said Assembly was yet again prorogued to the Tenth of the same August (nine days after the Commissioners first meeting) without being permitted to meet or set one moment in all that Time.

That the said Governour Belcher behaved exactly the reverse in all points with regard to his own native Province, the Charter Government of the Massachusetts Bay, where he not only permitted the Assembly to meet and set, long and often between the Twenty second of April and First of August, but by his repeated Messages to them from time to time prest them most earnestly to prepare for their Defence, and the said Governour after he had printed in the *Boston Gazette* his Proclamation whereby he had prorogued the New Hampshire Assembly over to the Fourth of August, sent a Message to the Massachusetts Assembly for Money, but they refused to consider the same at that time as thinking the said Governour had not yet done them service enough.

That this partial and arbitrary Behaviour of the Governour's did not produce the whole of its desired effect, for the Commissioners met on the first of August and your Majesty's Assembly of New Hampshire did all that men could possibly do, in their situation, and a Committee having formerly been appointed by that Assembly, that Irregular Committee named Two Public officers for New Hampshire and Exhibited a claim in due time, upon the said

first of August to the Commissioners and took the utmost care they could to support your Majesty's Right; and your Majesty's Commissioners seeing how your Majesty's Order and Commission had been treated, were so just to receive and proceed upon such claim on the Part of New Hampshire.

That on the tenth of August and some few days after, while the Commissioners were proceeding the said Governour Belcher permitted the New Hampshire Assembly to meet, and on the second of September 1737, the Commissioners pronounced their long and special determination consisting of several different points and on that day the Commissioners adjourned to the 14 of October, then next in order to receive the appeals of either Province.

That it then became as necessary as ever that the Assembly should set to get a Copy of the Commissioners Judgment and to consider the same and prepare and settle their appeal, which by your Majesty's order and commission was to be presented on the 14<sup>th</sup> of October or else was never afterwards to be received.

That the Said Governour kept his own Massachusetts Assembly setting for many days after the said second of September, until they did get and consider a copy of the Commissioners Judgment and until such time, as they sent to him and acquainted him they had finished all their Business and desired to be adjourned, then and not till then he adjourned them to meet at Salisbury (close by where the Commissioners were to meet) on the 12<sup>th</sup> of October, two days before the Commissioners were to meet.

But with respect to New Hampshire, the said Governor Belcher on that very second of September prorogued their Assembly before such time as they knew or had heard even so much as the General Purport of the Commissioners Determination, to the 13<sup>th</sup> of October, the day next immediately preceding that on which (if ever) the appeal must be presented on the part of New Hampshire.

And when the Day came, lest the Province of New Hampshire should still be capable by their diligence (of which he had seen most unwearied Instances in the long course of this affair) to present any appeal at all (which appeal was directed by your Majesty to be made by the Province) he took care that the Council of New Hampshire should not meet in Assembly until the 17<sup>th</sup> of October (three Days after the time of appealing was over) so to make it impossible for the Province, (if that word intendid the Governour, Council and Assembly) to appeal at all, and he himself kept out of the Province of New Hampshire until after the time for appealing was over.

That this unjust Scheme of the Governours also your Majesty's House of Representatives of New Hampshire prevented from taking place, for they and they alone after waiting to the last moment of time for presenting an appeal, presented their own vote of Appeal to the Commissioners, which the Commissioners in great Justice received and have Returned to your Majesty.

That on the said 14<sup>th</sup> of October the said Governour joined with the Council and Assembly of his own Charter Province and made up their Appeal in form and the very hour that he had so done and had also made it impossible for New Hampshire so to appeal he then renewed the Request to his Massachusetts Assembly for money who a very few days afterwards Voted him Bills of the new Tenor for Three Hundred thirty three pounds six shillings and eight pence (Equal to Bills for one Thousand Pounds of the Old Tenor) for his late Extraordinary service to that Province:—

Which was part of the Price and Reward which the said Governour took for his studied Breach of your Majesty's Instructions, Order in Council, and Commission under the Great Seal; and in hopes of which Reward he took such Extraordinary methods to injure your Majesty's Right and to Encroach so vast a Quantity of your Majesty's Lands to himself and the other Grantees of his Charter Government.

That the said House of Representatives of New Hampshire appointed your Petitioner their Agent and on the 6<sup>th</sup> of September 1737, your Petitioner Presented an humble Petition of Appeal to your Majesty in Council, stating these matters, and your Majesty was then pleased to refer the same to the Lords of the Committee of your Majesty's Privy Council before whom it now depends.

That the Appeal from Massachusetts was not presented until the 18<sup>th</sup> of July and was referr'd on the 20<sup>th</sup> of July 1738, to the same Committee.

That all Endeavours have been used by the Massachusetts Bay to delay your Petitioner's said appeal being heard, and to prevent its being at all heard, and for that purpose about the 9<sup>th</sup> of October 1738, Francis Wilks and Richard Partridge of London, Merchants, (as Agents for the said Governour and the Council and assembly of the Massachusetts Bay) Presented a Petition to your Majesty Praying that your Petitioners said Petition, which came on the part only of the House of Representatives of New Hampshire, might be dismiss'd, which last Petition your Majesty on the 12<sup>th</sup> of October 1738, Referr'd to the same Committee.

That as the last Petition was calculated for Delay and Obstruction your Petitioner himself immediately applied and brought the same on to a hearing, and by your Majesty's order in Council of the 30<sup>th</sup> of November 1738, the said Petition from the said Francis Wilkes and Richard Partridge was dismiss'd.

And so the said Appeals stand at this time before your Majesty in Council.

That on the same 6<sup>th</sup> of February 1737, your Petitioners also humbly presented to your Majesty in Council an Humble Petition of Complaint from the said House of Representatives of New Hampshire (as drawn up by themselves in that Province) complaining of a long and continued series of oppressions, born by them from the said Governour Belcher, and complaining (amongst other things) of his said Partial and arbitrary Behaviour and Prorogations of them in the said affair of the Boundaries; which Petition your Majesty on the same day was pleas'd also to refer to the Lords of the Committee of your Privy Council.

And their Lordships by order of the 7<sup>th</sup> of the same February Required the said Governours Answer thereto, with all convenient speed; which order was serv'd upon the said Governour the 21<sup>st</sup> of April, 1738. But his answer thereto was not Returned into your Majesty's Council office until the 21<sup>st</sup> of October following, Nor was it then brought in until after your Petitioner had given written notices to the said Governour's Son and other agents of an Intended Complaint to the Lords of the Committee, for the withholding the same.

That in said Governour's Answer he has in most explicit terms admitted his Proroguing the New Hampshire Assembly in the manner and at the several times herein before set forth.

But the said Governour having avoided authenticating copy's of the Minutes, Journals and Proceedings of the Governour, Council and Assembly of New Hampshire (which the said Representatives had caused to be drawn out in order to support other parts of that complaint) and the said Governour not having sent home such Minutes, Journals and Proceeding to the Lords of Trade (as by your Majesty's Instructions he was commanded to do) your Petitioner on the 9<sup>th</sup> of December 1738, mov'd and obtained an order from the Lords of the Committee of your Majesty's Privy Council that the said Representatives or their Agent, should be permitted to search and take copy's of such Minutes and Proceedings and that the same should be authenticated under the seal of the said Province: Which order your Petitioner forwarded to New Hampshire the very same night that it was made and the same in all likelihood is about this time arriv'd there.

And so the said matter of Complaint stands at this Time before your Majesty in Council.

That while the said several matters of Appeal and of Complaint are thus depending before your Majesty in Council for your Royal Justice and Relief therein, and after all other methods have been try'd by the said Governour to defeat the same, your Petitioner has (but two days since) received the most undoubted accounts that the said Governour Belcher has exceeded all his former Instances of Behaviour and has on the 17<sup>th</sup> day of November 1738, Dissolv'd the Assembly of New Hampshire.

That the said Governour by this last Act has (as far as lay in his Power) depriv'd the said House of Representatives of New Hampshire of the fruit of

their long and earnest Labours and above Eleven Hundred Pounds sterling Expense (here in London alone) to bring about your Majesty's Desired Ends of settling the said Boundaries deprived them at present from bringing on the said depending complaints, and hopes that the Province of the Massachusetts Bay (whereof himself is a native) shall now have a full and unmolested opportunity to make their great and desired Encroachment upon so vast a Territory of your Majesty's, and to elude and escape the Justice of your Majesty in Council.

That your Petitioner is not aware that any Governour of your Majesty's hath ever before acted in so very Extraordinary a manner.

And, Forasmuch as your Majesty's faithful subjects and *Tenants* of New Hampshire have been incessantly labouring by the utmost means in their Power to support your Majesty's Right and Interest there, but are wholly unable to support the same or themselves against these unwarranted oppositions from your Majesty's immediate servant the said Governour Belcher, whose attachment to his own native and great Province of the Massachusetts leads him to committ these several arbitrary Proceedings and very many others too prolix to mention, to defeat them in such their faithful Endeavours.

Your Petitioner as the agent of the said late House of Representatives of New Hampshire and by their order, and for and in behalf of the most principal Inhabitants there, members of several late Assemblies and of others of your Majesty's Loyal subjects of that Province and also in his own Right as being very greatly concerned in the Trade, Navigation and Prosperity of the said Province, Most Humbly Beseecheth your Majesty that he may not be defeated in the Prosecution of the said Appeal and Complaint, And that your Majesty's Loyal subjects there may be immediately freed from being any longer under the most oppressive Government of the said Jonathan Belcher, And may be put under the command of a separate Governour (and not under the said Governour as the Massachusetts Bay) and may have all such other Relief as to your Majesty's great Justice and Wisdom shall seem meet.

And your Petitioner  
as in the utmost Duty bound  
shall ever Pray, &c.

Indorsed "Thomlinsons Petition" about 1739.

[This is a very valuable Paper.]—ED.

The Papers which follow, of Mr. Thomlinson, are a part of his correspondence with Theodore Atkinson, Esq., or other gentlemen of the New Hampshire Province. They are all of much value. Mr. Thomlinson's correspondence was extensive, and all show his earnest, persevering and successful agency in behalf of New Hampshire. His letters are too numerous to be all published in these volumes. They are preserved in MS. volume in the N. H. Hist. Soc., Concord, labelled "Belknap Papers."—ED.

[P. 103.]

London 14 July 1741.

Sir—

I wrote you yesterday and these are to acquaint you and the other gentlemen of your Province that the inclosed Petitions of Mr. Thomas Hutchinson and others were referred by his Majesty in Council to a Committee of Council and by them referr'd to the Board of Trade. The Lords of Trade sent for me & a Day was appointed to Enquire into the affair and notwithstanding we had no directions or indeed any Instructions from your Province ab<sup>t</sup> it, or any thing to offer but what appeared upon y<sup>e</sup> face of the Petitions, The Lords reported upon it as you see by the copy of their Lordships report which I

have here inclosed you, which report we were in hopes the Lords of his Majesty's Privy Council would have considered last night, but now Mr. Hutchinson wanted time to procure some other proofs to make good the several allegations of those petitions, and must have time as there will be no more Committees until October, and then he will be heard by his Council against the report, but then he must enter into security to pay such cost as their Lordships shall please to impose on him; so as the case stands I thought it might not be improper not only to acquaint you of the affair, But also to send you the copy of those Petitions, & some observations (1) I made upon them when I was sent for to the Board of Trade, founded on some conversation I had mett with & from the Petitions themselves, and they may be a means to put you in mind of sending us something more explicit on those particulars, & others that may not so readily occur to us here.

The proofs that they Want are Chiefly how the dividing Line will intersect the last class of old Townships, and *their prejudice they will sustain thereby*, & an authenticated plan of the scituation and Boundary of all the Townships but more especially those old Towns.

Wherefore it might be very proper that you immedately send me also, a good and as correct and as well an attested Plan as you can get of all those Petitioning Townships, and let it be as large as possible and particularly expressive of all the old class of Townships, and also good proofs how the Boundaries of those old Townships have varied from their original Grants, and are still precarious & uncertain, &c. &c. Above all, make it as plain to us as you possibly can that the dividing Line running thro' those Townships can't be of the *least disadvantage or prejudice to the petitioners who shall fall in your Province*, and that nothing but such Boundaries as his Majesty has fixt, *can ever put an end to the contentions between the two Provinces*.

It will also be proper that you let me have as exact an account as you can of the particular times those petitioning Townships were granted, and how many of those very Townships, and also how many more new Townships that are not petitioners have been granted within your Province by the Massachusetts Bay, since the affair of the Boundaries was laid before his Majesty in Council first by Mr. Rindge, and how & to whom they were granted, and how far the proprietors have proceeded in settling those several Townships.

I should also be glad to know for what reason your Assembly in the year 1728 *desired to be annexed to the Province of the Massachusetts Bay*, & I should likewise be glad to know from you what number of Indians you may suppose you can at any time apprehend any Danger from, and w<sup>th</sup> Distance they are from you, I would have you & your Friends once for all, Exert yourselves a little to send me with all speed all those and any further particulars you may conceive needfull upon the perusal of those Petitions, & let the principal things be as well authenticated as possible, and as to the Plan, &c. If you can do no better, you & Mr. Mitchell must certify as Surveyor of his Majesties Wood & Lands in America, to be to the best of your Judgment a true [Plan] &c. &c. Get some others of the best rank to do so likewise, and let me insist that you do every thing you can in this affair, and it is expected here that you should do it.

But I would not have you conclude from my pressing you for those things so particularly y<sup>t</sup> I have so much as *one Doubt about me, that those petitioners will succeed* in any the least Instance. I know they will not. But however don't let us faint at the Last, but let us have materials enough not only to finish this affair, but to finish it in such a manner as to load our adversaries with such censure & reproach as they can never be able in future to attempt any thing in prejudice to New Hampshire.

I have found in the Massachusetts votes of 1735 at least 25 Townships granted in your Province all in one day, & in some other votes of the year 1738 & 1739 some other Townships, but I have not any year compleat votes, and not many of any years & none of some years, but you will be able on your side the water to have them compleat for some years past, and collect

(1) See next article.—ED.

from thence the grants of those several Townships, and I should also be glad to have a copy of the original grant of Haverill, & the class of old Towns. But more particularly Haverill, and I have at present, a Notion, however I came by it, That since the affair of the Boundaries came before his Majesty in Council, the Province of the Massachusetts Bay has granted away 60 or 70 new Townships in your Province, but that you will be able to find from their votes or some other ways, it might not be impossible by some means or other for you to find from some of those several petitioners how & by whom they were instigated to become petitioners, and know the Reason that induced them thereto, & that I should think might be made good use of; however I must leave that and every thing else to your prudence & diligence, and must hope you will not Neglect to do every thing in your power to drive the Enemy into their strong hold, so as never to dare to sally out again, you may depend on it they will find no Quarters here from

Sir, your most hum<sup>l</sup> serv<sup>t</sup>

[Mr. Atkinson?]

John Thomlinson.

P. S. It may be that the change of Government that has happened in both Provinces may have chang'd the sentiments of some or most of those Petitioners, if so it may be they may be willing to become petitioners to be under your Government rather than the other, or at least disclaim what they have done. If so get such Petitions, &c.

---

[P. 104.] *Thomlinson's observations referred to in his Letter of July 14, 1741.*

A Difference arose between the Council and Assembly of the Massachusetts Bay, whether they should send home Mr. Hutchinson or Mr. Wm. Dudley on this very affair; at last for some good Reasons, Mr. Hutchinson was thought the most proper person. But then Mr. Thomas Cushing one of the members of the House of Representatives upon considering whether or No it might be so far proper for the Government to appear *openly as principalls* in the affair and it was thought most adviseable to prevail on several inhabitants of those Towns that are settled, and the proprietors of the other Townships lately granted to become Petitioners, and in order thereto Joseph Blanchard Esq. a member of the Assembly was sent to the Towns y<sup>t</sup> are settled to *procure Town meetings to be call'd*, and to Entice those people to become petitioners, and to *depute Mr. Hutchinson*, Another of the Massachusetts Assembly, to come over and prosecute the affair here & in order to which he has received £300 of y<sup>e</sup> Publick money (1).

This, I think we can make appear as plainly as anything of so private a nature can be made to appear; Especially if it were not out of great tenderness to some particular persons who live in the Massachusetts Government, who cannot appear in this affair without prejudicing themselves. But the facts are so notoriously known, that I think they can hardly be denied. But if it should be desired there will be several (very likely) on the spot that knows the thing; besides it most plainly appears to be so upon looking over the several petitions and observing how they are signed & attested by Jos. Blanchard & others, sometimes in the capacity of Clerks, at other times as Justice of the Peace, &c.

But, however, the petitions themselves are full of false facts, false Geography, false reasoning, and apparently calculated to impose upon his Majesty in Council & upon the Lords Commissioners for Trade & Plantations, and to make an infraction in those Boundaries which his Majesty in Council has settled in so solemn a manner after nine years troublesome *Legitation*: And

(1) In the margin — "C. Kilby, Esq.; B. Wentworth, S. Waldo, J. Barnard, B. Pollard's Letters" are referred to as authority for the above statements.—ED.

then the consequence must be, instead of having one Line to settle between the Two Provinces as was the case, there must be an infinite Number of Lines that can never be settled, for the Lines or Boundary's of every one of those Townships are & will be as uncertain & precarious as the principal Boundary was (1), as is very plain: From the Boundary between the Townships of Haverhill, Kingston & Londonderry, more difficultys, Quarrels, Contentions & Lawsuits have been occasioned thereby and still subsists, and will subsist until the Boundary Line between the Two Provinces is actually seen, than ever were occasion'd upon any other disputed Boundary. But when his Majesties late most gracious determination is carried into Execution all those disputes, Difficulties & Contentions must absolutely cease and the Peace and tranquillity of Both Provinces be put upon a solid & lasting foundation and which the Province of the Massachusetts Bay so well knows, that they have made this attempt to make such an infraction and Breach therein as can never be heal'd or made up, and must End in the total destruction of his Majesties Province of New Hampshire.

After having premis'd thus much I will Beg leave to make a few General observations on the Petition.

And, first, on the introductory Petition sign'd by Thomas Hutchinson:

In the first place, it is said that the General Court of the Province *Several years since*, for great & Weighty Reasons, But more particularly to strengthen and secure their Frontiers &c granted out Thirteen Townships to be Laid out in two contiguous Lines reaching from Merrimack to Connecticut River.

Now by their *Several years since*, I suppose they would by no means have his Majesty to understand the Truth of the Matter, viz. That these Towns have been granted within these very few years, Even since the affair of the Boundary between the two Provinces were brought before his Majesty in Council for his royal determination, and therefore is it very Easy to Judge the General Courts great and Weighty Reasons for making those grants was, that they might have an after game to play, after his Majesty should have settled those Boundaries and concluded those Lands to be 30 or 40 Miles distant from any part of their Province, and which the General Court And every unprejudiced Man in both Provinces knew must be the case.

The Petitioner goes on in the next paragraph of his petition and says, Those lands were always understood to belong to the Province of the Massachusetts Bay, When at the same time they knew they were always claimed by the Province of *New Hampshire*, and that Province *sent regularly to forbid them to make any such settlement* (2), but they trusting in their superior Power & strength would proceed, and those lands could never be supposed to belong to the Province of the Massachusetts Bay by any but such as believ'd that the Province of the Massachusetts Bay was able by their superior Power or Riches to make what Encroachments they pleased.

And as to their other pretension that those Towns were granted to be a Barrier, from their very situation, That appears so ridiculous that it is not worth notice.

And then in the next Breath they say that the Massachusetts Bay did and will defend them, But New Hampshire is not able and also too remote, when it is very plain upon the face of the Plann that those grants are in the very heart of New Hampshire (3), and not only so, but New Hampshire is very capable of Protecting and Defending them at Present, and will be more & more so, Neither is there the least danger from the Indians or has there been for several years past, and should We have a Rupture with the French will it be against one Province more than Another, But must not All our American Colonies joyne in their mutual Defence.

The next paragraph I shall answer by asking only whether these settlers will be at a greater distance from their Relations & Friends by being concluded to belong to the Province of New Hampshire than the Massachusetts

Bay, and must Defie them to show one Inconvenience that will attend them, while we can show several advantages.

In the next Paragraph the Petitioner comes to another class of Petitions that says their Townships have been granted many years since. But it will appear they say so with equal Truth as the former class says several years since, and w<sup>t</sup> they farther say being of a piece with what the former class has said, I shall not farther observe thereon.

Therefore I come now to the Third & Last of old Towns, which they say are Frontier Towns against the Enemy, and they say the Boundary Line will split the Parishes & Religious Societys to the utter subversion & Ruin of the said Parishes & Religious Societys.

As to their being Frontier Towns it will appear so scandalously false on the face of the Plan, that nothing ought to be said on that head. As to the other terrible consequences they would be understood to apprehend there can be no other Inconvenience attending it than the large Parishes in England that lies in two or three Counties suffer, which is not any at all that I know of, for these Townships are not merely Towns but Tracts of land much larger than any of our Large Parishes, over some 10 miles square and have only here & there a straggling settlement.

Therefore I think upon the whole this application must appear to be a most weak but wicked attempt of the unruly Province of the Massachusetts Bay to sap that Foundation which his Majesty in his great Wisdom had laid and fixt, and must be the only means of Establishing the lasting Tranquillity and happiness of both those Provinces, and should ever the least deviation be made from it, it might prove of the utmost bad consequence; But as I have before said, were any thing pray'd for in those petitions to be granted it would destroy every hope of future Peace, that his Majesty's Province of New Hampshire could suggest to themselves, for already the Boundary's of the single Township of Haverhill, as I said has occasioned more disputes than is possible to imagine, and that would be the case with all the other towns.

And besides all this, all those Towns, and a great part of the other New Grants are within the proprietors claim, and therefore can by no means belong to the Charter government of the Province of the Massachusetts Bay. Neither can or will the *Proprietor* (1) consent to be under any Government but that of New Hampshire, Nor can those few misled Petitioners shew any one real Inconvenience that can arise to them by being under the Government of New Hampshire, rather than under the Government of the Massachusetts Bay, but the Contrary might fully be shewn.

And should the least Encouragement be given to applications of this sort, upon the least disgust Every little Town in his Majesties North American Dominions might be spirited up to become Petitioners to his Majesty, to put them under this or that Province, and they are generally so infatuated all over North America with the false charms of Charter governments, that every Body would be Easily prevail'd upon to pray his Majesty to put them under some of his Majesty's Charter Governments.

Sir—

Since mine to you of the 10<sup>th</sup> of April *Mr. Shirley has been appointed Governor of the Massachusetts Bay, and Mr. Wentworth Gov'r of your Province.* Mr. Shirleys Commission is made out, and Mr. Wentworth's now making out, and on Tuesday next the alteration in his Commission will be settled, so as to take in the new Bounds of your Province as determined by his Majesty in Council, and then I shall go upon settling his Instructions being to have a

Copy delivered us for our perusal. And now, Sir, as he has been here at great expense, and *his Commission &c. will cost* more than £300 ster. and it may be he may have some difficulty with one or two of his smallest Crs. altho I have done every thing in my power for him, and will continue to do so, yet at this criticall time, (I think) upon which the welfare of himself & Family and indeed the welfare of the Province may in some measure depend, That you and all his Brothers should immediately resolve and conclude upon doing every one something for him, that he may not now be delay'd or put under any difficulties, and that you should do it directly, and give him or me full and proper directions about it, by two or three of the very first conveyances after this comes to hand. As for my part, I will do as much as any of you shall. If I find that his Friends are willing to do their part whose duty it more especially is, and I am indeed surpris'd that I have not had the least conditional orders, either from yourself or Samuel or Mark Wentworth or any of his Friends, altho' you must know that if he did succeed (as he has now done) he must have occasion for a good deal of money, and after I have said all this, to you, sir, with a design you may communicate it directly & properly to his Friends, I would not have it understood that I would insinuate, that whatever you or they shall do for him on this extraordinary occasion, will be done without hopes of being repay'd, — no sir, *I have good hopes of having something more done for him that will put him into a capacity soon to discharge all obligations* of this sort, as well as all his other incumbrances, *and what it is, I hope soon to have the pleasure of communicating to you and his Friends,* now this point is over. But in the mean time you ought not to delay a moment doing what I advise you, & what I cannot help thinking what is absolutely incumbent on his friends to do, and on which so much depends, and let me hope and believe you will do most readily & cheerfully and thereby discharge your duty to a most worthy Friend and oblige

London, 15<sup>th</sup> May 1741.

Andrew Wiggim, Esq.

Dear Sir,—

Give me now leave heartily to congratulate you on his Majesty's appointment of Mr. Shirley to the governm<sup>t</sup> of the Massachusetts Bay, and Mr. Wentworth to your government. Mr. Shirley's Commission is already made out and Mr. Wentworth's Commission had also been made out by this time only there is to be an alteration in his Commission, that is, to describe the Boundaries of your Province, as his Majesty in Council has lately determined, which alteration I settled yesterday with the Lords Commissioners for Trade & Plantations, and his Commission is going on as fast as possible through the several officers, and I hope will soon be with you, and that there will be an Emulation amongst all of you, who shall contribute most to the General Welfare of the Province, and that you will all of you, as much as lies in you, live in peace and charity with one another, forgiving those that have differ'd from you, and thereby reconciling all partys so as cheerfully to pursue those things that are best for the Interest of his Majesty, the Interest of the Province & the particular Interest of every individual amongst you; such prudent

conduct will not only redound to the greatest advantage to yourselves, but gain you the Love and Esteem of all great and good men, and should it please God, that I should live to see you become (by such a conduct) the Flourishing & happy people I wish you to be, I shall think myself rewarded for all the Trouble I have been at on your Account. I am with the greatest truth and Esteem

## SHIRLEY PAPERS.

NOTE. The letters of Gov. Shirley are so numerous, and on so great a variety of subjects, that it is impossible to publish them all. The editor has made a selection of such only as seem most important in relation to the Louisbourg Expedition, in which Gov. Shirley has the honor of taking a leading part, and to whose agency a large measure of the success of the enterprise is due. Gov. Wentworth heartily co-operated in all measures which his judgment approved.

*Letters from his Excellency William Shirley, Governor of Massachusetts, to Governor Benning Wentworth, of New Hampshire, relating chiefly to the Expedition against Louisbourg, 1744-45.*

[Copied from "Belknap Papers," in N. H. Hist. Soc., pp. 186.]

[p. 194.]

Boston, Nov. 10, 1744.

Sir—

This waits upon you by Capt. Ryal who was left in his Maj<sup>ty's</sup> service at Canso by Capt. Young to take care of the Trade between that place and Louisbourg, and was there taken w<sup>th</sup> the Garrison by Monsier Duvisier, and is now going home, where I hope he will be of considerable service to our part of the world, w<sup>th</sup> the Lords of Admiralty and other parts of the ministry, from his particular knowledge of Louisbourg, and of its harbour; and of the great consequences of the acquisition of Cape Breton and the keeping of Canso and Annapolis to his Maj<sup>ty's</sup> northern Colonies: Be pleased to give me leave to introduce him to you, as an honest, worthy young officer, and whatever countenance and civilities you shall show him for the two or three days he will stay at Piscataqua will be esteemed favours done to

Your Exc<sup>ys</sup> most obedient

humble servant

W. SHIRLEY.

His Exc<sup>y</sup> Gov. Wentworth.

P. S. I'll send the warr<sup>ts</sup> you write for in your last, very soon.

His Exc<sup>y</sup> Gov<sup>t</sup> Wentworth.

[p. 196.] Sir—

Divers soldiers belonging to General Philips Regiment, who were taken from Canso, & returned hither from Louisbourg in the French Flag of Truce have deserted from Castle William, where they were quartered till his Majesty's pleasure should be known about them: and the officers of the said soldiers have advertised their Desertion in the Print herewith enclosed, and offered a

Reward to such persons as shall apprehend & secure them; and it being probable that they may be got in to your Government & entered on board some Privateer or other vessel outward bound, I must pray your Excellency to give Orders to your officers to search for them, & if they or any of them may be found to apprehend & secure them. You will excuse me if I urge this matter with some earnestness, it being of great importance for the preservation of his Majesty's interest at Annapolis Royal that all these soldiers returned from Louisbourg should be kept from Desertion, & ready to execute his Majesty's orders, which I expect to receive early in the spring.

I am your Excellency's most obedient  
humble servant

W. SHIRLEY.

Boston, Novemb<sup>r</sup> 19, 1744.

His Excellency Benning Wentworth, Esq<sup>r</sup>.

[p. 198.]

Boston, December 20, 1744.

Sir—

The General Assembly of this Province having in their consultations respecting the methods of carrying on the Warr so as may be most for the Protection of his Majestys subjects in these Parts and least expensive to both Provinces, among other things have judged that it will be for the common advantage of the Province of New Hampshire & this Province that we should act in conjunction in this important Business, and that we should agree together as well concerning the measures to be pursued in the action of War, as the Proportion of men which each Province should furnish, and of the charge to be respectively born by them; and therefore the two Houses have desired me to propose to your Excellency that Commissioners may meet together on this affair; and as I am fully sensible that such an agreement between us will very much tend to promote his Majesty's service & the Benefit of both Provinces, I desire you would take the matter into consideration, & let me know your Resolution upon it as soon as may conveniently be; and if your Assembly inclines to favour this Proposal that you will please to let me know what time & Place you judge will be most convenient for such commissions to meet, either your Excellency in person or such Commissioners as you shall appoint to manage this affair for your Governm<sup>t</sup>. I doubt not but you will give this affair a speedy Dispatch, his Maj<sup>ty</sup>'s service requiring us to act with the utmost vigour for the safety of his subjects in these Provinces. I have inclos'd a copy of the Resolution of our Assembly upon this subject, which will give you further Light into it.

I am, your Excellency's most obedient  
Humble servant

W. SHIRLEY.

[p. 202.]

Boston Jan<sup>y</sup> 31, 1744-5.

Sir—

To the inclosed Circular Letter drawn by the Secretary & sent to all the neighboring Governm<sup>ts</sup> as far as Pensylvania, I have to add y<sup>t</sup> it may be urg'd with respect to your Province y<sup>t</sup> it seems to be more deeply interested in the Event of this Expedition y<sup>n</sup> any of the other colonies: For if Cape Breton is not reduced, there appears to be great danger y<sup>t</sup> the French will soon be masters of Nova Scotia—the consequences of which would be an addition of 4 or 5000 fighting men to the Enemy immediately from the Inhabitants of that Province; who in conjunction with the Indians of all Tribes, and assistance from Canada would irresistibly over run and destroy all our eastern settlem<sup>ts</sup> as far as Portsmouth itself in your Province, and whether they would stop

there may be some Question; Whereas the reducing of Cape Breton would on the other hand be the Destruction of Canada. This, I observe w<sup>th</sup> respect to your Assembly; with regard to yourself I know no other motives need be urged y<sup>n</sup> our Duty to his Maj<sup>ty</sup> and zeal for the good of the common cause.

I am oblig'd for every thing else at present to referr you to the inclosed and Mr. Vaughan who will have the honor to deliver this to you, designing to write more at large by next post or the post following, and being in the mean time w<sup>th</sup> great respect and esteem, Sir

Your Excellency's most obedient  
Humble servant

W. SHIRLEY.

His Exc<sup>y</sup> Gov<sup>r</sup> Wentworth.

[p. 203.]

Boston, Feb<sup>y</sup> 2, 1744-5.

Sir—

In answer to my repeated applications for that purpose, I received an Instruction from his Maj<sup>ty</sup> whereby I am permitted during the continuance of the present Warr to give my consent for the Emission of such sums in paper bills as the Emergencies of the Warr shall require: and I should think, if you consent to the Emission of a further sum in bills y<sup>n</sup> what your Instructions would otherwise permit, for the service of so extraordinary Emergeny as the intended Expedition, provided such sum is appropriated to that use; y<sup>t</sup> you would not run any great risque of censure at home, but rather have your conduct approved of, if you can't promote the Expedition upon other terms.

As your Express only stays for my answer, I will detain him no longer y<sup>n</sup> till I wish you success w<sup>th</sup> your Assembly, w<sup>ch</sup> I dare say would be very acceptable to his maj<sup>ty</sup> upon this occasion; and subscribe myself w<sup>th</sup> much sincerity and esteem

Sir, your Excy<sup>s</sup> most  
obedient Humble servant

W. SHIRLEY.

His Exc<sup>y</sup> Gov<sup>r</sup> Wentworth.

[p. 204.]

Boston, Feb<sup>y</sup> 3<sup>d</sup> Sunday, 1744-5.

Sir—

I am this moment favor'd w<sup>th</sup> your Excellency's second Express, and am extremely glad to see so good a spirit in the Gentlemen of your Assembly as is discovered in the Resolution of the Committee of both Houses w<sup>th</sup> w<sup>ch</sup> you have acquainted me. As to your giving your consent to an Emission of bills of Credit for defraying the expenses of your share in the Expedition w<sup>ch</sup> so nearly concerns his Maj<sup>ty</sup>'s service and the interest of his Northern Colonies, as also of his British Dominions, upon the most mature consideration I am clearly of opinion y<sup>t</sup> you may safely do it (as I should not hesitate to do was I in your case) and y<sup>t</sup> it will be approved of by the ministry upon this extraordinary, unforeseen Emergency; As to myself I shall sign an Act tomorrow for the Emission of 50,000 new Tenour upon this occasion. You will doubtless take care y<sup>t</sup> whatever sum is emitted shall be appropriated to the service of the Expedition.

Half an hour ago I received a Letter from Rhode Island, by w<sup>ch</sup> I have an assurance y<sup>t</sup> their Assembly will also exert themselves to the utmost at this crisis of the Fate of New England; and I hope all the neighboring Governm<sup>ts</sup> will vie with each other who shall contribute most in proportion to their ability, to the common cause.

I will not detain your Express one moment unnecessarily; and am wishing you all imaginable success w<sup>th</sup> the Gentlemen of the Assembly for the service of their king and country — w<sup>th</sup> much truth and esteem.

Sir — Your Excellency's most  
Obedient Humble servant

W. SHIRLEY.

His Exc<sup>y</sup> Gov<sup>r</sup> Wentworth.

[P. 205.]

Boston, Feb<sup>r</sup> 9, 1744-5.

Sir —

I was favour'd w<sup>th</sup> yours by Express between ten and eleven this noon, just before I was going out to Council, and in answer to it inclose you a copy of my new Instruction, w<sup>ch</sup> I beg the favour of you not to let any person whatever peruse, as I neither have nor shall show it to any person but yourself; and y<sup>t</sup> you would be pleased to transmit it to me back by the post when you have done with it, and not to let your Assembly or any other person know y<sup>t</sup> I have sent you a copy of it. For as I have not thought fit to communicate my Instruction to my Assembly it would give great disgust if it sh<sup>d</sup> be known y<sup>t</sup> you have a copy of it; neither might it be proper in other respects. Our 50,000 Tax is lay'd on the years 1747 & 1748, the intermediate years being already burthen'd w<sup>th</sup> upwards of 27,000 lb. new Tenour, on each year.

The periods fix'd by your assembly for drawing in the proposed Emission of 10,000 lb. are, I must confess so extravagantly unreasonable as well as distant, y<sup>t</sup> it looks almost like a refusal in 'em as you observe, to join in promoting the Expedition; and tho' I have the number of men to be employ'd in it exceedingly at heart, I must acknowledge y<sup>t</sup> the terms of the grant would make me hesitate giving my consent to it (was I in your case) tho' I am apt to think was you to recommend it to 'em to shorten the period and abridge the sum, and they were to refuse doing it, y<sup>t</sup> if you should pass it more blame would lye at their door than yours. But it is so delicate an affair, I dare not persuade you to give your consent to it; and must leave you to better judgment y<sup>n</sup> my own to advise you upon it.

You do much honour in reposing so much confidence in my opinion & friendship; the latter you shall never be deceived in, Sir, tho' I can't promise so much for the former.

Should this Grant of your Assembly fall through I would propose to you to give beating orders to such Captains, Lieuten<sup>ts</sup> & Ensigns as you shall approve of, to raise men in your Province, to go in the pay of this Province (w<sup>ch</sup> would be of service as their would be room for 'em amongst our 3000 Troops, and which would receive perhaps the complement of that number, w<sup>ch</sup> might otherwise fail;) and I will give such officers Commission to entitle them and their companies to the pay & Bounty of this Province. The companies must consist of 50 private men each; and the men are entitled to 4<sup>th</sup> old Tenour pr man besides what is mentioned in the Proclamation (by way of Bounty) and are to be allow'd Billitting money from the time they Enlist, and pay from the time of their being mustered, or, I think from the time of their Enlistment; and each Captain is allowed 25<sup>th</sup> old Tenour over and above his pay for Expences in Enlisting the men; and if in this case it would be of service y<sup>t</sup> you should have a Major and Lieuten<sup>t</sup> Colonel out of your Province, Be pleas'd to settle this matter w<sup>th</sup> Brigadier Gen<sup>l</sup> Pepperell and I will confirm it.

I mention this only in case you should be disappointed in raising any men in the pay of your own Province, w<sup>ch</sup> I know would be most eligible to you, and if your people do not do it upon reasonable Terms will be of infinite prejudice to 'em w<sup>th</sup> his Maj<sup>ty</sup> on whose favour they depend for their being, they may assure themselves. In such case also I must desire you to supply the men w<sup>th</sup> the arms you had of Capt. Prescott's company's (in case the men

have none of their own) and if they should not return 'em to you, the value of 'em will be stopt out of their wages for you pursuant to an order of our Gen<sup>l</sup> Court for that purpose with respect to ourselves.

I am in much hurry as you will perceive — in great truth,  
Your Exc<sup>ts</sup> obedient Humble servant

W. SHIRLEY.

I shall be concern'd if the affair should drop thro' with you. It would certainly [be] extremely acceptable to his Maj<sup>ty</sup> could you succeed to raise any men in your Province's pay.

His Exc<sup>ty</sup> Gov<sup>r</sup> Wentworth.

[P. 206.]  
Sir —

Boston, Feb<sup>r</sup> 14, 1744-5.

Least the prospect of your Assembly's coming into a proper supply for raising men &c. for the present Expedition should vanish, in w<sup>ch</sup> case I took the liberty to propose to you to raise men within your province to go under my Commissions and in the pay of this Governm<sup>t</sup>, w<sup>ch</sup> would be of service to his Maj<sup>ty</sup>, and very considerably so, if your Assembly will not furnish their own Quota, tho' I will yet hope that will not be the case, I have inclos'd six blank Beating orders sign'd by me, w<sup>ch</sup> be pleas'd to fill up & alter as to the form of 'em as you please, and deliver to such persons, as you shall approve of for Captains: And by next post I will remit you what money you shall be pleas'd to order for paying the men 4<sup>th</sup> pr man Old Tenour Bounty money, w<sup>ch</sup> is to be given to 'em over & above what is mention'd in the Proclamation, at the time of their Enlistment.

It would have been an infinite satisfaction to me, and done great honour to the Expedition, if your Limbs would have permitted you to have taken upon you the chief command. There seems to me to be great Danger of Intelligence's escaping to the enemy from your posts if you don't guard ag<sup>st</sup> it by an Embargo, and confining Frenchmen or other disaffected persons.

I shall hope to have the favour of hearing from you by the next post and am w<sup>th</sup> respect and esteem

Y<sup>r</sup> Excellencys most obedient  
Humble servant,

W. SHIRLEY.

The bill pass'd by your Assembly is certainly extravagantly unreasonable for 'em to propose to you for your consent,

Gov<sup>r</sup> Wentworth.

[P. 207.]  
Sir —

Boston, Feb<sup>r</sup> 16, 1744-5.

Yesterday the moment before I was setting out for the Castle with a number of gentlemen upon some Business your Express deliver'd me your fav<sup>r</sup> by w<sup>ch</sup> I am glad to find y<sup>e</sup> you have brought your Assembly to so much better terms than their first bill contain'd: I pray God send us a good Event of the Expedition, and I doubt not of his Maj<sup>ty</sup>'s approbation of the measures taken by us for raising the men, nor even in case it should fail of success, if this attempt for his service should appear to him prudent & laudable, as I hope it will. If you can raise 150 men in your province to be aggregated to your Quota of 250, and form'd into a regiment with 'em, the 150 shall be taken into the pay of this governm<sup>t</sup>, and if you please to enlist that number of men upon those terms, I desire you would proceed as fast as you can.

I design to have 150 men as near as may be to the size of Grenadiers drafted out of the forces rais'd in this Province and taught to throw hand

grenades, w<sup>ch</sup> will be of singular service. I mention this, because if you should think fit to draft 30 or 40 of your men for that service, no time is to be lost in it. I hope to get 2000 at least imbark'd the beginning of March, so as to be landed at Chapeau rouse bay by the 10<sup>th</sup> of the month at farthest.

I will take the first opportunity of communicating the offer you have been pleas'd to make of your personal service in the Expedition to my Council & officers. I think you put it upon the only safe and proper terms, should it turn out y<sup>t</sup> you proceed upon this service, I do assure you it will be a great satisfaction to me.

I am w<sup>th</sup> much respect and esteem, Sir,

Your most obedient  
Humble servant

W. SHIRLEY.

His Ex<sup>cy</sup> Gov<sup>r</sup> Wentworth.

[p. 208.]

Boston, Feb<sup>y</sup> 16, 1744-5.

Sir—

I have order'd the Bearer to wait upon your Excellency with the Letter directed to Captain David Donahue for your perusal, and to beg the Favour of you, if his vessell is within your Government, to stop it pursuant to the purport of the Letter, which will inform you of the Reasons of this Request: your giving yourself this Trouble will much oblige this Government, and

Your Excellencys  
Most Humble servant

W. SHIRLEY.

His Excellency Gov<sup>r</sup> Wentworth.

P. S. Upon communicating y<sup>r</sup> offer of your taking the Command of the Expedition and proceeding in it, to two or three Gentlemen in whose prudence & judgm<sup>t</sup> I most confide, I found 'em clearly of opinion y<sup>t</sup> any alteration of the present command would be attended with great risque, both with respect to our assembly, and soldiers being intirely disgusted.

[p. 210. (1)]

Boston Feb<sup>y</sup> 26, 1744-5.

Sir—

I am obliged to you for your kind condolence w<sup>th</sup> me upon my daughter's Death, and for your several favours since my last. I am extremely glad to hear of your good prospect of completing your Regiment in time: All things will be ready here for the imbarcation of our fleet by the end of the week as the committee informs me, so I should be glad of your being ready with yours as soon as may be; whatever you want for the 150 men to go w<sup>th</sup> my commissions & in the pay of this government, be pleas'd to send to me for it by Express and you shall have it instantly.

I think the essential thing is the number of the men in the whole: and y<sup>t</sup> it is not absolutely necessary y<sup>t</sup> there should be exactly 50 men in each company, if there are 40 in one and 60 in another, all the things may be set right by proportioning the service in the field; and indeed if a company does not consist of less y<sup>n</sup> 40 men I think we ought not to be critical. If any of 'em should not rise up to that complement, in such case indeed it will be necessary to join two companies together. I take the liberty of mentioning my sentiments to you in this affair, as it is possible you may like to know how I should act in the same difficulties, which may possibly occur in the raising of your levies, and y<sup>t</sup> we act in the same manner together.

(1) Page 209. Letter from Gov. Shirley, dated Boston, "Feb. 25, 1744-5," is found in this volume. — Ed.

In answer to your Postscript, I think you ought to give the mast-ships and store-ships, (I mean those w<sup>ch</sup> carry stores for his Maj<sup>ty</sup>) passes, whenever the Convoy is ready for 'em.

I am in the utmost hurry  
Your Excellency's most  
faithful Humble servant,

W. SHIRLEY.

His Exc<sup>y</sup> Gov<sup>r</sup> Wentworth.

[P. 211.]  
Sir—

Boston, Feb. 27, 1744-5.

As I think very much will depend upon our being able to send a Body of 2000 men some time next week at furthest upon the service of the Expedition, I would recommend it to your Excellency to transport your Regiment without the least delay, as soon as possible may be to Boston, to proceed w<sup>th</sup> our fleet: Whatever is wanting for the 150 men to be put into our pay and go with my Commissions and aggregated to your Regiment, Be pleas'd to let me know what is wanting to compleat their Enlistment by the Bearer, and I will instantly send whatever money you write for.

I am w<sup>th</sup> truth and in the utmost haste

Your Excellency's most  
Obedient Humble serv<sup>t</sup>,

W. SHIRLEY.

It will be proper to take up a vessell to send hither with prov<sup>s</sup>.

His Exc<sup>y</sup> Gov<sup>r</sup> Wentworth.

[P. 212.]  
Sir—

Boston, March 1, 1744-5.

Upon the receipt of your favour by the second Express I wrote to Capt. Graves, who lay in Nantasket Road for a wind to come round to your Harbour, and inclosed to him such paragraphs of your letter as it was proper for him to see, and desir'd him not to proceed from hence for a few days, w<sup>ch</sup> I am in hopes he will comply with, tho' I can have no answer from him till to-morrow. If he should have proceeded before my letter came to his hand, tho' he is not full mann'd, I believe he will be very cautious of impressing, and will apply to you with a letter of mine on that subject (w<sup>ch</sup> I wrote without considering the Inconveniences that will attend your impressing a single man) and you may, I doubt not, depend on his being advised and govern'd by you; and you need not scruple to assure all the country and Transports y<sup>t</sup> you will absolutely protect 'em ag<sup>st</sup> being impress'd on board his or any other of his Maj<sup>ty</sup>s ships, w<sup>ch</sup> it is certainly in your power to do upon this occasion, and will with all readiness be most punctually observ'd by the commanders — and it seems to be requisite y<sup>t</sup> you should give some public notice of this sort, if either of the men of Warr should come into your Provinces before your troops are imbarked, w<sup>ch</sup> I hope will be able to proceed with the whole fleet from hence some time next week.

I keep your other Express till I can get the money to send by him, w<sup>ch</sup> I hope to do this forenoon if I can get out.

Be pleas'd to tell Mr. Vaughan y<sup>t</sup> I have a prospect of filling up our broken Companies here without any more men from your Province besides the 150 which are to be aggregated to your Regiment; and would therefore have him stop enlisting at present.

I think you have several blank beating orders already sign'd from me. I have here inclos'd what you write for further as also printed of the oaths and attestations of the men's Enlistment, w<sup>ch</sup> if you are not got into any other method may be of service to you in Dispatching.

I am w<sup>th</sup> much & respect  
y<sup>r</sup> Excellencys most  
Obedient humble servant

W. SHIRLEY.

His Exe<sup>y</sup>. Gov<sup>r</sup> Wentworth.

I perceive it is blank Commissions w<sup>ch</sup> you write for, upon a second perusal of y<sup>r</sup> Letter; and you shall have 'em.

[p. 214.]

Boston, March 2<sup>d</sup> 1744-5.

Sir —

Last night I had the favour of your answer to my last Express, and am sorry to find it will be inconvenient for your Troops to come round to Boston in order to join & proceed w<sup>th</sup> ours. The success of our scheme for surprizing Louisburgh will intirely depend upon the Execution of the first night after the arrival of our forces there; and for this purpose it is necessary that the whole fleet should make Chappeau Rouse point just at the shutting in of the day, when they can't be easily discover'd, and from thence push into the Bay so as to have all the men landed before twelve at night, (the landing of whom by Capt. Durelle and Mr. Bastide will take up three hours at least) after which the forming of the four several corps to be employed in attempting to scale the walls of Louisburg near the East Gate fronting the sea, the West gate fronting the Harbour, to cover the retreat of the two beforementioned parties in case of a repulse, and to attack the Grand Battery, (w<sup>th</sup> attack must be made at the same time w<sup>th</sup> the two other attacks) will take up two hours more at least, and after these four Bodies are form'd their march to their respective ports from whence they are to make their attacks and *serve l'* to cover the retreat, will take up another two hours, w<sup>th</sup> supposing the Transports to arrive in Chappeau Rouse Bay at 9 o'clock in the evening and not before, as it is not necessary for 'em to do in order to land and march under cover of the night, will bring 'em to four in the morning, being day-break, before they begin their attack, w<sup>ch</sup> will be full late in the morning for 'em to begin: Your Excellency will hence perceive, how critical an affair the time of the fleets arriving in Chappeau rouse Bay is, and how necessary it is to the success of our principal scheme, y<sup>t</sup> the fleet should arrive there in a body, at that precise hour and how dangerous it will be for us to trust to the chance of meeting at the Isles of Shoals: Besides this, it will be necessary that our Transports should be divided into four Divisions, each wearing distinct colours, and y<sup>t</sup> the several parties of Troops, w<sup>th</sup> their officers appointed to these several services, should embark in these distinct divisions and land together in separate Bodies out of 'em, in order to go instantly upon the Execution of their respective duties and attacks; for otherwise there will be the utmost confusion, and the forming of 'em after their landing will consume so much time, y<sup>t</sup> the Execution of the main scheme will be impracticable the first night, after w<sup>ch</sup> time it will be in vain to attempt it: And I do not see how the Transport vessells can be form'd properly into these Divisions unless they rendezvous at Nantasket, or the officers of your Regiment be apprisd thoroughly of the Duty they are to go instantly upon immediately after their landing, without being here upon the Spot: For as to their rendezvous at Causo, besides so large a fleet being in danger of being discover'd even from St. Peter's hill, there will be great danger of some fishing vessell or others' carrying an alarm to the enemy before our arrival. However if there should be an unsurmountable difficulty in the Troops rais'd in your Province getting round

here, as I propose, we must endeavour to join as we pass by your harbour or at the Isles of Shoals as you propose upon my letting you have a day's notice before we sail; and as I will send you a copy of my orders to the General, w<sup>h</sup> will contain a plan of what the Troops are to execute instantly after their landing & of the several parts w<sup>ch</sup> the four several corps are to execute, I will then mention the part proposed to be allotted to your Regiment for — *them?* . . . of which they may receive their orders from you accordingly, and be thoroughly instructed in the part they are to act in the first operations subject however to the General's orders, as Emergencies unforeseen may arise.

The Transports hired here are by a vote of the General Court pass'd this morning Insur'd by the Governm<sup>t</sup>, and you may depend y<sup>t</sup> the Transports taken up by you for carrying the men in the pay of the Governm<sup>t</sup> rais'd in your Province shall be insur'd in the same manner at their apprais'd value, w<sup>ch</sup> I suppose will be indisputable security: The subsistence & stores I will take care of. Let the 150 men to be aggregated to your Regiment of 350, be raised by you in what companies they will provided the officers do not exceed the number of officers usual to three Company's I will accept 'em and provide for 'em with the pay y<sup>t</sup> of this Governm<sup>t</sup>: and whatever men Mr. Vaughan shall raise over and above the 150 by virtue of your orders (provided they do not exceed 150 more) I will accept, notwithstanding my countermanding my orders for his raising more men mentioned in my last to you, w<sup>ch</sup> I did partly upon what you mention'd in yours of the 27<sup>th</sup> Febr<sup>y</sup> to me. It will be necessary for me to know what muskets, Bayonets, Cutlasses, Belts &c will be wanting for such of the men rais'd within your Governm<sup>t</sup> to be in our pay, as have none of their own, y<sup>t</sup> I may provide 'em. We take care y<sup>t</sup> all our people have slings to their muskets, w<sup>ch</sup> (as they can't be better provided) must be done by line or rope, and take particular care to provide Tents for all our Soldiers without w<sup>ch</sup> it will be impossible for the men to subsist, & w<sup>ch</sup> will be done in a great measure by old sails and poles, tho' we have upwards of 100 new ones regularly made, besides Tents for the army. Be pleas'd to let Mr. Vaughan know he may go on as far as I have mention'd above; and favour me w<sup>th</sup> your Letters by all opportunities.

I am w<sup>th</sup> great Truth  
your Excellencys most  
obedient, Humble servant

W. SHIRLEY.

His Exc<sup>y</sup> Gov<sup>r</sup> Wentworth.

Boston, March 4, 1744-5.

[P. 216.]

Sir—

As it will be uncertain where Mr. Vaughan will be upon the arrival of this I am oblig'd to trouble you w<sup>th</sup> 100 lb. new Tenour (by the bearer) to pay to those men, w<sup>ch</sup> he shall have enlisted over & above the 150 to be aggregated to your Regiment, and to desire him to see y<sup>t</sup> the men are march'd to Boston instantly to fill up the incomplete Companies belonging to Col. Hale's Regiment w<sup>ch</sup> will be there by the time those men git to Boston, or if he marches 'em to Charleston it will do: I must refer you for every thing else at present to Mr. Bastide, who will dine with you on Wednesday. I am sorry I am oblig'd to trouble you w<sup>th</sup> the Letter w<sup>ch</sup> accompanies this, at this improper time. But I could not avoid, from the Importunity of the Council, and expectation of the Assembly, doing it longer. I will write you further upon it by next post and must now subscribe myself in much haste and Truth

Your Exc<sup>ys</sup> most obedient Humble servant

W. SHIRLEY.

His Exc<sup>y</sup> Gov<sup>r</sup>. Wentworth.

[p. 216.]

Boston, March 6<sup>th</sup> 1744-5.

Sir —

I have your favours by Brigadier Pepperell and Col. Waldo and have sent the Enlisting money for three Captains; and a Letter from the Committee to Mr. Sparhawk desiring him to supply the 150 men in the pay of this Governm<sup>t</sup> w<sup>th</sup> 150 cutlasses and 40 Firelocks, according to your Letter; Bayonets we have none to spare; Belts you shall have; provisions we can't possibly send instantly but hope to send in a day or two; and shall take care at all events to provide for 'em, as also stores. Be pleas'd to show this to Mr. Sparhawk at Mr. Pepperell's desire. I have this mom<sup>t</sup> receiv'd a message from Connecticut importing y<sup>t</sup> they have voted to raise a thousand men; w<sup>ch</sup> makes me abrup<sup>t</sup> in subscribing myself w<sup>th</sup> the greatest esteem

Sir, y<sup>r</sup> Excelleney's most humble  
and most obedient serv<sup>t</sup>

W. SHIRLEY.

I am obliged to leave off to settle the Connecticut affair.

His Ex<sup>cy</sup> Gov<sup>r</sup> Wentworth.

[p. 217.]

Boston, March 10 1744-5.

Sir —

Yesterday evening I had your favour by Mr. Bastide, who I fear has the gout in both his hands. I don't wonder at your earnest desire to get rid of the Troops design'd ag<sup>st</sup> Cape Breton. But if they could proceed to Canso before ours I fear it will be attended w<sup>th</sup> giving the Enemy an alarm. For it is very probable y<sup>t</sup> some shallop or other may at the sight of so many Transports immediately give 'em intelligence, to prevent w<sup>ch</sup> I design to send Donahoe's Privateer Sloop and another w<sup>th</sup> our Company of soldiers on board, two days before the fleet sails from hence to cutt off any little Fishing Sloops or Shallops w<sup>ch</sup> may be near Canso, or otherwise clear the coast of 'em before the body of our Fleet appears, for fear of any Intelligenc's being convey'd by any of 'em to the Enemy upon the sight of our Transports, &c. Wherefore I would propose to your Excellency not to let your Transports sail before ours proceed & the coast is clear'd, of w<sup>ch</sup> I hope to apprise you by Tuesday by letting you know the exact time of Donahoe's going away, and our Fleet's following, the latter of w<sup>ch</sup> I hope may be ab<sup>t</sup> the middle of this week.

I have given repeated orders upon the rec<sup>t</sup> of your last favour to our Committee to send the provisions stores & Blankets as mentioned in yours. You say nothing concerning your receiving the cutlasses & Firelocks from Sparhawk. I should be also glad to know by the return of the Express whether you have provided vessells for our 150 men or not, y<sup>t</sup> I may proceed accordingly. It would be best for you to hire 'em there, and we to pay the Terms you agree for.

I am w<sup>th</sup> much truth & respect, tho' in great haste,

Your Excellency's most obedient

Humble servant,

W. SHIRLEY.

His Ex<sup>cy</sup> Gov<sup>r</sup> Wentworth.

[p. 219.]

Boston, March 27, 1744-5.

Sir —

This waits upon you in answer to your favours w<sup>ch</sup> I receiv'd since my last Express to you to inform you y<sup>t</sup> yesterday morning I dispatched the Massachusetts Frigate, Molin (1) Frigate & Snow *Cesar*? (1) to join the ship Fame, the Snow (1) Prince of Orange and Boston Packet before Louisburg Harbour so y<sup>t</sup> we have now three stout Twenty gun ships, two good snows and a Brigantine proceeded for that place, w<sup>ch</sup> I hope will be sufficient to Interrupt the Enemy's provision vessels, and even their recruits, if Monsieur Duvisier should arrive there this month: Capt. Gayton will also, I hope, be ready to sail by the latter end of the week in the same service, and when Capt. Rouse has landed the General at Chappau Rouse bay and convoy'd the Fleet there, he will join the other Naval force.

Many Impediments and perplexities have hindered my dispatching the Forces from hence before Wensday morning next by w<sup>ch</sup> time I hope in God y<sup>t</sup> nothing will hinder their sailing: and I believe that will be the best time for your Transports to sail for Canso, when, if we should not join you before, it is probable y<sup>t</sup> our Fleet will arrive ab<sup>t</sup> the same time w<sup>th</sup> yours.

I should have mentioned y<sup>t</sup> this morning Donahoe sail'd with another sloop under his convoy having on board a company of 50 men to reconnoitre the Coast, &c. and to clear it ag<sup>st</sup> the arrival of the Fleet, and if it should happen y<sup>t</sup> your Transports should get the start of ours, I am advis'd y<sup>t</sup> it would be safest for 'em to stop at Whitehead Harbour ab<sup>t</sup> 5 or 6 Leagues short of Canso, till the arrival of ours y<sup>t</sup> there may be as little danger as is possible of occasioning intelligence being convey'd to the Enemy by any little vessel to the Eastward of Canso, w<sup>ch</sup> may discover 'em; and if you approve of it I shall be glad if you order it accordingly. I am inform'd y<sup>t</sup> Mr. Sparhawk has got some very good cutlasses and some firelocks w<sup>ch</sup> it is doubted are not extraordinary: If you will be pleas'd to take the trouble of appointing some skillfull person to view both of 'em, and in case they or either of 'em are approv'd of, desire him to put such as are approv'd on board one of your Transports for the use of our Troops as spare arms, I shall be oblig'd to you, and our Committee will pay him for 'em. But if they are not good I would not have 'em. We forgot to put up among the Stores for our 150 men in your Regiment Gunpowder and Ball: If you will be pleas'd to supply 'em with three half barrels of powder and a like proportion of Ball for their passage, I shall be oblig'd to you, and will repay you by the first opportunity: The Blankets and money not used be pleas'd to return by a convenient opportunity. I must beg the favour of you to indulge Mr. Bolland in his Inelos'd request, if no inconvenience will attend it. I have so much fatigue y<sup>t</sup> I w<sup>d</sup> great difficulty hold out, but not without having impair'd my health.

God send us both a good riddance of our Trouble and an happy Event to the Expedition.

I am sincerely,

Your Exc<sup>ts</sup> faithfull, humble servant

W. SHIRLEY.

To his Exc<sup>y</sup> Gov. Wentworth.

If John Batson a ship carpenter is not engag'd in the Expedition on board any of your Transports, I beg the favour of you to secure him to attend the General in the field, and to assure him y<sup>t</sup> he shall be provided for to his satisfaction by me, and y<sup>t</sup> I will give directions to the General ab<sup>t</sup> it. There is a Jersey man who Mr. Vaughan thinks would be of great service to proceed, but is unwilling. Could you not impress him for a Pilot? Mr. Vaughan will talk to you farther ab<sup>t</sup> him.

(1) These names are very obscurely written, almost illegible.—Ed.

[p. 224.]

Boston, May 13<sup>th</sup> 1845.

Sir—

I had your favour this afternoon by young Mr. Jaffrey, who produced his father's account, which I desir'd him to deliver to the Treasurer, to whom his Father's receipts I think were given. As to the agreement your Excellency mentions to be made between you and me, that the Companies to be rais'd in your Government should consist of 40 men each, and that three companys of 50 men each should at all Events be rais'd by you to be in the pay of this Government & added to your companies, I am apt to think may be a mistake; & would therefore beg the favour of you to let the paragraphs of my several letters upon which you found that agreement, be transcrib'd & send them to me by the next post (for I have not kept copies of them not imagining that we could mistake each other) and I will in the mean time look out the paragraphs of your Letters that relate to this affair and send them to you by the return of the Post, which I doubt not will clear up the matter between us.

It is certain that I always intended and understood the agreement to be that you should if you pleas'd raise as many men to be in the pay of this Province as would make up your 350 a Regiment of 500 men, ever supposing that 350 of the men to be rais'd by you should be in your pay, according to the vote of your assembly, and not that you should raise only 320 men, and this Province pay the 30 men which that number falls short of the Quota of your Government voted to be raised by your Assembly; but that all the men raised by you within your Province over and above that Quota not exceeding the number of 150, should be in the pay of this Government; and this I consented to at your own request in order to augment your own 350 men, not to ease your Province of any part of that number, which would have been an injurious agreement on my part both to his Majesty's service, and this Province, and indeed unpardonable in me with respect to the latter, and unreasonable to be expected or desired of me on the part of your Government. I can't pretend to recollect every expression which may have dropped from my pen on this affair between us; But I am satisfied the agreement you mention is so foreign to my intention that upon perusing my letters again and comparing 'em with your own you will find the real agreement to be, that all the men not exceeding 150 to be raised by you over and above the Quota of 350 Voted by your Assembly, should be paid and subsisted by this Government. The reason of my mentioning to you the vote of the Assembly of this Province for reducing our Companies from 50 men in each to 40, was to remove the difficulty of their first vote which I was afraid might ly in your way as it did in mine here, by which no Captain that had not raised 50 men was entituled to have his Company received into pay; whereas by the second vote forty men was to be received as a Company, which I found an ease to me in raising my own Levies, but whatever I have said in that respect was not designed in the least as a proposal or agreement that your Companys should be only eight in number and consist of no more than 40 men Each, and that at all events this Province was to pay & subsist 150 men of New Hampshire Regiment. But upon the whole I ever understood that this Government was to pay and subsist as many men not exceeding 150 as you should raise within your Province over and above your own Governments Quota of 350 & no more.

I am with great respect

Sir— your Excellencys most obedient  
humble servant

W. SHIRLEY.

His Exe<sup>s</sup> Gov<sup>t</sup> Wentworth.

P. S. Upon second thoughts— If the 350 men voted by your assembly were for the sea service as well as the Land, and 30 of 'em were appropriated to the sea, I mean the Transports, then eight Companies of 40 men each will make your Quota of Land forces, according to your Intention, tho' I did not

understand it so at first. But I am willing that should be so. But then 320 of the men rais'd by you must in all justice & reason be in your pay, as that is your Quota voted by y<sup>r</sup> Assembly (1).

*List of New Hampshire men in Col. Samuel Moore's Regiment,  
Engaged in the Louisbourg Expedition.*

[Copied from "Hist. and Geneal. Reg.," July, 1871, pp. 267-269. Compare with "Potter's Mill. Hist., Adj. Gen. Rep.," Vol. 11, 1866, pp. 63-67. As the date of the paper containing this list is late in the autumn, it is highly probable that many of the men had gone home, which may account for any difference with Col. Potter's list.—Ed.]

Boston May 18, 1745.

Sir —

I have now the Pleasure to congratulate your Excellency upon the favour of Divine Providence towards us in our undertaking for the reduction of Cape Breton, in the advantages we have already obtained against the Enemy, and the Prospects we have of further Success; And you will have a greater share of satisfaction herein as your Government has taken upon themselves some part of the charge and Burthen of this Expedition. But both the General and Commodore Warren press earnestly for a Reinforcement of Troops, for which my principal Dependence is on the Governments of New Hampshire and Connecticut; I do therefore desire that you would supply what force you possibly can, and that without the least Delay: and that herein you would consider the vast expense this Province has been already at; for besides that our Quota of Troops does considerably exceed yours in proportion to our numbers and Estate, if you will add our large Naval Force, our Train of Artillery, the Powder & other stores of War, and Implements for the same, and many other charges for the advantage of the Forces in General, which the Province will bear alone, I question whether the charge of your Province will amount to much more than one third Part of ours in the Proportion I before mentioned: And therefore I hope your Government will furnish two hundred Troops more for this service at least: I have inclosed you a copy of my last letter from General Pepperell by which you will find that we are at the very crisis of this affair, and that the least Loss of time may prove fatal; and if you will let me know when your Recruits will be ready, I will take care that you shall be furnished with a sufficient convoy for them.

I am, sir,

Your Excellenys most obedient,  
humble servant

W. SHIRLEY.

His Excellency Benning Wentworth, Esq.

[r. 227.]

Boston, May 20, 1745.

Sir —

On Saturday I had your Exc<sup>o</sup>s favour in answer to my last, and upon casting my eye over it, it seems to me y<sup>t</sup> we rightly understand each other upon the subject of it, to w<sup>ch</sup> I will give you a particular answer by next week's post. In the mean time I beg leave to assure you y<sup>t</sup> it will always be a pleasure to me to ease you in any part of the trouble of your Govern<sup>t</sup>, But nothing shall induce me ever to add to it.

This morning I was oblig'd to you for the favour of your Express, upon the contents of w<sup>ch</sup> I again congratulate you, and upon the prospect of our forces being in so fair a way to reduce Louisburg, w<sup>ch</sup> may, I hope, be a full recompense to us both for the trouble, we have each of us had in the levies and preparations for doing it. You will have herewith a Letter drafted by the Secretary, and advised by the Council, upon the subject matter of which I hope your new Assembly will be properly dispos'd. I shall make a strong application to mine upon it and think myself happy in my success. I shall reprimand and take notice of the master you mention in your last for his inexcusable neglect, and am with great truth,

Sir, your Exc<sup>o</sup>s most obed<sup>t</sup>Humble serv<sup>t</sup>,

W. SHIRLEY.

His Exc<sup>o</sup> Gov<sup>r</sup> Wentworth,

Boston, June 1<sup>st</sup> 1745.

Sir —

I have now the pleasure to congratulate you upon Commodore Warren's having taken a French 64 Gunn ship, and a prospect of his having some more of their men of warr having fallen into his hands; and our troops having advanced their Battery ag<sup>st</sup> the West Gate of the Town within 200 yards of it, and making a considerable Breach in that part of the Enemy's works. Your Excellency will perceive of what Importance it is y<sup>t</sup> that ship w<sup>ch</sup> Mr. Warren designs to put into Commission and employ in the service of the Expedition, should be mann'd and what Encouragement this Province has given towards it, and what Mr. Warren promises; I should think there is a vast encouragement for men to go into the sea service upon these Encouragements, as they have now so fine a prospect of prizes, and a certainty of their being releas'd at the End of the Expedition: Also as there is such a prospect of taking Louisburg, y<sup>t</sup> the Encouragement contain'd in my proclamation would induce men to go into the Land service from any parts of New England.

I need not say a word to excite your Exc<sup>s</sup> zeal to assist in manning the vigilant man of Warr upon the Bounty given by this Governm<sup>t</sup>, w<sup>ch</sup> shall be punctually paid to any fishermen, mariners or others that you can procure for the sea service above mention'd within your Governm<sup>t</sup>, w<sup>ch</sup> I would beg the favour of you to do and either to pay 'em there (if it may be done with safety) and to get a good hand to see 'em safe to Boston, or to let 'em know y<sup>t</sup> instantly upon their arrival at Boston, they shall have their Bounty paid 'em. Your assistance in this case will be of exceeding great service, and I will pay any person his own expense y<sup>t</sup> shall bring up a number of men for the service of the Vigilant. I have also inclos'd my proclamation for the encouragement of Landmen and beating orders to be fill'd up by yourself. You may I should think get one company at least, of any number of above forty men over and above what your Assembly think to raise, be that number what it will, in doing w<sup>ch</sup> there will be no necessity to stay 'till you see what your Assembly will do: the men thus rais'd shall choose their own officers. You know what dispatch is necessary in this case. I will answer any of your drafts instantly, w<sup>ch</sup> you shall make upon this occasion, and shall hope for your best endeavours, and as successful as your former in this service, w<sup>ch</sup> I hope will finally turn out to the satisfaction and happiness of both of us.

I am in haste

Your Excellency's most faithful

Humble serv<sup>t</sup>,

W. SHIRLEY.

Be pleas'd, if possible to raise two or three or four Companies for me whatever number they raise. They have voted to raise I hear 150 men only, at Rhode Island.

This goes by Express, and I would beg the favour of your answer by him.

I forwarded some letters to you & Mr. Atkinson yesterday from the Camp w<sup>ch</sup> I hope you receiv'd.

Boston, 15<sup>th</sup> June 1745.

Sir —

I have just rec<sup>d</sup> letters from General Pepperell & Commodore Warren by which I learn that altho' we have suffered some loss of men (between 100 & 200) in an attack of the Island Battery which miscarried, yet that we have obtain'd considerable advantages against the Enemy in taking several of their provision vessels, and worsting them in some skirmishes our parties have had with them, and by the intelligence they have received from Prisoners, which is confirm'd by other circumstances, the Enemy are short of provisions and ammunition but as the number of our men are not equal to the Greatness of the Enterprise, and therefore the duty is heavy on the officers & soldiers,

they press importunately for at least three thousand Land Troops as absolutely necessary to reinforce them, and a considerable number of seamen for manning the ship *Vigilant*; and altho' the Land & sea Forces need these recruits, yet I still find the officers full of Expectations of a happy Issue of this affair by the Reduction of Louisburg; and as the success thereof is of the utmost consequence to the best Interests of these Provinces, and which (as I find by Letters Commodore Warren has received from the Ministry) His Majesty and his ministers have much at heart, I must therefore with great earnestness press your Excellency to have as many soldiers & seamen rais'd in your Province, as can possibly be spared, and that without the least delay; and I do assure you that I find the Assembly here well spirited to support the Expedition to their utmost, and that they will do all that they can to furnish the necessary Recruits; but it is not possible nor can be expected that we should answer these demands of Recruits without very great assistance from our neighbours, and therefore I must earnestly press you for more Troops, and if there are with you any good Experienced gunners I must pray you will send as many of them as you can, & that without delay.

It will be of great consequence that I hear speedily from you for the Encouragement of our Friends at Cape Breton.

I am, Sir, your Excellency

most obedient humble servant,

W. SHIRLEY.

P. S. This is the very crises of the fate of New England, particularly of this and your Province, w<sup>ch</sup> I hope your new Assembly will duly consider.

His Exc<sup>y</sup> Benning Wentworth, Esq.

*Governor Shirley's Letter to the Indians.*

[p. 238.]

Boston July 12, 1745.

Good Friends —

As we have agreed to give one another advice of all that happens, I now acquaint you that Heaven has favour'd our Righteous cause against the French who have unjustly made War upon us; & Louisbourg with the Island of Cape Breton was the 17<sup>th</sup> of June last, delivered into our hands, where we have now 4000 soldiers masters of the place, & ten large men of War besides many small Ships of War there, & we have also taken a large man of War from the French carrying near seventy guns & between five & six hundred men, besides a great number of merchant vessels, and we have now bro't to Boston above seven hundred French Prisoners, and above Two thousand French Prisoners at Louisbourg & aboard our ships of war will be sent home to France immediately. This intelligence we send you that you may not be deluded, by the French or St. John's & Nova Scotia Indians that solicit you to break your Friendship with us to your own Ruin. We have been your Faithful Friends and your Traffick with us has been much more for your advantage than your Trade with the French, and you may still live easy with us and free from the Distress and Danger of war if you please, but if not and you will let the French and the Indians in their Interest Deceive and Seduce you and you will perfidiously break your solemn League with us, we doubt not but the Great God who is the Avenger of all such Wickedness and has so remarkably punished our treacherous Enemy the French, will stand by us and give us success for the punishing your perfidiousness. But if you are willing to enjoy the Benefits of peace with us, we shall expect that you will send two or three of your Chief Captains to confirm the Friendship be-

tween us, and if any of your people stand in fear of the French and therefore want protection for themselves & their Families and will come up to Boston we will take care of them. I expect that you send me your answer without Delay.

I remain your good Friend,

W. SHIRLEY.

Sir—

I should be oblig'd to you if you would let me know by the next post your sentiments upon our undertaking, in conjunction with the neighboring Governments, an Expedition against Canada this year, in case of our succeeding against Cape Breton; that you would communicate to me what you think would be the most advisable scheme for doing it; what the most proper season; by what time at latest it should be begun, and how long time it would take to march our Forces there, and when it would be necessary for 'em to retire on account of the season of the year; & whether it is practicable to march a sufficient number of forces by Land, and transport a sufficient Quantity of provisions for such an enterprise, as also artillery and stores, and what number of men you think might be necessary for such purpose, also what number of Regular Troops and militia the Enemy can probably muster to oppose our army: And particularly, whether such an attempt can be prudently made without first making ourselves masters of Crown point, and how practicable that may be, with the manner of doing it, and what supports we should want from home to enable us to subdue the country; also in particular, whether it is not very practicable to break up all the enemy's settlements in the country, and oblige 'em to fly into Montreal or Quebeck, and whether the effect of that, if it should be repeated two years, and they were cut off from all supplies by sea from old France, would not be to subdue 'em by famine or extreme distress, supposing our Forces should not penetrate so far as Montreal or Quebeck: And that you would send me your sentiments as particularly upon every circumstance concerning the affair as if it was expressly mentioned here and put to you. I am inform'd that Mr. Atkinson is the most capable of advising in this matter of any man in America. I should be glad if your Excellency would consult with him concerning it as far as you shall think proper.

I have heard nothing further of Commodore Warren, so am in hopes he has been off of Cape Breton, for some time past.

I am with much esteem,

Sir, your Exc<sup>ts</sup> most obedient

Humble servant

W. SHIRLEY.

His Exc<sup>y</sup> Benning Wentworth, Esq.

I shall find time, I hope, by next post to write to your Excellency upon our other affairs, as I shall then have got rid of my Despatches by a ship to go from hence this week to London.

[P. 221.]

Portsmouth 12<sup>th</sup> April 1745.

I have now duly considered the subject of your favour of the 8<sup>th</sup> curr<sup>t</sup> respecting a future conquest against the French settlements up the river St Lawrence, in case we succeed in the Reduction of Louisburg, which if we are not greatly deceived in the accounts we have had of the strength of that Garrison, I have little room to doubt of.

Capt. Warren's with the two other ships arrived before that place, before they were Reinforced from old France, which I conceive must be the case, since he has not appear'd in this quarter.

Granting the Reduction of Louisbourg, I am quite clear in pursuing the conquest, with additional Troops, provided they can be cover'd with a proper naval force to secure their Retreat, as high up as Montreal, in which there will be no difficulty, but at Quebec. How strong that may be, I am not able to discover; the other settlements on the River may be conquered with 50 whale boats well arm'd, & proper vessells to attend them on our way up, or in coming down as may be thought most prudent. Mr. Atkinson is the only person in the Government that can give me the least information on this head, & he thinks 4000 effective men a sufficient force to go against Quebec, & from what he was able to learn of the strength of that Town when at Montreal, he thinks the conquest very Easily made, tho' we should not have the assistance of British troops, provided we had men of war to guard the River & to secure the Retreat of our Forces; between Quebec & Montreal there is only one Town fortified, which is called the Three Rivers, but can make little resistance. Montreal when he was there, might be taken with 500 men, having no walls or cannon capable of resisting a stout privateer. The River will admit of vessels from 50 to 150 Tons, quite to the banks of the River on which the Town of Montreal is built. The proper time for our troops to leave that Country is the latter end of Sept. or early in October — and the time of being there must be so early as to prevent the Enemy from gathering in their Harvest, by which means the out settlements, w<sup>ch</sup> are not many must flee to fort Shamblea, which is a strong Fort but must be soon given up & abandoned for want of provisions, if many of the inhabitants should flee thither from Montreal, which must be the case when they are besieged; and upon the Enemy's abandoning Shamblea there is no refuge but Crown Point fort, whether they can get by Canoes, & the help of two small vessels that were built in the lake, and armed to transport troops, provisions & war-like stores to Crown point Fort.

Upon our success at Cape Breton, if the Governments as far as Philadelphia would heartily & speedily unite in this grand enterprise I am convinced the Reduction of Louisburg would so dispirit the Enemy that we might make an intire conquest of the French in North America & then the French war would be the happiest war New England ever engaged in.

The greatest difficulty that at present occurs to me is the want of good arms — which I can see no prospect to be supply'd with.

But as the progress of this undertaking depends wholly in my opinion on our success at Cape Breton, I shall only say that it is my fixed opinion, that upon the first notice of our success every hand & every heart should be employ'd in pursuing the conquest to Montreal, having no regard to Shamblea or Crown Point Fort w<sup>ch</sup> must of consequence fall into our hands for the reason, that if the Enemy should not flee to those forts for safety, we could easily drive such numbers thither as must necessarily oblige them soon to surrender, or starve by famine.

I am, Sir,

Your Excellency's  
most faithful &Obed<sup>t</sup> hum<sup>o</sup> servt.
